[From Miramichi Advance of Oct 11.] Mr George Marquis of Chatham will be looked Mr George Marquis of Chatham will be looked upon as a benefactor of smelt fishermen, sportsmen and others who may have the good fortune to procure stoves of the new pattern designed by him the first sample of which was put together at his well known shop at Chatham on Tuesday afternoon and shipped yesterday to Neguac It is to be used in a goose-shooter's camp at Tabusintac and for that purpose as well as for heating and cooking in smelt-fishermen's shanties it is just the thing It. smelt-fishermen's shanties it is just the thing It is about 20 inches long, 14 inches from front to back and the same from bottom to top. The bottom, top, door and dampers, etc are of cast iron and the sides and ends are composed of a sheet of 16 gange sheet steel It will hold nearly twice as much wood as a star stove while owing to a new and peculiar form adopted in the bottom, it will burn either a small or large quantity of fuel, as may be desired It may also be fitted to burn coal There is a draft for forcing the tire and a damper for lessening the heat at will The top has two pot-holes and these may, by the removal of the dividing centre-piece, which is of the usual form, be converted into an oblong hole for a big boiler or oblong pan Altogether, the new shanty-stove seems to meet a requirement that is more than local, and the cost, \$5, places it within almost everbody's ability to buy it Mr Marquis has just begun to fill orders, and it will be well for those who intend to fish smelts during the coming winter, as well as sportsmen gunners who want to be comfortable and, a the same time, have a stove on which they can do quite a range of cooking to place their orders with

THE GREAT SOUTH AMERICAN

Stomach Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years. It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced into this country by the proprietors and manufacturers of the Great South American Nervine Tonic, and yet its great value as a curative agent has long been known by a few of the most learned physicians, who have not brought its merits and value to the knowledge of the general public.

This medicine has completely solved the problem of the cure of indigestion dyspepsia, and diseases of the general nervous system. It is also of the greatest value in the cure of all forms of failing health from whatever cause. It performs this by the great nervine tonic qualities which it possesses, and by its great curative powers upon the digestive organs, the stomach, the liver and the bowels. No remedy compares with this wonderfully valuable Nervine Tonic as a builder and strengthener of the life forces of the human body, and as a great renewer of a broken-down constitution. It is also of more real permanent value in the treatment and cure of diseases of the lungs than any consumption remedy ever used on this continent. It is a marvelous cure for nervousness of females of all ages. Ladies who are approaching the critical period known as change in life, should not fail to use this great Nervine Tonic, almost constantly, for the space of two or three years. It will carry them safely over the danger. This great strengthener and curritive is of inestimable value to the aged and infirm, because its great energizing properties will give them a new hold on life. It will add ten or fifteen years to the lives of many of those who will use a half dozen bottles of the remedy each year.

Neuralgia,

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous de-

My daughter, eleven years old, was severely a dicted with St. Vitus' Dance or Chorea. We gave her three and one-half bottles of South American Nervine and she is completely restored. I believe it will cure every case of St. Vitus' Dance. I have kept it in my family for two years, and am sure it is the greatest remedy in the world for Indigestion and Dyspepsia, and for all forms of Nervous Disorders and Failing Health, from whatever cause. The Great South American Nervine Tonic Which we now offer you, is the only absolutely unfailing remedy ever discovered for the cure of Indigestion, Dyspepsia, and the vast train of symptoms and horrors which are the result of disease and debility of the human stomach. No person can afford to pass by this jewel of incalculable value who is affected by disease of the stomach, because the experience and testimony of many go to prove that this is the one and ONLY ONE great cure in the world for this universal destroyer. There is no case of unmalignant disease of the stomach which can resist the

wonderful curative powers of the South American Nervine Tonic.

HARRIET E. HALL, of Waynetown, Ind., says:
"I owe my life to the Great South American Nervine. I had been in bed for five months from the effects of an exhausted stomach, Indigestion, Nervous Prostration, and a general shattered condition of my whole system. Had given up all hopes of getting well. Had tried three doctors, with no relief. The first bottle of the Nervine Tonic improved me so much that I was able to walk about, and a few bottles cured me entirely. I believe it is the best medicine in the world. I can not recommend it too highly."

MRS. ELLA A. BRATTON, of New Ross, Indiana, says: "I cannot express how much I owe to the Nervine Tonic. My system was completely shattered, appetite gone, was coughing and spitting up blood; am sure I was in the first stages of consumption, an inheritance handed down through several generations. I began taking the Nervine Tonic, and continued its use for about six months, and am entirely cured. It is the grandest remedy for nerves, stomach and lungs I have ever seen."
