### The Weldford Mystery.

The death of James Kingan of New York at Weldford Station continues to be a subject of painful interest with the pub-lic generally. The inquest is not yet closed and we are informed the case is to be worked up by detectives until Monday 9th April, when it will be resumed. Thos. D. Kingan, brother of the deceased, is said to be under the impression that a murder was committed, and while the immediate circumstances rather justify that opinion all the facts seem to render the suicide thery the most probable. #### Railway Bridges.

The Springfield Republican says: The fact that the suspension bridge at Niagara Falls has been closed for examination and repairs is encouraging, not alarming as some seem to think. It is the bridges that do not get examined of which there should be alarm. Engineers continue to make confessions which must be in some cases a relief. Fredrick H. Smith, of Baltimore, writing to the Railroad Gazette. says that riveted bridges are confined mostly to New England and New York, being "on old lines of road which have been through all the grades of accident until they are manned by experts and their thought well considered—the latter road departments as in Europe are under shown in the somewhat unusual plan of as could reasonably be expected of the control of engineers; that these engi- keeping constantly on hand for some eight Wardens in the same proportion to neers have studied the problem of bridge floors and the much more important one time after the inception of the company above this, in which I am the only Warden NEIL TAYLOR, who was t ied for being of approaches to bridges, which latter problem is hardly yet taken hold of in the for the period ending .31st December West and South." In your issue of March 1st of a dangerous character. The advice of "Enquirer" under date of Feb. 18th duces no happy results. Why? The syswanted to know if the financial state of tem is debilitated and needs to be built up the County was ordered to be printed and if so why it had not been. I can say that the accounts were ordered to be printed and distributed in the several Parishes of the County. However up to this time nothing of the kind has been seen by ratepayers. Whoever is responsible for having the work done, has had time enough since the meeting of Council in Jan. last. Is the order of Council to be ignored and the people's representatives at Bathurst to be put down in that way? There is only one paid official, and I presume he has all the cents' worth has cured an old standing accounts in hand and it is quite apparent that the accounts should come from that quarter. I am quite satisfied that the order was made as I have heard several of the Councillors say so. What can be the motive for keeping back the accounts? The ratepayers are well aware the County is in debt, so the sight of the accounts won't frighten them. In future they want to know where their money goes to and nothing is more reasonable. I hope in a short time the ADVANCE or some other office will be troubled with printing the accounts of Gloucester at the expense of the Ratepayers. If it is not done there will be little use in the Council making orders-but let the gentleman who seems to assume the right to disregard such orders run the whole business himself.

next, at Twelve o'clock, noon, on the premises ! Chatham, for payment of the debts of the late John Fitzpatrick, of Chatham, in the County of Northamberland, merchant, deceased, in consequence of a deficiency of the personal estate of the deceased for that purpose, pursuant to license obtained from lows, viz: the Judge of Probates of said County, the property herein described. The above property is bounded as follows: In front or North by Water Street; on the westerly side by Henderson Street; on the easterly side by the Manse property, formerly owned by the late Dr. Key, and on the southerly side by lands in possession of John Bell. This property is centrally situated and so convenient for business of a general character that it stands unrivalled. The house is two suitable for any one erecting a new house. One Cart, Two Iron Ploughs, Two Double Harrows, TWO HUNDRED BUSHELS OATS. stories in height, with pitched roof, and ell attached of same height; the size of main building is 42x32; the ell is 30x20. Both main building and ell are

finished inside and out-except the attic. On the first floor there is a well-finished store fronting on Water Street, and a conveniently fitted up barroom, entrance on Henderson street; the e is a spacious hall, with entrance from Water street : also, parlor, sitting and dining rooms. Conveniently attached to the dining room are suitable pantries and kitchens. A handsome staircase leads from front hall to second floor; here you will find a room 22x22, on the east side, suitable for a handsome drawing room. All around and through very commodious hall leading into the ell, you will find light, airy bedrooms to the right and left, commanding a fine view of our harbor and the surrounding country From the ell a staircase leads to the

attic; in it, under the main roof, are four bedrooms laid off, lathed and ready for plaster, and doors hung. In the ell there is space for two more rooms if necessary. The cellar extends in part under main house-entrance from out and inside. Outbuildings are all conveniently situated. A good well of water also on the premises. Large and roomy barns for stabling are also on the premises well-arranged for a good livery; plenty of yard room. In fact it is a first-class establishment for a hotel, livery and mercantile business combined.

TERMS. Half the purchase money down; remaining half in six months with interest and security. THOS. F. GILLESPIE, Administrators. WM. WYSE, Auctioneer.
