Murder, Robbery and Arson. A woman named Dutcher, who kept resort for the illegal sale of liquors at place called Meadow Brook, some 8 mile from Moncton, was murdered on Thursday night last together with her son aged l and the house was then set on fire. brother of the woman, named Hugh Green who lives near, was alarmed by his brother James' wife who is also a neighbor, and on breaking the front door open proceeded to his sister's bedroom and rescued her little girl, Maggie, who on being carried outside was found to have a gash from a blow in the side of her head which severed the ear and fractured her skull, the appearance of which indicated that it was done with a hatchet axe. The brother could not reach the roo again and, indeed, said the little girl the only one of the inmates to make any outery. The house was burned to th ground and the half consumed body of Mr Dutcher and her son were found in ruins. It is evident that robbery object of the crime, as Mrs. Dutcher wa known to keep quite a large sum of money in the house at all times. A man named Sullivan, of Moncton is under enspicion He has gone away and, it is said, his whereabouts is not known. An inquest is in progress. The crime is one of the mo horrible ever enacted in the province.

### Board of Trade.

Board of Trade was held in Senator Snowball's office last Wednesday afternoon, 9th inst. President W. S. Loggie was in the chair. The subject of flour rates was dis- if you start at Pallen's corner and lay the refusal of the Canada Eastern Railway Management to reduce its rates from the Canadian Pacitic Railway, had prevented the reduction promised by Mr. Sutherland of the latter road, from going into effect. Sidney Boucher for the position of street President Loggie was appointed to go to Marysville to confer with Mr. Gibson. president of the Canada Eastern, with a view of inducing him to make concessions more satisfactory to the flour merchants of Chatham, and thus enable the proposed arrangements to be completed. It was understood at the meeting that if the full reduction asked should be secured it would be accepted as satisfactory, sisting of Senator and Mrs. Snowball and but if it were only partially granted, four daughters, the Misses Deitrich of it would be accepted meantime, and

#### Town Council Meeting.

The meeting of Chatham Town Council which was adjourned from Monday evening of last week, reassembled on Monday 14th inst. after the usual long wait for the arrival of tardy members.

The minutes of last meeting were read and confirmed. Ald. Watt from the Fire Committee

submitted the plans etc of an engine house which had been procured some two years ago by the street and fire commissioners. In reply to Ald. Bennett, Ald. Watt said no tenders had yet been asked for a steam

The finance committee, through Alderman Nicol, submitted a report on the accounts of the Sheriff for holding the council election of June last. Some of the charges they had considered too high, but Mr. Shirreff had stated in explanation that they were the same as for holding Assembly elections, and them than with any county election he had

The Committee had thought that the spection of ballots should be paid for by candidates. They, however, recommended payment of the account.

The report was received and adopted In reference to future elections Ald Bennett said it was for the Town Clerk to hold them and the expenses wouldn't be ness in making up the paper and proof-read- large. In Fredericton, he understood, cost only \$18 to hold the civic election.

The Mayor said, in regard to the survey of Water Street, that Mr. Hanson was in town and would be ready for work on Water Street on Tuesday. Ald. Nicol said, in reference to the proposed sidewalk in front of Mr. Creaghan's property, that it would hardly be worth

while to bring people here to lay so small a piece. Perhaps before Mr. Creaghan was ready others might want similar work done. If a whole side of a block were to be done it would be worth while to undertake the work. He moved that owners or occupiers of property on Water Street, from Golden Ball corner to Henderson Street, may have asphalt or concrete sidewalks laid in front of their properties by paying one half of the cost, the work to be under direction of the Works committee, provided all the owners in one block agree to have the work done at

The Mayor said he had noticed in the laying of sidewalks that the work was very irregularly done. Much might be done to straighten streets and cut down hills as work progressed or new work was undertaken. and it was plain that a competent person was needed to take charge of that service and prevent the zig-zag lines so often followed by our sidewalks from being so frequently

Ald. Nicol said there was hardly straight street in the town, and it was a matter of opinion as to whether the side walks shouldn't follow the line of streets. He had seen some remarks in town paper last week criticising the lines on A meeting of the Council of the Chatham | which the sidewalks were laid and saying that anyone standing at Pallen's corner could see how faulty they were. He had taken the trouble to do that and found that cussed. It was stated by the president that sidewalks straight, you will have them not more than two feet wide in some places and if they are laid straight from a little below that on both sides of the street the will meet further down.

> The Mayor read an application from commissioner and caretaker of the steam fire engine. No action was taken on it.

Ald. Nicol said he agreed that a street commissioner ought to be appointed to look after work to be done this fall, of which considerable would be required. The Station road was in a very bad condition and it was the intention that a sidewalk with a cedar curb and to be filled in with suitable material should be laid there. He thought a permanent overseer or commis sioner should not be appointed this fall, but that such a man as Mr. Patrick Coleman might be put over the work at about \$2 day. He, therefore, moved that Mr. Patrick Coleman be appointed overseer streets, and tanks, at \$2 a day.

Ald. England thought Mr. Coleman had enough to do at the tanks now. Work long ago.

Ald. Watt agreed with Ald. England, so which he was willing to sell. far as Mr. Coleman was concerned, and

discussed, and an order was passed that the thought he had enough to do to look after from Calvin Craig for the position of care-Ald. Nicol said he was not prejudiced in favor of Mr. Coleman, if he were too busy

to look after the streets. Ald. McIntosh thought one man could look after the five or six men working on the streets, as well as those at the tanks. Ald. Coleman said the hardest thing to get was men to work at the tanks where and as such stakes had been pulled up on there was considerable digging. If there other occasions, moved that a bye-law be were more tanks to be built Mr. Coleman would have his hands full without looking should remove such stakes.

after the streets. not know whether Mr. Coleman could safely offence by (he thought) two years in the the streets. The public works committee penitentiary. - EDITOR.] had power now to engage a man to look after street work and the matter might be left to them.

Ald. Watt agreed with Ald. Bennett. Ald. Nicol said it would be well to have omeone to take the responsibility of the street work and the crooked side walks. Ald. Bennett said that couldn't be done as the Council was responsible for the manner in which all such work was done.

The matter was laid over. hand books of the Board of Health of the province. He said the Council could not appoint a Board of Health for the Town upless the present Board having jurisdiction in the district would resign. He referred to the laws relating to health, and said people didn't seem to understand with real lace and orange blossoms, and that they were liable to a fine for burying any person without a permit from the Board of Health. He read a number of the regulations of the Board of Health! Then he moved a number of byc-laws on the subject of the public health similar to those now administered by the ex sting Board, which were adopted, as were also others relating to the Town Seal, and Town officers. The bye-laws relating to Town officers require the Town Clerk, among other things, to attend at his office on Wednesday in each week from 6.30 p.m. to 8.30 p.m.

Ald. Bennett also moved bye-'aws for the guidance of the Street Commissioner, and in relation to his duties, the Town Marshall and Town Treasurer, all of which were adopted. The fixing of the hours at which the Treasurer shall attend at his office, the amount of his bond of security and the name of the Bank in which he shall deposit moneys coming into his hands were left to be determined at a future meeting of Coun-

A bye-law was also passed relating to the office of Auditor, defining his duties and fixing his remuneration at \$25 a year. Ald. Bennett also submitted a bye-law

relating to Doge, requiring a tax of \$1 on male and \$2 on female dogs, to be paid on he had ordered them out of his office; he or before 6th May in each year; all dogs to wear coilars with metal plates bearing the Many of those referred to by Ald. Coleman owner's name; any dog at large without as guilty of drunkenness and annoying that such collar and plate to subject the owner to \$1 fine in addition to the tax; town marshall, policemen or tax collector to kill any uncollared dog found at large; notices to be posted in Town prohibiting running at large of dogs after certain hours at night; keeping of a dog known to have bitten any person to be runished by penalty; penalty of \$1 is also imposed on owner whose dog is found running after, barking at or molesting any passer-by on foot or in vehicle, or any horses or cattle. The foregoing relating to town. dogs were, at Ald. Bennett's suggestion. laid on the table until next regular meeting

of the Council. between Golden Ball Corner and King shall be of brick, stone, or other similar durable and non-combustible material, with foundations and walls of certain stipulated thickness; that no existing wood buildings of the police to prosecute. shall be enlarged, raised or added to, save that flat roofs may be made into French roofs etc; any person intending to alter existing premises, or erect new buildings within the district named, must give ten the council. days' notice of the work proposed to be done and descriptions thereof to the Public

Works and Safety Committee, etc. Ald. Nicol said Ald Loggie did not wish to be present to vote on this bye-law, because as he was in the business of making bricks, it might be said he was in favor of it for that reason.

Ald. Watt thought the bye-law a very radical one which should not be finally dealt with until the property owners interested had opportunity to know what was proposed, so that they might give their views upon

Ald. Bennett agreed that it would proper to afford those interested the right to petition against the bye-law should they wish to do so. He moved and it was ordered that it lie on the table until the next regular meeting.

The Mayor referred to the subject of the alleged purchase of a steam fire engine, hosereel etc. from Mr. Ronald and handed Ald. Bennett a letter from Mr. Ronald on the subject, which that gentleman read.

The letter complained of the writer having received no reply to previous letters of his in reference to the steam fire engine and some other plant ordered by a former Board and made by him, which engine and other articles were still lying subject to the order of the Town authorities, and ready to undergo the tests stipulated in the contract. Mr. Ronald intimated that unless a satisfactory | the site at last meeting. reply to this letter was received by him, he would take action in the matter through the

Ald. Bennett said that he would say now, as he had said before, that the late Street and Fire Board had no authority to bind the town to carry out such a contract as that knew whether they wanted the site or not. made with Mr. Ronald, who, as vender, was bound to inform himself of the powers of the Board in that regard. A contract entered into by any body of persons, which was ultra vires of their authority, could not bind those for whom they professed to be acting. In conversation with Mr. Park

of Newcastle, the other day, that gentleman had told him that Mr. had communicated with him (Mr. Park) enquiring as to the name of a solicitor to whom he could entrust this case, but he (Ald. Bennett) did not think there was much to fear, although Mr. Ronald might threaten to sue the Town. It was said that the Ronald engines were the best made in America and the town might purchase one from him, but that was no reason why we should act as if we were bound by the contract which he was en-

deavoring to force upon us. Ald. Nicol moved that the Town Clerk reply to Mr. Ronald's letter, informing him that the Town was advertising for tenders from parties desirous of furnishing it with a steam fire engine, etc., that he would have same opportunity as others to compete, and that he had better defer action until the Town Council had opportunity to deal with the tenders which might be submitted. Carried.

understand that the Town would not be been made well and strong by Paine's Celery taken by the throat. He would, probably, Compound that the physicians of these have fared better had he taken a less institutions were unable to cure by the The Mayor read a letter from James Allen, of Chatham, stating that the Town

boundary stakes marking out the line of Water Street in the lower part of the town, follows passed imposing a penalty upon anyone who

taker of the Town steam fire engine.

Ald. Bennett pointed out that under the Ald. Bennett said a good deal of care had criminal code of Canada the removal of to be exercised in building tanks and he did such stakes was punishable as a criminal leave them at the present time to look after penitentiary. [The penalty is five years Ald. Coleman referred to the want of

police protection in the lower part of the town and recited facts to show that toughs assembled there on Sunday nights, especially, from the different wards and indulged in drunkenness and profanity, to an extent that was disgraceful, annoying to the wel behaved residents and at times threatener danger to peaceable citizens. The police men seemed to confine their presence and attention to the other districts and neglected Ald. Bennett, through the courtesy of the | the lower part of the town. He thought a Provincial Secretary, laid on the table the third policeman should be appointed to protect that locality.

Ald. Nicel said the town used to get along very well with only one policeman, This proposition would increase the taxes and should not be entertained just for the present at least. The Town marshall who was to be appointed would also be a day

Ald. Coleman said Ald. Nicol's district had all the benefit of the present policemen. but they should occasionally go to the lower part of the town. He did not desire to advocate any unnecessary expense. Ald. Bennett corroborated Ald. Coleman's statement as to the rowdyism practiced in

the lower part of the town and even pro-

tection of life was needed there at times, as

proved by matters which came under his

own observation. The Mayor endorsed the remarks of Aldermen Coleman and Bennett as to the guardism of toughs in the quarter named, and cited a recent case of a young man who was working at the Snowball mill, being wantonly set upon and beaten. People could not rest at night for the noises these roughs made, but the trouble seemed to be that the people assaulted would not comtlain of their assailants. When that spirit

prevailed such disgraceful practices were encouraged. Ald. Bennett said he thought he knew the two toughs who assaulted the young man referred to by His Worship; they had come to him in his professional capacity and would not countenance or defend them. neighborhood, as we l as committing other depredations were, he believed, known and if the Alderman would give him their names when they annoyed hun or his neighbors he would spend a half day in prosecuting them, free of charge. He had reason to believe these toughs were encouraged in their lawbreaking by those whom they assaulted being afraid to make complaint against them. Ald. Watt thought the policemen should do their duty better in the lower part of the

Ald. Bennett referred to a case in which policeman Forrest entered a complaint being assaulted by one of these characters Ald. Bennett also read bye-laws relating | while in the performance of his duty, and to the erection of buildings within the dis- afterwards withdrew the charge because he trict embracing both sides of Water Street | was afraid to prosecute. That was an encouragement of such law lessness and Street (the Ferry.) These provide that all sooner these Chatham toughs are dealt with buildings hereafter to be erected therein the better. He did not believe the undue leniency was from the police magistrate. who had done much to promote sobriety and good order in the town, but it was the duty

At the suggestion of Ald. Bennett and after the subject had been discussed considerable length, the Mayor was quested to procure a table for the use

Ald. Watt said that in order to have the proposed engine house built on the old No. 2 site, Mr. Crimmin would have to remove his buildings, and he moved that Mr. Crimmin be served with notice to that effect.

Ald. Coleman, said the site of No. engine house was all made up ground. He was the first man to superintend the filling of it in and attend to that work for Messrs Crimmin and Sadler which he did for a period of some six years. When the steam fire engine was procured they lower floor so as to get it in, and they could not get a proper foundation to bear the weight, but had to put heavy timber under to support the builling. He did the work and knew whereof he spoke. He knew that a great deal of sawdust had been put in to fill the place up especially at the rear. Ald. Watt said that Ald. McIntosh an he had concluded to have trial pits sunk A person well acquainted with the locality had told him that there was good shell rock

there for a foundation. Ald. Coleman-Not out at the rear of the building-I'm sure of that. Ald. Loggie argued, from his knowledge

of the rear line of the Johnstone property, of Chatham Street and Fire Commissioners, that there must be a good foundation on No. Ald. Bennett said his information on the subject agreed with what Ald. Coleman had

said. That was why he had objected to Ald. Nicol said the survey of 1842 showed a certain portion of land on that side of the street, but he could not say how far it

Ald, Murdoch said it was hardly worth while to notify Mr. Crimmin until they. Diamond Dyes Gives the Richest B. Council adjourned.

Why should you go limping round when Putnam's Painless Corn Extractor will remove your corns in a few days? It will give almost instant relief and a guaranteed cure in the end. Be sure you get the genuine Putnam's Corn Extractor, made by Polson & Co., Kingston, for many substitutes are being offered, and it is always better to get the best. Safe, sure, painless.

#### To the Open Hearted.

N APPEAL TO THE PEOPLE OF CANADA IN FAVOR OF THE SORELY AFFLICTED INHABI-TANTS OF THE TOWN OF TIGNISH, PRINCE EDWARD ISLAND.

A great calamity has befallen the once pretty and rising town of Tignish. On Sunday, the 30th August last, a fire accidentally broke out, which in a few hours and workshops. The fire was irresistible from the start, because of the very strong wind that carried it forward in its work of destruction, and so uncontrollable did it become in its mad career that some of the burning cinders were carried by the breeze to a distance of over two miles, where farm nouses and other buildings were in danger of becoming ignited. Indeed fire was found to have started in many places even at that great distance. In this, as has always been the case with

great fires in cities and towns in the past, the consequences to the inhabitants of rignish are disastrious, and we fear, irreparable. What should, however, appeal nost forcibly to the sympathy of the public n connection with this case is the pitiable condition of so many families who have been almost ruined and rendered homeless. Families have been divided and billeted out here and there among the farmers and others of the surrounding settlement. This has been found to be necessary in order to provide shelter for so many people who have lost their homes, and it is to aid these that a relief committee has been formed here, who have undertaken the task of appealing to the charity and sympathy, not only of the people of this province, but also of the inhabitants of the chief cities of the Dominion. As was well expressed by one of the speakers of our meeting of last evening; "It is

our turn now, but it may be theirs some The committee of seven appointed at that neeting have chosen for president and treasurer the Rev. Dugald M. Macdonald. the parish priest of Tignish, who will thankfully receive any contributions that may be sent to him to help the poor sufferers in their sore distress. If in money, these remittances should be forwarded to the president either by registered letter or post office order, and they shall be duly and

promptly acknowledged. It is our intention to make a special ap- PATENT peal to the mayors of the chief cities. to solicit co-operation of the principal newspapers and to interest in our good work as many private citizens as possible. With this imperfect statement we think our case is sufficiently intelligible, and trust that it may receive, at the hands of all good and charitable people, the consideration it

deserves. DUGALD M. MACDONALD. President and Treasurer. F. J. BUOTE. Secretary. S. F. PERRY, Esq., J. DORION, M. D. J. W. GREEN. Committee. PATRICK KENNEDY. JOHN HACKETT, Fignish, P. E I, Sept. 3rd, 1896.

#### GREENS FOR AUTUMN.

The manufacturers of the justly popular Diamond Dyes constantly avail themselves of every improvement in the manufacture of dye-stuffs, thus giving to home-dyers all over the world each and every advantage possessed by the largest manufacturers

Have you tried the Diamond Dye Fast

Dark Green, Diamond Dye Olive Green, and

Diamond Dye Fast Bottle Green? For the dyeing of Wool and Silk goods, these Greens are certainly triumphs of science. For the coming Autumn, the above Greens with their varied shades-Hunter's Green, Myrtle Green, Bronze Green, Russian Green Public institutions throughout Canada and Old Green -will be all the rage for ladies' are as ready to acknowledge the marvellous suits and dresses. Use only the "Diamond, virtues of Paine's Celery Compound as are and you will surely get the best results and

#### Cramps and all such Summer Complaints

PENDLETON'S Propr. of Pendleton's Panacea. DEAR SIR :wish to give you a few words in praise of your Panacea. I was a victim of Cholera for some two or three weeks, during which time I consulted different doctors, and tried different patents, but seemed to

get no relief, until I commenced using Pendleton's Panacea, which very shortly cured my complaint Trusting this will be a service to you.

Yours sincerely Ask for Pendleton's. Take no other
