Hon. Mr. Pugsley, who was, practically, the unanimous choice of the Liberal-Conservative convention of Kings county on Thursday last, seems sure to win...

It is stated that a delegation of Liberals from the united counties of Queens and Sunbury recently waited upon Hon. A. G. Blair, Attorney General and leader of the local government...

Dominion candidate of their party for that constituency in the next election, and that he not only declined but intimated that it was not his intention to be a Dominion candidate for any constituency.

Mr. Blair's retirement from his present important position would be a matter of general regret, for he is admittedly an able leader and the people naturally have confidence in the government of which he is the head.

There is, however, an ever-increasing recognition amongst the people of the necessity of having their ablest and most-experienced public men at Ottawa, and this feeling is predominant in the Maritime Provinces especially.

The phenomena of history, says Mr. J. W. Powell in Science, are studied from five great classes of records, which may be called the Stone Book, the Rain Book, the Tomb Book, the Folk Book, the Scripture Book.

Strasburger, an authority on vegetable biology, finds transpiration to have much to do with the size and shape of plant leaves, and deduces the general law that the more sunlight and the drier the atmosphere the thicker and smaller the leaves will be.

Rev. Dr. Carman, long before the late St. John Thompson's death, made several savage onslaughts upon him, and it was with some surprise that people to whom the relationships between the great Methodist Bishop and the ex-Metodist premier were known...

That the separate sexes of flowers is a mere question of nutrition, as first suggested by an American botanist some twenty years ago, is now the accepted doctrine of botanists, according to The Independent.

In Caesar's time, the auroch, or European bison, existed in great numbers throughout Central Europe, but in 1872 the species had been reduced to a herd of 528, confined to one forest under Russian protection.

The modern conception of the universe itself is based on the molecule. This is the smallest mass into which a substance is capable of being subdivided without changing its chemical nature...

Speaking of the matter to a newspaper correspondent Sir Mackenzie said: "How the story gained currency I cannot say, but I presume that it originated from the fact that a number of masses were celebrated in accordance with the forms of the Roman Catholic faith, to which Protestants could object, as with Catholics is simply a matter of doctrine."

acknowledgment from him, it seems to assume that he is again on his way path as an out and out politician in the liberal camp. With an adherent of his own church. With a however, he will be obliged to make some new use of his religious ammunition.

Advances Scientific Miscellany.

RELIEF EFFECTS FROM PHOTOGRAPHS.—THE FIVE BOOKS OF HISTORY.—INFLUENCE OF TRANSPARATION IN SHAPING LEAVES.—SEASONICKNESS DUE TO LIGHT.—FLOWER SEX DETERMINED BY NUTRITION.—THE PASSING OF THE ATROCH-MOTION OF MOLECULES MADE VISIBLE.

Two new methods of obtaining the stereoscopic effect have proven successful. In ordinary stereoscope, two photographs, taken from slightly different standpoints, are viewed together through two lenses, which combine the pictures into a single image giving the impression of solidity or relief.

The second process is the somewhat different one of Anderson, of London, who employs polarized light instead of color. This light passes through certain crystals and when they are turned at certain angles are used as spectacles, the two pictures, each thrown on a screen by the light of that kind that will pass through only one of the crystals, are seen as a single one in solid relief.

and called later pedis—has since been found to be common to all minute particles of solid matter. Vermilion, gamboge and pumice stones are especially active, particles larger than 1-5000 of an inch remaining inert.

Provincial Legislature.

FREDERICTON, 13th Feb.—Dr. Stockton's "one man one vote" resolution came up for discussion, which was supported by the usual arguments and claimed that as a paper supporting the Attorney General was in favor of it that gentlemen should follow his advice as it was in accordance with the policy of the Dominion Liberals.

Mr. Blair committed the bill respecting the property of married women. Agreed to with amendments.—Adjourned.

FREDERICTON, Feb. 16.—Hon. Mr. Mitchell presented report of St. Basil hospital; also return of Provincial Marine Insurance company.

Hon. Mr. Mitchell introduced bills aiding an exhibition in the city of St. John, and providing for the inspection of cheese and butter intended for export; Hon. Mr. Emmerson, further amending the N. B. Medical Act; Mr. Powell, relating to the university of Mount Allison College.

Hon. Mr. Blair committed the bill amending law relating to the solemnization of marriage.—Mr. Baird, chairman, Hon. Mr. Blair, in explaining the bill, said he had not consented to bring in this measure unless it had been made to appear that the position and duties of the commissioners and staff officers of the Salvation Army were substantially the same as those of clergymen and ministers in the churches and religious denominations mentioned in the first section of chapter 71 of the Consolidated Statutes of Solemnization of Marriage.

Hon. Mr. Mitchell presented the petition of the St. Stephen branch of trade getting that eastern standard time be made the legal time in New Brunswick.

Hon. Mr. Mitchell, with the unanimous consent of the house, moved, seconded by Mr. Lablanc, that the public accounts for the fiscal year ending October 31st last, together with the auditor general's report, be referred to the public accounts committee.

Dr. Stockton said he had no objection to the motion except that it should have been made a week ago.

Hon. Mr. Mitchell said the matter had been overlooked, but he intentionally. The chairman of the public accounts committee had called his attention to the fact that the accounts had not been referred to the committee, and his (Mitchell's) present motion was intended to get the accounts before the committee without further delay.

Hon. Mr. Blair committed a bill respecting the property of married women. Mr. Flewelling in the chair. Progress was reported with leave to sit again.

Mr. Powell gave notice of the following motion: Resolved, That in the opinion of this house the offices of judge of probate and registrar of the Dominion courts should be abolished. The duties now performed by the judges of probate should be performed by the judges of the courts, without any fees other than travelling expenses, and all other duties and all duties of the registrar should be performed by the clerks of the courts, and the fees of the registrar should be paid to the clerks of the courts.

Hon. Mr. White introduced a bill to amend chapter 60 of Consolidated Statutes.—Adjourned.

FREDERICTON, Feb. 15.—Dr. Stockton, seconded by Mr. Smith moved his resolution for the production of all correspondence between the executive government and the government of Canada with respect to the reservation by the lieutenant governor for the significance of the governor general's signature of an act respecting the use of tobacco by the judges of the courts.

Dr. Stockton said the resolution raised an important constitutional question. It was quoted from an order in council passed by the dominion government in 1832, which declared it to be at variance with the principles of constitutional government for the lieutenant governor to reserve a bill for the pleasure of the governor general. He understood that a similar reservation was made in 1891 of an act passed relating to government houses and grounds, in respect to which correspondence had passed between the lieutenant governor and the governor general. It was important to know whether the authority of this legislature expressed by an act passed with all due formality could be thwarted by the advice of the executive given to the lieutenant governor, by that means throwing the responsibility of enacting a law upon the same subject upon the dominion government.

the project. Come what may of it, the Herald has displayed great foresight and enterprise in this matter."

Mr. Mitchell's amendment was carried the vote being: Yeas—Blair, Mitchell, Emmerson, White, Dunn, Gagan, Lewis, Harrison, Martin, Russell, Siverwright, Mott, Killam, Flewelling, Scott, Baird, Dibble, McLeod, Robinson, Venot, Dibble, McLeod, Wells, Ferris, O'Brien (Charlotte), A. N. B. Stewart, Stockton, Phinney, Shaw, Smith, (St. John), Alward, Atkinson, How, Atkinson, Parley—11.

Mr. Blair committed the bill respecting the property of married women. Agreed to with amendments.—Adjourned.

Hon. Mr. White introduced a bill to amend chapter 60 of Consolidated Statutes.—Adjourned.

FREDERICTON, Feb. 15.—Dr. Stockton, seconded by Mr. Smith moved his resolution for the production of all correspondence between the executive government and the government of Canada with respect to the reservation by the lieutenant governor for the significance of the governor general's signature of an act respecting the use of tobacco by the judges of the courts.

Dr. Stockton said the resolution raised an important constitutional question. It was quoted from an order in council passed by the dominion government in 1832, which declared it to be at variance with the principles of constitutional government for the lieutenant governor to reserve a bill for the pleasure of the governor general. He understood that a similar reservation was made in 1891 of an act passed relating to government houses and grounds, in respect to which correspondence had passed between the lieutenant governor and the governor general. It was important to know whether the authority of this legislature expressed by an act passed with all due formality could be thwarted by the advice of the executive given to the lieutenant governor, by that means throwing the responsibility of enacting a law upon the same subject upon the dominion government.

Hon. Mr. Blair did not know whether the hon. member merely wished the assurance of the government that the correspondence, if any, would be produced, or wished to provide a lieutenant governor's advisers to advise him as to the constitutionality of any bill that might pass the legislature. He (Blair) wished to take direct issue with the view thrown out by the hon. member. It was perfectly clear that the hon. gentleman was wrong if he held the idea that for the advisers of the lieutenant governor to advise him as to whether in their opinion any bill which passed the house contravened his proper powers, was unconstitutional. This view was held by the hon. member. Messrs. Blair and Stockton but at length Hon. Mr. Blair carried his point and Mr. Stockton agreed that if the attorney general would bring down the papers without the formality of address he would withdraw the motion.

vision for the sinking fund in connection with the issue of bond bonds will be supplied during the current year.

Mr. Mitchell's amendment was carried the vote being: Yeas—Blair, Mitchell, Emmerson, White, Dunn, Gagan, Lewis, Harrison, Martin, Russell, Siverwright, Mott, Killam, Flewelling, Scott, Baird, Dibble, McLeod, Robinson, Venot, Dibble, McLeod, Wells, Ferris, O'Brien (Charlotte), A. It was perfectly clear that the hon. gentleman was wrong if he held the idea that for the advisers of the lieutenant governor to advise him as to whether in their opinion any bill which passed the house contravened his proper powers, was unconstitutional. This view was held by the hon. member. Messrs. Blair and Stockton but at length Hon. Mr. Blair carried his point and Mr. Stockton agreed that if the attorney general would bring down the papers without the formality of address he would withdraw the motion.

thereof, also by striking out the word "the" in line 9 thereof and inserting the words "such person."

Notwithstanding anything contained in any act of Assembly to the contrary it shall be the duty of the Assessors in any city, town or parish in this province to assess the real and personal property owned by the several owners of such city, town or parish in this province to assess the real and personal property owned by the several owners of such city, town or parish in this province to assess the real and personal property owned by the several owners of such city, town or parish in this province.

Mr. Dana committed a bill incorporating The Mutual Fire Insurance Company of Canada. A. Russell, chairman, Baird and Smith, St. John were opposed to the bill, regarding it as dangerous legislation and not providing security enough to insure.

The first session of the bill was carried by a vote of 16 to 7; the names were not called for.

On motion of Mr. Baird, seconded by Mr. Dibble section six was amended so that neither the auditor, secretary nor treasurer can be a director.

Recess. After supper the bill was further considered and discussed by Messrs. Siverwright, Blair, Stockton and Alward, and progress was reported with leave to sit again.

Adjourned.

Hon. Mr. Blair renewed readers the hair lustrous and silken, gives it an even color and enables women to put it up in great variety of styles.

Starting in the Western States. A despatch of last Thursday from Lincoln, Nebraska says: Notwithstanding the appointment by the governor last week of an inspector to keep records of food and fuel intended for the relief of NEBRASKA'S DESTITUTE from unnecessarily accumulating on side tracks, and the selection of a senatorial committee to investigate the commission from going to sleep, compulsory laws to relieve many worthy destitute continue to pour into Lincoln. The inspector reported to the governor that the great quantities of food remained undistributed in all parts of the state, even with the frightful blizzard raging last week, entailing unusual suffering on the part of the people.

Several cars loaded with provisions have been looted near there by farmers desperate with hunger. The movement of fuel, food and clothing was not materially facilitated. Religious, political and other matters of importance are figuring heavily in the distribution of aid. The Nebraska conference of the Evangelical Lutheran Synod closed its annual session yesterday at Oakland. A great part of the time was taken up in the discussion of the relief work in the different western settlements. A host of resolutions came before the conference regarding PARTIALLY IN THE DISTRIBUTION.

These complaints were of so severe a nature that they could not be ignored by the conference. A special committee was therefore appointed to assist the people in making their claims known, and to assist in the distribution of aid. This is not intended as an opposition to the state commission, but only to facilitate the work. Yet on the floor of the conference it was stated that the relief work in the various western settlements was not materially facilitated. A host of resolutions came before the conference regarding PARTIALLY IN THE DISTRIBUTION.

There have been some twenty carloads gathered in from the east to this country that have never reached the coast. Unless further assistance is rendered or more relief is sent here before winter sets over.

A RELIEVED COUNTY. White Buffalo county has recently received a liberal supply of provisions and fuel from the state relief commission. There is considerable suffering in the county and across the river in the States, where state commission has not yet sent aid, are beseeching almost desperately for aid. Numbers of famished farmers went to Kansas yesterday from that county, and seeing the relief supplies coming to help the destitute, \$70,000 WORTH OF RELIEF FOR ONE COUNTY.

A conservative estimate made by parties acquainted with the situation and who also know the amount usually required have estimated that it will take about \$70,000 of feed and grain to supply the families of Buffalo county with what they need for next season if the winter is not too severe. There is now a serious problem to be confronting every farmer in the county.

WITHOUT FUEL, FOOD OR CLOTHING. Reports of the blizzard do not indicate that the intense cold outside any deaths, but from all reports the serious conditions of suffering of almost all the destitute, food and clothing.

Referring to the starting condition of the people in many sections of the United States and the railway and other strikes which made the lowering of business together with the enormous deficit in the National treasury, a leading republican paper says: "What has been the cost of a democratic victory so far? The average price of railroad stock has declined \$18 per share since January, 1894. The aggregate of \$200,000,000 of bonds probably half as much. The shrinkage in that kind of property, not far from the aggregate of \$100,000,000, has been more than \$4,350,000,000. But two years ago less than \$4,350,000,000 of property in the hands of savings banks was increasing at the rate of about \$90,000,000 a year. 4,500,000 depositors, and at the same rate the savings of all wage-earners would be not far from \$480,000,000 a year. Not the last two years have been at the saving bank losses instead of gains, except for interest on the savings deposits. These items only give some glimpse of the enormous loss sustained. The entire addition to the wealth of the country two years ago was more than \$1,250,000,000 a year, but there is every reason to believe that since that time there has been no addition, and that the aggregate loss in other ways is still larger. It is not more than \$2,500,000,000 that the loss does not measure nearly the whole of the loss in actual value of property. The aggregate loss in the savings banks was more than \$4,350,000,000. A rough estimate of the entire decrease in production of wealth can be drawn from the monthly payments made by the savings banks. These payments were \$22,450,000,000 in twelve months after they were \$20,000,000,000. It was introduced the present bill because it would more nearly meet the wishes of the Union as well as being more in accord with the petitions which would be laid before the House. The text of Mr. Emmerson's bill is as follows: Be enacted by the Lieutenant Governor and Legislative Assembly as follows: 1. Notwithstanding anything contained in 52 Victoria, chapter 3, section 21, every wage-earner who is a resident of this province shall be entitled to a pension of five pounds per annum, to be paid by the State, provided he is unable to support himself by his own industry, and is not otherwise legally incapacitated, shall be qualified to vote in any election for members of the Legislative Assembly. (a) Who shall in his own right hold real estate to the value of one hundred dollars, or personal property of real or personal property together to the value of four hundred dollars in any electoral district, provided such person is duly registered in the Voters' List for the electoral district, and is, at the time of tendering his vote the owner of the real estate or personal property, or real and personal property together as aforesaid in such district, or (b) Who shall be assessed upon income to the amount of four hundred dollars in any electoral district, provided the person has assessed upon income as aforesaid and provided such person shall have continued to be a bona fide resident and domiciled in the electoral district for the year ending being assessed as aforesaid until the time of tendering his vote. 2.—Section 23 of the New Brunswick Electoral Act of 1871 is amended by striking out the word "male", in line 3

Strangers Always Made Welcome.
