THE OLD BEAU'S STORY.

I have hinted to you that I believed if ever the Old Beau told me his own story it would be the story of stories. There was something about the man through all my acquaintance with him, which had impressed me with the feel ing that his whole life had been one long tragedy. Yet, there was no more genial, companionable man in all the club. He was replete with anecdote, with gentle humor, with the quality that is known as "the milk of human kindness." as you may have gathered from some of these tales that I have told you. Yet, there was a certain grave under-current in the man that had often caused me to wonder at its rousen. While I desired his sterm with reason. While I desired his story, with all the keen avidity that a newspaper man is capable of, I had firmly made up my mind that I would never suggest this desire to him—for I was confident the tale would come of his own accord

the tale would come of his own accord some day. And it did.

In the lighted street in front of the club, I was approached one night by a miserable vagrant who asked me for alms. Not from charity, but because it was the easiest way, I put my hand in my pocket and gave him a coin. As I handed it to him, the Old Beau came down the steps. He paused as though turned to stone when he saw the beggar, and grew all white, like one who is suddenly struck with death. And the beggar, seeing him, stayed the hand beggar, seeing him, stayed the hand that had been stretched forth for the coin, and leered at him and called him jeeringly by name. I stood looking from one to the other, knowing that I was witnessing the culminating scene of a great drama, yet powerless to com-prehend its meaning. After a pause that was, doubtless not more than a moment, but that had spun out infinitely in my imagination, my friend came down the steps slowly, and placed his hand on my shoulder. His voice was quiet, but vibrated with a strange, deep tremor as he spoke to me.
"Do me this favor," he said; "go with this man, find him shelter and food, and whatever else he may need. Do for him all that he asks, for I owe aim a great debt. I will wait for you

He turned, and went slowly up the steps again, while I gave my attention to the fellow before me. I do not need to tell you much of him. He seemed the worst of his class. Dressed in rags, filthy and palsied with drink, he was loathsome in the extreme. He mumbled now; in a maudlin way, and staggered from sheer weakness, I soon saw that his mind was half gone, and that he was ill and miserable. Want and done almost its worst upon him. He easily submitted to being led, and i took him, first, to a placed where he was bathed, and cleanly dressed, and fed. Then, I saw more clearly how little strength was in him, and so we went forthwith to a hospital, and I procured a bed for him there. After the physician had examined him, he told me that the spark of life hung only by a thread. It might be a matter of a few hours; at the most, but a few days, before the end would come. It was far past midnight when I left him, and returned to

The Old Beau was alone in an upper room. A dim light burned on the table, a low fire in the grate. The usual accessories, tobacco and liquors, were notable for their absence.

He looked up when I entered, and I saw that he was still very white. I thought I could detect the signs of a severe mental struggle—a struggle for self control, A sad smile flitted about ais gentle month-a sad smile, yet one that was not utterly without joy. He motioned me to a chair near the grate, and I sat down and waited for him to speak. This he did after a time, "It is a memory from the past," he value of this metal for that purpose. said; "more--a ghost from the grave, That man—that poor wreck and effigy of a man—was the friend of my early days. We loved the same woman,

quarreled for her, and fought. It was in the south and in the time when hot blood carried men to the duelling ground. We fought beneath the arched live-oaks in the Old Parish road below the city where so many of the foolish vonths of New Orleans have met. I ran nim through with my sword, and left him for dead upon the field. I was forced to fly, with my seconds. The physician was a stranger to me, a friend of his. He sent me a paper later, mark-ed with an account of the duel, and the Before leaving I tried to see her—the woman we had fought for. Iknew that

I knew that, for she told ine so in a little note that I have always kept. Nothing can take that knowledge from me. But she said that she could never marry a man who had the blood of another on his hands and on his

I pro-voked you beyond human endurance. compelled you to fight, because I hoped to kill you. When I fell, it would have been only right if I had died. But I lived, saved through the exertions of my physician, and then together we made up that lie, and sent it to you. I knew what that would do. Then, when I was well again, I drank and gambled until poverty and the devil claimed me, whol-

ly; until I became the ruin you now see. I did not think ever to cross your path again, but I am glad that it has happened so. I can die easier for having said this." The Old Beau put his arms about the dying man, and his face down close beside him, and I heard him whisper: "My dear Edgar, let the dead past bury its dead.

We remained with him through the rest of that night, and through the following day, and through the next night. He grew gradually weaker, and his life went out just as the sun of a new day had risen. When it was all over, we went back to the club and there my friend wrote a brief note. "Will you take it to this address," he asked me; "but wait," he added; "you should have the right to read this.'

I had thought to find an old woman -a woman grown old before her time. But I found her in the sweet and full maturity of womanhood. I will not try and tell you of her. But I may say to you that I think my friend has found the Fountain of Youth; for his step is lighter, his eye brighter, his smile more joyful, his voice merrier and his heart more full of the milk of human kindness even than it was before. Yet his gain is my loss, for there are no more cozy hours in the club alcove, and no more stories of the Old Beau.

Tolstoi's Temperance Opera. The news that Count Tolstoi has just written a popular opera is, at a first thought, somewhat startling. One is speedily reassured, however, on learning that the work is significantly enti-tled "The Distiller." Such an appella-tion rudely dispels the idea that the great Russian may at length have strayed from those didactive paths which he has followed so incessantly of late years. Tolstoi, besides being a vege-tarian, is a rigid tectotaler, and has frequently inveighed against the drinking habits of his countrymen.
