St. John last year used Albert's Thomas phosphate powder experimentally as a top dressing on small areas of meadow and pasture land with results so favorable that this season a much larger quantity will be applied. By the use of 400 to 800 pounds per acre the hay crop has been increased from 33 to 50 per cent and the feeding value of pasture land in like proportion, and a strong growth of clover has been introduced. The phosphate pays for itself the first season, and in England where it has been in use since 1833, its effects are generally observed for six or eight years.

The American Humane Educational Society and Mass. S. C. P. A. have formed altogether 28,000 Bands of Mercy with about 2,000,000 members and caused to be circulated 2,000,000 copies of "Black Beauty" and 100,000 of "Beautiful Joe".

The difference between the "Nile" in the Polymorphon parade last Tuesday and a modern battle ship is hardly greater than that which exists between the farmer's implements of fifty years ago and those which are in use to-day; still it will be a long time before rifles are converted into gas pipes and swords into mowing machine knives. But war is slowly becoming a thing of the past and farming is coming to the front as the most honorable and independent of human occupations. The sales of improved farm machinery from the warehouse of B. Myers, No. 82 German street, is much larger this season than ever before, which speaks well for the country's agricultural prosperity and farmer's good sense.

The Governor General enroute to the John Cabot Celebration in Halifax, was in the city a few hours last Wednesday. With Lady Aberdeen he will revisit St. John in August or September.

Flour is lower than last week: best Ontario patents are quoted at \$4.35 and best Manitoba at \$4.75 per barrel. Oatmeal is firmer at \$3.25 per barrel. Plate beef is rather weaker and sells at \$11.75 to \$12. Sugar is dull and depressed. George S. DeForest & Sons quote Porto Rico molasses 26 to 27 cents, Barbados 24 to 25 cents and other islands 20 to 22 cents per gallon. Dried fish are lower. Medium cod sells at \$2.50 to \$2.60, large \$2.75 to \$3.00 and pollock at \$1 to \$1.10 per 100 pounds. Evaporated apples are firmly held in the west and are now sold here at 41 to 42 cents per pound. Butter is dull; ordinary is quoted at 13 to 14 cents and choice at 15 to 16 cents. Eggs are in good demand at 9 cents.

There are in port unladen seven steamers, one ship, nine barges, two barquentines, one brig and 47 schooners.

The anti-slavery cause has been the result of a violent storm in the past.

The dredge Capt. Brown met with an accident on Thursday by which she will be laid up about three weeks.

The annual camp meetings at Boulton camp grounds began June 30 and continue two weeks.

For what he considered an effort to the United States and to himself Consul Derby has vacated his rooms in the Victoria Hotel and taken his quarters elsewhere.

The Consul and Mrs. Derby have during the last year occupied a suite of rooms in the Victoria Hotel, and as their rooms were situated at the front of the building their windows came in for a share of the decorations in honor of Queen Victoria's jubilee. Manager McCormick, of the hotel, had placed around each window a number of English flags. Mrs. Derby removed the flags, and replaced them with the Stars and Stripes. The Gazette speaks of the American flag being "permitted" to float over the consular office. "Permitted" is good—it is very good indeed.

About 200 Knights of Pythias from Boston are expected here about the middle of July. Of course they will pay their respects to the Victoria and the Gazette.

Northrup & Co., south wharf, have in stock several tons of choice dry cod and pollock, a few of new ground cod and cod heads, all at \$1.20 to \$1.30 and the best brands of canned salmon and clams.

Fourteen deaths were reported in the city last week.

St. John, June 28.

**Wrecked.**  
MRS. HARKLEY, THE WIFE OF CAPTAIN HARKLEY, WELL-KNOWN LEAD CAPTAIN OF OPEN SOUND, ONT., TELLS HOW LA GRIPPE LEFT HER AND HOW OFFER DOCTORS GAVE UP HOPE AND HER FAMILY AND FRIENDS DESPAIRED OF HER RECOVERY—THE GREAT SOUTH AMERICAN NERVEINE WAS THE REMEDY WHICH DIRECTED HER INTO THE GOOD HEALTH HARBOR.

"About four years ago I was afflicted with a severe attack of la grippe, which left me almost a complete wreck. I was prostrated for weeks. I doctored with several physicians and used many remedies, but none had any lasting effect. My friends began to feel alarmed for my recovery. The doctors shook their heads, and held out little hope. I was attracted by an advertisement of South American Nerveine, and my trouble was of a nervous nature I decided to try it. The first bottle helped me greatly. I persisted in its use and the great remedy has completely built up my system, and I positively declare that it is the only remedy that gave me any relief."

**News and Notes.**

The Minister of Marine has wired the Montreal pilots that if they go to work with him give them a commission of enquiry during recess.

John Buchanan, of Ziville station, about twenty miles up the Nashua, had his building burned Thursday night. Loss heavy. There was \$10,000 insurance on the building but nothing on the stock.

Ferguson & Page, St. John, have been instructed to procure a clock with an illuminated dial for the Intercolonial station in that city.

**Worth Its Weight in Gold.**

"IS THE TESTIMONY OF FRANK S. EMERICK OF AUSTIN, ONT.—SAYS SOUTH AMERICAN KIDNEY CURE SAVED HIS LIFE—IT RELIEVES IN SIX HOURS."

"For two years I was greatly troubled with kidney disease. I suffered intense pain, and frequently was unable to work. I doctored at intervals, but got little or no relief. I began to grow worse, and the pains were frequent and intense. About this time I saw South American Kidney Cure advertised as a speedy relief for all kidney troubles. I purchased a bottle, and it gave me wonderful relief in a few hours. I improved steadily, and after taking four bottles I am completely cured. I consider it worth its weight in gold, for it actually saved my life."

replied in most feeling terms, regretting that he was about severing his connection with an institution in which he had spent so many years of his life, and reviewed the many pleasant associations connected therewith. The guests after partaking of refreshments, bade good-bye to Mr. Fyfe and family, wishing them every success in their new sphere. [Halifax Recorder June 24.]

**That Flag.**

Chatham people are very much amused over the dictatorial tone assumed by the World in reference to yachts, flags, etc. No one who builds a yacht or boat of any description, on any flag, may hope to evade the earnings of the World, whose editor, with his recently acquired and superficial knowledge of such matters, appears to assume that he has a special mission to employ his pen in publishing the illusion that no one, save himself, has any correct knowledge of such things.

The other day he published an altogether uncalculated attack upon Mr. Sutherland of the C. P. E. because that gentleman had built a schooner yacht as a pleasure craft for himself and family; and on Saturday last he assailed the flag presented by Mayor Benson for Chatham public square, on the ground that it is not properly designed. It is, however, of the same design as every other Canadian flag our people have seen, and the World's attack upon it is only a sample of that paper's usual bombastic and silly efforts to pose as an authority in certain matters, of which it is really quite ignorant. If the flag of the square doesn't please the critics of the World, it might make a beginning at doing some in a public way for the town by presenting one which will come up to his ideas of perfection, to take its place, although he would have to search far to find a Canadian flag of different design from that presented by Mayor Benson.

**Praise for Mrs. Tweedie.**

The ladies' committee in charge of the hospital endowment fund are warm in their praise of Mrs. Tweedie of Chatham, wife of the Provincial Secretary, who has shown such an active and effective interest in raising funds for the hospital among her friends in Northumberland and elsewhere. Mrs. Tweedie's first collections amounted to the handsome sum of \$179, and yesterday Mrs. P. Thompson, treasurer of the fund, received from her the additional sum of \$90, contributed by C. A. Duff Miller of London \$50, his friend Mr. Walker \$5 and \$5 from George Henderson of the New York Herald, formerly a well known Chatham citizen. The total of Mrs. Tweedie's collections is now \$239.—[Fion Herald.]

The list of Mrs. Tweedie's collections is as follows:

Alex. Dickson, Napier,	\$1 00
Chas. Mitchell, Chatham,	1 00
John Siveright, M. P. R. Bathurst,	2 00
Hon. C. H. Laidlaw, Dalhousie,	5 00
W. A. Mott, M. P. P., Campbellton,	5 00
Hon. A. T. Dunn, St. John,	5 00
H. P. Tuley, St. John,	5 00
Wm. A. Quinlan, St. John,	5 00
A. I. Truman, St. John,	5 00
Wm. Walker, London, Eng.,	5 00
Geo. E. Henderson, New York,	5 00
W. C. Winslow, Chatham,	5 00
Hon. Judge Wilkinson, Chatham,	10 00
Hon. Dr. Pugsley, St. John,	10 00
Hon. L. J. Tweedie, Chatham,	10 00
W. C. Rudman Allen, St. John,	10 00
A. Fried,	25 00
Hon. Saml. Adams, New York,	50 00
C. D. Aime, Bathurst,	50 00
C. A. Duff Miller, London, Eng.,	50 00
<b>Total</b>	<b>\$239 00</b>

**Blow up the Dam!**

THE ADVISORY LAWYER GAVE HIS ST. JOHN CLIENTS—PROSPECTS OF LAWSUITS OVER ASHLAND MILL-DAM.

ASHLAND, Me., June 24.—Some novel and interesting litigation is promised as a result of that peculiar log-sawing spring the Ashland Lumber Co.'s holding-plant. When the logs came down the Aroostook river they were running swiftly on account of the high water, and sorting them was a difficult matter. The Ashland Company caught and held all the logs in their big dam and thereby elicited a big dam from the lower St. John lumbermen in the province. Logs that they were waiting for were held at Ashland until the millmen there could pick out their timbers.

A big jam was formed and the process of unjamming the dam was difficult and tedious. The Ashland Company claimed that it was moving as rapidly as possible, but that their down-river neighbors couldn't expect them to allow all timber, their own included through their dam. Therefore they kept on carefully picking over the jam, sending down the other parties' logs as they were extricated.

Of course the St. John driving crews were delayed by the jam at Ashland and there was much scolding to and fro of lawyers and down-river parties.

One prominent attorney, who was consulted, gave his St. John and Fredericton river-driving clients peremptory orders to blow up the Ashland dam as an obstruction.

He argued that the river-drivers were not responsible parties from whom damages could be collected and that they, having taken a contract to drive, were not in the proper sense servants or agents. He said the down-river people had a right to get their logs down and to remove obstructions whatever they might be.

The drivers were, however, not courageous or rather not rash enough to follow out this startling advice. It seemed to border a little closely on anarchy, and so each act had been attempted they would no doubt have been vigorously resisted by the Ashland crew.

At last, after considerable delay, the down-river logs were worked through the jam and the Ashland timber and the excited lawyers and down-river men left for the Province. Now it is said they threaten some test suits in order to collect damages for their season's delay and to learn their rights in anticipation of next season's drive.

The Ashland company, which has one of the largest modern saw mills in New England, with nearly half a million dollars invested, will carefully protect its own interests, for it is of the most importance that their logs in the holding place be not interfered with during critical spring floods.

**Meeting of Presbytery.**

The Presbytery of Miramichi met in quarterly session at Newcastle on Tuesday, the 29th ult. The ministers present were Rev. J. K. McClure, moderator, with Revs. T. G. Johnston, N. McKay, Wm. Aiken, J. D. Murray, A. F. Thomson, Dr. Bruce, Joseph McCoy, and Dr. MacIntosh, Mr. W. J. Carruthers, elder. Dr. Bruce was elected moderator for the current year and Dr. McKay was continued clerk. Standing committees for the year were appointed as follows:

**ARGUMENTATION:** Messrs. Aiken and Carr, and the Newcastle elder.  
**HOME MISSIONS:** Messrs. McCoy, McClure, McKay, Aiken, Thomson, and Fisher, and Mr. R. N. Weeks, elder.  
**CHURCH LIFE AND WORK:** Messrs. Kinney, Carr, T. G. Johnston, Robertson and J. D. Murray.  
**SABBATH SCHOOLS:** Dr. McKay, F. W. Murray, J. K. McClure and G. Hallow.  
**STATISTICS AND FINANCE:** Messrs. McCoy, Sutherland, E. W. Johnston, Fisher and St. John church, Chatham, elder.  
**C. E. AND Y. P. SOCIETIES:** Messrs. McLeod, Dr. Bruce, J. Barker, F. W. Murray, and Joseph Henderson.  
Mr. McCoy's accounts as Presbytery Treasurer were submitted, duly audited, and found correct. He received the thanks of Presbytery for his services and was reappointed treasurer.  
Mr. George A. Sutherland was authorized

to make a personal appeal and canvas in our congregations, for aid to the building funds of churches now being built at Pleasant Ridge and Hayville; and pastors were directed to assist him as much as possible in his efforts.

The attention of Presbytery was called to financial difficulties in certain sections of our work in Kent county, and it was agreed to remit for the consideration of sessions of the congregations concerned a scheme for consolidation by the following grouping of stations.

Group 1st, Harcourt, Mill Branch and Bass River.  
Group 2nd, Kingston and West Branch.  
Group 3rd, Richibucto and Kouchibouguet.

Sessions are ordered to report their views in the matter to a special meeting of Presbytery to be held at Harcourt on August 10 at 2 o'clock p.m., standard time.

Next quarterly meeting of Presbytery is to be in Chatham on the last Tuesday of September at 10 o'clock standard.

**How To Avoid Wasting Time and Money.**

A word at this time to the ladies of Canada may be the means of putting them on their guard, so that time and money may not be wasted.

There are certain dealers and storekeepers whose life-object is the making of large profits on every article they sell.

These dealers are now endeavoring to sell adulterated and imitation package dyes for the same price as the honest dealer asks for the reliable and never-failing Diamond Dyes.

Few ladies have the inclination to spend time or money to experiment with worthless and poisonous ingredients put up to outwarily imitate the marvelous Diamond Dyes. If you want good work you must use the best dyes. Years of thorough testing proclaim the fact that Diamond Dyes are the strongest, brightest and most economical; they are the only dyes in the world that are specially warranted. Each packet, when directions are followed, will give satisfactory and astonishing results.

**W. T. Harris**

again gives away a handsome PIANO ORGAN. From now until the 2nd of Dec. 1897, with each dollar's worth of goods you buy and pay for at either our Grocery store or Book & Stationery store you will receive a TICKET FOR A HANDSOME PIANO ORGAN which will be given away on the 2nd of Dec. 1897.

It will be conducted in the same manner as it was in 1895 and 1896, which proved very satisfactory and was admitted by all to be a square transaction.

On each ticket for the PIANO ORGAN will be printed PIANO coupon and number. You get full value for every dollar you spend and some one is sure to get the PIANO ORGAN in addition.

The PIANO ORGAN is on exhibition at the Red Store and is very handsome.

W. T. HARRIS,  
Chatham, N. B.

[From the Stock Exchange, London, June 10, 1897.]  
**A Distinguished Anglo Canadian.**

MR. CHARLES A. DUFF-MILLER, the Agent-General for New Brunswick, was born at Kingston, Ontario, on February 27, 1854, and was educated at the High School, Montreal, and subsequently in England and Switzerland. He married in 1891 the daughter of Foster Mortimore, Esq., of The Island, Romney, Haits, and granddaughter of Sir Henry Hunt, C. B. He is the eldest son of the late Mr. John Miller, formerly of Picton, Ontario, the inventor and founder of the now important tanning extract business, by which the essences of bark and woods useful in the production of leather are extracted from the raw material, the useless fibrous and woody matters being eliminated, and the remaining valuable tanning properties concentrated and thus rendered portable at low cost, 1 ton of this extract taking the place of 6 to 7 tons of the original tan bark. It is not exaggeration to say that the introduction of these extracts has greatly tended to preserve in England the most important industry of tanning leather, as the supply of oak bark becoming quite inadequate to the increased demands, and the cost of importing substitutes in the raw state too great, this industry would have been driven to foreign countries where the supply was more abundant. This industry was originally established in the Province of Quebec, but in the year 1868 Mr. Miller, recognizing the superior advantages of New Brunswick, not only in the proximity of large forests of hemlock bark, but also in its near proximity to the sea giving excellent shipping facilities, the chief seat of this manufacture was moved to Millerton, on the Miramichi River, in the latter Province. The tanning extract now finds its way to all countries, including Australia, South Africa, and other of the important Colonies, besides Continental countries, but the United Kingdom is the largest consumer. Since Mr. Duff-Miller entered the business 25 years ago he has been intimately connected with the Province of New Brunswick, and succeeded to the post of Agent-General for that Province in London on the death of the Hon. Jas. I. Fellows, in February, 1896. He has always taken a great interest in anything to do with the Province he has identified himself with, as well as of the great Dominion of Canada, of which New Brunswick forms an important part. When the "National Policy" was first then called, was very little understood in this country, Mr. Duff-Miller took upon himself to write letters to the Times, and other papers, explaining the causes and objects of the course the Dominion followed itself compelled to pursue after the expiry of the Reciprocity Treaty between Canada and the United States, and the refusal of the latter to renew the treaty, and therefore the necessity of a tariff such as would protect the infant manufacturing interests against the competition of powerful neighbors in the South, and also pointing out that this policy had for its aim this object, and not the transmuting of trade with the Mother Country. He had the honor at that time of receiving recognition of his efforts in this direction from that greatest of Colonial statesmen, Sir John A. Macdonald—a compliment of which he is not a little proud. His business has not only kept him in direct contact with the Province for very many years, but he has been largely on the Crown lands of the Province, and has greatly helped the extension of prosperous settlements in more than one county of New Brunswick. His appointment, we believe, an almost unanimous one. Although representing in this country a Province forming part of a Confederation of Colonies, together forming a Grand Dominion, directly and indirectly represented by a High Commissioner, and one so able and meeting with such universal acceptance on both sides of the Atlantic as Sir Donald A. Smith, we can well imagine that there is still room for men with such intimate acquaintances with their own portions of such a vast domain to do useful work, without encroaching on the superior dignities, rights, and duties of the chief under whom it must be a distinguished honor to serve. Confederations of other great empires of Colonies will, we trust, very rapidly follow the good example of Canada after this glorious year of Jubilee and the great

encouragement in this direction that has been extended by the wise statesmen of the Queen and Empire; and we venture to think that when these confederations of groups are accomplished, fact, whether as Dominions or Commonwealths, that the Agents-General of individual provinces forming part of each will be of recognized utility in their own particular, if more restricted, sphere, always subject, nevertheless, to their respective High Commissioners, and all working together towards the ultimate goal of one vast and glorious Imperial Federation of Greater Britain and the Indies, forming the greatest Empire this world has ever seen.

The London Echo of June 11th also says: "A man who is fast becoming a prominent figure and influential actor in Colonial circles in London is Mr. C. A. Duff-Miller, who was recently appointed Agent-General for New Brunswick in London. Although still quite a young man Mr. Duff-Miller has for a long time been prominently connected with the commercial and public life of his Province, and owing to his energy the resources of New Brunswick are now being brought to the notice of the public on this side more conspicuously than ever."

MIRAMICHI MARBLE WORKS.—If you are looking for the right kind of cemetery work, we are quoting prices that will draw the order from your inside vest pocket.  
J. H. LAWLER & CO.

**Trip Over Gulf Shore Railway.**

EXTENSION OF THE ROAD WILL SOON COMMENCE—VISIT TO THE LAZARETTO.

BATHURST, June 25.—Thos. D. Adams, Esq., of the Gulf Shore Railway Co., invited a number of ladies and gentlemen of Bathurst to take a trip to-day over the Caranquet and Gulf Shore Railway to Tracadie. The party left here at 11 a.m., arriving at Tracadie at 2 p.m., a distance of 71 miles, making some short stops along the line. After partaking of an excellent dinner at the residence of John Young, Esq., the party visited the Lazaretto, a handsome and imposing structure lately erected by the Dominion government, which is a great interest in this institution and gives a considerable and humane attention to the condition of the unfortunate inmates. Dr. Smith, the medical superintendent, is a gentleman of acknowledged ability in his treatment of leprosy. The visitors were shown through the different wards and departments by the sisters in charge, whose heavenly work of self-denial and devotion and unswerving fidelity to duty and to the patients are beyond human praise. The number of patients at present is eighteen, among whom are the three Islanders who were lately brought from Winnipeg. One of them, a young man about thirty, is rather intelligent and expressed his sorrow for the poor unfortunate people who were around him. He evidently thought he would be cured and said although he was very well treated yet he was very lonesome and would like to see some of the old people or books. The rest of the patients looked resigned and comfortable. The beds and rooms were scrupulously clean.

There is in course of construction an annex for the orphans of the lower parishes of the county, which is being built and will be supported by voluntary contributions.

Work will soon commence on the extension of the Gulf Shore Railway from the present terminus at Tracadie to Big Tracadie River, where it will then almost pass the Northumberland county line. As a result of the extension Messrs. Stanford and Foster, of Bangor, will erect a large steam saw mill on the Big Tracadie River, and thus send their shipments direct from the mill by rail. The erection of a public wharf at the terminus of the Caranquet Railway at Shipigan would result in convenient and expeditious lumber shipments from the splendid harbor of Shipigan, of the deal output of the Tracadie and Caranquet saw mills and would develop the quarrying industry of the Big Tracadie.

The Gulf Shore Railway has just been ballasted and is probably the best branch line in the province. In returning from Tracadie to-day, for a distance of eight miles on this line the time was equal to forty-five miles an hour. It is needless to say that the party returned to Bathurst delighted with their very enjoyable outing.

**The Suffering and Crushed in Spirit**

NEED WORDS OF CHEER.  
Their Only Avenue of Escape is Through Paine's Celery Compound.

True words of encouragement, hope and cheer are generally welcomed by suffering humanity—at least by that part of it which is crushed spiritually and despondent hearts. To those who are martyrs from rheumatism and neuralgia, we have a few words of honest advice, which, if followed will certainly lead to that coveted goal—perfect health—that many are so earnestly praying to reach.

Up to the present you have failed to banish your rheumatism. The medicines you are using have not removed the floating and poison from your joints and muscles. You are as bad as ever—perhaps worse—than when you commenced to doctor, and some of you are pronounced incurable.

Cheer up, old soul! There is hope, yes, more than hope; there is a new life for you and freedom from all pain and agony if you give that heaven-sent remedy, Paine's Celery Compound, a fair and honest trial. It has completely cured the worst forms of rheumatism in the past, and its great and precious virtues will do the same good work for you to-day.

To those who suffer from that merciless tormenter, neuralgia, we say with all candor, use Paine's Celery Compound, and your future will soon be happy and bright. This disease always indicates a low or depressed vitality, and is the most agonizing and exhausting that can afflict the nervous system. The ablest physician now freely prescribes Paine's Celery Compound for neuralgia, and affirm that no other medicine can so completely eradicate the cause of this terrible disease.

A bottle of the great health-giving medicine will produce cheering results and will prove that our advice is golden. May heaven give you sufficient faith to make a trial.

**Shipping News.**

(held over until next week.)

**MARRIED.**

At Grace Church, Millerton, June 25th, by the Rev. T. G. Johnston, Messrs. Henry Saunders, M.D., of St. John, N. B., to Miss Christina S. Archibald, sister of Mrs. Dr. Wilson of Iqro.

At the Residence of the bride's parents, on June 25th, by Rev. J. Robertson, Mr. Samuel McDonald, of St. John, N. B., to Miss Christina S. Archibald, daughter of Mr. John Archibald of upper Black River.

**DIED.**

Suddenly, at Truro, June 25th, Mary Russell, wife of R. M. Fulton and daughter of the late Rev. A. C. Garvie of Chatham, aged 70 years. The funeral took place at New Glasgow, N. S., on Wednesday, 27th.

**Canada Eastern Railway.**

An adjourned annual general meeting of the shareholders in the capital stock of the Canada Eastern Railway Company will be held at the Society's office, Fredericton on

Tuesday the Thirtieth day of July next at 3 o'clock in the afternoon.

Dated 10th, June, A.D. 1897,  
GEO. F. GREGORY,  
Secretary.

SPECIAL! SPECIAL! SPECIAL!

25 dozen of Ladies' Taffeta Gloves, clearing at 12c and 15c. A PAIR.

J. D. CREAGHAN. J. D. CREAGHAN.

ALBERT'S THOMAS PHOSPHATE POWDER

(Registered) IS THE SOLUBLE BASIC PHOSPHATE OF ENGLAND.

At the German Government Experimental Station at Darmstadt, Professor Paul Wagner has tested it most thoroughly, and unhesitatingly pronounces it the best phosphoric fertilizer at his command. He says: "If you desire to enrich the soil, to provide the soil with a store of phosphoric acid to serve for continuous cultivation for perennial fodder fields, meadows, vineyards, orchards, etc., there can be no phosphate more suitable than Thomas' Phosphate Powder."

In another place he says that clover gave a higher yield on ground that had this powder put in it than on ground upon which phosphate manures had been applied.

It is the cheapest and most profitable Phosphate Manure in the World!

THE CONCENTRATED HORTICULTURAL MANURES, For Fruiting, Gardening and House Work are the only absolutely pure and soluble manures in the Market.

Our Pamphlet free.

GEORGE R. MARQUIS AGENT, CHATHAM, N. B.

House to Let.
