THE GREAT SOUTH AMERICAN

Stomach Liver Cure

The Most Astonishing Medical Discovery of the Last One Hundred Years. It is Pleasant to the Taste as the Sweetest Nectar. It is Safe and Harmless as the Purest Milk.

This wonderful Nervine Tonic has only recently been introduced nto this country by the proprietors and manufacturers of the Great outh American Nervine Tonic, and yet its great value as a curative gent has long been known by a few of the most learned physicians, the have not brought its merits and value to the knowledge of the eneral public.

This medicine has completely solved the problem of the cure of indiestical dyspepsia, and diseases of the general nervous system. It is lso of the greatest value in the cure of all forms of failing health from hatever cause. It performs this by the great nervine tonic qualities which it possesses, and by its great curative powers upon the digestive rgans, the stomach, the liver and the bowels. No remedy compares ith this wonderfully valuable Nervine Tonic as a builder and strengthner of the life forces of the human body, and as a great renewer of a roken-down constitution. It is also of more real permanent value in he treatment and cure of diseases of the lungs than any consumption emedy ever used on this continent. It is a marvelous cure for nervusness of females of all ages. Ladies who are approaching the critical eriod known as change in life, should not fail to use this great Nervine onic, almost constantly, for the space of two or three years. It will arry them safely over the danger. This great strengthener and cureive is of inestimable value to the aged and infirm, because its great nergizing properties will give them a new hold on life. It will add ten r fifteen years to the lives of many of those who will use a half dozen ottles of the remedy each year.

NERVOUS DISEASES.

As a cure for every class of Nervous Diseases, no remedy has been able to compare with the Nervine Tonic, which is very pleasant and harmless in all its effects upon the youngest child or the oldest and most delicate individual. Nine-tenths of all the ailments to which the human family is heir are dependent on nervous exhaustion and impaired digestion. When there is an insufficient supply of nerve food in the blood, a general state of debility of the brain, spinal marrow, and nerves is the result. Starved nerves, like starved muscles, become strong when the right kind of food is supplied; and a thousand weaknesses and ailments disappear as the nerves recover. As the nervous system must supply all the power by which the vital forces of the body are carried on, it is the first to suffer for want of perfect nutrition. Ordinary food does not contain a sufficient quantity of the kind of nutriment necessary to repair the wear our present mode of living and labor imposes upon the nerves. For this reason it becomes necessary that a nerve food be supplied. This South American Nervine has been found by analysis to contain the essential elements out of which nerve tissue is formed. This accounts for its universal adaptability to the cure of all forms of nervous de-
