FRIDAY'S STORM of lightning, thunder rain and hall was very severe in Chatham, Nelson, Newcastle and other Northumberland parishes. Rain poured in a great torrent accompanied by hail stones, some of which were nearly half an inch in diameter. Messess. Sargent's office, Nelson, was entered by lightning, which knocked a book from the hands of the bookkeeper, Mr. John Doran and made its exit from one corner of the building. Messrs. Burchill & Sons' office was also entered by means of the telephone wires, but little damage was done.

School Missionary Service was held in the Sweezey school Lower Napan, on Sunday evening last, at 8 o'clock. Mr. A. B. :Sweezey, who is at present visiting his ifriends, presided at the organ, in his usual efficient manner, and was assisted by Mrs. Blake, from Boston, Miss Sweezey, and others. The meeting was largely attended, and the children performed their part in singing and recitations, remarkably well. The missionary spirit evidently rules over the superintendent, and teachers of this children who attend it. Rev. J. Robertson

Edmond Wagner, representing Darblay, Pere & Fils of Paris and Rouen, one of the largest pulp and paper making firms in France. He is in Canada seeking to make arrangements to ship spruce pulp wood to his firm. The size wanted is three feet six inches long, and

from five inches up in diameter, all to be peeled. His firm would charter vessels to carry the wood if satisfactory arrangements could be made, and if the result was satisfactory yearly contracts would be made. Mr. Wagner has also been in the upper provinces, and St John. His house is not the only one that is looking this way, but it would be a very poor policy to encourage the exportation of pulp wood, as there is more to be gained by husbanding our

resources of this kind and restricting the wood's use to mills located in the province. St. John Letter.

There is now lying in the Bank of British North America in this city the sum of \$190.92, deposited some 35 years ago to the credit of William Thomson, treasurer of the Lancashire Operatives Relief Fund. Thirty five years ago many of the Lancashire cotton mill operatives were out of work because of the blockade of the southern cotton ports and were in dire straits. Some of them, it is said, died of starvation, and some of them who are living and their descendants are inmates of charitable institutions. It is probable that much of this \$192.92 was contributed by men and women who from experience knew something of the trials of the Lancashire workers and who could ill spare the money. No one will attribute to the late Mr. Thomson any blame for the miscarriage of this charity—for the sufferings which this money might have helped to alleviate. It is no wonder that such a matter should have been overlooked by a man so deeply engrossed in his business affairs as was the late Mr. Thomson. There is but one answer to the question, what shall be done with this money? which is, pay it over to the people to whom it belongs and from whom it has been withheld for thirty five years. It is theirs as much as if it had been paid to them direct or had been left to them by will. Yet an evening paper suggests that "it be paid into the city treasury for the park or the mediately with a party and furnish a report for if the operatives of Lancashire have any on the best means of getting into that coun- need of it, the amount could be paid to Afghanistan.
