His operations were interrupted, however, and himself consigned to the care of the police who took him to the lockup where he was mulcted of a fine the next morning for being "drunk and disorderly," Mr. Vanstone not preferring any charge.

PERSONAL -Mr. W. S. Morris, Clothier, of this City, is about removing to Chatham to engage in business there. We wish him every success in his new venture. Mr. Morris has for many years been closely identified with the active militia in this district, having filled the position of Major and Lieut. Colonel since 1867. The speech of Rev. Mr. Wilson, in r sponse to the toast, "The Clergy," was a feature of the evening. He referred briefly to his experiences in the community since his arrival, nine years ago, and, in view of the fact that he was soon to go away, said wherever his place of abode might be in the future he could not but retain pleasant memories of Miramichi whose people of all classes had treated him so kindly in their warm friendship. He als referred to the kindly intercourse that had existed between the other members of the clergy and himself, from the Bishop Chatham downwards through the grades, and he thought it should be a matter of general congratulation that the spirit of the community made such a state of things

We have not the space at our disposal to devote to even a sketch of the other speeches and indeed it is not necessasy, the occasion being simply one which everybody enjoyed, and for the expression of sentiments appropriate to it. Some of the speakers indulged, to a small extent, in political allusions, but only sufficiently so to give variety to the proceedings. These, probably, know now that St. George's is not a good day for politics, and they will govern themselves accordingly next time. We ought to mention that our esteemed townsman, Mr. Neilson has almost abjured his Scottish nationality, since he visited England last season and his reasons for thinking England and the English superior to any other country or people were given in an interesting manner and received enthusiastically by the Englishmen present. ### Richibucto Letter.

To the Editor of the Miramichi Advance.

SIR:-I fully agree with the sensible re narks of your correspondent "Mac" adverting to the dissensions and jealousies in Kent. As a means of ameliorating these matters the Municipality Act could be taken advantage of with good results. You are aware that the French are largely in the majority in this County, yet when they make a demand for their rights the minority are never backward in opposing the majority. Within a few weeks our electors will be called upon to choose

Councillors for the County Council. -Could it not be possible for meetings of both English and French to be held and candidates chosen for the different parishes. The French, I am informed, are willing to allow one English Councillor, each, for Wellington and Dundas if one Frenchman be chosen for Richibucto. Why the French should make such a concession to this Parish deponent saith not, as they are in the majority in Richibucto. If our leading merchants, lawyers, and other men of standing would convene and talk matters over, appoint committees for each Parish in the County to select candidates. there would not be the slightest difficulty in getting the best men, both of English and French. There is too much apathy among prominent citizens who ought to take more interest in public matters .-They remain with arms folded (as it were) when they should be moving actively around, and when the meetings and elections are over, and the wrong men have been chosen, and tax bills come in, the hue and cry raised by those too heavily taxed proves of no avail. Unless more publicity be given to the provisions of the Municipal Act the first election will be held without very many in the County knowing of the existence of such a law, and some of our magistrates in the distant parts may even venture to attend the June
