Hon. Mr. Anglin's Candidature in Gloucester.

GLOUCESTER Co., N. B. June 8th 1877. To the Editor of the Miramichi Advance. SIR :-- Although ever reluctant to enter into the political arena and grapple with questions of general political importance your correspondent, interested in every matter that regards the welfare of this

county in particular, may be expected by some of your readers here to give public expression to his views regarding the re election of Mr. Apglin as our representative at Ottawa. It was well known before the Hon. gentleman paid us the visit which is now the subject of so much talk, that the new and far-fetched interpretation given to the Independence of Parliament Act by the Committee on Privileges

at the end of the late session rendered it advisable that our representative should anticipate any action of the House of Commons in the future in connection with that strange report, which condemns the previous parliamentary practice and committee decisions as illegal, by resigning his seat and placing himself once more in the hands of his constituents and asking their
