Ocean Breezes and Keep Her Hair in Curl The summer girl has devised an entirely new means for adding to her attractiveness. The latest addition to her outfit is a hood, wonderfully wrought of frills and furbelows, with which she will

protect herself from chilly breezes and keep her hair in curl on damp summer models, in spite of their reduced sleeves, evenings. Moonlight sails and drives will offer excellent opportunities for the display of these novel affairs, which promlse to be as useful as they are becoming. Dimity Dresses for Summer. For an unpretentious fabric there is nothing prettier or more dainty that will be worn this summer than dimity. The small cord that runs through it gives just enough substance to keep it fresh looking for a longer time than either awn or muslin can be worn. The newest dimities come with colored grounds, but any of the white ones are so well covered with flowers, leaves or figures that they produce a colored effect.

The latest idea is to make a petticoat of the same dimity that is used for the dress, goring it closely at the waist and trimming the foot with a flounce of the same edged with Valenciennes lace. The dress skirt is made full but with gored front breadth, and is trimmed down either side with ribbon which

Another idea is to insert squares of Valenciennes insertion in diamond shape across the top of the waist to form a small, square yoke. The dimity is cut away underneath, and also the lining. This insertion is also set into the sleeves. A folded stock of ribbon, with immense bow at the back, and a belt to correspond furnish dainty accessories to such a gown. The Persian and Chameleon effects in taffeta ribbon are particularly pretty for this decoration, unless a plain ribbon of the prevailing color in the pattern is preferred.

DROPPED DEAD!

Suddenly Stricken Down by Heart Dis-" A sad and sudden death occurred to a well-known citizen on one of the leading streets this morning." Nearly every large city paper contains daily some such heading. The number of deaths from heart failure is very large, but it is only when they occur in some public and sensational manner that general attention is drawn Palpitation and fluttering of the heart are common complaints. With the

heart itself there is nothing radically wrong. But the system is disorganized, the kidneys and liver are out of order, and the stomach is not in condition to do its work porperly. Between them all, they throw too much responsibility on the heart, and the letter is unable to stand the strain. A box of Dr. Chase's Kidney-Liver Pills at a cost of 25 cents will regulate the system, purify the blood and make a new person of every sickly man, woman or child.
