The undermentioned advantages are claimed for MacKenzie's spectacles. 1st—That from the peculiar construction of the glasses they assist and PRESERVE the sight, rendering frequent changes unnecessary. 2nd—That they confer a brilliancy and distinctness of vision, with an amount of EASE and COMFORT not hitherto enjoyed by spectacle wearers. 3rd—That the material from which the Lenses are ground is manufactured especially for optic purposes, by DR. CHARLES BARDOU'S improved patent method, and is PURE, HARD AND BRILLIANT and not liable to become scratched. 4th—That the frames in which they are set, whether in Gold, Silver or Steel, are of the finest quality and finish, and guaranteed perfect in every respect. The long evenings are here and you will want a pair of good glass so come to the Medical Hall and be properly fitted or no charge. Chatham N. B., Sept. 24, 1895. J. D. B. MACKENZIE.
