Viceregal Vanities. Governor-General Aberdeen appears

to be making mistakes which indicate that unless he pulls himself together he will not be the most successful and popular viceroy that the Dominion of Canada has had. He seems to have an over-anxious desire to popularise bill prepared by Councillor Smith and himself, and in working it out does things which indicate that he underestimates the sturdy common sense of the people of this country, who, while they can "keep their faces straight" are, nevertheless, quietly amused over a number of little social and other tricks he has performed, and which would have been considered masterful emacy a couple of hundred years ization and

Board into an arena for the discussion of little questions of parish politicswhich might be better settled in their proper place - will learn appreciate the old adage: ne sutor ultra crepidam. It is not to be wondered at that in a town of the size and importance of Chatham, which is, perhaps, the largest in the civilized world that is without corporate organization, eager and fresh young men should avail themselves of their first opportunity to take advantage of a special chance to speak for, not only themselves and their immediate friends, but the whole community. The historical "three tailors of Tooley Street," who set out with their resolution beginning with the words "we the people of England,

equalled in enthusiasm and their own measure of their representative functions, the gentlemen under whose auspices and encouragement the newly organized Board of Trade of Chatham, acting under the Dominion Boards of Trade act, was honored with the reso lution respecting a fire engine house, which resolution affirmed that they were "expressing the views of the "property-holders of Chatham." Of course, the Board, which did not an

ticipate any such circus and, as yet, does not embrace all the property holders, decided, after the fun was over, to "sit upon" the effervescent

youths, and it merely, by the medium of an amendment, expressed its own views. It thus showed that the new important organization cannot be made use for ulterior purposes. At the same time, its members are tolerant, even o the mistakes of their confreres, for the purpose of encouraging the activities of the younger element of their guild, and we all realise that a big mistake at the start-especially as its consequences were averted by the level-headed element-will be a valuable lesson to al

National Guard in 1862; was honorably

lischarged in 1869; afterwards joined the

Uniformed Battalion, Seventh regiment,

N. G.; in 1881 he was unanimously elected

captain of the Second battery, known at

that time as the "Washington Greys."

The battery flourished under the adminis-

tration of Captain Earle, and was widely

known all over the country as "Earle's

Battery." Captain Earle was appointed

chief of artillery with rank of brigadier-

general by Governor Hill in 1889, and was

reappointed by Governor Flower last year.

General Earle is a member of the Society

Society of Colonial Wars, Society of the

War of 1812, member Veteran Battalion,

Seventh regiment, N. G., and the Old

Guard, Naval Reserve Association, and

he is one of the premoters of the Naval

Reserve. He was prominent for a number

of years in Grand Army circles, as chairman

and treasurer of the Citizens' Auxiliary

Committee, G. A. R. He was decorated

by the Venezuela government with the

order of the Bust of the Liberator. General

Earle's period of service, covering more than

thirty-two years, expired with the expira-

tion of Gov. Flower's term. It is for this

that he has been decorated. He received

a full and honorable discharge under the

signature of Roswell P. Flower, as governor

The United States consul at Newcastle-

on-Tyne has called the attention of the

state department to a notice published in

influential English journals calculated to

discredit the character of American seeds

abread, and to lessen the market for

referred to, which is headed "Seeds or

Weeds," declares as very large quantities

of American clover seed find their way into

Europe attention ought to be very forcibly

directed to the results of a very exhaustive

investigation made recently by the Ontario

Agricultural Station, which confirms those

of several other experiment stations in the

To say nothing of Canadian exports, the

Inited States exported in the first 9 months

of 1894 over 13,000,000 pounds of clover

seed at a value of about 10 cents per pound.

This and also much of that sold generally

in North America is described as "one of

the most impure seeds now on the market."

The examination showed that in cleaned

alsike there were no less than 9 per cent.

of weed seeds, chiefly sorrel, while in red

clover there were 6 per cent. In the case

of alsike it seems that in every half ounce

of seed there were no less than 1.800 weeds

no less than 700,000 weeds. This is not

the whole exposure, for it was found that

some of the more unscrupulous seedsmen

make a practice of grinding up quartz.

If you only knew what was in the air:

health ?Yes! but also coid, coughs, influenza

and bronchitis for those of weak throat and

lungs at this season of the year. Have a

Sous of the American Revolution.

On Thursday last the strike at Springhill reached an amicable settlement and work was resumed Friday morning. The company's first arrangement was for the men to work from 6 a. m. to 6 p. m., but this the men refused to do. The company made the following arrangement, which the men adopted at least for a time: They commence work at 6.30 a. m., the first shift to work until 12 30 p. m., then the second shift will work from 1.30 p. m. until 7.30 a. m. The men are rejoicing that the grievance

Hon. M. J. Power, ex-Speaker of the Nova Scotia Legislature, died last Thursday afternoon. He was born at Halifax on April 23, 1834, his parents being natives of Waterford, Ireland. He received his education at the Halifax Union Academy, was a prominent representative of the Roman Catholics in that city and civic, local and federal affairs. He sat years in the Nova Scotia

Melvin Hayward, of Ashland, N. B., while working in the woods, last Thursday, was killed almost instantly by one of the logs, which he was hauling, striking him in the side. He was making a turn when one A late Havana cable despatch quotes of the logs came in contact with a stump, petatoes at \$3.37 1-2 to \$3.62 1-2 gold per from which it rebounded, striking the unfortunate man a terrific blow, rendering him unconscious. A doctor was immediately summoned, but on his arrival found life extinct. Deceased was a widower 65 years of age.

Toronto has had a second big fire. The first occurred on Sunday, 6th inst. and ing property valued at nearly half a million sprung up at the spot where the former London grand jury says that a fighter may fire ended and destroyed about \$1,000,000 equipment insufficient for the city's growing requirements, and intimated that rates would be increased, the city has decided to add four additional steam fire engines to

> the Parish of Weldford, Kent Co., have was the death of John Morton, and a few days afterwards, on December 28th, his brother William, (who attended John's funeral,) died. Then followed in rapid succession the death of three of William Mrs. Rufus Beers, a daughter, who was buried on the 6th inst., and James Morton. now dangerously ill. There is not a more worthy and highly regarded family than the Mortons in Weldford parish.

A duel was lately fought in Texas by Alexander Shott and John S. Nott. Nott was shot and Shott was not. In this case t is better to be Shott than Nott. There was a rumor that Nott was not shot, and Shott avows that he shot Nott, which proves either that the shot Shott shot at Nott was not shot, or that Nott was shot notwithstanding circumstantial evidence not always good. It may be made to appear, on trial, that the shot Shott shot shot Nott, or, as accidents with firearms are frequent, it may be possible that the shot Shott shot, shot Shott himself, when the whole affair would resolve itself into its original elements, and Shott would be shot and Nott would be not. We think, however, that the shot Shott shot, ahot not Shott,

but Nott : anyway, it is hard to tell who A Montreal despatch of 7th inst., says district on that day a lengthy discussion took place on the proposed new hymn book. After many ministers had given opinions. Mr. Wm. Drysdale, the wellknown book publisher, arose and declared that Charlotte Elliot was as much inspired when she wrote the hymn. "Just as I Am.

as was David when he wrote the psalms. "That is an outrageous statement from ar elder of a church," said Rev. Dr. MacKay. Mr. Drysdale repeated his declaration. "It is an insuit to the church," retorted the doctor, and he then asked the moderator

Mr. Drysdale, when requested by the

to ask Mr. Drysdale to withdraw.

moderator, explained that he meant that Charlotte Elliot was under the influence of he same God when writing as was David. Dr. MacKay agreed to accept this, but varned Mr. Drysdale of the position to which he committed himself in making such statement as the first, St. John Globe of 9th says "The talk of Fairville is the racket that occurred Sunday

evening at the Church of the Good Shepherd breaking up the service. Two prominent members of the congregation who take up the collection had a dispute at the morning service. One wanted to carry both collection plates up to the minister. The other thought each should take up his own plate. Before the evening service the discussion was renewed, some members of the choir and congregation joining in the dispute. The talk between the two parties got very lively. stating that there is little doubt but that Finally the pastor determined to stop the the privy council will sustain the appea unseemly affair. One of the things he did of the minority of Manitoba from the was to order the choir to go home. They judgment of the Canadian Supreme Court, refused and he then gave them five minutes wherein the latter decided that the Roman to leave. At the end of the time they were still on hand, so Rev. Mr. McKiel entered the church and dismissed the congregation

without holding service.

Mr. Emile Dube, of River du Loup, P. Q. thought he had a grievance against the officers of the Tamiscouata Railway Company and took occasion to air it before the railway committee of the privy council on the 7th of December last. He claimed the officials of the railway were doing a tie business and prowling about the streets devouring the discriminated against him in the rates in order to squeeze him out. He was heard by the committee, but the only thing of particular importance elicited at the investigation. we are informed, was that Mr. Dube, by letter (which was submitted as evidence) attempted to buy from the officials a monopoly of the tie business on the road, and thus squeeze the farmers who made the ties, as well as any one else who wished to engage in the railway tie business, instead of (as be claimed) being squeezed himself.

It was also shown, we learn, that the rates charged by the Temisconata Railway were reasonable and as low as any of the lines in The details of the massacre at Port Arthur the province. The finding of the committee Christmas Portraits, was that no discrimnation existed, - Quebec Chronicle.
