Against Political Combines.

The efforts being made by a certain class of third rate professional politicians to introduce the divisions of Dominion politics into the management of provincial affairs in New Brunswick. are not encouraged by the results of the recent Assembly elections in Prince Edward Island. The Liberal Government there went to the polls from a house which had sustained it by an almost unwieldy majority. It had so many supporters amongst the representatives that the ambitions or demands of all could not be satisfied and, as a consequence, when the elections were brought on, many of the dissatisfied ones were found to be either entirely independent or "talking opposition." As the evil of maintaining local divisions on Federal party lines obtains in the Island, all who were thus alienated from the Peters Government were classed as Conservatives, although, as will be readily understood, Liberal or Conservative party issues, in a Dominion sense, could have had little to do MASSEY, HARRIS BICYCLE with the matter, while the result of the elections ought not, properly, to be considered as indicating any pronouncement by the people either way upon the Government party at Ottawa, or that party's conduct of federal affairs. Nevertheless, when the elections were over and the Island Government was left with about one-half of its former majority, there was an immediate outcry from the Conservative press and politicians all over Canada, that a Province had pronounced against the Laurier administration, while Liberal papers, which support the sysparties identical, have found it difficult to explain the waning apparent in the P. E. I. Government's support, on any logical ground save that assigned for it by the Conservatives. The situation in this regard suggests

an argument against the agitation which is being led by the St. John Globe for the introduction of an element in New Brunswick local politics, which is both mischievous and foreign to the interests involved. No doubt the professional agitator, who devotes his time to wire-pulling and political thimblerigging, may find his advantage in having as many interests as possible brought under the control of one big political machine, but seems inconsistent for propositions looking to that end to emanate from Liberal sources, when that party is making efforts to discourage combines in the country which are organised for purposes little less harmful in their effects upon the well being of the people interested.

An Important Conference.

OOVINCIAL MINISTERS MEET THE MINISTER OF GENERAL INTEREST.

The members of the provincial government waited on the Minister of Railways and Canals at his private car last evening, and a most important conference was held, during which matters of much interest to the people of the province were regard to the Palmyra island the volume states: "Palmyra was discovered by discussed. It appears there are several branch lines of railway in the province, Captain Sawle, of the American ship Palmyra, in 1802, and was formally which were constructed by the aid of both annexed to Great Britain by Commanlocal and dominion government subsidies, der Nicholas, in Her Majesty's ship and which are all now being operated in Cormorant, on May 28, 1889. There the interest of the owners, rather than day, were no inhabitants on the island at the public. This furnished a topic for conversation, and the opinion of all appeared to be that legislation should at New Zealand, contemplate cultivating once be enacted by the dominion and local government, which would be the means of bringing these railway concerns vestigation regarding the rights of to book, thus guaranteeing to the public Great Britain and Hawaii to Palmyra a service to which they are justly entitled. Among the rail way lines included in this list are the Harvey branch and Albert Southern railways, both located in Albert

The claim which the province holds against the dominion government known as the Eastern Extension claim was also considered. Mr. Blair announced that this important matter was at the present time engaging the attention of a committee of the government and would at an early day come before the cabinet, when he would be pleased to urge the claim

the province to the best of his ability. Another subject discussed at the conference was the celebrated Dawson claim. of her, The 'Maine,' as an overture, It appears that previous to the Blair government coming into power, a Mr Dawson cut a considerable quantity of lumber on the disputed boundary line between the provinces of Quebec and New Brunswick. He paid stumpage dues to the New Brunswick government. Subse quently as the result of an arbitration the boundary line between the two provinces was so fixed that the lands on which the Railway, on which were ten freight lumber was cut came into the province of edition publishes the following: The cars, partly loaded, had a big hole stove Quebec. The Dominion government of Figaro has an article on the Hawaiian in it by the ram of the naval ship, and that day by order in council ordered pay- question which concludes as follows ment to the amount of the stumpage to | "It is very probable that an amicable Mr. Dawson, and sought to charge the arrangement will be made between Japan provinge with the amount. A returned member of the jubilee co tingent says that in his opinion th presence of a conpany of Canadian volunteers in England would do much to influence English immigration to Canada, The mass of the people seemed to have the funniest ideas, he said, as to the Dominion. On the contingent's arrival at Liverpool the crowd noted with wonder that both the uniforms and the men inside f them bore a great resemblance to thos they were accustomed to at home, and the astonishment of some when they heard that the command, were not onl the same but were actually given in English, was amusing to witness.

The New York Herald's European being that the matter came before the United States will most likely back down

Americans would have to make if it should ever happen that the ranting of speculators should give rise to a real conflict with a Eurepean power, even of the second rink?"

A new and important work which has never been undertaken in Canada before is now being carried out by the Minister of Militia. This is a military map of Canada, which, in the event of war within our territory as the basis of operations, would be indispensable to our troops. It will show minutely the character of the suit and the province relieved of all liabilcountry, the fordable streams, the bridges, the roads and lanes, the blacksmith shops, where grain is stored, and all that character of information which a commander i taking troops across the country would desire to know. This work is being carried on by the undergraduates of the Royal Military College under the superintendency of competent experts.

Right Hon. Sir Wilfrid Lurier has been honored by the French government and hereafter may wear the insignia of grand officer of the legion of honor. This distinction was conferred upon him in connection with his visit to President Faure at Havre recently. The Cauadian premier and the Canadian commissioner in Paris, Hector Fabre, were entertained at luncheon by the president at his Havre residence. The conversation between the president and premier was of Peary and child and Mrs. Lee, the ship | the most friendly nature, and Sir Wilfrid being in charge of Capt. John Bartlett. has expressed himself as delighted with an experienced northern navigator who his visit to the French ruler. Hon. W. Broderick, parliamentary secretary to the war office, that there should be an interchange of the troops of the empire, and that some of the colonial battalions should do duty in England, the British regulars taking their places in the colonies, has created the greatest interest and more details are eagerly looked for. These details, according to Mr. Broderick, will be ready in a few days. Then the Right Hon. Joseph Chamberlain's letter to the colonial premiers would be announced. It contains a matured plan approved of by the war office. Although not specially so starting, Mr. Broderick was understood to imply that the premiers also favored the plan, when he said it, "would be favorably regarded by everybody."

Does the weather regulate human conduct, and do atmospheric conditions have a marked effect upon the criminally inclined? These are the startling questions which the meteorological experts of the Washington bureau profess to have solved. As a result of their investigations the scientific world is told that humidity causes suicide and dry air murder, while One hundred miles of the Crow's Nest | the clearing of a storm may prevent crime. They assert that evil-doing is as subject to epidemic as is disease, and that these epidemics last until the weather changes. Conditions of the atmosphere which favor the induction of electricity or magnetism are capable of spreading these crime germs. These results are certainly very interesting, if true. We hope the hot wave hasn't affected the experts'

Prince Edward Island possessed 234 vessels with a tonnage of 39,213, and no she has 174 with a tonnage of 16,540. The Hon. A. G. Blair and David Rus- In brief, Nova Scotia has 358 vessels and 228,510 tons less; New Brunswick 112 vessels and 192,043 tons less; P. E Island, 60 vessels and 22,673 tons less.

Fighting and Inhumanity in Cuba NEW YORK, July 30 .- The 'Herald's special from Havana says: - 'Havana's outposts have again been attacked by a large body of rebels who, before the Spanish troops could be gathered to resist, had swept through the suburbs, carrying all before them. They used, it is believed, rapid-firing guns and a large quantity of dynamite. The attack was made late last night. Today there is an inclination among the Spanish officials in Havana to deny the fact that rebels have evaded the forts and swept into main, and the path left by the rebels through the suburbs south-east of the city. may be plainly traced.

Several wounded Spanish soldiers were brought into Havana and removed to hospitals, after the engagement, and it is understood that several were killed. The re- \$15,000 and \$20,000. ticence of the Spanish officials prevents any knowledge of the result of the attack becoming general. It is a fact, however, that great damage was done by the insurgents on their bold raid, and that a considerable quantity of dynamite was used.

what are we to think of the sacrifices the Havana Province, with a large force, is near Minas and Colonel Raoul Arango is at Cotorro. Captain-General Weyler has left their jungoes or the calculations of their | Havana for Matanzas and the belief is expressed that the knowledgo by the insurgents of this intention on his part led to the

> schooner Walleda, which sailed from New York June 12 last with a full cargo of provisions bound for Baracoa, Cuba, was unable to land her cargo at that port, owing to Spanish tryanny and was compelled to return to New York with his outward cargo intact. Capt. Kemp, stites that on his arrival at Baracoa the Sparish authorities positively refused to allow him to unload his cargo, which consisted chiefly of flour and provisions. The port authorities feared the cargo might ultimately find its way to the insurgent army and the inhabitants hostile to Spanish rule, and wish ing to carry out General Weyler's orders of starving the inhabitants of Baracoa and the surrounding country, would not allow the cargo to be unloaded. Capt. Kemp then bore away for Port Antonio, Jamaica, hoping to effect a sale of the cargo there, but was unsuccessful. He was obliged to return to New York with the cargo intact.

The virtues of this medicine strike right at the seat of the trouble, quickly bringing health and happiness. It has a marvellous record of cures, a fast and enduring fame won by rescues and life saving. Will you test its efficacy You must if you desire health and robustness as well as extended years.

The Dominion Fisheries Case before the Privy Council.

London, July 30.-The argument in the

appeal of the Dominion Government in the

fisheries cases was continued yesterday.

The judges seem to favor the case as presented by counsel for the Dominion. appeal is against the judgement of court delivered in October, 1895, which was mainly upwards. n favor of the provinces holding that they have jurisdiction over waters within the imits of the provinces. This is the chief uestion in dispute. The case was argued before the Supreme Court nearly two years ago. There are many questions involved, and many appeals and cross-appeals, but the chief questions have been decided in favor of the provinces, the Supreme Court holding that the various provinces have practically exclusive property in the fish, and have therefore the power to grant decided to appoint George H. Hutchiuson icenses. It was not disputed that the Dominion had not the power also to grant icenses, but the Dominion Government claimed that the provinces had no power grant them, not having as the Dominion contended, and still contends, any property in the fish. This is the chief question at issue. The question as to whether the beds of public harbors, lakes and rivers within the territorial limits of the several provinces belonged to the provinces or the Dominion was decided by the Supreme Court in favor of the Dominion, and is one of the subjects of cross appeal on the part of the province. The court also held that the Dominion Par liament had the power to pass 'the act rewere called in attendance, but it is not yet specting certain works constructed in or over known whether or not Mr. Herbert will igable waters.' There questions submitted in the stated case to the Supreme Court, all of which have been sub nitted to the Privy Council in the present

Experimental Station at Darmstadt, Professor Paul Wagner has tested it most thoroughly, and unhesitatingly pronounces it the best phos-BASIC pheric fertilizer at his command.

He says: "If you desire to enrich the soil, to provide the soil with a store of phosphoric acid to serve for continuous cultivation for perennial fodder fields, meadows, vineyards, orchards, etc., there can be no phosphate more suitable than Thomas' Phosphate Powder."

At the German Government

In another place he says that clover gave a higher yield on ground that had this powder put in it than on ground upon which phosphate manures had been applied.

developed antlers. After taking a good look at the men they trotted up over the hili toward the woods. Deer have been seen on several different

occasions lately on the outskirts of the vil-Caribou without number are to be found anywhere around here, in herds of 5 and

Kent Co. News.

A shark 71 feet long, was brought to town yesterday morning, having been caught in a mackerel net by Mr. Thomas

There were 41 marriages, 250 births and 132 deaths in Kent County for the six months ending June 30th last. The trustees of school district No 1, Richibucto, held a meeting on Tuesday and

teacher of the advanced department of the public school. There were 22 applications for this position. The masonry for the new record office is being rapidly pushed forward, and the building will be begun at once. Mr. Atkinson has all the lumber on the spot the men are here ready to begin operations. Mr. Fred Herbert met with a serious accident in Irving's mill at Buctouche last Wednesday night: A sliver of wood flew from a saw and penetrated his cheek below the eye to a distance of nearly three inches. It took two jerks from a strong man to remove the stick. Drs. King and Olloqui

Rev. J. H. Cameron, formerly of Bass River, but lately in charge of the Presbyterian congregation at Russel, Manitoba has been called to the old historic parish of Kildonan, near Winnipeg. Mr. Cameron's induction into that charge will take place on Friday 30th inst. The ladies of Russel presented Mrs. Cameron with an address and a purse containing \$33.00 on the occasion of her departure from that place .--

A Clergyman's Life.

HAS MORE WORRIES THAN THE PUBLIC ARE AWARE OF-NERVOUS EXHAUSTION THE FREQUENT OUTCOME. There is more worry connected with

the routine life of the average clergyman than most people imagine. His duties are multifarious, and it is little wonder that he frequently becomes the victim of nervous exhaustion, insomnia, etc. In this condition Dr. Williams' Pink Pills act more speedily upon the nervous system than any other medicine, and promptly restore the user to a normal state of health. Rev. Wm. Clarke, a rising young Methodist minister stationed at Orono Ont, says:- "I have derived great benefit from the use of Dr. Williams' Pink Pills. I found that when I attempted to study 1 would become If you have not yet begun the easy work drowsy and could not apply myself to my work. My digestion was very bad, and my nervous system seemed to be out of gear. At first I paid but little attention to the matter, but found myself growing worse. At this time I was stationed as Fort Stewart, Ont., and was boarding at the home of a storekeeper, who advised me to try Dr. Williams' Pink Pills. I decided to so, and thanks to this medicine. I am again restored to good health. Under these circumstances I feel it my duty to say good word for Dr. Williams' Pink Pills," Dr. Williams' Pink Pills cure by going
