And hundreds of others whose names cannot be given here for want of space.

A full list can be seen in our office of all persons who have purchased Organs and Pianos from us, new and second hand. The list contains over 800 names, besides the above, and represent purchases to over \$215,000. We take pride in referring to any of them, feeling conscious that we have given every one thorough satisfaction.

CAUTION.

Beware of parties who recommend *inferior instruments* and endeavor to represent them as *equal to the Estey Organs*, and much cheaper. In most cases they know full well they are misrepresenting, but the large profits they can make on inferior instruments lead them to deceive the public whenever they can do so. Remember that a few dollars more paid for a good and reliable article is money saved. Intending purchasers are requested to write to us directly, and by return mail we will furnish them with all the information required, as to styles, prices, terms of payment, &c.
