

Miramichi and the North Shore.

DERBY AND BLACKVILLE Agricultural Show prize list will appear next week. IN THE SOUTHWEST Broom junco case Judge Duff gave judgment on Thursday last, dissolving the injunction obtained by Mr. Watt, the latter to pay costs.

CHATHAM DRIVING PARK.—The letting of tenders for grading, etc., of Chatham Driving Park was, we learn, postponed from Monday last until next Monday, when it will take place.

WATCHMAKING.—Mr. W. V. Oliver has opened a Watchmaker's shop opposite Mr. Muirhead's store. He is spoken of as an excellent workman. His advertisement appears in another column.

M. C. CLARK, DISTRICT, can be found in Newcastle at Mrs. McAllister's residence every Friday and Saturday, where he will be prepared to attend to those desiring his services, commencing Friday, Oct. 5th, 77.

MEETING POSTPONED.—The annual meeting of the Miramichi Ladies' Auxiliary Bible Society is postponed until Friday, Oct. 19th, when it will be held as previously announced, in Temperance Hall, Chatham.

BREACH OF PROMISE business seems to flourish in Kent. At the last Circuit Court two recent swains were brought to book one paying \$300 for loving "not wisely" and the other, half that amount for a similar indulgence.

THE ROSS-HANLAN RACE—single sculls—is to take place at Toronto on Saturday next. We learn that pools on the race are to be sold at the Torryburn House, Chatham, commencing this evening.

INSUBUCTION.—The Presbytery of Miramichi will meet in Bass River on Wednesday next, Oct. 17th, at 3 o'clock, p. m., for the induction of Rev. David Taylor into the Pastoral charge of St. Mark's Church and congregation.

SUDDEN DEATH.—James L. Holman, Esq., the proprietor of the Island Park Hotel at Summerside, died very suddenly on Tuesday morning at his residence in the town of Summerside. He was confined to the house only two days, having been attacked with kidney complaint.

OUTSIDE PAGES.—There is a splendid account of the second Battle of Plevna on our 4th page. It is written by Col. Forbes, the famous war correspondent of the London Daily News. The matter on our first page varies much that is interesting in the way of current Notes and News.

SOME PUMPKINS.—Mr. Robert Brimmer, of Napan, had a splendid lot of pumpkins in the market last week. We have seen lots inferior to that at Agricultural Exhibitions. The Upper Napan district seems to be so excellent in an agricultural point of view that its farmers do not appear to know how very favourably their produce compares with that of other parts of the province.

THE RESIGNATION OF REV. JAS. LAW of the Pastoral charge of Richibucto Church, having been laid on the Presbytery table at the meeting held on Thursday last at Charlottetown, P. E. I., the Presbytery resolved to hold a congregational meeting in the Church at Kingstons on Tuesday next, Oct. 16th to take into consideration the present and future circumstances of the congregation.

LARGE CUCUMBERS.—A gentleman exhibited in this office, last week, a cucumber, measuring 7 1/2 inches in length, 10 inches in circumference and weighing 2 1/2 lbs. He thought it was very large, but we have seen accounts of cucumbers six feet long, so until some one can beat that it will be no use to talk about anything as being extraordinary in the way of cucumbers.

MILITARY.—Lt. Col. Maclean, accompanied by Adjutant Underhill, inspected military corps and armories in Chatham and vicinity on Tuesday. Chatham Battery of Artillery, commanded by Lt. Col. Gillespie, was out for drill and shell practice and the armories of Captain Fenon's and the Black Brock Company were under inspection. Changes in Battalion and company command are talked of, but nothing definite in that respect has yet transpired.

SUNDAY SERVICES.—We are requested to announce that on next Sabbath morning at 11 o'clock, there will be an exchange of pulpits between the Rev. Mr. McCullough of Red Bank, and the Rev. T. L. Smith, of Immanuel Reformed Episcopal Church, Chatham. At 3 o'clock Mr. Smith will preach in the R. E. Church as usual. Subject of afternoon sermon: "The Unprofitable Servant," in the Parable of the Talents, Matt. 25-30.

SUDDEN DEATHS, ETC.—Since the beginning of the year there has been an unusual number of sudden deaths from accidents, as well as from natural causes. The following is a summary of those which occurred in Chatham and two or three adjacent parishes. There were in all, 24 deaths, of which 17 resulted from accidents as follows:—1, an old woman, from injuries received by falling into a fire, 3 from accidents in lumbering, 8 from drowning, 10 from injuries received by falling into a burning fence pile, and 4 from the bursting of a boiler; 1 person was killed in a stabbing affray on shipboard, 2 committed suicide, and there were 4 sudden deaths from natural causes.

THE BANK.—Of the gentleman who takes Mr. Lockwood's place in the Bank here the *Intelligencer* of Belleville, Ont. says:—

"Mr. A. F. McDonald, accountant of the Bank of Montreal, has been transferred to the agency of the Bank at Chatham, New Brunswick, and left for his new home last evening. Mr. McDonald has been in the Bank here for about four years and a half, and in his business capacity, as well as in the social circle, he made many friends, who admired him for his strict integrity in business affairs, his frank openheartedness, and his genial, kindly disposition. May good luck and prosperity go with him."

A MISSION TRIP was made to Lower Gloucester last week by Rev. Mr. Street of Bathurst and Rev. Mr. Barbour of Newcastle. Their services were held at Caracquet, Point Miscou, Little Shipigan Harbor, and Little Lamèque and a number of Marriages and Baptisms were performed. The Rev. gentleman started on Friday, 28th ult., from Caracquet for Point Miscou in a small Schooner belonging to Philip Rive, Esq., expecting to make the run in three or four hours. A storm came on, however, and they were kept out all night without food, only to find their vessel dashed ashore in the morning, about four miles from the Point. All on board were obliged to abandon the craft and save themselves by wading ashore through the surf. The Schooner's deck was broken, one mast carried away, her rail and bulwarks broken and other damage done.

PERSONAL.—Among the visitors to Chatham during the past week were Robert Marshall Esq., M. P., Lt. Col. Maclean, Brigade Major, and Major J. D.

Underhill, St. John; Dr. T. H. Rand Superintendent of Education, Fredericton, and W. J. Fraser, Esq. Halifax. Mr. Brown, so well known in connection with the building of the Intercolonial Railway, is visiting his Miramichi friends. Wm. Davidson Esq., of St. John, is in town.

Rev. Mr. Wilson of St. Andrew's Church, Chatham, returned home on Friday morning from the Meeting of Synod in Charlottetown, having been summoned back by telegraph in consequence of the sudden death of Miss Henderson, which occurred at the Manse on Monday afternoon at 2 o'clock.

Rev. Messrs. Anderson, Houston and Johnstone have also returned to their respective charges.

Mrs. Kerr, widow of the late Geo. Kerr, Esq., and family, left Chatham last evening for Elinburg, via Rimouski. It is her intention to reside in Scotland hereafter. Her departure is generally regretted.

Obituary.—A Shipigan correspondent writing on Friday last, says:—

F. J. N. Dumaresq, Esq., the lately appointed Collector of Customs of this Port, died at his residence on Tuesday, 2nd inst., after a short illness of about 24 hours, aged 68 years.

The funeral, which took place to-day, was attended by a large circle of friends and acquaintances, who, notwithstanding the inclemency of the weather, considered it their duty to be present in order to prove their respect for their departed friend.—*Requiescat in pace.*

The death, at the Manse, Chatham, of an estimable lady, Miss Henderson, is recorded in another column. The deceased was sister of the late Rev. Dr. Henderson, who for a long period was Minister of St. James Church, Newcastle. Her quiet virtues and simple goodness gained for her many friends, who now mourn their loss, and none more so than Mr. and Mrs. Wilson, with whom at the Manse she spent much of her time during several years past. A large number of friends accompanied the remains to St. James Churchyard, Newcastle, where the interment took place yesterday afternoon.

Complimentary Supper.—Mr. Harry Lockwood, who has, for nearly two years, occupied the position of Teller in the Chatham Branch of the Bank of Montreal, has been removed to Guelph, Ont., whither, we feel assured, he is followed by the good wishes of all who had the pleasure of his acquaintance here. On Saturday evening a number of leading citizens entertained him at supper at the Bowler Hotel, the Chair being occupied by J. B. Snowball, Esq., and the Vice chair by Wm. Wilkinson, Esq., Q. C. The affair was a most enjoyable one, the better part of the evening being spent in the interchange of sentiments fitted to such an occasion. The health of the guest of the evening was proposed by the chairman, seconded by the Vice-chairman, both gentlemen expressing the esteem in which Mr. Lockwood is deservedly held in Chatham. In the discharge of his duties at the Bank, in the display of excellent qualities as a citizen and in social life, he had won the good opinion of those with whom he had come into contact, and it was the sincere hope of all that, as he was to be removed, the change would involve personal advancement, or promotion in the service of the great monetary institution in which he was employed.

Mr. Lockwood expressed surprise at the gratifying recognition which his conduct while in Chatham had met with. He said he had always endeavored to discharge the duties of his position in which he was placed to the best of his judgment and ability. For several reasons he regretted that he was to leave Chatham and chiefly because of the many pleasant acquaintances and excellent friends it had been his good fortune to make while in the town. His removal, however, had been of his own seeking, in a great measure, for he was to go to a place where he would be near his relatives, and older friends than those here, and where business associations might also be more advantageous, if not more pleasant. He referred to the uniform courtesy and kindness which had characterized his intercourse with Mr. Winslow, the Agent of the Bank in Chatham, and said he had, in fact, nothing but pleasant personal associations to remember in connection with his short residence on the Miramichi. Wherever he might go, his memories of Chatham friends would always be very pleasant and kindly and he could never forget or cease to be grateful for the present flattering manifestation of approval and good will on the part of those whom he knew to be the leading gentlemen of the place, in both its society and business.

A number of volunteer toasts were given and duly honored presenting to different members of the party opportunity to exchange ideas on matters of both local and general concern. "The Bank of Montreal and its Officers," which was proposed by the Vice-chairman in a very eulogistic speech, required that Mr. Winslow should agree with the proposer, which he was not backward in doing. He took occasion to express his personal regret at the departure of Mr. Lockwood whom he esteemed very highly as an officer of the Bank as well as socially.

Of course, speeches were required from Mr. Crombie, of the Newcastle Branch of the Bank, Mr. Doran, accountant of the Chatham Branch, and G. B. Fraser Esq., its Solicitor, each of whom expressed their regret at parting with Mr. Lockwood. They seemed to agree very unanimously with the proposer of the toast in entertaining a high opinion of the Bank of Montreal and, indeed, it appeared that the Bank was to have it all its own way until Mr. D. G. Smith proposed "The Mercantile Interest," seconded by D. Ferguson, Esq., Collector of Customs. The proposer as well as Mr. Snowball, Mr. Joyce, Manager of Messrs. Gray, Stewart & Co., James T. Griffin, Esq., Collector of Inland Revenue, and others expressed every confidence in the Bank, even if the latter did not reciprocate the sentiment in a practical way at all times. In fact several of the speakers came out squarely and said they had a much higher opinion of the Bank's financial standing than of its liberality, but all agreed that the business community could do very well without it. Mr. Winslow seemed to take all that was said in excellent spirit and had no doubt, whatever, that if his business friends had the management of the Bank in their own hands local trade would flourish, but he would not increase confidence in the institution or not, would be another consideration.

"The Legislature," "The Magistracy of the County," "Educational interests and the Teachers," "The Ladies" and "The Press," were proposed by Mr. Ferguson, Mr. Tweedie, M. P., Mr. Snowball, Mr. Winslow and Mr. Wilkinson, respectively, and responded to by Messrs. Tweedie, G. B. Fraser, J. T. Griffin, G. A. Blair, Principal Oakes, of the High School, Mr. Joyce, Mr. Crombie, Mr. Doran and

Mr. D. G. Smith, each in turn. The speech of Mr. Oakes, in response to the toast of the Teaching Profession, was an admirable one as were also those of the same gentleman and Mr. Joyce on behalf of the Ladies. The gathering broke up about half an hour before midnight, all joining in the best wishes for Mr. Lockwood's continued success and wishing him a safe and pleasant journey to Guelph.

Valuable Presents.

It will be remembered that a very pleasant excursion took place on the river, 4th July last, in honor of several gentlemen of New York who were visiting the Miramichi at the time. They were Messrs. Thomas Adams, of the great wholesale establishment of H. B. Claffin & Co.; Judge Morgan, James Dunn, Barrister; Wm. Fitzpatrick, of the well-known House of Dick & Fitzgerald, publishers; Mr. Wilkinson, a leading commission salesman, connected with Messrs. Claffin's establishment and Mr. Price. The excursion was got up chiefly by R. C. Call, Esq., managing owner of the *Anchor*, and was a most pleasant one. So highly did the gentlemen named appreciate the attention shown to them that on their return to New York they had some ten badges in gold and enamel and two gold-headed canes manufactured as souvenirs of the event, the canes being duly forwarded to Hon. Senator Muirhead and F. E. Winslow, Esq., and a badge each to Messrs. R. C. Call, Alex. Morrison, M. Adams, James Mitchell, Alex. Stewart, Edw. Sinclair and others. Both canes and badges are very handsome and costly. The latter are of circular form having mingled folds of the American and Canadian flags, with a recessed ground, bordered by a floral ring, on the face of which are the words, "U. S. A. and Canada," with the legend, *United as Amicitia*. The recipients of these remembrances place a very high value upon them and their friends are of opinion that they have every reason to do so. Miramichi cannot be outdone in genuine hospitality towards visitors, nor has it ever entertained gentlemen who appear to have appreciated its efforts to make them feel at home to a greater extent than the New York guests of 4th July, 1877.

In connection with the above we desire to refer, by way of explanation, to an account of a fishing trip made by the New York gentlemen, to an imaginary lake, of amid imaginary mountains of the North Shore. The sketch appeared in the *New York Sun* and contained "rather too much of a joke," inasmuch as it made serious imputations against the honesty of the well known and hospitable landlady of the Tabusintac Bridge hostelry on the Bathurst road. We dealt with the matter in these columns as we thought it deserved, and were under the impression that the whole thing was the work of the party to whom some of our best people had shown marked attention as gentlemen. We are, however, informed that the sketch was the work of a *Sun* Reporter, who had been "stuffed" by members of the party, and that they were all surprised and annoyed when they found that they had been made to appear as impugning the character of a hostess who they say was very kind to them, and for whom they entertained great respect. The secret of the matter was that the Reporter had once been fishing on the North Shore and knew names and localities sufficiently well to represent himself on our peculiar frontier. We are really glad to be assured of the facts of a matter which formed the "one little cloud" of an otherwise fair day. The moral of the episode is that it is very dangerous to tell New York newspaper men anything but the most "plain, and unvarnished tales."

Kent Notes.

SALE OF A SCHOONER.—The schooner *Chatham Head* has been sold by Mr. William Hudson to Capt. James W. Foster for \$650. The *C. H.* was built in 1862 and registers 24 tons.

PERSONAL.—Thomas Westmore Bliss, Esq., Stipendiary Magistrate, Registrar of Deeds, etc., is on a visit to his friends in Fredericton.

Kent Circuit Court.

The following is a list of the cases disposed of at the late session of the Kent Circuit Court, His Honor, Chief Justice Allen presiding:—

1. Edmund Powell and Ann his wife vs. David Wark, Administrator, etc., having privilege; assumpsit, verdict for plaintiffs, \$1,000. D. L. Hanington for C. Richardson for plaintiffs; J. A. James and C. W. Weldon for defendant.

2. Peter Bourgeois vs. Chas. C. Hamilton and W. J. Gilbert. An action for trespass. Verdict for plaintiff for \$200, subject to ruling of the Court above on points reserved. C. J. Sayre and D. L. Hanington for plaintiff; George G. Wilbert, W. J. Gilbert, and C. W. Weldon for defendants.

3. Thomas Sawyer vs. Duncan Stevenson—an action on an award. Verdict for plaintiff by consent, subject to ruling of Court above on points reserved. Hutchinson and Phinney for plaintiff; C. J. Sayre and D. L. Hanington for defendant.

4. Leon Legers vs. John C. Vautour—assumpsit. Verdict for defendant. C. Richardson for plaintiff; C. J. Sayre and D. L. Hanington for defendant.

5. Agnes Lemont vs. James Thorratt—an action for breach of promise of marriage. Settled by defendant agreeing to pay plaintiff \$300. J. A. James for plaintiff; C. Richardson for defendant.

6. Annie Harding vs. Matthew Glen—an action for breach of promise of marriage. Verdict for plaintiff \$150. D. L. Hanington and Hutchinson and Phinney for plaintiff; C. J. Sayre for defendant.

The Court adjourned on Thursday evening last *sine die*. The jury fees paid at this session of the Court amounted to \$203.

Notes by Travelling Observer.

The foliage of the woods becomes daily more variegated with the brilliant tints of autumn, the fields have yielded up their harvest, the farmer's stronghold, the barn, is stored and garrisoned, chill north-erly winds ripple the black waters of border rivers; "the yellow leaf is stamped in clay" and there are a good many other things that hint to the poetical and unpoetical mind that "Christmas is coming," and that his first rate assortment of coughs and colds will be shortly on hand, and those who have not supplied themselves prematurely, should inspect their stock before going elsewhere. Yes, Christmas has its drawbacks, and it is just a matter of taste in the country, whether a man prefers being eaten up by black flies, or sneezing himself away in a damp pocket handkerchief. The Road

FROM BARRY'S TO BURNT CHURCH.

is not thickly populated. At the commencement, the panorama opens on the first mile with the log huts of two or three French settlers, and then the woods close on the road for some 5 miles, after which the settlement is reached and moderate

farms with neat houses line the road on the left. A short cut across the fields brings us to a large park, the property of the late Francis H. McKnight, on Burnt Church River, which is a comparatively small stream. The Mills are all in one building, and embrace a saw mill, with a single saw; a grist mill with three runs of stones, one of which are French Burrs; and a carding mill, containing 2 carding machines and a picker. Mr. McKnight did a good deal of the work on the machinery of these mills himself, in days when machinists were scarce, and in his woeless night cap reminds one of a miller of the old school. He is also Postmaster, and his house and mills are situated in a picturesque hollow. The most remarkable aspect of the Burnt Church is a tame deer, who might have sat for his portrait to Dickens. This biped, forsaking the early errors of his way, and cutting all his wife's relations, has for some time devoted himself to official life in principle, and divides his time between the School House and the Post Office and the Grist Mill. He is a most pleasant one. So highly did the gentlemen named appreciate the attention shown to them that on their return to New York they had some ten badges in gold and enamel and two gold-headed canes manufactured as souvenirs of the event, the canes being duly forwarded to Hon. Senator Muirhead and F. E. Winslow, Esq., and a badge each to Messrs. R. C. Call, Alex. Morrison, M. Adams, James Mitchell, Alex. Stewart, Edw. Sinclair and others. Both canes and badges are very handsome and costly. The latter are of circular form having mingled folds of the American and Canadian flags, with a recessed ground, bordered by a floral ring, on the face of which are the words, "U. S. A. and Canada," with the legend, *United as Amicitia*. The recipients of these remembrances place a very high value upon them and their friends are of opinion that they have every reason to do so. Miramichi cannot be outdone in genuine hospitality towards visitors, nor has it ever entertained gentlemen who appear to have appreciated its efforts to make them feel at home to a greater extent than the New York guests of 4th July, 1877.

Some twelve miles from Oak Point and three miles from Burnt Church, is Church Point. Upon the shore are the fishing establishments of Messrs. Miller & Morrison, and Messrs. Loggie & Anderson; both these establishments have freezers, and a sketch of the older and larger establishment will be sufficient. Much controversy has existed as to the proper time for taking bass. It is urged by those who hold that the 1st of October is a month too late in this locality, as by that time all the fish have passed. The season recommended from the Barthelemy to Blacklands, is from the 1st of September to the 1st of November. The number of salmon as a freer season by the New York gentlemen, till the close time, the 14th of August, amounted to 14,600. These salmon are collected from all points of the river by two boats and three canoes. In conjunction with Messrs. Miller & Morrison, also employ two schooners for the conveyance of the fish to the Intercolonial at Newcastle, by which they are sent from to the States. These schooners make five or six trips a week. Messrs. Loggie & Anderson's establishment consists of a large general store, a cook-house, a freezer 40 x 26 ft., which cost \$8,000, and three ice houses, respectively 45 x 20 ft., 35 x 20 ft., and 24 x 20 ft., besides other buildings. The freezer at the time of our visit contained 26,000 mackerel and about 2,000 salmon. A freezer is simply a building with double walls packed with sawdust. The interior is divided into several chambers entered by small thick doors, and might remind one of the interior of the pyramids on a small scale, only that fish and not kings, are embalmed here, in arctic cold, which is produced by thick galvanized coils descending from the floor above, where they are filled with ice. All the interior is white and shiny; the candle flickers on heaps of mackerel and salmon as hard as bricks, which are destined to satisfy stomachs in Boston or New York. Messrs. Miller & Morrison at their freezer have about 17,000 mackerel and 2,000 salmon. The lobster preserving establishment about six miles from the village of Tracadie, which employs some forty or fifty hands; at the time of our visit it was closed. On the road

FROM BURNT CHURCH TO NEWBOLD there are one or two farms at its commencement, and after some three or four miles the forest of constant commences, some of the houses being of considerable size. The inhabitants generally do not speak English much. This is not the case with Mr. Romain Savoy, however, who is finishing a large barn, and showed some fine beasts of a lot from which some had been sold in Chatham, one dozen weighing 31 lbs., and one single specimen 4 lbs. Some miles up the road is the Roman Catholic Church of Neguac, the Priest being the Rev. Mr. Therage. A little beyond is the place of Mr. Vidal Allen, who is the only one on the road with the exception of Loggie & Anderson's. The slender supply of stores and churches on this route is somewhat novel in comparison with other parts of the province, where commerce and religion are apt to be somewhat overdone.

On the shore at the end of the Neguac Settlement we found them shipping bark for the Extract Manufactory at Derby. Considerable quantities are got out in this locality, and Capt. Goodfellow says a schooner from this point up the Miramichi.

THE STYMIEST SETTLEMENT. At the cross roads at the end of Neguac, is Martin's P. O., and, taking the north-erly road, some six miles, we pass through the Stymiest Settlement. The farms here are generally of moderate dimensions, but the soil is good, and were it not for the distraction of lumbering in which many of the settlers indulge during the winter, either from taste or necessity, their farms would soon give a better account of themselves; but this is a well known fact even to the people themselves in every lumbering place.

THE WATER-FINDER. While remaining near the Stymiest Settlement, we had an opportunity of interviewing a well-finder, who was driving about the country in a buggy. He undertook to find water near a house in the Rockwoods settlement. His implement was a forked twig of witch-hazel, which he said had to be cut in the spring, and the person who used it had to be born between the 1st and 15th of August. This condition having been complied with in the case of the well-finder, he set to work grasping the twig by its forks, the palms of his hands upward, and in certain directions the extreme end of the twig would descend, until, finally, near the house a peg was driven. The next thing was to determine the depth of the well, which, after mysterious pacings with the twig, was finally stated to be 24 feet. We suggested to the happy owner of this spring that the locality being very level, at a modest depth of 24 feet water would probably be found anywhere, but the well-finder objected to this theory, and after giving us some insight into the use of the mineral-rod, in discovering iron chests filled with gold coin, and bringing them to the surface, Mr. Boudreau, a provincial, leaving us impressed with the providential nature of his mission, for having found little money above ground, we have come to the conclusion that it is all buried in iron chests, and only waits the magic influence of the Mineral Rod to secure its disinterment. Success to Mr. Boudreau.

WAR NEWS.

Despatches of 4th inst. are as follows:—The Turks abandoned Kalouch on the approach of the Russians around Timova. Fifty refugees are dying daily from typhus fever. Four hundred Abchasian prisoners were killed in a railway accident near Worcester. The Porte has consented to allow the passage of timber across the Danube, for the construction of huts for the Russian wounded. Russia has committed to the approach of the Russians around Timova. Fifty refugees are dying daily from typhus fever. Four hundred Abchasian prisoners were killed in a railway accident near Worcester. The Porte has consented to allow the passage of timber across the Danube, for the construction of huts for the Russian wounded. Russia has committed to the approach of the Russians around Timova. Fifty refugees are dying daily from typhus fever. Four hundred Abchasian prisoners were killed in a railway accident near Worcester. The Porte has consented to allow the passage of timber across the Danube, for the construction of huts for the Russian wounded. Russia has committed to the approach of the Russians around Timova. Fifty refugees are dying daily from typhus fever. Four hundred Abchasian prisoners were killed in a railway accident near Worcester. The Porte has consented to allow the passage of timber across the Danube, for the construction of huts for the Russian wounded. Russia has committed to the approach of the Russians around Timova. Fifty refugees are dying daily from typhus fever. Four hundred Abchasian prisoners were killed in a railway accident near Worcester. The Porte has consented to allow the passage of timber across the Danube, for the construction of huts for the Russian wounded. Russia has committed to the approach of the Russians around Timova.
