KAISER'SRELIGIOUSMANIA.

A SPECIES OF TENDENCY TOWARD JOHN MCDONALD & CO.

MYSTICISM. Emperor William's Voyage to the Holy Land is Considered Ill-Advised and May

Lead to Serious Consequences. Considerable alarm is manifested in political and court circles, not only in Germany but also abroad, with regard to the influence which Emperor William's approaching visit to the Holy Land is likely to have on his mind and

future conduct. He has always, ever since he ascended the throne, had a species of tendency toward mysticism, and loses no opportunity of calling attention to the more than usually close relations that exist between himself and the ruller of the universe, whom he professes to be able to understand better than any one else, and of whose decrees he

claims to be the chief executor. Not only has he addressed invitations to all the Protestant rulers of Germany ÆTNA, to make the Pilgrimage to the Holy Land in his train, or else to send some prince of their house, in their place, but he has likewise invited representatives of the Evangelical and Protestant churches of the non-Prussian Indeed, it is estimated that there

King Frederick William IV. of Prussia distinguished himself by precisely the same extravagant claims to a special degree of intimacy with Providence as the present Kaiser and was forever using and invoking the name of the Creator, to whom he insisted that he was alone responsible for his actions, both as an individual and as a monarch. But when toward the end of his reign he protested that he was directed by the Divinity to adopt the most insane measures and to perpetrate the most astonishing freaks that have ever been committed by an annointed of the Lord, his subjects felt of rage when he is crossed, but it is the moniac, or common salt, and the space rage of a child, and is over as soon as between this point and that to which that it was time to put him under restraint and confided the regency to his younger brother, who died as Emperor Matched Flooring

A QUEER VERDICT.

Upon the Isle of Man, where sheep-John Dixon was recently sentenced to three years' imprisonment for it. The exact words of the jury were: "Not having satisfactorily accounted to the minds of the jury for the possession of the sheep, we find the prisoner guilthat lot of cracked wheat you got ty." What puzzles the lawyers is this: Can a man be legally jailed on such a verdict?

NOT A NEW DISCOVERY.
