Con-tinuing, the Provincial Secretary said he thought many of the Conservatives through-out the province had been misled as to the political complexion of the government. In his own county Liberals and Conservatives worked together for the common good, and he thought that was the best plan to follow. Many Conservatives had opposed the gov-ernment in Mr. Blair's time because it was led by a Liberal. They were now confronted with the same opposition after Mr. Blair had gone. Local Politics.

At Gagetown the other day, on the occasion of the election of Mr. Carpenter -a government supporter-by acclamation, to take the seat vacated by Hon. A. G. Blair, some interesting things were said. Mr. Peters, the conservative selected by the opposition to FUI against Mr. Carpenter plainly said he had | Tilley no fault to find with the government. but he could tell them although this election had gone by acclamation they could not stifle the voices of the people in the western part of the county, or they could not stiffe the voices of the great political parties. The Liberals had Mr. Farris. and it would be only fair, considering that this was a coalition government that

the Conservatives should have the other man. He was not in favor of dividing the local legislature on party lines. he wanted was an honest, straightforward administration of the public affairs of the province.

Fashion Journals Call Atten-

tion to Brown Shades,

You Get the Best Colors From Diamond Dyes.

The fashion journals are agreed that the best shades of Browns will be in favor as Fall colors this year.

Thousands of women are not in a position financially to purchase new dresses from season to season, and so have to content themselves with very cheap materials that rarely come in the new shades, or wear their old costumes.

For the benefit of women generally, it may be stated that last season's dresses can. with little work or trouble, be transformed ipto stylish costumes for Autumn wear.

The first great essential is to get the right color. This part of the work can be done with the never-failing and reliable Diamond Dyes, which produce the richest and newest Browns, such as Seal Brown, Milan Brown, Red Brown, Olive Brown, and Amber Brown.

No trouble to have a dress equal to new, if you use the Diamond Dyes. Do not experiment with the common imitation dyes
