

W. S. LOGGIE COY LIMITED.

- TIMOTHY SEED, RED CLOVER, LATE RED, ALSIKE, PUPPLE TOP TURNIP, YELLOW ABERDEEN, CARROT, HALF LONG NATES, BEANS, BUSH, GOLDEN WAX.

Miramichi and the North Shore, etc.

HOUSE AND OTHER PROPERTY to let. See advt. CHATHAM INCORPORATION ACT for sale at the ADVANCE office—price 25 cents.

NEW HIGHWAY ACT—Forms under the new Highway Act are for sale at the ADVANCE OFFICE.

LEAVE YOUR WOOL with W. T. Harris to be carded. He guarantees satisfaction and your wool will be returned in one week.

THE "ADVANCE" is for sale at Johnson's Bookstore and the Circulating Library, Desmond building, next door to the Telephone Exchange.

PEOPLE who make request for street improvements are told that there's very little money thereof, as the public building will take it all—say nothing of the "extras."

MIRAMICHI MARBLE WORKS—If you are looking for the right kind of cemetery work, we are quoting prices that will draw the order from your inside vest pocket.

THE FIRST "EXTRA" is being worked for in connection with the proposed new public building. The alderman who supplies the spikes &c. at good prices for the street work says it's only \$75. Well, it's a beginning, and there are more like it to follow.

NORTHERN COUNTY S. S. CONVENTION will be held in Chatham on 12th and 13th of July. S. S. Superintendents will kindly see that statistical reports and collecting slips are handed in by the last of June.

OBITUARY—Much sympathy is extended to Mr. and Mrs. John Sinclair over the death of their son William, a promising young man of 20 years. The funeral, yesterday afternoon, under the auspices of the I. O. G. T. was very largely attended.

DOMINION PULP MILL—The new manager of the Dominion Pulp Company's Works, Mr. H. W. Wagon, has arrived from England and assumed control of the establishment on the river. We understand it is to have the necessary additional plant to make it a 30-ton mill put in this season.

THE LABORER BASS caught with hook and line of Esau's Island this season was taken on Tuesday last, by Mr. Jas. O'Toole, of Mr. T. W. Flett's mill. It weighed 29 lbs. The lucky fisherman and his companion could not safely get it into their boat, so they landed it by towing it ashore.

JUBILEE AT THE ALMOUSHOUSE—At a meeting of the managing committee of the county almshouse held on Saturday it was unanimously ordered that the sum of fifteen dollars be appropriated for the celebrating of the Queen's Jubilee at the almshouse, Chatham. The money will be spent for some jubilee extras to the bill of fare, illuminations etc.

MR. EARL JOHNSTON, of Bathurst, son of Mr. D. T. Johnston, formerly of Chatham, has been appointed junior in the Bank of Montreal at Wallborough, Ontario, to which Mr. Montisambert, formerly of the Bank's branch in Chatham, is manager.

FOR WINNIPEG—Rev. Dr. Neil McKay of Chatham, Rev. T. F. Fotheringham, of St. John River, Mr. Robinson, of Moncton, and Mr. W. C. Whitaker of St. John are amongst the New Brunswickers who have gone to Winnipeg to attend the Presbyterian general assembly. Rev. Dr. Bruce of St. John, who is now in Upper Canada, will also attend.

CAMP SUSSEX—The staff for the Sussex military camp will be constituted as follows: Lieut. Col. Gordon, Royal regiment, commanding; Capt. Fieser, Royal regiment, brigade major; Capt. Taylor, Royal Regt, military instructor; Surgeon McLeod, Royal regiment, principal medical officer; Major Beckwith, 71st Batt., camp quartermaster; Capt. Wedderburn, 8th Hussars, supply officer.

SALMON IN ST. JOHN WATERS—The catch of salmon in the harbor and down the shore Wednesday night and yesterday must have aggregated 500 fish. Bristol Harbore of Chatham Harbor sent up 23 as the result of his first night fishing. Big hauls were made by all the drifters, as salmon are not usually caught in large numbers so early in the season. In the harbor No. 1 weir landed 22 salmon, and the other weirs and net fisheries did well.—Daily Sun, June 4.

REMOVAL OF TAILORING ESTABLISHMENT—Mr. Weldon, owing to increased business, has shifted his quarters from Henderson St. to the store lately occupied by Jas. Nicol, Water St. Mr. Weldon is offering a large stock of the best material for suitings, overcoatings and pants, and would ask all who wish to be well suited to call and see his goods and prices before ordering their clothes elsewhere. He guarantees fit and work.

PERSONAL—Vancouver World, May 29:—Mrs. Doherty, of Richibucto, N. B., mother of Mrs. W. J. Bower, is visiting her daughter.

Mr. and Mrs. Macdonald Snowball arrived in Chatham from Pasadena, California, on Friday night and are to reside here. Mr. Snowball's health being sufficiently restored to warrant his home-coming. His many friends on the Miramichi are glad to welcome him back, and hope that he and Mrs. Snowball may find the climate sufficiently agreeable to enable them to remain here permanently.

Mr. Alex. Bremner, formerly of Chatham, is Chief Engineer of the I. S. S. Company's steamer St. Croix, which is to be the express boat between St. John and Boston direct from July 5th until October 2nd. He is a graduate of the Miramichi and Machine works.

WHO WERE THEY?—The Campbellton Telephone says—"Mr. Miller has been received here that is—Mr. Miller, who conducts a small store at Jaquet River for Mr. Haddow, of Dalhousie, was leaving the store at a late hour Saturday night with the cash box in his possession, he was assaulted by

to get along without that! It isn't in the contract. And, then, what about the plumbing? There's nothing about that in the contract. And once more, what about the installation of the lighting plant? The contractor isn't anything to do with that! All these pretty expensive things must be provided but they are all relegated to the limbo of "extras." When the \$10,000 said to be now available for this Chatham "elephant" No. 2, are spent, where is the extra \$7,500 to come from, and by what authority is the prospective debt being incurred? Has any member of the Council the courage to attempt an explanation? Now that the tax bills are going around, the people who have to pay the bills would like to be taken into the confidence of our somewhat reckless civic representatives.

Amusements. Rice's Comedians will begin a week's engagement at Masonic Hall on Monday evening, 14th inst. This is considered to be one of the best repertoire organizations in existence and an exceptionally good and successful season here. The play to be presented on the opening night is "Under the Lion's Paw," a piece with a well written plot, full of exciting situations and replete with new songs and dances. The specialties introduced by this company are prominent features in all their performances. Edison's wonderful Vitasec will project moving pictures at every performance, and those who have never seen this truly wonderful machine, should not fail to visit Masonic Hall next week. The prices will be 15, 25 and 35 cents. Reserved seats at Mackenzie's.

Under the head of "Making a Great Name in Bangor," the News of that city says: "Rice's Comedians continue to do a good business in the Opera House. This company is a strong one and well merits the liberal patronage it is receiving. The bill on Thursday night was Lights and Shadows, an English melo drama of the Lights of London type. It was full of stirring and exciting situations and the audience was well pleased. The company were admirably cast. Messrs Mantell and Frye and other members of the company presented specialties which won repeated recalls."

Miss Munyan's Concert. We have received a programme and newspaper description of the Opera House, at the Unitarian Parish House, Eliot St., Jamaica Plain, at which Miss Helen E. Munyan was the soprano. Miss Munyan's numbers on the programme were the following:—Soprano Solo. (a) Love Song. (b) Danish Song. (c) Heart's Delight. In June. The newspaper report of the concert so far as it refers to Miss Munyan is as follows:—Miss Munyan, around whom, of course, the chief attraction of the event centered, was welcomed heartily. She was beautifully gowned in a rich white satin with low cut corsage and without ornament. She was in excellent voice and her rendition left nothing to be desired. In her solo, "Heart's Delight," her voice was shown at its best. "One of the charms of Miss Munyan's voice is the reserve force which she possesses. As well as sweetness there is a power in her voice which she can depend upon in the most trying passages, thus making the most effective climax. "Miss Munyan is to be congratulated upon the success of her recital as well as her vocal triumphs, for every detail of arrangement was managed by her. With these qualifications and the aid of her beautiful and an attractive stage presence, Miss Munyan's future seems assured. She was the recipient of magnificent bouquets and at the close of the recital host of congratulations were showered upon her."

Queen's Jubilee at Bathurst. Our Bathurst neighbors are going to do the Queen's Jubilee every justice. Their programme is well advanced and includes a bicycle relay race on Monday, 21st, between Campbellton and that town—the riders arriving at Bathurst with their message about 6 p.m.

On Tuesday, 22nd, there will be two royal salutes fired—one at 9.30 a.m. and another at 1 o'clock p.m. The morning parade will start from the school grounds at 10 a.m. Three brass bands will furnish music. There will be bat and canoe races, five mile and half mile bicycle races, all kinds of running, jumping and other races, shot-putting, pole-vaulting and other jumping, a torchlight procession, illuminations, fireworks and a comedy and variety concert in the evening. When they undertake things of this kind in Bathurst they put them through with creditable energy and completeness: Bathurst ought to be a very attractive place on Tuesday, 22nd.

Express Steamer from St. John. The International Steamship Company is to put its greyhound steamer, the St. Croix, on the route between St. John and Boston direct, beginning at Boston on Monday, 6th July and continuing until Oct. 2nd. The first trip from St. John will be on Tuesday, 6th July, leaving at 4.30 p.m. Thereafter the St. Croix will make two trips a week, leaving St. John on Tuesdays at 4.30 p.m. and Boston on Mondays and Thursdays at 10.30 a.m. The running time of the St. Croix between Boston and St. John will be 18 1/2 hours.

In addition to this fast express service, the steamers "Cumberland" and "State of Maine" will make the usual runs between St. John, Eastport, Portland and Boston leaving St. John on every Monday, Wednesday and Friday, reaching Boston at 4 p.m. the day after leaving. These steamers make connection at arrival at St. John with I. C. R. night train for North Shore points.

The new feature of the company's service—the express steamer direct between St. John and Boston—will greatly attract travel.

John McDonald's Death. The parents of John McDonald, son of Mr. James McDonald of Chatham, west, have, for some time, been endeavoring to ascertain the facts of his rumored death in March last, and have finally succeeded, with the assistance of Mr. John A. Wilson of New York, who is ever ready to help the Miramichi friends in every possible way. The following letter was enclosed in one from Mr. Wilson to the bereaved parents and tells its own story:—

AGUSTA, GA., May 22, 1897. Mr. John A. Wilson, New York. DEAR SIR:—Replying to yours, addressed to Mr. Hyman, John McDonald was a member of our force for nearly three months. After receiving his pay Monday afternoon, March 15th, he left his office and the next we heard of him was that he had fallen from a train about three miles from the city and was badly hurt. We had him moved to the hospital, where he received every attention possible. He never regained consciousness and died the following Friday, 19th, and was buried by the local Typographical Union. Efforts were made to communicate with his family, but I think they were fruitless.

Yours truly, S. H. MYERS, Business Manager. McDonald learned the printing trade in the ADVANCE office, and was an ambitious and pushing young man. His sudden and untimely death will be regretted by many old friends here, who sympathize with his aged parents in their bereavement.

Will They Explain. How much are the "extras" in connection with the mud-hole public building to cost? What will it take to provide the pipes and make the connection with the river for pumping water without taking the engines from the building? It is stated that the advocates of the structure claim that there will never—well, hardly ever—a fire within reach of the building, so they have abandoned the water connection with the river. But, what about the steam or hot water heating plant? Are they going

Patenaude, Upper Bay du Vin, N. B., to John McKane, Newcastle. This letter is also believed to have been stolen at the Newcastle post office.

Letter containing \$6.25 sent by Israel Legere to the Bank of New Brunswick at Newcastle. Stolen in the office.

Letter from Back of Montreal, Montreal, to W. H. Byer at Whitney, N. B., containing \$126. Stolen at Newcastle post office.

A. Bryenton's letter containing \$11.79 to W. H. Thorne & Co., St. John. Stolen at Newcastle.

Letter from J. A. Johnston at N. W. Bridge, N. B., containing \$30 to Mrs. J. A. Johnston, Berry's Mills. Stolen at Newcastle.

Charge against Col. Domville. An investigation is about to be asked for by Major Markham, which will take the form of an enquiry into the action of Col. Domville, M. P., in appointing a junior major over the head of the senior major of the regiment, and also for the use of language unbecoming an officer and a gentleman of the service. If the hearing is granted, a pretty spicy time is sure to be had by the public. The case is now before the court for preliminary proceedings and the fight for supremacy promises to be of interest to militia men.—News.

Town Council Meeting. Chatham Town Council met on Monday evening in Masonic Hall, Mayor Benson in the chair, and Ald. England absent. The minutes of the previous meeting were read and approved.

Ald. Nicol, reporting for the Board of Street and Fire Commissioners, said as the contract for the new building was signed, it was now necessary to call for tenders for the remaining \$10,000 worth of bonds and moved seconded by Ald. Murdoch, as follows:—

That tenders be called for in the name of the Mayor and Town Clerk for the purchase of the remaining ten thousand dollars worth of debentures authorized by the Legislature—said tenders to be received up to noon of Monday, 22nd inst., and the bonds to be delivered to the purchaser on the due date of the coupon on payment of the price. Carried.

Ald. Watt also reported that arrangements had been made with Patrick Desmond to remove No. 2 Engine house some 100 feet in the rear of present site, for \$75.00; also arranged that provision Daniel Curran failed to have the building known as the Robinson house removed by the time the engine house was removed, Mr. Desmond receive \$85.00 for removing both buildings. The Amoskeag engine is in first-class condition and is at present at Mr. Raddock's foundry with 500 feet of hose. The Ronald engine is in No. 1 engine house and will remain there until No. 2 is ready to receive it.

The report was adopted, on motion of Ald. Nicol.

Ald. McTosh moved that William and Henry A. Muirhead be added to the list of lumber surveyors for the Town of Chatham. Carried.

Ald. Loggie reported that new sidewalks were laid as follows:—On Wellington street, 600 feet; Sheriff street, 150 ft.; Water street, 400 ft.; St. John street, 300 ft. and Church street 350 ft. Bills in connection with work on streets were passed as read.

A number of bills in connection with the Fire Department were also passed, including Mr. Raddock's bill for repairing the Amoskeag engine, \$250.

Ald. Nicol said the town clock in the Methodist church tower was now giving very good satisfaction, and as a great many of the citizens were benefited by it he thought it only fair that the town should pay for the repairing and keeping of it in running order. There is now a regular attendant who does the work for \$10 a year.

All Watt was in favor of paying the cost since the Town became incorporated. The clock was doing good service now and would be much better if made to strike. He moved: that the town pay \$10 a year for keeping the town clock in Methodist church in repair from May 1896, providing the attendant makes it strike the hours. Carried.

Ald. Nicol moved, seconded by Ald. Watt, that any person or firm having a claim against the Town for material supplied or labor performed, which claim was due and unpaid on or before the 5th day of June, inst., being the last day on which the amount on taxes is allowed this year, may receive the benefit of said discount, provided the amount of such taxes is paid on or before the same day on which the Town pays said claim. Carried.

A petition was read by Ald. Maher from the residents on Canard street, requesting the Town Council to have the road commissioner repair the sewer on that street.

Ald. Watt thought the Public Works Committee should inquire themselves and make it their business to go over the road and have the holes and gutters filled up on Water Street and have all the rubbish removed.

The Mayor said it was almost impossible to trot a horse on Water street and he hoped something would be done before Commemoration Day. Another thing that could be easily done and thus save the streets from being cut up would be to, have the teams hauling wood turn the first corner and use the back streets.

Ald. Murdoch approved of this idea. The carts now only cut up the streets, but there was inconvenience caused by the teamsters using the sidewalks while reining their horses in the centre of the street.

Ald. McTosh thought if the matter was suggested to the employers this inconvenience would not continue.

The upper end of Water Street needed repairing and Ald. Watt said he would give the commissioner sufficient ballot to have this section filled in.

By-laws relating to the ferry, the Town Marshall and Town Treasurer were passed. Ald. Nicol moved that the by-law relating to the local Board of Health be rescinded as they could act and be guided by the Provincial Act.

Ald. Maher asked if citizens in the outer districts could not be given police protection.

Ald. Coleman said, now that the new policeman was on duty, they would have rules requiring the police to go duty in the different sections of the Town.

Ald. Watt said instructions were given to the policemen to arrest any pedlar selling goods without a license in future.

Ald. Nicol said there was a difference of opinion on the subject of selling beer on Sunday. Beer that did not intoxicate was allowed under the Stat. Act, and a section should be made in the by-law defining these beers, and he gave notice of a motion for next meeting dealing with this section. Adjourned.

Fourteen Years in Terror. BUT DR. AGNEW'S CURE FOR THE HEART GAVE RELIEF IN 30 MINUTES AND THREE BOTTLES EFFECTED A CURE WHICH HAD DEFEATED THE BEST OF PHYSICIANS.

This is what Mrs. J. Cockburn of Warkworth, Ont., says: "For fourteen years I have been a great sufferer from heart disease; troubled very much with sharp, shooting pains constantly passing through my heart. Very often the spasms were so severe that I would become unconscious. My limbs would swell and become quite stiff. For the last four years I have been doctored with best physicians without relief. Having seen Dr. Agnew's Cure for the Heart advertised, I determined to try it, and before I had taken half a bottle

The Jubilee Cores

MIRAMICHI.

ALBERT'S THOMAS PHOSPHATE POWDER

(Registered) IS THE SOLUBLE BASIC PHOSPHATE OF ENGLAND.

At the German Government Experimental Station at Darmstadt, Professor Paul Wagner has tested it most thoroughly, and unhesitatingly pronounces it the best phosphoric fertilizer at his command. He says: "If you desire to enrich the soil, to provide the soil with a store of phosphoric acid to serve for continuous cultivation for perennial fodder fields, meadows, vineyards, orchards, etc., there can be no phosphate more suitable than Thomas' Phosphate Powder."

In another place he says that clover gave a higher yield on ground that had this powder put in it than on ground upon which phosphate manures had been applied.

It is the cheapest and most profitable Phosphate Manure in the World! THE CONCENTRATED HORTICULTURAL MANURES, For Fruiting, Gardening and House Work are the only absolutely pure and soluble manures in the Market.

Our Pamphlet free. GEORGE R. MARQUIS, AGENT CHATHAM, N. B.

Northumberland County. Fred is a Danford Grey, stands 16 hands high and weighs 1800 lbs., and can strike a 230 lb. ball without flinching. He has been used in the best of the Napan river district, and containing 100 acres more fully and largely applied. Also, all other tracts of land situated in the Parishes of Nelson and Chatham, in the county aforesaid granted to Richard Heston, and bounded as follows to wit:—Beginning at a Maple tree standing at the Southeastern angle of lot number seven, created by John Kent, Junior, at the head of Napan River, thence North 21 degrees, East twenty chains; thence South sixty-nine degrees, West twenty chains to the place of beginning, containing 100 acres more or less, and distinguished as lot number fifty nine at the head of Napan River and was granted to Thomas Esdaile in 1856, and bounded as follows to wit:—Beginning at a Maple tree standing at the Southeastern angle of lot number seven, created by John Kent, Junior, at the head of Napan River, thence North 21 degrees, East twenty chains; thence South sixty-nine degrees, West twenty chains to the place of beginning, containing 100 acres more or less, and distinguished as lot number fifty nine at the head of Napan River and was granted to Thomas Esdaile in 1856, and bounded as follows to wit:—Beginning at a Maple tree standing at the Southeastern angle of lot number seven, created by John Kent, Junior, at the head of Napan River, thence North 21 degrees, East twenty chains; thence South sixty-nine degrees, West twenty chains to the place of beginning, containing 100 acres more or less, and distinguished as lot number fifty nine at the head of Napan River and was granted to Thomas Esdaile in 1856, and bounded as follows to wit:—Beginning at a Maple tree standing at the Southeastern angle of lot number seven, created by John Kent, Junior, at the head of Napan River, thence North 21 degrees, East twenty chains; thence South sixty-nine degrees, West twenty chains to the place of beginning, containing 100 acres more or less, and distinguished as lot number fifty nine at the head of Napan River and was granted to Thomas Esdaile in 1856, and bounded as follows to wit:—Beginning at a Maple tree standing at the Southeastern angle of lot number seven, created by John Kent, Junior, at the head of Napan River, thence North 21 degrees, East twenty chains;
