#### Town Conneil

We understand that a meeting of the . Town Council was held on Monday evening and regret that as no intimation of it was given to the ADVANCE beforehand, we were thus denied the opportunity of having a reporter present. When the newspaper proprietors are willing to report the council's proceedings, it seems singular that they are prevented from doing so by the council itself. It is of a piece with the letting of town contracts without advertising them properly-a recent new departure. The public have the right to know what the council is doing and to that end the holding of meetings without the people or the press \* knowing it should be discontinued.
