"CREAGHAN" has become a synonym for leadership in the dry goods trade of the Miramichi. The windows of the Chatham attachment attract hundreds of people daily and nightly, and their artistic arrangement, which is the work of Mr. Miller, is not excelled anywhere. Mr. Creaghan is now to the fore in both Chatham and Newcastle with a full line of Jubilee attractions, which will, no doubt, be agreeable news to shoppers.

ARBOR DAY—Tomorrow, Friday, will be observed as Arbor Day by the schools of Chatham. Tree-planting and the cleaning up of school premises, decorating rooms, etc., will occupy the attention of pupils in the forenoon. LOG DRIVING FATALITY—While a number of men were log-driving on Monday at a point just above the falls on the Millstream, seven miles from Bathurst one of them named Joseph Aube was struck on the head by a log and knocked senseless. Before assistance could reach him he was swept over the falls. He died about ten minutes after being taken out. Aube was about 32 years of age and leaves a widow and four little children. He belongs to Beresford, eight miles from Bathurst, where his father is postmaster. He was a quiet, inoffensive man, and highly respected.

A PORTABLE BULLDOG has been put up on the site of the old Parker building—now owned by Messrs. A. & R. Loggie. It is intended to be used by its owner, Mr. Winter, as photographic rooms. It is the subject of sharp criticism, and also of defence in the Town Council meeting on Saturday and meantime the by-law relating to such structures is in abeyance. It is said that Mr. Winter is a good photographer and that his pictures will be much more perfect than the Council's respect for their own laws.

No. 1 COMPANY of the 73rd battalion is preparing to go to Military Camp at Sussex for annual drill and will participate in the demonstration to be made here in connection with the Queen's Jubilee. Capt. Mackenzie has always given such personal attention to the perfecting of this organization for any work it has had to do and he and his men have enjoyed the satisfaction of invariably coming out on top. In this respect they are well credit, not only for themselves and Chatham, but also the battalion to which they belong.

THE COURT AND THE BARR—Police Magistrate Grant of Moncton had a wordy war with George P. Thomas, barrister of that town during a Scott trial the other day and ordered his removal from court. Mr.

BLACK WAX DWARF, YELLOW SIX WEEKS, LONG DETROIT WAX, CRISTAL WAX, POLE, INDIAN CHIEF, PEAS, CHAMPION OF ENGLAND, PEAS, DWARF AMERICAN WONDER, BEETS, MANGEL

Thomas sat down and said he would not be put out, he was counsel for the defence. The marshal did not seem anxious to try to put him out by force, but the court was determined that his order would be put into effect and the climax was reached when officer Byles slipped over to Mr. Thomas' side and said, "You might bluff him but you can't bluff me, see?" Mr. Thomas said "I'll leave the court, but will settle matters with you, Mr. Grant, outside." I'll teach you whether you can insult a man with impunity." As Mr. Thomas left the court he suggested that Justice Grant bring the police force along with him.

A Wait.

The Restigouche Telephone says:—"As a portion of Blaquiere's Bridge, which was carried away with the recent freshet, floated by Tuesday morning, several boats and boatmen towed it in and secured it to the ballast wharf. The structure is of little value except for fire wood and for the iron bolts it contains, which were taken out of it Tuesday evening. A part is also saved at Mission Cove."

Death of Mr. Jonathan Dickson.

Mr. Jonathan Dickson, sr., one of the most successful and highly respected farmers of Northumberland, died at his home, Napan, last week. He was 75 years old, and although quite hale up to a few years since, had for some time ceased his usual industrial activity and gradually and quietly nursed his end, which came painless and very early about noon on Thursday last. The funeral took place on Saturday, and although the roads were not in a good condition, friends attended from all surrounding centres as a mark of genuine respect for the deceased. The services at the house were conducted by Rev. Joseph McCoy, pastor of St. Andrew's, Chatham and Rev. W. C. Calder, Presbyterian minister at Loggieville. The pall-bearers were Messrs. Richard Colthart, Robert Wilson and Theo. Fitzpatrick of Napan and Wm. Anderson, Theo. Flanagan and Geo. B. Fraser of Chatham. The interment was at St. John's Church graveyard Chatham and the funeral was one of the largest that has been seen in town for a long time. Deceased leaves a widow, five sons and three daughters. The sons are George J., Clement and James who live at Napan and John and Thomas who live in Colorado; the daughters are Mrs. Geo. Cassady of Vancouver, Mrs. Cameron, of Stillwater, Minnesota and Miss Jessie, who lives at the homestead, Napan.

Chatham Jubilee Celebration.

At the meeting of the Chatham Jubilee Committee on Monday evening Mr. J. L. Stewart was chairman, pro tem and considerable advance was made in the arrangements for the coming celebration. E. A. Lawlor, Esq., was appointed to arrange with the Driving Park lessees for the sports to take place there on Jubilee day.

On motion of Mr. Alex. Robinson, Senator Snowball was appointed to ascertain whether the presence of a man-of-war could not be secured to the Miramichi for the occasion.

Capt. Mackenzie, Lt. Col. McCully and Mr. J. F. Connors were appointed music committees.

Hon. Senator Snowball and Capt. Mackenzie were appointed a committee to have the two garrison artillery guns now in Chatham placed in the Public Square. Mr. Snowball said he, himself, would have the guns placed in the Square and Capt. Mackenzie could then see to their being mounted.

The matter of establishing a Park was discussed and dropped, without any action being taken.

Mr. Geo. Watt reported as follows: "GENTLEMEN: The committee appointed to secure and erect a flag-staff of flag to report that his honor Judge Wilkinson donated two handsome red pine spars and has assigned your committee to their work. Thus far, Mr. Joseph D. Trevors very kindly filled and trimmed these trees without charge, giving his labor as a donation. Mr. Geo. E. F. also had a number of men to assist in getting the spars out of the woods. We are indebted to Hon. J. B. Snowball for a team of horses which hauled the spars to the river at Bathurst wharf. Spars were this afternoon towed to Chatham by str. Nelson. They are now on the beach in rear of Millers' Foundry, where Mr. P. Desmond intends working them into shape immediately. Chatham, May 10, '97. GEO. WATT, Chairman."

The report was filed.

Dr. Cox reported on the proposition to establish a library and after discussion that gentleman and F. E. Winslow, Esq., were appointed a committee to ascertain if a room for library purposes could be provided in the proposed public building.

Hon. J. B. Snowball said he would contribute \$100 towards a public library. Adjourned until Monday evening.

Man and Wife in Distress.

FROM CHRONIC CATARRH—BUT INSTANTANEOUS RELIEF—THE FIRST APPLICATION OF DR. AGNEW'S CATARRHAL POWDER—DON'T NEGLECT THE SIMPLEST CURE IN THE HAND, IT MAY DEVELOP INTO THIS DISGUSTING MALADY ALMOST BEFORE YOU CAN REALIZE IT.

Rev. Dr. Bochner of Buffalo says: "My wife and I were both troubled with distressing catarrh, but we have enjoyed freedom from this aggravating malady since the day we first used Dr. Agnew's Catarrhal Powder. My action was instantaneous, giving me the most gratifying relief within ten minutes after first application. We consider it a godsend to humanity, and believe that no case can be so completely relieved and permanently cured." Sold by J. D. B. Mackenzie.

The Queen's Jubilee at Newcastle.

Chatham has been moving in the matter of a celebration for that town, and failing to see any sign of a week day celebration in Newcastle, has invited this town to cooperate with it in getting up a celebration, and have placed the matter in the hands of committees to arrange.

The feeling in Newcastle seems to be decidedly in favor of the town getting up a demonstration of its own on that occasion, and steps will probably be taken to accomplish that object in a day or two.

In addition to any secular arrangement which may be made there will be a mass Jubilee meeting in the Masonic Hall, Newcastle, on Sunday afternoon, June 20th, at which address will be delivered by clergymen and others. The scholars of some of the Sabbath Schools will march to the hall from their school houses, and the Sons of Temperance or any other Society wishing to join in the proceedings will march from their halls to the place of meeting. A united choir under direction of Mr. S. McLeod will have charge of the musical programme.

The arrangements being made for the Sunday services "will not conflict in the least with any secular celebration which may be entered upon, either here or at Chatham, and there is every prospect of a large attendance at the Sunday services.

There are many ways in which towns may be benefited by Jubilee celebrations and subscriptions. Some by purchasing land for parks and which are paid for by cash subscriptions from the citizens. Others talk of founding and endowing hospitals, while subscriptions are being generally asked for institutions of this benevolent kind. Does Newcastle want a permanent monument of Queen Victoria's Diamond Jubilee, then we would suggest that a subscription list be started for a building for a free library in this town which would be of immense benefit to the inhabitants, and be a lasting memorial of the prosperous reign of our beloved Queen.

More New Steamers.

The launch of the largest steamer yet built on the Miramichi took place on Thursday morning last at 7 o'clock from Senator Snowball's building yard on the public wharf, Chatham, and was witnessed by a large number of townspeople who had gathered for the occasion. The preparations for the event had been made in a very short time under the direction of Mr. James Desmond, who is one of the most experienced and successful master shipbuilders of the province, only about twenty-four hours having elapsed from the time the work of laying the launchways was begun until the vessel was in the river. Everything worked smoothly and well, and the new "St. George," gaily decorated with flags, glided into the river beautifully at the appointed time, without a hitch of any kind, and presented a very fine appearance afloat. Her large dimensions, easy lines and handsome show were subjects of favorable comments by the onlookers, as she was taken hold of by the St. Nicholas, one of Mr. Snowball's other steamers, and towed down to his lower railway wharf to receive her boilers which were on the cars there awaiting her.

The new steamer is a side-wheeler and intended to be employed as a sea-tug in the work of towing Mr. Snowball's de-loading barges between his mill at Tracadie and the loading berths at this port. She is 119 ft. long; 25 ft. beam and 12 ft. 3 in. deep. She has engines 227 horse power, and will probably gross 60 tons more when her houses are built, so that she will probably register about 185 tons.

The engines are those of the old St. George which have been rebuilt in Mr. Snowball's machine shop. They are compound, condensing and powerful. Two new steel double line and return tubular boilers, eight feet diameter and twelve feet long were built for the new craft by Messrs. J. & R. Weir of Montreal under government inspection, and tested to 120 lbs. to the square inch. Mr. Snowball has personally directed the transfer of these from the mill to the steamer without any aid of shears, and accomplished the job very successfully, both being on board on Tuesday evening. He hopes to have the vessel completed for running early in June. She will be the largest and most powerful tug in New Brunswick.

One of the handsomest little steamers that has been built in the port for a good while is the Nellie H., which left Chatham last week for the Bay Chaleur, where she is to be used in connection with the extensive cannery business of Messrs. D. W. Hoegg & Co. She was built by Mr. J. M. Ruddock at the Miramichi Foundry and machine works and is fitted with the well known Radstock type of double engine, which is one of the most serviceable and effective made in Canada. The Nellie H. is 45 ft. long, and 12 ft. beam, and her draught of water is a little over three feet.

Mr. Ruddock has another steamer of slightly larger dimensions under construction.

Mr. Ruddock, Esq. M. P., is to have a very useful as well as handsome craft in his new steamer, fitted with a boiler at the Miller's Chatham Foundry and Machine Works here. She is 36 ft. 3 in. long; 11 ft. 3 in. wide; 7 ft. deep and will measure 10 tons under deck. She is built of oak and will be fitted with compound engines similar to those of the Florence, water-tube boiler and Thornicroft propeller.

The new steamer for the Maritime Sulphate Fibre Company, of which Mr. Patrick Desmond is master builder, and for which Messrs. Miller, of the Chatham Foundry and Machine Works are contractors, is rapidly approaching completion. She is yacht-like in appearance and well finished. Her dimensions are, length 55 ft.; breadth 12 ft. 4 in.; depth 5 ft. 4 in.; tonnage under-deck 16.48.

The Frederick A., owned by Mr. Richard O'Leary, of Richibucto, which was, as we stated in a previous issue, launched from the yard of Messrs. Miller's Works this spring, has left for her home port. She is 57 ft. long; 14 ft. 4 in. beam; 5 ft. 9 in. here."

Salmon Fly-fishing at Bangor.

A Bangor despatch of last Monday says:—"The largest fish ever taken at the famous Bangor salmon pool was a twenty-eight pounder, which was sent to President Cleveland during his first administration. Today the next largest salmon, a twenty-five and a half pounder, was taken by E. A. Buck of Bangor. Mr. Burnett of Glasgow, Scotland, who came here purposely for the fishing, secured a nineteen pounder. A. M. Johnson of Norwich, Conn., a twenty pounder, and John Porteous of Norwich, Conn., a fine fish. Six salmon were taken today. Mr. Burnett has taken three fish here."

Life was a Burden.

Four Years of Agony and Misery.

A Marvellous Cure By Paine's Celery Compound.

Three Bottles Sufficient to Make Mr. Finter Well and Strong.

The hopeless, despairing, and all who imagine they are lost, because the doctors have failed, should rejoice to know that Paine's Celery Compound fully meets the worst cases, and never fails to restore lost health.

It is no vain or idle boast when the declaration is made that Paine's Celery Compound cures in all other means fail. It was a grand array of men and women in our own Canada can vouch for the truth of the statement made.

As a proof that Paine's Celery Compound cures in the darkest times of disease and misery we give the testimony of Mr. F. F. Finter, of Ottawa, Ont., who was saved at almost the eleventh hour. He says: "I consider it a duty to acknowledge the great good that I derived from your valuable remedy, Paine's Celery Compound. For four years I endured terrible agony and misery owing to pains in my head and chest. Life was a burden to me, and no living mortal could describe my sufferings. I was treated by doctors, and used many patent medicines, but nothing gave me relief until I used your Paine's Celery Compound. I thank God for the day it was brought no my net in the Ottawa papers. I have taken three bottles of the medicine, and to-day I can truly say that I feel like a new man. I feel certain that if the suffering people of Canada would only try Paine's Celery Compound they would be cured. I will recommend the remedy whenever I have the opportunity, as it is the best cure given to sufferers."
