There has just been issued from the 'Miramichi Advance' press a copy of reprint of Comey's History of Northern Par of New Bunsaick and district of Gaspe-a work of much his torical value and which will, no doubt, be sought after by those interested in the records of this province and south-eastern Quebec. "The Book" says the note, "as reproduced-from the introduction to the last page-is a faithful copy of the original. The number of pages and of lines to a page, as well as the beginning and termination of every line, are the same, so that any references in other books to Cooney's History by page or line, will apply to the present edition exactly the same as to | D. P. MacLachian, 2.50 that printed by Mr. Howe in 1832. Turning to the contents of the work we find an account of the first establishment of the province nearly three hundred years ago, and a resume of its political history up to 1830. Particular and de tailed accounts of its commercial progress, its geographical features and natural history are given, as well as of experiences of the earlier settlers with the Indians, the great Miramichi fire, etc. Incidents of the struggles between the French and English are graphically related and many of the descriptive pages are so realistic, especially those relating to the larger rivers of the country, which were in those days, the principal highways, as to make the book of especial value to tourists and sportsmen, no less than to those who seek knowledge of the province in the times of London next week. which it treats. Charles, a young man of about twenty years, went up the Little Southwest Miramichi for a few days' partridge shooting, making their headquarters at Mr. James Foran's, which is about eleven miles above Redbank. Mr. Charles Anslow says that on Thursday morning, about eight o'clock, they started from Foran's with their guns, going down the highway about half a mile and turning off upon the intervale which borders the F.E. Mr. Auslow and his son crossed this to the island and shot three partridges on it, after which they came to the main stream, where there is a ford of no great depth. The shooting ground across the river looked inviting and they proposed going to it. The younger man, however, suggested that he should first wade across alone and ascertain whether it was advisable for his father, who was about sixty years old and somewhat lame, to follow him. He did this and when he got about half way over he advised his father that he had better not follow as the water was too deep. Frederick Peters, the Premer of Prince Edward Island is about to retire from the Government of that Province, and it is stated on good authority that he intends to remove to British Columbia, where he will probably be associated with one or more leading members of the Provincial bar in the practice of law. Mr. A. B. Warburton, a well-known member of the Provincial House and an able lieutenant of the Hon. Mr. Peters, is prominently mentioned as his most probable successor. Hon. D. Farquharson and Hon. Peter Sinclair are also spoken of in connection with the leadership of the Government.

A successful attempt to burglarize the Dominion building at Woodstock was made on Thursday night last, but fortunately, not much of value was taken. The report says that the burglars effected an entrance by forcing one of the cellar windows, which, strange to say, are not protected by iron bars. Having got into the cellar, they opened the bonded warehouse with a key of their own. So far nothing of any account is found missing there. A little tobacco is gone. Then the burglars went upstairs and entered into the Custom House by forcing and jumping through the fanlight. They succeeded in opening two drawers behind the counter. From one they took about \$3 worth of stamps. The other drawer usually has money in it. but was empty that night. There was between \$50 and \$60 in the vault, but evidently there was no attempt to get at that.

Special Advice to Ladies who contemplate coloring Cotton Goods.

If a merchant or any one else tells you that package dyes prepared for all wool goods will color cotton goods equally well. do not believe him. A person making such an assertion knows little about dyes and

Vegetable fibres require special dves. Such dyes are not made by the makers of imitation and common package dyes. Special dyes for vegetable fibres, such as cotton and mixed goods, are made only by the proprietors of Diamond Dyes, and every color is simply perfection. These special Diamond Dye cotton colors

are great chemical discoveries, and confined entirely to the Diamond Dyes. The colors are sixteen in number, are immensely popular with carpet, rug and mat makers everywhere. Cotton goods dyed with these Diamond Dye Cotton colors never fade in sun or washing.

If you are about to dye cotton goods, or desire to color rags for carpets and mats, be sure and ask your merchant for Fast Dia-The Chatham Y. M. C. A. rooms are mond Dyes for Cotton and Mixed Goods. He should keep the full variety-sixteen useful colors.
