"THE BOYS" must be careful hereafter as to what they talk about in their private and social gatherings, lest their remarks may be given a political significance. The use made of what was said in that tent was a fine example of gentlemanly instinct.

TUESDAY, OCT. 15, 11 A. M. The Convention of N. B. S. S. Association held at Chatham. The first session opened in St. Andrew's Church at 7:30 p. m., with prayer and praise. The service was led by Rev. Geo. Steel, after which the President, Rev. Neil McKay, assumed the chair and gave an address of welcome, followed by Mr. W. S. It always gives us pleasure to direct attention to the good work done by this college. It has served the public for over a quarter of a century, and its work has always been done with commendable thoroughness. Even during the year when the great fire, in which a commercial school could only be maintained in Saint John at the cost of much self-sacrifice, the college was kept in a state of superior efficiency, as those who attended it at that time gladly testify. During its recent years of prosperity, new departments have been added, and new facilities employed, but the same features of thoroughness, fidelity of purpose, and adaptability to the wants of the times have characterized its management during all the years of its history.

A good example of the hearty good will old students have for the college is shown by the following extracts from a letter shown us, which was a few days ago received by an old schoolmate in Saint John from a New York accountant, who writes, after many years' testing, of the value of the training he received. The writer when at the college was a lad only about 17 years old. He obtained a position in New York immediately after leaving the college, and has not only been able to hold his own in New York, but has made a reputation for himself as an expert. He writes that he has a good salary, and, in addition to his regular employment, does a great deal of expert work, for which he is paid \$1 per hour.

After mention of other matters, he writes as follows:—"I would like to advise students who have finished their course of study by all means to hold on to all the books which have been furnished them by college, for after ten years' experience in keeping books for different firms, and in different lines of business, I find new ideas and new methods of simplifying my work present themselves to my mind while looking over the books which I used at college. It would not take \$20 for the old set, but for the reason that I have made that sum several times over since leaving college, which in all probability I would not have made, if I had destroyed them."

As you are aware I spent but six months under Mr. Kerr's tuition, and when I entered, I could not tell a Dr. from a C.; but after leaving the college I immediately took charge of a set of books for a firm in this city doing a business of \$30,000 to 400,000 per year, and since then have done a great deal of expert work in straightening out books and opening new sets.

"My predecessor here is now in Sing Sing for 24 years, having taken about \$6,000 of the firm's money. I was called in to examine the books and smooth things out, and after doing so to the entire satisfaction of the firm, was offered the position I now hold. I can honestly say that I owe what success I have so far met with in this city to the books which I used at college, and if this testimonial is ever wanted, I will be glad to give it."

Mr. S. J. Parsons gave a verbal report from Carleton County. There was no report from Sanbury, Mr. Lucas spoke favorably of the work done in that county, Mr. Latlin of St. Stephen, Mrs. Ferguson Gloucester, and Mr. Reynolds speaking on the subject.
