during the late campaign, the Surveyor-General declared that if Robinson did not have a majority of 200 in Chatham he (Tweedie) would resign. The majority was the other way, and yet he is Surveyor General, and there's where the Speaker and his friends turn the laugh on Mr. Tweedie.

[It is understood that Mr. O'Brien told the Herald man afterwards that the story about Mr. Tweedie saying he would resign was got up by Mr. Mitchell, in the same way as that alleged Robinson-Star interview. Mr. Mitchell's last and that junction in his farewell epistle to the who lost the case of whiskey at Upper Nelson was to "have the boys stick to that story about Tweedie threatening to resign."]

GLOUCESTER'S REPRESENTATIVES

The Herald man further says : - I am glad to see my journalistic friend, Mr. Veniot, back to the Legislature. He is a hardworking, plucky young man, who has a promising future. Mr. Veniot was the only man in the late Assembly who could make an eloquent speech in both French and English, and as a regulator of Mr. Pitts, he was an immense success. With Mr. Veniot comes Mr. Paulin, a very respectable looking French Acadian from Caraquette, affiable, polite, as becomes his race, and one who will be well liked among his fellow members.

A NEW MEMBER'S BAD START.

There was some very good speaking in ness doing in that line and, in any case, the debate on the address on Friday, particularly by Hon. Mr. Emmerson, who used up the Opposition speakers very effectively. | out of his way and engage in the work of It was, however, regretted by the many personal friends of one of the new members, Mr. Black, that he made the mistake of failing to comprehend that the Legislature is different, as a debating arena, from a York county ccuntry school-house. The fact that-on account of being a new member-his maiden speech was listened to with a sympathetic silence, which in his simplicity, he construed to be due to a feeling on the part of his auditors that a Demosthenes had the floor, tempted him to venture the out-stocking of Stockton, so he repeated a campaign invention suggested by the "Alphebetical Alfred" that the Dominion Government had given \$500 as a cash subsidy to a creamery in Kingsclear. Attorney-General Blair promptly denied the assertion on the authority of the vicepresident of the company owning the creamery referred to.

Mr. Black floundered and looked piteously at Dr. Stockton.

THE CHINA WEDDING of Mr. and M r W. R. Gould was celebrated at their residence, Wellington Street, Chatham, on Friday evening last. The occasion was very enjoyable one, the gathering being very large, attesting the popularity of the entercainers.

> FIRE was discovered bursting from Capt. Forbes' barn, situated near his residence, mile and a half above Chatham, about nio o'clock Tuesday night. The building was consumed, together with its contents, consisting of a cart, a quantity of wood and coal, a lot of fowls etc. With the assistance of good neighbors the house was saved.

CONCEALED JOKES :- There seems to have been some enquiry in Fredericton as to th medium through which our friend, Mr. Sinclair's, sarcasms in reference to the Lunatic Asylum reached the public. I appears that Dr. Stockton had nosed them out, although they were only published in the Chatham World and the Premier was obliged to confess that they had not come under his observation. Hon Mr. Emmerson was so unkind as to say they appeared in certain obscure paper in Chatham,-All o which should be a hint to Mr. Sinclair not to conceal his jokes in that way in the

A prominent Liberal-Conservative, however, was present, and when he interfered the countenances of Messrs. Black and Stockton were illuminated, but it was only a momentary flicker, for instead of his backing up his fellow.Cons vative's assertion, Provincial-Secretary A sell said statement of Mr. Black was untrue and that no Dominion money had been given to assist in establishing the creamery referred to. Mr. Black has not since either attempted to make his statement good or apologised for having made it.

[By telegraph to the Miramichi Advance.] FREDERICTON, N. B., Feb. 18th.

Hon. Mr. Blair said Mr. Black not having sympathy of a large circle of friends will be retracted bis statement that the Dominion Government had given a \$500 bonus in aid of the Kingsclear creamery he (Blair) desired to make a statement regarding the matter. He had telegraphed to Professor Robertson who had charge of the Dominion portion of the dairy work as follows:

"It is asserted here that the Dominion government gave a \$500 bonus to Kingsclear creamery. Kindly wire whether the Government has given any bonus whatever towards putting up dairies."

To that telegram Prof. Robertson replied : "So far as I know, the Dominion government has not paid a cash bonus to any creamery. Our department paid \$215 annual rent at Kingsclear."

Mr. Blair said if Mr. Black had made any effort to obtain the evidence of which he spoke perhaps he would now frankly admit that he had found himself mistaken. The hon, member ought to he able to recognize that members on this side of the house had just as much self-respect and were just as much entitled to credit as even the most virtuous of the gentlemen opposite. Perhaps it would be well for the house t make some allowance for the inexperience and the strong political feeling of the hon. member, who, doubtless, felt already sufficiently punished by reason of having placed himself in such a false position.
