During the last two years I have sent out a great many accounts for small amounts at considerable trouble as well as expense in the way of postage, etc, the greater number of which have not yet been settled. I am, therefore, compelled to ask all those indebted to me for medicine to settle their accounts
On or Before the 1st July, next, as on that date all accounts remaining unsettled will be sued for without further notice. I will be glad in the future as in the past to accommodate customers who do not find it convenient to pay for their medicine as they require it, but I must first insist that all outstanding debts be paid.

CHATHAM, N. B., NOVEMBER 1, 1894.

WHY SHOULD WE TAKE EXERCISE.

Ten reasons for the necessity of muscular activity.
1. Any man who does not take time for exercise will probably have to take time to be ill.
2. Body and mind are both gifts, and for the proper use of them our Maker will hold us responsible.
3. Exercise gradually increases the physical powers, and gives more strength to resist sickness.
4. Exercise will do for your body what intellectual training will do for your mind—educate and strengthen it.
5. Plato called a man lame because he exercised the mind while the body was allowed to suffer.
6. A sound body lies at the foundation of all that goes to make life a success. Exercise will help to give it.
7. Exercise will help a young man to lead a chaste life.
8. Varied, light and brisk exercise, next to sleep, will rest the tired brain better than anything else.
9. Metal will rust if not used, and the body will become diseased if not exercised.
10. A man "too busy" to take care of his health is like a workman too busy to sharpen his tools.

EXTRACTS FROM HISTORY.

Paraguay was settled by the Spaniards in 1515.
The republic of Holland was constituted in 1579.
The first wheat raised in the new world was sown on the island of Isabella in January, 1494, and on March 30 the crop was gathered.
Canada was discovered by Cabot in 1499; explored by the French, 1608, 1624 and 1634; settled, 1640; Quebec built, 1608; taken by England, 1628.
The West Indies being the first land discovered by Columbus in 1492, early settlements were made in them, not only by Spain, but by England, France, Holland, Denmark and Sweden.
The union of the crowns of England and Scotland took place in A. D. 1603, to the great advantage of both countries, but they had their separate parliaments and governments till A. D. 1706.
The Spaniards took possession of Chili soon after their conquest of Peru, and continued in possession until 1810, when the struggle for independence began. The republic was established in 1818.

IN DAYS OF OLD.

The New Testament was first printed in Irish in 1602.
As late as 1772 women rode astride. Side saddles are modern inventions.
It is just 100 years since the Cornishman, William Murdock, discovered that coal gas might be used as an illuminant. The most curious among famous people is that which, three centuries ago, for the French traveler, Tavernier, sold to the Persian monarch for \$675,000. It is still in the possession of the present shah.
Oil was used for burning in lamps as early as the epoch of Abraham, about 1921 B. C. It was the custom of the Jews to anoint with oil persons appointed to high offices, as the priests and kings.
Few relics of antiquity are so curiously interesting as the charts employed by ancient mariners, which have portrayed upon them ever so many extraordinary monsters, horrible dragons, and terrific giants scattered here and there.

THINGS TO THINK ABOUT.

Self-love sends out no missionaries. Sin at first sight always looks harmless. God's telephone in the soul is conscience.
The next door neighbor of selfishness is sin.
A temptation yielded to is a step toward the pit.
We are most like God when we can most forgive.
Knock down a liar and you hit the devil square in the face.
A strong test of our love to God is our treatment of an enemy.
It is as much the duty of a Christian to give as it is to pray.
God alone can tell where our personal influence is going to stop.

ODDS AND ENDS.

Chinese control almost the entire shoe-making business in California.
United States people spend \$43,000,000 a year for letter postage.
The nightjar has a cry like one lamenting in distress.
A species of crow in India has a note which exactly resembles the human voice in loud laughing.
In India a huge funnel of wicker-work is placed in a stream below a waterfall, and every fish coming down drops into it, the water straining out and leaving the flapping prey in the receptacle all ready to be gathered in.

BOOK GATHERINGS.

Brooklyn has six large libraries, containing in all about 300,000 volumes.
A large sale for book collectors published in this country is reported from Madrid and other Spanish cities.
Three hundred thousand dollars' worth of Victor Hugo's works have been sold annually for the last six years.
Prof. Kings, of Iowa, in an address, stated that Shakespeare, in his works, uses 23,000 words. The lecturer then showed that the Old Testament contained but 5,800 different words.

PRODUCTS OF SOUTH AMERICA.

Pern gives the world sugar, cotton, wool and guano.
The chief product of Brazil is coffee and the second sugar.
Uruguay furnishes hides, tallow, wool, frozen meat and meat extract.
Venezuela gives sugar, coffee, vanilla, rubber, cocoa beans and cocoa.
The principal products of the Argentine republic are wheat, wool and frozen mutton.

ANCIENT ART AND SCIENCE.

B. C. 1700. Metallic wire made by some unknown process.
B. C. 290. The great brazen statue of Rhodes built by Chares.
B. C. 234. The first record made of astronomical observations; at Babylon.
B. C. 3130. The arts of spinning and weaving invented by Noomah, a woman.
B. C. 1490. The first pottery vessels made; simultaneously in Greece and Egypt.
B. C. 2100. The first known sculpture

and paintings were made; in Egypt. B. C. 2095. Surveying used in Egypt in laying out canals. The Pyramids begun. B. C. 640. The Thalian theory of the earth's spherical form taught; in Greece. B. C. 2122. Athletes, an Egyptian king, said to have invented hieroglyphics.
B. C. 1127. A mummy of about this date was found to have teeth filled with amalgam.
B. C. 2347. The first recorded use of bricks and mortar. Tower of Babel built at Babylon.
B. C. 198. Books with leaves like those of modern times introduced in Pergamum instead of the rolled parchments, which were easily damaged.

GATHERED FROM NATURE.

The smallest bird is an East Indian humming-bird. It is a little larger than the common house fly.
Sun spots were first discovered in 1611, and were then noted by several astronomers at about the same time.
Several species of ants keep swarms, the species answering the purpose, and milk them at regular intervals.
Microscopists say that the strongest microscopes do not probably reveal the lowest stages of animal life.
Man is scientifically defined as forty-five pounds of carbon and nitrogen diffused through five buckets of water.
Neither chemists nor naturalists have yet been able to solve the question why a lobster turns red when boiled.
Over one hundred instances are on record where human bodies, after burial, remained uncorrupted for many years.
The wettest place in North America is Neah bay, in Washington; over one hundred and twenty-three inches of rain fall there every year.

PROGRESS OF THE TELEGRAPH.

1857. Atlantic cable laid, but proved a failure.
1872. Ocean cable laid from India to Australia.
1887. The Morse patents for an electric telegraph taken out.
1861. Cables laid almost the whole length of the Mediterranean.
1856. Telegraph line opened from New York to St. John, N.B.
1852. Cable lines laid across the English channel; at first a failure.
1860. Atlantic cables successful. Perfect communication established.
1608. Important discoveries made in electricity by Gilbert and others.
1850. Telegraph lines from England to India; nearly all its route overland.
1874. Cables laid between Europe and Brazil, and telegraphic communication opened.
1879. A seventh cable across the Atlantic; the last from Cape Cod to Brest, in France.
1692. The electric telegraph foretold by Galileo, who told his conversations could be held by magnetic needles.

LITTLE GRINS.

Woman leads the world. She used smokeless powder for ages before man ever thought of adopting it.—Tit-Bit.
Pat.—Say, Mike, why don't you buy a bicycle? Mike.—Because if I want to walk I'll walk standing up.—Boston Herald.
Toadies.—Could you let me have five dollars for a few days? "No; I have more days than I know what to do with now."
—Littler Ocean.
Mr. Dolley—Miss Flynn, why do you suppose it is that there is no marrying nor giving in marriage in heaven? Miss Flynn (promptly)—No men there.—Judge.
He—Then I understand that you contented for an equality of the sexes. She—Not at all. I don't expect man ever will be quite equal to women.—Boston Transcript.

HUMANE OFFICER.—

Why do you pile all your load on the front of the cart? Lazy Man.—So it'll show won't have so far 't' pull it, or course. Think I ain't got no feelin'! —Cleveland Plain Dealer.

PROVERBS OF THE DAY.

A prodigal picks his own pocket. Empty threats make lying children. Don't go to the wrong shop to get shaved. A stinked wife can find a vest pocket in the dark. If we had eternal sunshine we would have no crops. The dangerous end of a rattlesnake makes no noise. The aggressive man always finds the hornet at home. Some people mistake getting religion for a receipt in full. There is a Lazarus for every crumb from the table. When I go to a revival I don't want to listen to a blackguard. One demagogue is more dangerous than a dozen aristocrats. The man who gives himself away is not always worth taking. It is much easier to love some people than it is to agree with them. Time sets his chisel a little deeper whenever there is a frown upon the face.

NOTES FOR THE SUPERSTITIOUS.

In many places it is believed that the person who loses the whipcord will in the daytime will die before the end of the year.
Many persons will not allow the rocking of an empty chair, because they say it is a forerunner of death in the family.
An old way of interrogating fate in love affairs is to slice an apple in two with a sharp knife. If this can be done without cutting a seed the wish of the heart will be fulfilled.
Among the uneducated whites in Alabama there is a popular superstition that if a colored person kisses a baby twice on the month the teething period will be easy to the child.
In Michigan a double cedar knot is carried in the pocket and called Lumps and Bleaches and every fish coming down drops into it, the water straining out and leaving the flapping prey in the receptacle all ready to be gathered in.

General News and Notes.

Love may be blind; but self-love has I's to spare.
RHEUMATISM CURED IN A DAY.—South American Cure for Rheumatism and Neuralgia radiates in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The cure is greatly benefited. 75 cents. Warranted by J. Pallen & Son.

Neuralgia
ATTACKS THE EYES
Makes THE LIGHT Unbearable.
PERMANENTLY CURED BY USING
Ayer's Pills
"My husband was subject to severe attacks of neuralgia which caused him great pain and suffering. The pains were principally about his eyes, and he often had to remain in a darkened room, not being able to stand the light. Ayer's Pills being recommended, he tried them, using one before each meal. They very soon afforded relief, followed by permanent cure. I am a strong believer in the efficacy of Ayer's Pills, and would not be without them for ten times their cost.—Mrs. M. E. DEWAY, Liberty, Tex.
"I have used Ayer's Pills in my family for forty years, and regard them as the very best.—Uncle MARTIN HANCOCK, Lake City, Fla.
