### A Truckling Magistrate

At Oak Point, Kings county, on Wednesday, of last week, before Justice Inch. Mr. Wetmore, Chief Game Commissioner, on of the Crown, on information of Frederick W. Vanwart, prosecuted David Adams, Albert Perkins, Geo. W. Jones and Samuel Adams for killing and dressing deer on the 19th April, this year, contrary to law, the date being within the close season. Mr. Walter H. Trueman appeared for the Crown, and Mr. John R. Dann defended GRAVEYARD VOTERS :- A ghastly Toronto | The evidence showed that the parties were in the vicinity with guns, that they were heard to give instructions to fire, that three separate shots were fired, that a deer was killed and one was wounded, and the latter escaped to the water and was not found. Two of the parties, David Adams and Albert Perkins, cut the throat of the slain deer, and the animal was skinned and its meat distributed. The defence not only questioned the jurisdiction of the court, but held that the evidence did not actually prove the killing. The Magistrate reserved his decision. The affair created great excitement in the neighborhood for a circle of ten miles. the court room was crowded, and the proceedings took up the whole afternoon from one o'clock till nine in the evening, with a short adjournment for supper. The specific charge was against Samuel Adams and Geo. W Jones for killing, and against the other two. Perkins and David Adams, for dressing the animal and having the meat in their possess. ion. The facts set out by the Crown were not controverted by any witnesses, the defence being purely technical

#### A New Band Saw Put Ia.

F. Mackenzie and R. B. Bennett:

There was a large meeting of mill men and thers at Hampton on Monday of last week to see the testing of a new "Allis" band mill recently put in by the Flewelling Manufacturing Co. of that place.

The first logs cut were the toughest spruce, that could be found in the boom, which were cut as accurately and smooth as were the clear pine logs, which followed. Then some birch logs were brought in and while they were of the largest size, and of the toughest quality, were cut with equal ease and an accuracy that could not be excell-

To illustrate the saving made by a Band Saw, the Messrs. Flewelling formerly had so nuch sawdust, that they had to cart it away, and were thinking of putting in a burner to et rid of this expense, But now, although utting more per day, they have not enough o run their boiler on, and are using other refuse, which formerly had to be carted

At a low estimate, the saving effected even in low grade lumber, is equal to the running expenses of a mill.

The Waterous Engine Works Co., o. Brantford, who furnished the machinery, as well as the Messrs. Flewelling, are to be congratulated on their enterprise. The capacity of these mills is from 40 to 60

thousand feet per day, It will repay any mill man to visit this establishment and see for themselves that a properly built band mill can be run by ordinary intelligent men and give results that show well on the right side of the balance sheet. #### Rare Opportunity to secure Canadian fine Art Work. 1st, 2nd 3rd, 4th, 5th and 6th nos. Ready.

A number of excellent art publications are being offered to the public through leading papers of Canada and the United States, but none of them has the strong claims upon people presented by that known as "Canada" which is being issued by "The Art Publishing Company" of Toronto and offered to our readers, as will be seen by advertisement in

The object of this series of Canadian fine art pictures is to provide the people of the Dominion with a scenic and descriptive reproduction of the superb natural and artistic beauties of their own country and the evidences of its material progress. To show Canadians by the easy process of the sight some of Canada's historical shrines something of her national wealth and developement, her glorious lake and river scenery, her entrancing landscapes and world-renowned natural wonders-to depict

in panoramic photographic pictures the urban and rural life of the Canadian people, their industrial hives, their great public enterprises and their national landmarksthe series will cover the whole vast domain of British America from the Arctic Ocean to the forty-ninth parallel, and from the fog banks of Labrador to the pure breezes of the Pacific Ocean. It is a country from which European kingdoms could be carved including lakes in whose waters, where primeval forests are reflected, old world principalities could sink from sight; with mountains, upon who massive breasts the Alps could be lightly carried; with a Niagara and a St. Lawrence; with pastoral scenes of upland and meadowland, prairie stretches, rugged mineral treasures and timber areas. It is a country of magnificent natural beauties and varied interest : one to be proud of, and

one that we should study more and learn more about. This is the purpose of this scenic and descriptive series of pictures. It is to place within the reach of our own people the means of acquainting themselves with all that is notable in the natural features of their own country. Our Dominion is so large and its distances so magnificent that some such means of studying it is necessary After singing, the Financial Secretary Its beauties and wonders are scattered over such a wide area that neither by travel nor travellers' tales is it likely that the great majority of our people will ever know them

The scope in Canada, it is clear, is a wide one, and the field rich with materials. The project is undertaken in the belief that the people of Canada will welcome an effort to place before them the natural scenery. material progress and national features of their country, and that they will extend to it their hearty support, The work wil be carried out in the best manner known Most of the morning session was occupied to the photographic, engraving and printing n hearing the reports and in discussion art. Every locality and section of the Dominion will be fully and splendidly The afternoon session opened at 2.30 with represented, that the possessor of the completed work may truly feel that he has within its compass as thorough and complete an acquaintance with Canada as if he had spent years in travelling over it. The pictures will be accompanied by accurate descriptions of the subjects presented, and the object is not less to instruct the mind Enworth League :- Rev. W. C. Matthews than to please the eye. This, then, is the purpose of "Canada," and if its accomplishment be carried out with the fidelity and completeness with which the company hopes to endow it, it will be a work of permanent The laymen reported that in their separate | merit, and of great national as well as

series may be ordered at once, and will either delivered at the ADVANCE office on application, or mailed to any part of Canada. Each part will contain not less than 16 pages Coates, Coatesville; Azor Kay, Little River of illustrations and descriptive matter. Twenty-six parts will comprise the series thus ensuring upward of four hundred superb photographic views covering the whole domain of British America.

The parts will be sold at ten cents, and when completed will ensure the possessor a complete acquaintance with our country, and a valuable work of art.
