VERY UNGRATEFUL :- Yachtsman Stewart appears to be a very ungrateful person. He published an ill-natured and magnified account of the carrying away of a mast the other day by reason of the marline with which a stay was attached, breaking in a stiff breeze, It was only a slight mishap which no one but a landsman would think of any importance. His friends are now commenting on his ingratitude in jubilating over so trifling an incident, especially as the owner of the boat it happened on kindly pulled Mr. Stewart out of the water a few years ago when he so awkwardly capsized and sunk his boat in a much lighter wind than that which caused a stay of his rescuer's than himself, went down to the Gregory boat's mast to gave way on Thursday last. | booms, near Hilyard's mill, to look after We dare say however that the Vis-a. Yacht Race for the Governor Fraser

There was a fair breeze from the eastward on Saturday when the boats of the Miramichi Yacht Club started in the race for the cup presented to the club by Lieut Governor and Mrs. Fraser. The course was one of nearly 12 miles and triangular in form, the starting point being off the Muirhead wharf Chatham. The lower turning point was off the Canada wharf and

There was an unusual large number of spectators on the wharves, the chief point of interest, however, being that off which the start was made. The large turnout was doubtless due to the fact that was for the Governor Fraser Cup the race was taking place. The interest was heightened at the close when the participating vachts' crews rendervouzed at the wharf. where there was a throng of ladies and gentlemen awaiting the presentation. Commodore Miller handed the cup over to Mr Tweedie, making a few appropriate remarks, and requested him, as one of the judges to present it to the winning member of the club,

### New Buildings, Etc.

The prevailing activity in house building, house enlargements and other improvements being made in resident and other properties in Chatham, are encouraging indications the progress of the town and the generally healthy condition of its business. It is said that there is not an unoccupied house in Chatham at the present time. while many are seeking dwellings. Our reporters have taken some notes this week of new buildings going up, as well as some recently built and now occupied.

One of the best is that being erected for Mr. Wm. Mather, by Mr. John Mc-Donald, on the corner of King and Howard Streets. It is two storeys high, with cottage roof and has a portico on the front, running up both storeys, as well as bay windows on the front and King St. side The main house is 25x37 ft. and the ell 17x20. The halls are 91 ft. wide, and the walls, being 20 ft. high, give ample ceilingheight in the different rooms. This dwelling is counter-plastered and will be heated with hot water, and otherwise fitted with all modern conveniences. Mr, Mather expects

to occupy it about 1st December. Mr. Jas Mowatt is building a tasteful cottage for Mr. Edwd. Gallivan on Church St. It is 22x30 ft. with an ell 18x14 ft. is one and a half storeys high and 14 feet post, the ell post being 12 ft. The is 8x16 ft. It contains 9 rooms. The sashes, doors, door frames and interior finishing generally are from Mr. John Mc. Donald's factory-Mr. Mowatt's contract covering the outside work, lathing, etc., and he will also put up the inside finishing, Mr. Gallivan will, probably, occupy his new dwelling in about two months.

Mr. Philip Leonard has a new house nearly ready for occupancy next door to that of Mr. Gallivan on Church Street. It is 20x27 ft. and one and a half storeys high. He intends to add an ell to it by and bye, but will move in first. Mr. P. Desmond did some of the work and the stairs was put in by Mr. Thomas Murray, but most of the carpentering was done by Mr. Leonard, himself, and his son. The shingles, doors, sashes, frames and finishings were from the McDonald factory.

The Battery is composed of about as fine lot of men as can be had anywhere in the country, and although twenty-four of them were new men, their soldierly bearing was most creditable, considering the fact that the time allowed for annual drill this year was only eight days, which really means but little more than four under instruction.

In this connection it is just to mention, addition to the names already given, that of Staff Sergt. Long, of Kingston Battery, who has acted as drill instructor to this camp, as he did to those of the same battery in 1890 and 1892, so that he is well known to corps, and much esteemed by both officers and men for the thorough and yet affabl manner in which he discharges his duties. On Tuesday Capt. Hudon, inspecting Loggie, & co, gen cargo officer, arrived in camp and in the forenoon, inspected the battery in marching past, field movements, sword drill, gun drill, kit examination and officers' questions. In the afternoon he examined the non-commission-

ed officers in their questions and inspected the range firing practice, which latter embraced forty rounds of common shell and sharpnel, the ranges being found on the guns being brought into action without previous knowledge of the distance. The targets were placed near the middle of the Northwest river, between the Newcastle shore and Beaubair's Island, and the distance ascertained by firing was from 1575 to 1750 & Co, salt vards. ### ANOTHER DISCOVERY. Of Interest to Bicycle Riders.

A well known bicycle rider has made a discovery that will be good news too all who locomote on the wheel. He

Since I first began to ride a wheel, which is several years ago, I have been subject to more or less chafing and irritation. Sometimes when heated the itching inside my legs would be so severe that I would feel compelled to forego riding for a time. Nothing that I tried did any material good until my attention was drawn to an advertisement of Dr. Chase's Ointment for all itching of the skin. I tried it and almost from the moment it touched the skin the itching stopped. I also find its occasional use prevents chafing. Further evidence of the efficacy of this preparation is given by Chas. Roe, foreman Central Press Agency, Toronto, who was troubled with Itching Skin of the most aggravated kind. When the skin became heated during sleep from too much clothing, would wake up with absolute pain from digging into the flesh with his nails. Chase's Ointment gave relief from the first application and permantly cured. Price 60c.
