FIRE IN KENT Co. : . On Sunday last Mr. J. F. Atkinson of Kouchibouguacis had the misfortune to lose his residence and the contents by fire. The house had been occupied only a short time. Mr. and Mrs. Atkinson were spending the day at Richibucto. The origin of the fire is not known.

FISHING TACKLE:-Mr. Street, of the Newcastle Drug store has a line of fishing tackle to suit the requirements of all grades of anglers-from the eager boy who fishes with a worm and "slings them out," to the regularly ordained sportsman who wants only the standard flies, finest sick lines, and leaders and split bamboo rods, and often wishes he had the boy's luck.

FAIREY, HUMPHREY & Co.-The London firm, Fairey, Crockford & Co., of which Mr. Richard Fairey, formerly of Chatham, was senior member, has been dissolved, Mr. Crockford retiring. Mr. Fairey and Mr. T. Much sympathy is manifested for the bereaved husband, who, after fifty-two years of married life, is called upon to mourn a faithful and loving wife, who also leaves behind quite a large circle of children and grandchildren to mourn their loss.

Loss of the Brig "REAPER" :- The brig Reaper, bound to Bay Chaleur from Jersey, with salt and a general cargo, has been lost near Channel, Nfld., during a dense fog. The chief officer and three seamen were saved. Captain Gibb, two seamen, Mourin and Pepper, and a passenger named Rosin were drowned. Nothing whatever of the vessel, cargo or other property was saved. The spot where the Reaper was lost is a particularly dangerous one.

To BURN THE SAWDUST :- Mr Alex. Gib. son has decided to make some improvements in the furnaces at his mills at Marysville so that he will be able to use for fuel the large quantity of sawdust that now goes to waste. Mr. Michael Mooney has been engaged to do the work. The changes will effect a large saving and will prove a benefit besides, as much of the waste sawdust has hereto fore gone into the Nashwaak stream.

### Bathurst School Case.

On Tuesday of last week, which was the last day, for the present, in the Equity hearing of the Bathurst School case, the following were the most important features of the testimony taken :-

Samuel Bishop, son of Dr. W. P. Bishop, testified : I am nineteen years old ; attend ed Grammar school department in 1890 remember Mr. O'Brien, trustee, coming to school and in the presence of Mr. Mersereau, the inspector, he told us that any one who didn't go to the Convent building for the 7th grade would have to go to a lower grade or stay at home. I was in the 7th grade. I answered that I would not go to the Convent, nor into a lower grade, that I would stay at home first-which did do for two weeks, until matters changed -and I went back to the Grammar department into the 7th grade.

To Mr. Currey-Witness said he passed a full examination at, the Business College, St. John, but did not get a diploma, as he had not tried for one. After Mr. O'Brien stated in school what I have related, three scholars of the ten in the Grammar department staid at home, three went to lower grades, and three or four to Convent; they afterwards came back to the Grammar de-

The present number (six) of teachers to be retained—three in the Grammar school building and the other three in another building rented by the trustees for the building rented by the trustees for the purpose, so long as the average daily attendance of pupils shall not fall below 150 in the district and 75 in each building; that as soon as practicable the whole number of pupils in the district shall be equally divided between the two buildings, and that after the close of the first term of 1893 Win Ferguson, salt all the pupils in the 7th grade and upwards shall be registered in the Grammar school building; that the departments in both buildings shall be conducted strictly in conformity with the school law and regulations. Mr. O'Brien then stated he and other trustees had acted in accordance with the requirements of letter and the schools had since been conducted in conformity therewith. This being the conclusion of plaintiffs' case the further hearing of the matter stands till 13th August next.

### The Early History of the Steamer Miramichi.

One more round trip of the Miramichi between this city and the Gulf ports and the staunch old boat's life work will have ended. The quaint side-wheeler of the fashion of a generation ago will give place to the modern twin screw steamship Campthe canal. At Tate's dry dock the new boat will be put together-for she was cut in two to enable her to get through the locks-and a few minor alterations made, She will commence her trips on June 24. Captain Anibal Bacquet, Mr. Lawrence Loel, first mate, and Mr. C. Lavoie, chief steward, now of the Miramichi, will take their respective positions on the new vessel. All three have served upon the Miramichi since her first arrival in these waters twenty-

three years ago. The balance of the crew will also be shipped on the Campana. The early history of the Miramichi is unique, inasmuch as she was designed for an entirely different trade from the peaceful one she has followed since the early seventies. She was built at London, England, in 1864, by J. Penn, and was christened the Teaser. For whom she was originally built is not known. This was kept a secret, no doubt, for the reason that her intended trade was of a semi piratical nature. She was

DESIGNED FOR A BLOCKADE RUNNER between the southern ports of the United States and Europe. In that year-1864the war of the Rebellion was at its height and the Navy of the United States had completely blocked all traffic between the rebel ports and Europe. The speed of the Teaser was about 16 miles per hour, which was accounted very fast in those days, and it was thought that she could out-sail the ships of the United States navy. She was captured, however, on her trip, as she was trying to get out of a blockaded southern

port, with a cargo of cotton. After the close of the war in 1865, she was sold by the United States Government. and for a time was employed in the Gulf of Mexico, between New Odeans and Galves. ton. Coal being very expensive this did not prove a paying investment, and she was laid up in New Orleans until 1872, when her present owners, the Quebec Steamship Company, purchased her. Alterations, such as the deck houses, etc., have since been made. Her boilers were renewed six years ago, though the engines are the same as when she was built. She has made about 300 round trips to the lower ports, which aggregate over six hundred thousand miles, and in all her service has never lost a life. Nearly all the distinguished Canadians and English and American tourists have at one time or another taken a trip on the Miramichi.
