BRIDGES DAMAGED :- On the morning of Monday last the ice went out of the Petitcodiac and Little rivers with a rush. Late despatches say that the Little river bridge is badly damaged and about thirty feet of the bridge across the Petitcodiac at Salisbury has been swept away.

THAT FIRE ALARM :- Some of our citizens will wonder why the fire alarm whistle in the Electric Light station was not blown for the fire on Monday morning last. The reason accounted for is that there was not sufficient steam at the time. It is well the bells are still retained.

NEWFOUNDLAND SEAL FISHERIES:- On March 1, a fleet of eighty schooners sailed from the various ports of this Island to prosecute the seal fishery, which has been largely stimulated by the bounty of \$4 per ton that has been recently granted by the government. There were also 24 steamers getting ready to sail for the same fishery and late despatches announce that they left on the 16th instant.

Morrissey had died at Brooklyn the previous day. The deceased gentleman was a native of Newcastle and a brother of Mr. John Morrissey of that place. He was in the fifty-second year of his age and had practiced his profession in Brooklyn during the past quarter of a century. He leaves a widow and four children. WINDSOR, N. S., RAPIDLY REBUILDING :---We are pleased to learn from our Nova Scotia exchanges that the town of Windsor which was destroyed by fire last fall is rapidly being rebuilt. During the last three or four months over one hundred fine and handsome buildings have been erected. At the present time in the business part of the town a number of very fine brick buildings as well as two large and handsome hotels are in course of construction. Dr. Allen Haley, M. P., for Hants, says that the value of buildings to be put up before the end of the year at Windsor will be \$1,000,000.

Mr. Chipman said he would like to rise to a real question of privilege which should be brought to the notice of this House. This morning every member has had placed

upon his desk, a journal, published in London, England, called the Colonies and India, and he found in that journal a statement which tended very much to injure the credit

of the Province. This erroneous statement would be circulated throughout the United Kingdom and all the colonies and he would call the attention of the Provincial Secretary to it, and suggest that he have it corrected.
