BEAUTY OF TONE,

GREAT POWER

AND

BRILLIANCY

ARE THE

Chief Characteristics

OF THE

Estey Organs.

A warrant for 5 years accompanies each Organ.

NOTHING contributes more towards happiness and contentment in the family circle than MUSIC. Its refining and soothing influence is conceded by all, hence the great and increasing demand for MUSICAL INSTRUMENTS, and particularly for that noblest of all Instruments—THE ORGAN. At the very head of this class of Instruments stand the celebrated ESTEY ORGANS, pronounced by all who have ever heard them as by far the

FINEST REED ORGANS EVER SEEN OR HEARD.

Their beautiful quality of tone, combining exquisite sweetness with great power and brilliancy, is due to Improvements in the construction and position of Reeds, which are secured them by patents. They are the only Organs known to stay in perfect tune and never require tuning. Upwards of *EIGHTY THOUSAND* of these Organs are now in use throughout the United States and Europe, and *they are the favorites everywhere.*

Of the total amount of exports of Organs to Europe for the first eight months of 1876, \$216,462; Messrs. Estey & Co. shipped \$107,900 or one half of the entire amount, or in other words, the number of Estey Organs sold in Europe equals that of all other American Organs together.

The fact that more ESTEY ORGANS have been imported and sold in this Province during the last six years than *all other Organs combined*, (as the St. John Custom House can prove), is another proof of their superiority and their popularity with our music loving people.

The ESTEY COTTAGE ORGAN MANUFACTORY in Brattleboro, Vt., Established in 1846, is unquestionably *THE LARGEST ORGAN FACTORY IN THE WORLD*, giving constant employment to about 700 men and women. An average number of 265 Organs are turned out of the factory every week, which is nearly twice the number of the next largest factory.

We claim for the ESTEY ORGANS, that they are the **FINEST IN TONE, POWER AND BRILLIANCY**, and thorough workmanship, neat designs and finish; also that they will last longer than any other make.

We do not claim that they are *CHEAP INSTRUMENTS*, but we do claim that they are better value at prices asked, than any other Organ sold in this Province.

Every Organ is warranted as represented, and if not found so, can be returned at our expense. A warrant for five years accompanies each Organ.

A liberal discount allowed to Clergymen, Churches, Societies, Lodges, &c.

We invite intending purchasers to write us, and all further details will be cheerfully given.

Send for our **LARGE ILLUSTRATED CATALOGUE**, containing full descriptions of twenty different Styles, and at prices varying from \$70 to \$900.

NOTICE.—Parties having Organs of other makers, and wishing to get an ESTEY, would do well to correspond with us, and upon receiving a description of their Organs, and an intimation of the style of ESTEY's desired, we shall at once inform them of the probable difference in price.

Parties buying Organs from us, who may wish after some time to get a more expensive Organ or a Pianoforte, will be allowed the full price paid for their instrument in part payment, provided reasonable care has been taken of it.
