parishes, school districts, or even the church organizations of Nova Scotia, or any province of the Dominion. Whether he was or was not an active factor in the parish elections in the sister province, the announcement we have quoted must be a source of unbounded satisfaction to him, and evidence that although the new order of statesmanship is apparently unappreciated in New Brunswick, its seeds have not been altogether sown in vain elsewhere.

Water Works and Sewerage.

A preliminary report on the proposed

water works and sewerage system for Chatham has been received by Mayor Winslow from Mr. F. C. Coffin, C. E., of Boston. It is accompanied by plans of the Town and vicinity, showing the sources of water supply, and decidedly favors that of the Morrison Brook. It contains a wide range of information an important power, with whom our and data bearing on the subject, and gives the estimated minimum supply from that brook as from 400,000 to 1,000,000 gallons a day, dependent, of

course, upon whether the natural flow is used or reservoirs constructed at certain points on the stream. Mr. Coffin states that the supply will be sufficient for the domestic and fire-service needs of the town for at least 30 years on the basis of a two and a half per cent. in- sons are very premature, very much miscrease of population per year. The

works would include the necessary pumping station engines, water power nuts out of the fire.

plant, mains and service pipes, a steel stand-pipe on the hill south of the town. 40 feet in diameter and 50 feet high to give the requisite pressure for fire

round numbers the cost would be

and if our people come near to the average in using the water for domestic

from the competition of nations for the undeveloped territories on the world's surface, in the possession of barbarous tribes or decaying nations. He dwelt upon these vast tracts as "outlets for the teeming populations and trade of civilized nations." Mr. Chamberlain predicted an "immense fature" for Rhodesis and Great Britain's other acquisitions in Africa, even the Gold Coast and Lagos, when medical science shall have succeeded in overcoming malarial diseases. He warmly defended the Gov.

ernment's Chinese policy, contending that "Great Britain had good reason to be satisfied with the results obtained as compared with other powers."

NO ALLIANCE NEEDED.

Regarding the contention that Great Britain ought to have an agreement with Russia, he said :- "Experience has taught us that we require a better guarantee than a paper agreement to secure the policy of an open door. The best security, in my opinion, is the desire of other nations, like Japan, Germany and the United States. to preserve an open door. Japan is becoming relations throughout have been those of cordial friendship, while with Germany and the United States our relations, I rejoice to say, are now closer and more sordial than they have been for some time. Germany extra expense.

and the United States are the two great commercial nations whose interests are identical with our own. In what I have said I have not meant a permanent formal treaty of alliance, nor need I say this now. but that a speech of mine some mouths ago gave rise to misinterpretation. Those pertaken, who think that Great Britain is in

need of an alliance for her own security, or in order that other powers may pull chest-

"Our New York Terminal is Pier 1, N. R. repaned and re-arranged to accommodate both passenger and freight traffic, and for the general offices of the company, and considered one of the most convenient and commodious piers in this city. This Terminal will be of great advantage to shippers, for the reason that we are in a position to eceive freight for all points in Maine and the Maritime Provinces, thereby avoiding the necessity of truckmen splitting their loads or making four or five deliveris for Eastern points. We can receive their entire load without delaying their trucks, thereby saving them time, and shippers

freight in New York and at our eastern terminals, together with through traffic a: rangements we have with our connections. both by rail and water, to the west and south, we are in a position to handle business intrusted to us to the entire satisservice and charges.

The Manhattan Steamship Company is in the field to stay and fully prepared to meet

These new ships will be provided happy manner, altho' he said he hardly knew why he had been selected for the provement, and large cold storage compart- honor, not being either a member of parlia-

not made a los here, so that the commercial record of Newcastle was a good one and there were few towns like it. He did not dream, when Mr. Brown and other citizens came to him and tendered this dinner that it would be given by such a large and representative gathering as was present to-night. It embraced not only customers of the bank, but a fine representation of all the best interests of the town It was the proudest moment of his life and he thanked them all from the bottom of his heart. He would look back to the occasion with pride and never forget his stay here. and feel that in Newcastle he had more friends than in any other place on earth.

Mr. Robertson's speech was received with great applause, followed by three cheers and singing "He's a joily, good fellow."

Vice-chairman Street in rising to propose the next regular toast on the programme p. i.i a graceful tribute to Mr. Robertson's many excellent qualities as manifested in his business relationships with the community. his generous interest in promoting every thing for the betterment of the town and all matters relating to good citizenship. He next referred to the importance of banks to the business of the country and proposed "The banking interests", coupled with the names of Messrs, E. A. McCurdy of the Merchants Bank of Halifax and R. H Anderson of the Bank of Nova Scotia. Chatham.

Mr. McCurdy said it was a great pleasure to him to be present and join in this tribute from the citizens of Newcastle to his friend. ellow citizen and brother banker. M: Robertson. He referred to his acquaintance with him since coming to Newcastle and regretted that he was going away, although his doing so meant promotion for him. He be much missed in the banking business here, as well as in other things. He had found him ever friendly and courteous and he was public spirited and generousalways ready to assist in every good work. him unbounded success in As to the banks they played an important part in the affairs of the country. They had Canada a capital of \$60,000,000, a reserve ef \$30,000,000 and deposits of \$200,000,000. which indicated what an enormous responsibility rested with those controlling them.

Most Rubbers are Uncomfortable

It is no wonder that rubbers which are not the same shape as the boot should be uncomfortable. It costs money to employ skilled pattern makers but the result is a satisfactory fit.

Each year the Granby Rubber Co. add new patterns to fit all the latest shoe shapes therefore

Granby Rubbers ARE ALWAYS UP-TC-DATE.

They are honestly made of Pure Rubber. Thin, Light, Elastic, Durable. Extra thick at ball and heel.

Granby Rubbers wear like Iron.
