J. D. CREAGHAN, WHOLESALE AND RETAIL, NEWCASTLE & CHATHAM.

See That You Get "GOLDEN RULE" or "WHITE EAGLE" FLOUR FROM YOUR GROCER AND TAKE NO OTHER.

Miramichi and the North Shore, etc.

The "ADVANCE" is for sale at Johnson's Bookstore, and the circulating library, Desmond building, next door to the Telephone Exchange.

St. LUKE'S---Evening service in St. Luke's Church will be conducted next Sunday by Rev. Professor Andrews, of Sackville.

MONDAY was observed as the Queen's Birthday holiday in different ways. There were excursions, private picnics, fishing parties, etc., and the day being a fine one the enjoyment of it was all the greater.

SALMON appear to be pretty plentiful down-river. Forty boxes were brought up for shipment by the steamer Miramichi on Monday. That would be over eleven hundred salmon for that one day.

REV. JAS. STROTHER, president of the Nova Scotia Conference, conducted the service in St. Luke's last Sunday morning and also in the evening. At the evening service he was assisted by pastor Steel.

Hair's Hair Renewer renders the hair thin and silken, gives it an even color, and enables women to put it up in a great variety of styles.

THE SQUARE---Mr. W. Wyse has had a new road laid all around the Chatham public square and, on Monday last, got up a series of races and other sports for the young folks, displaying much public spirit and no little managerial talent.

THE WREGLING SISTERS appeared in Masonic Hall, Chatham, last Friday evening. Their performance was one of the parlor standard order and very good in view of the unappetizing character of their advertisements.

THE DEEPEST DRAUGHT vessel that has left the Miramichi this season was the barque Corcoran, which drew 22 1/2 feet, and was taken out over the bar by pilot Patrick Newlan on Tuesday morning. She had a crew of thirty, displaying much public spirit and no little managerial talent.

SAME OLD JOKE---The Montreal Herald says: "Hon. Peter Mitchell left yesterday morning for his old constituency, Northumberland, where he expects to return a victory for the Liberal party." Readers o-

the ADVANCE may not believe it, but the foregoing was not in the jokers' column.

DO NOT FORGET to go to the Temperance Hall this afternoon to buy lots of pretty and useful things and also to have tea and coffee, or other refreshments, including ice cream, etc. The affair is under the auspices of St. John's Church Sunday School Mission Band and deserves general patronage.

THE PILOT COMMISSIONER met at three o'clock yesterday afternoon in the C.I.'s office, Newcastle to consider a complaint made against pilot John Martin, in connection with the grounding of the Steamer Dora Forster on the Rochouan shoal during the heavy haze and smoke prevailing on the river last Thursday.

THE DRAUGHT---Reports of Saturday last showed that over 60,000 feet of logs were hung up in the St. John river and its branches owing to the almost unprecedented drought. Worse than that: that forest fires prevailed everywhere throughout the province, wherever there were wood and brush, on which it could feed.

BAY DU VIN FISHERY---The Fisheries Department, in view of the evidence and report of Commissioner Smith thereon, has ordered that the salmon stand licenses on the south side of Bay du Vin Island, held for twenty-two years by Messrs. Foray, but taken from Mr. Dudley Foray in 1892 by Inspector Chapman and issued to Mr. T. B. Williston, be restored to Mr. Foray.

TALK ABOUT YOUR BIG FISH---Last week the Montreal Herald gave the size of a large shad caught, measuring 24 inches long, 15 inches girth and weighing 8 1/2 lbs. Mr. James Perley, son of Dudley Perley, Sr., caught a shad in his salmon net on Tuesday night that measured 23 inches long, 17 inches girth and weighed 8 lbs.---the correctness of this can be vouched for.

PERSONAL---Hon. Mr. Mitchell was in town this week. Mrs. Herbert Patten, of Chatham, spent Sunday last in Newcastle. In the evening she assisted in the choir of the Methodist Church, singing the soprano part of a beautiful solo and duet, "Jesus Loves My Soul," Miss Edith Troy, the organist, taking the alto part.---Advocate.

Mr. TROY appears to have gone to the Herald concerning of a campaign pleasantries published in the ADVANCE, which was manifestly at the expense of another candidate altogether. Mr. Troy evidently wishes people to think him a sensitive person. If he were so he would never have offered himself as a candidate. The best thing he can do is to be good-natured, for if he isn't we may think it worth while to make "a-

few well chosen remarks" in reference to his fitness as a candidate.

MIRAMICHI MARBLE WORKS---No exception in buying from us. We always send out the best stock and work that can be obtained. No order too small, none too large. We are watching the mails for your correspondence on the subject of cemetery work.

THE STEAMER "DORA FORSTER" is away on her voyage to England, after being aground on Rochouan shoal. She was leaving port on Thursday last, and in the very thick smoke from forest fires which prevailed that day, took bottom in the mud at the place indicated. She hung there and part of the cargo had to be discharged, when she was pulled off on Saturday morning and the cargo replaced on board, after port Warden Wm. Muirhead had examined her and declared her uninjured. She went out to sea on Tuesday morning.

AN ATTRACTION to buyers of family groceries, provisions, dry goods and general household supplies is offered by Mr. Roger Flanagan at his well known store on St. John Street, Chatham, in the form of silver knives and forks, silver spoons, silver cruet stands and boxes of tea. He issues tickets which are presented by customers every time they make purchases, and no matter how small the amount, it is punched off, and when the purchases aggregate either \$15 or \$30, as the case may be, one of the articles specified viz---a cruet stand, or a dozen of silver knives or forks for a \$30 ticket and for a \$15 ticket is given free.

A WRECK---The Norwegian brig Camelia, 318 tons, Schude master, sailing from Sarsborg, and sailing hence from New Haven, consigned to Messrs. George Birchill & Sons, lies aground and badly damaged on the northeast reef about half a mile from Point Escomine lighthouse. The vessel was seen on Saturday morning by pilots running down as if going to Richibucto, the weather being hazy from the prevailing smoke. She soon returned, towards Escomine, the wind being from the northeast, and ran aground. The anchor was let go and she pounded considerably. When the pilot went on board the chain was slipped and left kept on her to let her go further ashore and prevent damage to the vessel as much as possible as she had already made considerable water and was evidently a wreck. The wind being on shore nothing else could be done. The sides eddied and flowed in her and a survey was called, Port Warden Wm. Muirhead officiating in the function, assisted by two Norwegian captains and the brig was condemned to be sold for the benefit of the owners, there being no insurance. She is a

very old vessel, although extensively repaired and appeared four years ago.

Referring to this vessel going ashore the World says: "The Pilot Commissioners might well inquire if it would not be in the interests of the port to have incoming vessels met by pilots outside of the Point."

The World, it appears, desires to convey the impression that there was no pilot boat outside of the Point at the time. It is true, however, that the pilot schooner Princess Louise was in the usual fairway for ships outside of the place where the brig went ashore and had a short time before put a pilot on board the barge Svea. The brig had gone down the Straits in the early morning and came back running further in than vessels usually go. This case is certainly not one in which the pilots are to blame.

The purifying effects of Ayer's Sarsaparilla are sure and speedy. Take it this month.

Provincial Appointments. His Honor the Lieutenant-Governor has been pleased to appoint the following persons Supervisors of Great Roads for the year 1896:---Northumberland County. James Fox, John Betts, Alexander Dick, James Greig, John Flanagan, Wm. Innes, jr., Wm. McNaughton, A. Peterson, Daniel Hogan, John A. McDonald, B. N. T. Underhill, Peter O'Neill, J. L. Murray.

Redoubt County. Patrick Ullman, Neil Shaw, David P. Graham, John Dawson, Peter Laviolette, Richard Parker, Ebenezer McMillan.

Geo. Andrews, of Lowell, with ulcers over half his body, cured by Ayer's Sarsaparilla.

That Young Man Again. The Law Chambers organ says: "Mr. D. G. Smith, the commissioner appointed by the Dominion Government to take the evidence in relation to the Bay du Vin fishery dispute, had a stenographer to assist him in Chatham on this occasion. The stenographer, however, was not sworn, the evidence of witnesses was not read over to them and they did not sign their depositions. This is certainly without precedent. What a farce.---Liberal Herald."

The gentleman in charge of the law-reporting department of the Herald, who has been complaining because his client was not so much disgusted with his incompetency on the first day of the enquiry that he didn't engage him for the second, ought to know better than to write such bosh as the foregoing. If he will turn to the Act under which the commissioner was instructed to hold the enquiry, he will find the procedure was the same as in a court of record. Imagine witnesses in our county or circuit courts having their "depositions" read over to them, and being required to sign them!

Popular Harry Lindley.

Harry Lindley is in Chatham this week, playing to full houses. No theatrical manager who visits the town is more popular than he, and the reason is because he brings with him a company of actors and actresses who, like himself, do credit to their profession.

Harry Lindley is a most versatile comedian, a brainy man of the old and reliable school of actors---who could, doubtless, alone entertain audiences for a whole evening, but he is content with a manager's aid and a convulsed thousands, not only in Canada, but in England and the United States; but when he is so admirably supported as he is in Chatham this week by what is undoubtedly the best company travelling in the maritime provinces this season, it is not to be wondered at that the people go in crowds to the performances every night.

Besides Mr. Lindley and Mrs. Lindley, the company includes J. Ed. M. Chapman, who although in Chatham on this occasion, has not yet appeared on the boards, greatly to the disappointment of his many admirers. He is doing average work; Adelaide Flint, another favorite here, has appeared each evening, and her work is much appreciated. Mr. Marsh's familiar figure and voice are those of an old friend, and Miss Mathie's effective acting is one of the decided attractions.

Mr. Lawrence is a sturdy and sterling member of the company and a good round actor. Mr. Ed. J. Lee is also a new favorite. Messrs. Lewis and Forrest and Miss Nathol are each strong members, conscientious and reliable in their work. Little Ethel Lindley is a decided favorite of the company. She is mainly strong in specialties, and her nightly encores attest that she has learned how to hit the popular taste. Prof. J. C. Welch is the Company's musician, and rounds off a complete and effective organization, which deserves success on its merits.

Thursday, evening---the dramatization of Washington Irving's legendary story of Rip-Van-Winkle---is one of great interest and merit. It is the drama of the first day of the enquiry that he didn't engage him for the second, ought to know better than to write such bosh as the foregoing. If he will turn to the Act under which the commissioner was instructed to hold the enquiry, he will find the procedure was the same as in a court of record. Imagine witnesses in our county or circuit courts having their "depositions" read over to them, and being required to sign them!

after a twenty years' sleep, of which he was unmindful, there is great scope for the exercise of Mr. Lindley's powers of humorous delineation, as well as of the other in the various kinds. The detectives believe the large volume of the enquiry that he didn't engage him for the second, ought to know better than to write such bosh as the foregoing. If he will turn to the Act under which the commissioner was instructed to hold the enquiry, he will find the procedure was the same as in a court of record. Imagine witnesses in our county or circuit courts having their "depositions" read over to them, and being required to sign them!

The majority of Chatham. To THE EDITOR ADVANCE. DEAR SIR---Judging from the tone of the press at the present time there seems to be considerable speculation as to who shall be the first Mayor of Chatham; nor is it to be decided the matter on the second of June next. No matter where a group of people is assembled you will hear animated discussions as to the relative claims of the rival candidates. Dr. Joseph Benson whose card appeared in public some weeks ago announcing his willingness to be elected to the honorable position of Mayor, is a deservedly popular gentleman, who by his strict attention to his professional duties and his skillful treatment of those diseases his patients were afflicted with, has no doubt secured them of many a pain and ache, but outside of this I have yet to learn what other services he has rendered to the town of Chatham, while the other candidate for the mayoralty, Mr. Snowball, has spent the best years of his manhood in fostering, promoting and building up, on a solid basis, the industries of Chatham. There has been no movement for the betterment and improvement of the town for the last twenty-five years past that Mr. Snowball has not been instrumental with. When capitalists were seeking for location to establish their industries, was not Mr. Snowball foremost in inducing them to select Chatham? and it is owing to his perseverance and skill in putting forth the claims of Chatham that she can boast of many of the industries that are enriching her to-day. When the Canada Eastern Railroad was about to be built from Fredericton to the town of Newcastle the Newcastle people were too slow in taking hold of the work. The difficulty in forming a company and their disputes amongst themselves as to where its terminus should be caused much delay, but the delay was the loss of the road to Newcastle, and was Mr. Snowball's opportunity to secure for the town of Chatham a great highway that has enhanced the value of property in Chatham in no small degree; and it is due to his energy and perseverance that the Canada Eastern is where it is to-day, for he had to contend with an opposition and overcome obstacles that would have discouraged and almost abandoned any other man living. And now that Chatham is about to open her old town laws and substitute new and more progressive ones, it requires, at the commencement, a chief magistrate with acknowledged ability and a practical knowledge of municipal matters to steer the new town clear of the many blunders that would otherwise be an inadequately equipped chief magistrate were chosen. The citizens of Chatham are an intelligent people. They can appreciate merit and reward a public servant who serves the town interests at the same time by electing Mr. Snowball to be the first Mayor of Chatham.

The absurd reference to Mr. Snowball's untidiness for the mayoralty because he owns a mill, and therefore would be in a position to monopolise the sale of deals for the sidewalks is the meanest claptrap I ever read or heard, and the author must be suffering from some dreadful disease that requires immediate medical attention, so I would advise him to call in the doctor at once for treatment before his malady becomes incurable.

What would Chatham be to-day were it not for Snowball's mill, and the fleet of sailing vessels and steamships that are to be seen about it during the navigation season, giving employment to hundreds; and in the winter season just imagine the army of men and the numerous teams employed all over the country portaging and baling the logs to the streams ready for the spring freshets, to float them down to the mill for the summer cut. Comment on the above is needless, but I would respectfully ask the working men of Chatham to think the matter over.

Doubtless I will be accused of meddling in other people's affairs, not being a resident of the parish of Chatham. Some will naturally say that the people of Chatham are quite capable of looking after their own business without the gratuitous advice of an outsider; still, it cannot be denied that the individual at a distance and in full view of the battle-field can see the manoeuvres of the contending forces better than those actually engaged in the battle. Therefore, I trust the people of Chatham will give my disjointed remarks a little study, without considering me impertinent. As to my having any personal interest in the election to be held at Chatham on 2nd June next, I have not any, only upon all occasions I love to see the right man put in the right place.

A WORKING MAN. Newcastle, May 25, 1896.

Completely Knocked Out. "I was so much run down I had to give up, and I felt as if life was not worth living," writes Wm. W. Thompson, Zephyr, Ont. "I took Scott's Sarsaparilla and am now feeling as I did years ago." Scott's Sarsaparilla tones up the entire system, purifies the blood, and eradicates rheumatic and scurfy humors. Ask for Scott's and get it.

A Clergyman's Awful Crimes. Horrible tragedies, in many respects similar to the murders said to have been committed by Durand at San Francisco, have been unearthed in Salt Lake city. The pastor of the First Scandinavian church, Rev. Francis Hermann, is accused of the murders. Last year the pastor's wife died and he engaged Miss Clawson, an attractive young woman of 25, to look after his apartment in the church building. In September Miss Clawson suddenly disappeared and has not been seen since. After her disappearance the pastor, ordered a big fire built in the furnace basement of the church. He sent everybody away and lighting the fire himself kept it going for hours. Persons residing in the neighborhood detected exceedingly bad odors at the time and reconstrued with Hermann, but he said he wanted to give the flames a thorough test before he would let the furnace stop. In this furnace a few days ago that the body of Miss Clawson, together with blackened razors, butcher knife and part of a woman's garter buckles were found.

The difficulty with our young friend is that his court expressions have been chiefly before coroners and the police magistrates in whose courts the practice is as he states. As soon as he has a little experience, however, before the higher courts, he will learn that the practice therein as to taking of evidence is quite different from that in the smaller ones, and that witnesses have not their testimony read over to them, nor are they required to sign it. Any of the judges of the courts of record will satisfy him in a moment. The renewal of the little fellow's flag at the stenographer is quite uncalled for. That gentleman's reputation for integrity and faithfulness in all relationships will compare quite favorably with that of his assailant, who has cut a very absurd figure before the public with the fust he has made over his little case.

Geology and Gastronomy. The Fredericton Herald says: "While John Gunn's horse Black Prince was being watered at Springhill the other day by the negro hogger, in whose stomach he had a large quantity of horse manure, he passed it over to Dr. Bailey, who with Dr. Philip Cox has been investigating the case. Dr. Bailey says the lizard is of a western species and probably bred in the horse's stomach five or six years, or at any rate since the horse was brought here from the west, which was about five or six years ago. Dr. Cox, however, differs from Dr. Bailey holding that it would be utterly impossible for a reptile to live so long in the stomach of a horse."

All of which goes to show that while Dr. Bailey may be an authority in matter pertaining to the bowels of the earth, he must have only a superficial knowledge of the chemical processes of a horse's internal economy.

The Weather for Colds. This is the time when colds are in the fashion---every body who is anybody has one, if not himself there's one in the family. For no complaint under the sun are there more remedies for a cold in the head, but of the thousands, Chase's Catarrh Cure is the best. "It cures twelve hours I was cured of a cold in the head," writes Michael's "Cure," writes Miss Dyer, Abilene, Oct. 25c. of all druggists, with 60c. per fee.

Entertainment. The musical and dramatic entertainment by the pupils of the Congregation Notre Dame in the Masonic Hall on Monday evening was a most successful affair, the hall being crowded and the programme gone through with in a manner to reflect credit on all concerned. St. Michael's Brass Band, of Chatham, was present and played at intervals during the evening. The following was the programme:---Instrumental Music, Duets, Boote En Train, 3 pianos and organ. Friendship, Love and Song; Vocal Quartette, Mrs. Demers, Misses Mary Craig, Helen Black, Maggie Cullen.

Gossip, a prominent feature which was most amusingly performed to piano music by a number of the smaller scholars. The Lily and the Rose, Vocal Duets, Misses Drell, who sang in a manner most creditable to the performers. The Orphan Consolado, Dialogue, Miss Beatrice Gillard, with Misses Hattie Tennant, Mary Lawlor.

The Consul and his Wife, Comic song, Miss Eva Wright as the Consul and Miss Corinne Fiast as the consul's wife was most amusing and was heartily applauded. A Musical Drama, the scene of which was illuminated with red fire. This like all the other dramas was performed with a precision only to be attained by consistent actors. The Flowers of all Seasons, song, Misses Renno Morrissey, Mollie Morrissey, Hattie Tennant and May Kehoe.

Instrumental Music, G. & A. Lada, pianos and organ. Motion Drill, by Junior pupils, with tableaux at the close. Maids of the Green Woods, full vocal chorus. Scene at a Photographer's, a comedy in one act, which was performed in a manner most creditable to the performers. They were Misses Laura Wright, Mollie Hennessy, Alice Dalton, Alice McDonald.

Instrumental Music, Fugato, pianos and organ. Military Drill, with Tableau. This was a most excellent performance which we must well prize and remember further in the historical "Charge of the Light Brigade," by the Captain of the Company, Miss Lena Dalton.

Good Night, full chorus. National airs, pianos and organ. Closing with God Save the Queen by the Band.

A hearty applause at the close of each number of the programme as well as at the close of each of the selections by the Band testified the appreciation of the large audience. Much credit is due to the Sisters of the Congregation Notre Dame for the successful training of those who took part in the various pieces, as well as to those who maintained their parts so successfully. (Advocate.)

He has married three times, and it is said all his wives have died under suspicious circumstances. In his study was found a large collection of poisons and drugs of various kinds. The detectives believe the large volume of the enquiry that he didn't engage him for the second, ought to know better than to write such bosh as the foregoing. If he will turn to the Act under which the commissioner was instructed to hold the enquiry, he will find the procedure was the same as in a court of record. Imagine witnesses in our county or circuit courts having their "depositions" read over to them, and being required to sign them!

He has married three times, and it is said all his wives have died under suspicious circumstances. In his study was found a large collection of poisons and drugs of various kinds. The detectives believe the large volume of the enquiry that he didn't engage him for the second, ought to know better than to write such bosh as the foregoing. If he will turn to the Act under which the commissioner was instructed to hold the enquiry, he will find the procedure was the same as in a court of record. Imagine witnesses in our county or circuit courts having their "depositions" read over to them, and being required to sign them!

The authorities, having been induced by these crimes to look up the record of the murderer, have before them an array of facts which warrant the belief that no less than seven murders may be traced to him. Before he left for Kansas City he was accused of embezzling the church funds and, having confessed his guilt, was suspended and at the present time that case awaits adjudication by the annual methodist conference.

Revival of Trade. Reports from the United States support the view that trade interests have rapidly improved recently and that the business outlook for the future is encouraging. This will welcome news to the people of Canada, since our own trade interest will be stimulated and improved. In nothing has this improvement been shown in a more marked way than in the increased sales of Putnam's Patent Corn Extractor. Times being dull everywhere, not absolutely needed because a luxury, and its sale became stationary. Now it is different. Sales have increased vastly, doubtless as it has proved the only safe, sure and painless remedy for corns, and wise people will use no other.

News and Notes. A singular death occurred in Ontario the other day when Mr. Geo. Bennett of Eger, near Tilsonburg, was killed while engaged in splitting stumps, by being caught in an opening, which closed on him.

Steamer Belgravia of the Anchor Line, dead laden, which left St. John at 4 o'clock Friday morning, went ashore at Black Point about five miles up the bay of Fundy. Tugs were sent to her assistance but without avail, and it is expected that the vessel will never come off. The cargo is about all saved.

There was an animated scene off Halifax harbor Monday morning. The ocean was fairly boiling with mackerel for miles around and the fleet of about sixty vessels floated in the midst of teeming schools. There were hundreds of thousands of dollars worth in the schools which were off the harbor all day. Some vessels made very large hauls. The fish were largely number ones.

The small encouragement given to Hon. Peter Mitchell in Northumberland in the present election campaign must make it apparent to him that he will be beaten by a much larger majority than he was in February last, and it would, therefore, be only a sensible and graceful act on his part to retire, as many of his former political friends advise him to do.

Halifax, May 22---Judge Townshend gave a decision this afternoon in the application for change of venue in the Wheeler case. His lordship filed a lengthy judgment from which the following is extracted: "The newspapers annexed to Beggs' affidavit are copies of the Digby Courier, Weymouth Free Press and l'Evangeline, a French newspaper published at Weymouth. These papers all contain comments of the most reprehensible character, for which the publishers will deserve to be punished, and it is hoped it is not yet too late to proceed against them, as a warning in future. Said publications are so clearly calculated to interfere with the proper administration of justice that one can only be surprised that intelligent men would permit their columns to be used in spreading matter possibly injurious to a prisoner about to be tried for his life."

"It is my duty to see if possible that the trial in which the prisoner's life is at stake takes place before a jury untaunted with the prejudice of foregone conclusions."

The judge thought that the case was one in which a change of venue should be granted, and ordered that the prisoner be tried at the town of Kentville, where the case opens at Kentville on Tuesday, June 2nd.
