### Spain-United States-Cuba.

The most absorbing news topic during the past week has been the condition of affairs between Spain and the United States, and the peoples of Europe and America have been much interested in the great question of war or peace between the two nations. They seemed to have reached the point of rupture on Thursday, for it was evident that unless Spain ended the brutalities which have been the rule in Cuba for nearly three years, through her misgovernment, the United States would undertake the task of compelling her to do so. The President's long expected message to this effect was ready for Congress and delayed only to give time for the removal of citizens of the United States from the island, when it was suddenly announced that at the instance of the Pope and the European an armistice. The President's message, however, went to Congress in a slightly amended form, and at last advices was being considered in committee. Its main feature is the request that Congress clothe the President with authority to use the military and naval forces being appointed to an office for which of the United States for the purpose of he was recommended by the Town restoring peace, order and the safety of Council and the four members of As-

The situation continues to be one of suspense, for it may not be assumed that Spain will relinquish control of Cuba without a fight, whatever interpretation may be put upon her latest reference to the United States, and professedly under the European influences only.

The following despatches on the subect are important.

Their contention is that Spain, having taken upon herself to grant unconditionally a suspension of hostilities without any mutual agreement or mutual conditions between the American and Span'sh governments, nothing can be asked or expected from America, who will merely look on to see what comes out of this sort of armistice and of any negotiations between the Cuban autonomist government and the insurgents. When in time events allow the United States to judge of the results of a suspension of hostilities and of the negotiations as to home rule, America will consider herself free to act in accordance with American interests and to insist on a permanent settlement of the Cuban question to secure peace in Cuba, and all simply because President McKinley made no engagements for the present or the future with the Pope and the European powers, who are alleged to have spontaneously induced Spain to grant the suspension of hostilities. This must be borne in mind in order to understand why most of the pending questions between the two countries stand just as they were a week ago. The only clear result attained, as the Madrid government well knows, is the indefinite postponement of a rupture if the American Con-

The little differences and misunderstandings which have arisen in connection with the administration of certain services in Chatham have, as well-informed persons know, been the result of mistakes made alike by the Fire Committee and the Council itself. ### A Maritime Flyer

It is possible that in the near future wenty-four hour express between Montreal and Halifax will be inaugurated by the Intercolonial Railway. Since the pening of the Drummond Counties extension on March 1, the daily express has been leaving Halifax at 2.30 p. m. arriving in Montreal at 4.25 p. m. next day, and a like fast run is made eastward. Many patrons of the line were afraid the road bed of the new section would pre clude the possibility of making this time. Experience, however, has shown that no only can the present schedule be main tained, but it is evident that much better can be made without difficu'ty. Previous to the first of March it was the exception and not the rule for a through train to arrive in Halifax on time, but on one two occasions only since the change has the Maritime Express been late in arriving at Montreal. The new arrangement will probably go into effect before the summer travel begins.

Officials of the roal report travel as improving wonderfully, on both through and local business, and in the latter particular the new acquisition is becoming fully up to the expectations of the extension. The new dining and lunch car ice has proved itself a success and exceedingly popular among travellers. The I. C. R. is said to be securing a lot of eastbound freight from Montreal over its new line, with prospects of a big in crease before long. - [Railway News.

### Ottawa Letter.

OTTAWA, 9th April, 1898. Mr. Fielding's budget speech was or of the best ever heard in the House It indicated very careful prepar tion, a comprehensive grasp of de'ai's, a thorough understand ng of the subject and a proper appreciation of the situation. It was an agreeable contrast to so ne of the blustering and boastful speeches which the House had listened to for years, and Mr. Fielding made it doubly impressive by putting forward in have justified strong terms. It was characterised throughout by perfect candor and by the effective way in which he made elaborate and complicated figures intelligible. None but a master could do this. It takes a strong man, with a cleur head and an accurate measurement of words, to make great masses of figures

capable of being generally understood. Every one knows the picture which the Conser. atives were accustomed to present of the woe and wreck that would over take Canada if a Liberal Government should come into power. They never tired of making direful forecasts of ruin and calamity if the reins of power should ever pass out of their own hands. Notwithstanding these alarming cries the terrible thing has not happened. They went out in June 1896 and the Liberal came in. Have the industries of the country been ruined? Has revolution come upon the people, spreading poverty

and destruction on every hand? Not at Mr. Fielding's budget speech showed that Canada was never in such a prosperous condition as she is to-day. Her trade has been increaing and developing in new channels, and there has not been a time in all the past when the people as a whole, were doing so well or had so many reasons for gratitude and

For the current fiscal year Mr. Fielding expects a surplus of \$550,000, based on revenue of \$39,300,000. Taking up the general condition of business in the country, Mr. Fielding was able to present a series of facts of a most inspiring character. No preceding Minister of Finance has ever been able

The total value of exports last year reached the very large figure of \$137,950,253, which is more than \$16,000,000 in excess of the previous year and \$24,000,000 beyond 1895. phenomenal growth Mr. Fielding attributed very largely to the prosperity which had come to our farmers, and in that prosperity the industrial interests have shared. It had always been the cry o the Tories that the way to make the country presperous was to stimulate manufactures : but Mr. Fielding claimed that this was putting the cart before the horse. If the agricultural classes were in a well-to-do condition, the manufacturers

would be sure to prosper. Dealing with the public debt. Mr Fielding showed that it now stood at \$263,000,000 net. In this connection h referred to the unprecedented success o the last Canadian loan. This is a terribly sore point with the opposition, for they had predicted that the moment a Liberal Government came into power the credi of the country would be shattered. the burden of interest upon the people would be enormously increased. result has been quite the reverse, for Mr. Fielding was able to borrow on the English market at the lowest rate ever secured by any country in the world. No more complete answer could be made to the assertions of opponents of the Govern-

Mr. Fielding presented an elaborate statement showing how the revised tariff had worked out. He made it quite clear subscriptions for their art distribution has been very considerably reduced, and that under the preferential rate which will shortly become operative, further reductions will be made. The Conserva tive papers are very fond of taunting the present Government with being recreant to their pledges in respect of the tariff but in the face of Mr. Fielding's statement, which is altogether too elaborate to be reproduced here, they will be convinced that the Liberals are making been quiet and the deliveries have been substantial progress towards a position in this regard which will, when realised, silence criticism.

The Minister justified a further reduction of one-half per cent. in the interest payable on deposits in the Government Savings Bank, on the ground that i would reduce the general rate of interest paid by borrowers, in business and at sufficient. The deliveries of oak have large, throughout the country. This reduction he argued would make for commercial expansion, and what depositors would lose on one hand would be a very small sum compared with the gain to borrowers in general. > The Senate has adjourned for twe weeks and the Commoners are also taking an Easter holiday. It was quite noticeable that some of the elderly gentlemen of the Upper House went away with a jaunty and easy air, manifestly conscious of the importance which has recently been given to the power they hold in the Senate. This is perhaps a natural feeling; but it is entirely in the direction of danger

A funny thing occurred during the past week. Mr. Scott, writing from Ottawa to the St. John "Sun," bitterly attacked Mr. Blair in respect of subsidies recommended to be paid to the Central Railway Company, claiming that the Minister was getting in some of his fine work in behalf of his political friends. It turns out that the man above all others interested in these subsidies is Mr. W. H. Thorne. Mr. Scott's partner and chief owner of the "Sun." Mr. Scott aimed his artillery at Mr. Blair and blew the head off his partner-which is a little tragedy that will probably tend to raise Mr. Scott's reputation as a marksman.

### Chatham Incendiarism

The St. John Gazette says :-For many months the Sun has been trying to make it appear that Hon. Mr. Blair was without influence in the Dominion government. Now the Chatham World is trying to convince the people of the town in which it is printed that Hon. Mr. Tweedie cannot control the appointments of the Provincial government in his constituency. The present police magistrate of Chatham has rendered himself objectionable to the town council of Chatham by declining to hand over the Scott Act fines to the town treasurer and has sought to justify his position under a provision of the liquor act which does not however apply to the condition of affairs in Chatham. The Chatham incorporation act requires the appointment of a police magistrate, but allows the present incumbent to hold the office until his successor is appoint ed. Strong representations have been made

to the government to appoint Mr. McCulley the present magistrate to the position. These representations were not acted on. and in the meantime, the Chatham Council asked for the appointment of Mr. Connors, a well known citizen of Chatham. Both representations have been before the government, but are not acted on as yet. The Chatham World in its article tries to make it appear that Premier Emmerson objected to the appointment of Mr. Connors because he was a Roman Catholic. Anyone who knows the Premier of New Brunswick is aware that he is the last man in the province who would be influenced by the religious Already a Presbyterian divine of Chatham has endeavored to bring religion into politics and in doing so has been guilty of many misstatements in a letter which he published in the Sun. The Great Spring Medicine that Cures when all Others Fail.

Eminent Professional Men, People of Wealth, and the Ordinary People Declare that Paine's Celery Compound has no Equal.

WELLS & RICHARDSON Co., DEAR SIRS :- I take this opportunity to express my gratitude for the good that I and my friends have received from your valuable discovery, Paine's Celery Compound.

For years I have suffered from constant sick headache; at times I have been so bad that I have been unable to sleep two hours a night for weeks. I have tried many medicines and doctored

a great deal, but never received a hundredth part of the value from them that I have obtained from Paine's Celery Compound. After using three bottles I can sleep well, my headaches have ceased, and I feel

medicine, Paine's Celery Compound. For nearly two years I suffered from indigestion, kidney and liver troubles. After trying several medicines that did not effect a cure I decided to try your Compound. Before using it I was so low in health that I could not eat or sleep. I could not lie in bed owing to pain in my back; it was only by resting on elbows and knees I was enabled to obtain a slight degree of ease. Before I had fully taken one bottle of your medicine healthier and fresher than I have done for I began to improve. I have now taken in all fourteen bottles with grand results. I am a farmer and am now working every day. Being one of the earliest settlers in this Anyone may refer to me in regard to these place, I am known to all the surrounding statements, or to any of my neighbors around Sheffield, where I am well known. I am a living witness to the worth of Paine's Celery

GENTLEMEN :- No living mortal can imagine the terrible sufferings that I endured for four years, owing to liver trouble, headache and sore back. I may say that in addition to the dangerous ailments just mentioned, I was continually sick at my stomach, with a sour taste and mouth all furred and coated. I tried many patent medicines and was under the treatment of loctors, but received no benefit. I thank God for having heard of your wonderful Paine's Celery Componed. I procured a supply and used it, and experienced a great change. No other remedy ever gave me now find myself a new woman, and can sleep well and enjoy my food. No soul should despair when they can procure Paine's Celery Compound, the surest and best of all Yours truly,

It is not necessary to remind the majority of our people that society here, as elsewhere, depends for its highest development upon the Christian religion. In saying this we do not refer to Christianity, as taught by its Founder. In our public and society relationships many of us have had the satisfaction of knowing that christians of different communions can associate together for the promotion of their mutual interests, and in friendly and neighborly personal intercourse, having no cause to remember or be influenced by the fact that they differ in some matters of creed which, after all, are largely of mere personal and private concern and do not. and ought not to, interfere with the regard in which people of the same community should hold each other, We can even extend friendly recognition to self-respecting men who are not able to realise that whatever may be their views respecting other forms of religion, or whatever their inability to grasp the truths of Christianity, that religion has given to mankind the very best known code for the government and well being of the human race. But what shall we say of those who embrace every opportunity of not only sneering
