tributed to the Fraser. The work is expected to take two years. Newcastle Board of Trade Meeting. NEWCASTLE, N. B., April 13, 1897. MR. HUTTON—The Board of Trade for this town held a very important meeting last evening.

The meeting was called for the purpose of inducing tourists to come here and the meagre report of the meeting given in the Advocate of this place impels me to write this. Mr. Ira Corwell, Secretary of the St. John Board of Trade was present and Mr. William Murray now of Boston, who was there by request, was invited to give his views as to the best means of promoting the object for which the meeting was held.

While the committee were at work Rev. Mr. McCloy introduced a plan that he thought might be considered. It was the establishing of a fund between now and Jubilee Day, say \$500, and this would yield a profit sufficient for prizes for the best essays of the parish over the subject of the Victorian Reign.

Mr. Murray answered this by saying that under the ancient educational regime which formerly obtained in New Brunswick, the school teacher was compelled to attend at the people's houses and children attended the school, and the result was that the itch prevailed to a great extent throughout the province.

Mr. J. L. Stewart reported for nominating committee as follows: Mayor Benson, Hon. J. B. Snowball, Hon. L. J. Tweedie, J. J. Stuart, R. A. Lawlor, E. E. Winslow, J. D. B. F. Mackenzie, Auld, W. T. D. Craig and Mackenzie, Kingston.

Mr. McCloy moved that the report be adopted. Mr. W. S. Loggie thought the committee should have in view the Town Hall, and have the corner stone laid on Jubilee Day, and be named Victoria Hall.

Mr. W. B. Snowball said it would be necessary to have a large sum of money subscribed to have a creditable building, and thought it well for the public to thoroughly consider the matter in the meantime as in the event of the Town Hall being selected as a suitable memorial, they would be called upon to vote an additional amount to aid the council and the matter of site might also in this case be a debatable point.

The Mayor said the Council never thought of asking for any funds in connection with the celebration but thought any money needed would be provided by voluntary subscription.

Mr. J. B. Snowball moved that subscriptions be taken by this committee. Rev. Canon Forsyth considered this motion a little premature. It would be better to hear the report first from the committee.

Mr. J. L. Stewart said it would be necessary first to find how much money was required and thought it best to leave the matter in the hands of the committee.

1,248,798 square miles of woodlands, and enormous tracts of that area did not contain any useful timber, while the remainder was by no means so well taken care of as it ought to be.

The appointment of Mr. Macleod to Douglas and Nelson was confirmed and he is to be accompanied by Mr. Macleod. The clerk submitted a reference from the Board of Foreign Missions regarding the Korean mission, and addressed the Presbytery on the subject.

A narrow escape from a serious accident occurred on the Dalhousie Branch of the I. C. R. on Thursday last. The train, consisting of the engine and tender, and first class and second class cars, was proceeding along a good grade and when about two miles from Dalhousie left the rails, with the exception of the tender. There was a steep bank about twenty feet deep at the place, and the cars stopped just on the edge, and hung slanting over.

The sealing steamer Aurora has returned to St. John from the North Atlantic with a full cargo of 27,000 seals secured after the most severe experience of many years. Tremendous storms were encountered, often lasting days at a stretch.

At the Church of the Ascension, at Toronto, on Monday night of last week Miss Tilley, daughter of the late Sir Leonard Tilley, and Mrs. L. Thomas were ordained deaconesses in the church.

Thirty English volunteers have arrived at Athens. They include, among their number, young Harris, the son of the British admiral in Creta water.

London, April 12.—A Times despatch from Athens says: "The Post," in protest to powers against the Greek invasion, says that the regular Greek army entered Turkish territory near Geneva and committed an aggression by destroying three posts. The protest further declares that these acts virtually constitute an act of aggression and a cause belli, and denounces Greece as an aggressor in the war.

It is in Smith's handwriting. Mr. King goes on to tell of an admission made by Smith, but the evidence is ruled out, because a threat was made, privately. I find entries of letters addressed to the same persons between June 1st and June 10th. These letters seem to have all the requirements with the exception of the obliterated date stamp of the Newcastle office. I have sent this envelope, addressed to Kirland Bros. & Co. before. It was sent to me from the inspector's office in New York. I notice that the Newcastle stamp is obliterated. The date stamp was the same when I received it from New York, as it is now. I received this envelope, addressed to Prof. F. C. Fowler, from the Boston postal division. The Red Bank stamp and the Newcastle stamp are obliterated. The letter bill is No. 266 and the letter 266. This is an acknowledgment of receipt of registered letter. I can't say who wrote it. There is the handwriting of the dispatching officer and of the receiving officer. This is a certificate of the registration of a letter. It is signed by M. P. Smith.

Letter addressed to Wm. Ewing & Co. This is a record of registered letters mailed at Newcastle. There is no entry of such a letter under the date, May 5th. There is an entry on May 23rd 1896, addressed to Wm. Ewing & Co., Montreal, No. 172, in Smith's writing. The number on the envelope corresponds with the number on the book. I can only tell the Newcastle stamp the mail clerk stamp is May 23rd. JARED TOZER, Postmaster at Red Bank; mailed the Kirland Bros. & Co. letter and the Prof. F. C. Fowler letter to Newcastle Post Office on May 15th, and on May 23rd respectively, received acknowledgments from that office. Mr. Carleton here closed case for the Crown.

MEDDIE P. SMITH. I was in the Post Office from March 1894 to June 1896. I was Mr. Fish's clerk. This is the record of registered letters. Some days there would be fifteen and twenty registered letters. The letters would generally get in between four or five from up river. I would write in the book while Mr. Fish called them out. He would put the letters in the safe. Mr. Fish would always enter the Town registered letters. When he was out, I would put down the number, and sometimes give the receipt, or leave the letter and he would give the receipt. Some entries are in the Fish's writing, and some in mine. The first recollection I have is when Mr. King asked for the letter. I did not detain the letter to Kirland Bros. The letter appears to have come in on May 13th, but it did not go out until June 2nd. I told Mr. King that I did not detain the letter. Outside of writing on the letter bill I knew nothing of it. I don't know how the letter was detained. I can't say how the letter to Prof. Fowler was detained. I should think it would be in the safe. As soon as I received it I would call out and Mr. Fish would tell me the last number. I would write the receipt and hand the letter over to Mr. Fish. I take it for granted that he would enter it on the book. Mr. Fish would say sometimes "Here are some registers, you write them down." I did not detain the letter intentionally or otherwise. I entered that as Mr. Fish called it out. I told Mr. King that in the evenings Mr. Fish would take them out of the safe and call them out to me and I would write them down. Mr. Fish would generally sign the letter. I heard Mr. King say that I lost the letters in the safe. I did not say that to him, I was called as a witness on the part of the Crown against Mr. Fish.

Cross-Examined by Mr. Carleton: After the registers were taken from the bags, I would write them in the book and he would call them out. I never had my hand on them. I made out the bill. He would hold them up and usually sign them. Mr. Fish dictated to me a letter to Mr. King, explaining the Ewing letter. This closed the case and after addresses by counsel the Judge charged favorably to the prisoner. The Jury after ten minutes deliberation, rendered a verdict of "Not Guilty" and the accused was discharged, the second indictment remaining over till September Circuit.

This was Judge McLeod's first Circuit in Northumberland, and everybody appeared to entertain the highest opinion of him for his courtesy, fairness and his promptness in deciding upon all questions with which he had to deal. At the close of the business of the Circuit, he was presented with the following address, to which he replied in fitting terms.— To His Honor, the Honorable E. McLeod, Judge of the Supreme Court of New Brunswick.

MIRAMICHI MARBLE WORKS.—No experiment in buying from us. We always send out the best stock and work that can be obtained. No order too small, none too large. We are watching the mails for your correspondence on the subject of cemetery work.

J. H. LAWLOR & Co., Chatham. EASTER BEEF.—Mr. Jas. Vanstone has a large quantity of fine beef, also an extra pair of steers, imported specially for the Easter trade, by William Richards, which will be sold at reasonable prices.

THE TEMISQUATA RAILWAY Company is applying to Parliament to enlarge the time for commencing the work of extending the railway from Edmundston to a point on the Intercolonial Railway, and also to authorize the company to build a railway connecting such proposed extension with the Central Railway at Chipman, in Queen's county.

PERSONAL.—Rev. Father Murdoch is being warmly welcomed home by his parishioners of Indian town, and indeed by a much wider circle of friends of all classes in Northumberland, on his return from Bermuda, where he had been spending the winter for the benefit of his health, which, we are glad to hear, is much improved.

Hon. J. B. Snowball arrived home from Ottawa on Saturday night, the Senate having adjourned for Easter holidays. NETS AND STEAMERS.—An Ottawa despatch says: "Every year there are numerous claims made upon the government for claims for nets destroyed by the Dominion fishery cruisers and light-house steamers. To avoid complications the government has issued an order that unless there are attached to the nets painted red buoys three feet long, no claims for damages to nets will be entertained by the marine and fisheries department."

Most nets that are destroyed by the steamers referred to are set at night, when the proposed red buoy would be of little service. AN ATTRACTION to buyers of family groceries, provisions, dry goods and general household supplies is offered by Mr. Roger Flanagan at his well known store on St. John Street, Chatham, in the form of silver knives and forks, silver spoons, silver cruet stands and boxes of tea. He issued tickets which are presented by customers every time they make purchases, and no matter how small the amount, it is punched off, and when the purchases aggregate either \$15 or \$30, as the case may be, one of the articles specified viz.—a cruet stand, or a dozen of silver knives or forks for a \$30 ticket or a tin box of tea, or 1 doz. silver spoons for a \$15 is given free.

LOST HIS HEAD.—A beautiful moose head recently shown in the window of Mr. Charles S. Bailey attracted considerable attention. The animal was shot last October by a Mr. H. Chadwick, of New Bedford, Mass., and the head was said to be the finest ever seen in the province. It was seized because shot out of season, and is now in the government buildings at Fredericton. A New Bedford despatch gives Mr. Chadwick's version of the story as follows: "Mr. Chadwick left the head to be dressed when he returned home, but found afterward that the man he had it with had endeavored to steal it from him. He secured legal advice and made a strong fight to secure the head. Finally the attention of the government was called to the matter and it being the finest specimen ever shot in New Brunswick, the antlers spreading out over five feet and having twenty prongs, the head was confiscated on the grounds that the animal was illegally shot, and it was thus prevented from leaving the province. The moose weighed 1,600 pounds." [Globe.]

The Globe knows very well that the moose in question was killed in violation of the game law of New Brunswick. As usual, however, it prefers to take the Yankee side of the case. Holy Week. Good Friday and Easter Day Services in S. Mary's and S. Paul's Churches. The usual daily services of Holy Week are being held in S. Mary's Chapel this week. There will be a Celebration of the Holy Eucharist this (Thursday) morning at 7.30 o'clock. On Good Friday there will be morning service at 11 and evening service at 7.30 o'clock. The 1st Evening of the Holy Easter Festival will be at 7.30 on Easter Even. On Easter Day there will be a Celebration of the Holy Communion at S. Paul's at 8 a. m. and Evening Prayer with sermon at 3 o'clock. There will be Morning Prayer, Holy Communion and sermon at S. Mary's at 11 and Evening Prayer and Sermon at 6.30 o'clock. The offerings on Good Friday will be for Bishop Blyth's Missions in Jerusalem and the East, and on Easter Day they will be for the sick and needy.

Monoton and the Jubilee. A Monoton despatch of Monday says:—"The refusal of the electors to vote the sum which the jubilee celebration committee asked for has dampened the ardor of those taking part and unless fresh interest is aroused, it is doubtful if the celebration will be carried out on the original plan. The effort to raise \$500 by popular subscriptions has not met with much success so far. The hotel men who are always depended upon to subscribe liberally towards such demonstrations, are, it is said, unwilling to contribute in the present condition of affairs, and there does not seem to be anybody to take their place. It is not likely, however, that the city will allow the occasion to pass without some public observance."

An Important Survey. Mr. W. C. Mitchell, C. E., formerly of Newcastle, is second assistant engineer of the government survey of the Fraser River, B. C. There are twenty men in the survey party and their work includes a complete triangulation survey of the river. It is the intention of the survey to take a cross-section of the whole of the Lower Fraser, to establish a basis, a first of all make a survey of the whole of the British dependency, and also the various tributaries of the Fraser. After that considerable time will be devoted to examining the river by cross-sections from the basis already established. The various points will also be recorded, the depths, bed formation, etc., will also be carefully noted; as also those of the numerous streams and

composed of citizens generally, and a smaller representation from the different societies. As an amendment to Mr. Connor's motion, Mr. B. Snowball moved that the committee be empowered to gentlemen and a representative from the different societies as follows: 1 from a society of 20 members, 2 from a society of 30 members, and 3 from a society of 40 or over. Carried.

Rev. Joseph McCloy thought we were spending too much time over this committee. The meeting was called by the Mayor and he considered we had no authority to nominate anyone outside of the town. A. I. Watt said Rev. Mr. McCloy was mistaken. The meeting, he said, was not called by the Council as a body. All the citizens of the parish were called upon to participate, and he thought there should be representative from the upper and lower ends of the parish.

An intimation was granted in order to have the nominating committee name the general committee. While the committee were at work Rev. Mr. McCloy introduced a plan that he thought might be considered. It was the establishing of a fund between now and Jubilee Day, say \$500, and this would yield a profit sufficient for prizes for the best essays of the parish over the subject of the Victorian Reign.

Mr. Murray answered this by saying that under the ancient educational regime which formerly obtained in New Brunswick, the school teacher was compelled to attend at the people's houses and children attended the school, and the result was that the itch prevailed to a great extent throughout the province.

Mr. J. L. Stewart reported for nominating committee as follows: Mayor Benson, Hon. J. B. Snowball, Hon. L. J. Tweedie, J. J. Stuart, R. A. Lawlor, E. E. Winslow, J. D. B. F. Mackenzie, Auld, W. T. D. Craig and Mackenzie, Kingston.

Mr. McCloy moved that the report be adopted. Mr. W. S. Loggie thought the committee should have in view the Town Hall, and have the corner stone laid on Jubilee Day, and be named Victoria Hall.

Mr. W. B. Snowball said it would be necessary to have a large sum of money subscribed to have a creditable building, and thought it well for the public to thoroughly consider the matter in the meantime as in the event of the Town Hall being selected as a suitable memorial, they would be called upon to vote an additional amount to aid the council and the matter of site might also in this case be a debatable point.

The Mayor said the Council never thought of asking for any funds in connection with the celebration but thought any money needed would be provided by voluntary subscription.

Mr. J. B. Snowball moved that subscriptions be taken by this committee. Rev. Canon Forsyth considered this motion a little premature. It would be better to hear the report first from the committee.

Mr. J. L. Stewart said it would be necessary first to find how much money was required and thought it best to leave the matter in the hands of the committee.

A Monoton despatch of Monday says:—"The refusal of the electors to vote the sum which the jubilee celebration committee asked for has dampened the ardor of those taking part and unless fresh interest is aroused, it is doubtful if the celebration will be carried out on the original plan. The effort to raise \$500 by popular subscriptions has not met with much success so far. The hotel men who are always depended upon to subscribe liberally towards such demonstrations, are, it is said, unwilling to contribute in the present condition of affairs, and there does not seem to be anybody to take their place. It is not likely, however, that the city will allow the occasion to pass without some public observance."

An Important Survey. Mr. W. C. Mitchell, C. E., formerly of Newcastle, is second assistant engineer of the government survey of the Fraser River, B. C. There are twenty men in the survey party and their work includes a complete triangulation survey of the river. It is the intention of the survey to take a cross-section of the whole of the Lower Fraser, to establish a basis, a first of all make a survey of the whole of the British dependency, and also the various tributaries of the Fraser. After that considerable time will be devoted to examining the river by cross-sections from the basis already established. The various points will also be recorded, the depths, bed formation, etc., will also be carefully noted; as also those of the numerous streams and

composed of citizens generally, and a smaller representation from the different societies. As an amendment to Mr. Connor's motion, Mr. B. Snowball moved that the committee be empowered to gentlemen and a representative from the different societies as follows: 1 from a society of 20 members, 2 from a society of 30 members, and 3 from a society of 40 or over. Carried.

Rev. Joseph McCloy thought we were spending too much time over this committee. The meeting was called by the Mayor and he considered we had no authority to nominate anyone outside of the town. A. I. Watt said Rev. Mr. McCloy was mistaken. The meeting, he said, was not called by the Council as a body. All the citizens of the parish were called upon to participate, and he thought there should be representative from the upper and lower ends of the parish.

An intimation was granted in order to have the nominating committee name the general committee. While the committee were at work Rev. Mr. McCloy introduced a plan that he thought might be considered. It was the establishing of a fund between now and Jubilee Day, say \$500, and this would yield a profit sufficient for prizes for the best essays of the parish over the subject of the Victorian Reign.

Mr. Murray answered this by saying that under the ancient educational regime which formerly obtained in New Brunswick, the school teacher was compelled to attend at the people's houses and children attended the school, and the result was that the itch prevailed to a great extent throughout the province.

Mr. J. L. Stewart reported for nominating committee as follows: Mayor Benson, Hon. J. B. Snowball, Hon. L. J. Tweedie, J. J. Stuart, R. A. Lawlor, E. E. Winslow, J. D. B. F. Mackenzie, Auld, W. T. D. Craig and Mackenzie, Kingston.

Mr. McCloy moved that the report be adopted. Mr. W. S. Loggie thought the committee should have in view the Town Hall, and have the corner stone laid on Jubilee Day, and be named Victoria Hall.

Mr. W. B. Snowball said it would be necessary to have a large sum of money subscribed to have a creditable building, and thought it well for the public to thoroughly consider the matter in the meantime as in the event of the Town Hall being selected as a suitable memorial, they would be called upon to vote an additional amount to aid the council and the matter of site might also in this case be a debatable point.

The Mayor said the Council never thought of asking for any funds in connection with the celebration but thought any money needed would be provided by voluntary subscription.

Mr. J. B. Snowball moved that subscriptions be taken by this committee. Rev. Canon Forsyth considered this motion a little premature. It would be better to hear the report first from the committee.

Mr. J. L. Stewart said it would be necessary first to find how much money was required and thought it best to leave the matter in the hands of the committee.

London, April 12.—A Times despatch from Athens says: "The Post," in protest to powers against the Greek invasion, says that the regular Greek army entered Turkish territory near Geneva and committed an aggression by destroying three posts. The protest further declares that these acts virtually constitute an act of aggression and a cause belli, and denounces Greece as an aggressor in the war.
