events is almost a blank, declares his intention of holding the party to its nomination of last spring. Leading members of the party are, of course, disappointed, and would prefer a younger and more effective man, not only for the campaign but parliament. Besides, it is generally conceded that Mr. Mitchell, even if elected, would probably do as he has heretofore done: act more as a parliamentary broker than a

representative, and leave the patronage of the County in the hands of Mr. Adam3-33 before-or some other politician, whose influence he would be induced to believe he could not do without. For these reasons Mr. Mitchell seems to be a weak candidate.

It is said that the choice of a candidate by the liberal-conservatives of Northumber land lies between Messrs. Jas. Robinson M. P. P., Elward Sinclair and Wm. A Park. Hon. L. J. Tweedie, if he would accept the nomination, could, no doubt. easily secure it, but his friends are reluctant to urge him to make a change which would. in any case, be a personal sacrifice for him and remove him from a position in the local government which he fills with great credit

and efficiency in the interest of the Province.
