PROLIFIC CRAB APPLE TREE. -- Mr. John Wood, farmer, living about a mile behind Douglastown has a prolific crab apple tree of good variety, which, after bearing last year at the usual season went into blossom again in the fall until it was nipped by the frost.

A PICNIC AND EXCURSION is to take place on Monday next (weather permitting) at Black Brook, the object being the lau lable one of raising funds to aid in the erection of the Roman Catholic Church at that place. The arrangements are being made by an efficient committee and an enjoyable time is reasonably anticipated.

BLACKVILLE. - A valued Blackville correspondent says that place is improving in the way of fine buildings. Messrs. Fairley and Wilson, John McLaggan and James Bean are erecting buildings, and Rev. Mr. Johnstone's congregation propose improving the residence of their minister.

MIRAMICHI LADIES' AUXILIARY BIBLE Society .- The annual meeting of the Miramichi Ladies' Auxiliary Society will be held in the Temperance Hall, Chatham, Wednesday, Oct. 10th at 3 o'clock in e afternoon. Collectors will please hand their subscriptions at the meeting.

COMMERCIAL COLLEGE. - Attention is directed to the new advertisement of the Commercial College, St. John, where the terms for Scholarships have been reduced. This is an excellent season of the year at her voyage in charge of another master, which to enter into training for business life. The value of a business education in which correct principles and experimental illustration are combined, is very great, and no young man should be sent out to make his way through life without such training.

EXCURSIONS over the Intercolonial Railway are advertised at rates which cannot fail to make people travel, if cost is a matter of importance with them. We observe that the management advertises the excursion to St. John as being for the purpose of seeing the ruins of the city. That is all very well, but we believe very many will go to our commercial metropolis on Fall business. St. John is attractive to the wholesale buying community as well as to those who want to see "the ruins." Read the rates of fare. A PECULIARITY of the excursion rates to Halifax advertised by the Intercolonial and the fact that the local Overseer and management, is the fixing of the fare from the Inspector for the Province have-either Chatham and Newcastle, respectively, to ignorantly or wilfully-misrepresented Halifax and return, at \$4, while the rate matters depending on conditions which from Chatham Junction-where there is can never change, shall be established, the no settlement at all-is \$3. Of course, unfairness of the prohibition of bag-net Excursionists from Chatham and Newfishing there will be acted upon by the castle will pay regular fare to Chatham Department. The use of seines in the Junction and buy the three dollar ticket autumn fisheries at Bathurst, being so there-saving seventy five cents by the manifestly destructive of fish of all sizes, operation. Our Extra of last week recorded supposed drowning of a young son of Captain Dalrymple of the barque Bessie, lying at Kerr's mill, who was miss-

SOMETHING LIKE A THISTLE. - At the residence of Mr. Robert Cavanagh, Berney's River, N. S., can be seen a Scotch thistle, five feet, seven inches in height, leaves twenty-two inches long, and ten inches broad, circumference around the branches twelve feet, eight inches. It at present bears eighty flowers. - East. Chron.

The thistle referred to above is very good as a speciman of dwarf vegetation. We do not know what the Chronicle would say if one of its staff were to examine a sunflower growing near Mr. M. Searle's residence in Chatham. If the top of it had not bent downward there is no would have been.

According to the London Garden the result is "total destruction." For twenty years there has been no attack of disease "so swift, so general aud so complete. Large plots of potatoes, sound and healthy to-day, are converted into masses of rotten stems and putrid tubers to-morrow." The crops looked very flourishing five weeks ago; but the almost incessant rains have been destructive. Nothing but a severe drought can save potatoes enough for seed. "The
