Miramichi Advance.

OHATHAM, N. B. . NOVEMBER 16, 1899.

Ministerial Visit Deferred.

It now looks as if Chatham is not have the privilege of a visit from the Minister of Railways on 23rd, as announced in the ADVANCE and other papers, as neither of the other ministers named as being likely to accompany him here can do so just at present owing to pressing engagements elsewhere, while Mr. Blair, himself, is obliged to shorten his North Shore visit very much on account of the requirements of some departmental work. He intends, however, to come to the Miramichi later. Whenever he does so he will be warmly welcomed.

The Gloucester Election.

The writ for the election to fill the vacancy in the local representation of Gloucester vacated by the resignation of P. J. Venoit, M. P. P., is issued. Nomination November 27, polling following Monday, December 4. Candidates said to be in the field are Messrs. Prosper Poulin, Gustave Hache, John Young, Fredk Young and Fred Legere -all government supporters.

AN IMPORTANT ANNOUNCEMENT:-The announcement appears in Les Missions Catholiques de Lyons, France, that the Very Reverend Thos. F. Barry, Vicar General of the Diocese of Chatham, and pastor of the Roman Catholic Church at Bathurst, has been chosen as coadjutor to Rt. Rev. Dr. Rogers, Bishop of Chatham. The appointment of coadjutor to the venerable Bishop of this diocese has been expected for some time and the selection of Vicar General JOSIE NOONAN'S | Barry for the position is hailed with great satisfaction by all interested. An Unfinished Purchase.

Now that Chatham has a stone-crusher what is to be done with it? The machine is evidently a good one. But if it was intended to have it brought here and erected on the Public wharf merely to stand exposed in idleness to the snows and rains of the next six months, the purchase cannot be defended

If the stone-crusher was needed, its erection should have been accompanied by the installation of a boiler and engine to drive it, or the purchase should have been

Town wags are asking whether the aldermen who were so expeditious in ordering the machine knew that wouldn's run itself!; whether they thought it was an auto-mobile?; did they intend to work it with the hand-engine, or start it on high ground and let it run down hill? was it possible that it was to be used as mud digger, or would they get an annex pipe from the Newcastle electric light water power and run it as a grain-elevator?

If they hadn't some definite, or even hazy intention in regard to utilising it within a reasonable time after its purchase the public, generally, are asking what they wanted to buy it for at all? and if they didn't know anything about it anyhow, why didn't they wait until they did and then get a stone-crusher and the means of working it at the same time?

The poor thing stands like a gibbet, in and if the aldermen can't do any better they should get some rough boards and cover it from the attacks that will be made upon it by the rusting and deterio rating agencies of our rigorous winter and spring climate. But, as they have gone so far and incurred the cost, they should follow it up by going further and working it. Don't be "chumps," gentlemen of the council, you "might as well be hung for a sheep as a lamb."

"I have already said that the sedition of a Mr. M'Lean, who suffered at Quebec, for conspiring against the government, whose execution took place, I believe, in the fall of 1793, afforded an opportunity to the Indians for renewing their outrages. It is said that this man was here; that I used every means to excite a revolt among them, and that he secretly supplied them with arms and ammunition. It is also stated, that for some time after he went from this, the Indians frequently assembled in great numbers, at Burnt Church, and Moody's Point. On one occasion, upwards of two hundred of them met at the former place, and had concerted measures for the a Roman Catholic priest, from Gaspe, put an end to the conference, by informing them of the fate of the man, who had seduced them from their allegiance. On receiving this disagreeable intelligence, they all returned to their duty; and the people who had been obliged to abandon their homes, and concentrate themselves at Mr. Henderson's, in Chatham, and in other places of defence, returned to their respective houses, and enjoyed a tranquility, which has never since sions.

Another of the "places of defence" ferred to above was Peter or Patrick Taylor's, below Chatham. That was stone house, but it was built several years after Henderson's.

The walls of this old Henderson house -composed as they were of wood and clay to the thickness of six inches-would easily resist a siege by the Indians, es pecially when the defenders were the

In the days when the old house was built Chatham was wooded everywhere almost to its shores. Some of the older residents have told us that they remember when George Henderson's sons, Patrick and George had succeeded their father in Chatham and another son James ived in Moorfields. George's property was west of Cunard Street and Patrick's east of it. Patrick built what is now the Bowser house and lived in it. He afterwards sold it to Joseph Cunard, who im proved it. He himself removed to the old house occupied a few years ago by the late John Blake. In those times what is now Chatham public square was a swan and the Hendersons farmed fields "away back" where the residences of Mayor organiser and upbuilder in the Church, Winslow, J. D. B. F. Iron is Cheaper.

Messrs. R. G. Dun & Co.'s circular says: "The iron industry, which has led all others in the advance, now leads the way toward a readjustment of values. While contracts for pig cover the entire product of the most important districts for six to nine months in advance, many of the consuming works in some lines approach the end of their orders and have new competition to meet, so that sheets have fallen \$4 per ton at Pittsburg and \$9 from the highest point in September and plates are \$6 lower there and \$3 at Phi'adelphia."

Canada's Revenue and Expenditure.

The financial returns of the Dominion for the four months ending October 31, show that last year's records are being far outstripped. There are large reductions of almost two millions in capital expenditure. Up to the end of October the revonue was \$16,000,481, a gain over the same four months of 1898 of \$1,202,784 Expenditure reached \$9,178,363, as compared with \$8,520,150 in 1898, an increase of \$658,213, leaving a net gain of 544,571. The following is the statement of revenue and expenditure for the four months up to October with comparative returns for the same period of 1898 :--

THE SITUATION AT AND NEAR LADYSMITH.

London, Nov. 11 .- On the develop ments of the situation at Ladysmith the immediate future depends probably that if General White can maintain his position until Nov. 26th or Nov. 28th the British authorities will be fully satisfied that all the danger in Ladysmith will be over. Should he fail to do so and b compelled to abandon his position and stores and retire with heavy loss south ward where he will get the Boers in position on the Tugela River, it is impossible to predict what may happen. On the other hand should the situation at Lady smith not be materially changed before Nov. 28, it is confidently predicted that the majority of the Boer force will be caught between two British forces and compelled to retire over the difficult Tenawa pass or Livershoope after abandoning its guns. The Boers have expressed the intention of capturing Ladysmith and

then marching on the capital of Natal and the fact of their retaining Tugela bridge intact places confidence in their ability to carry out their plans. Gen. Schalburaer's flanking movement Segulurand must shortly develop if it is to be effective. The department of agriculture at Ottawa has accepted tenders for the supply of hay for South Africa in accordance with the wishes of the Imperial authorities and has closed contracts for as much as can lelivered between now and the end year in South Africa. The department hopes that the high commissioner in London may be able to secure for Canadians an opportunity of sharing in the supply of preserved meats and vegetables, flour, oats, etc., and further orders for hay. It seems to be the desire to take as much from Canada as Canadians can supply.

It is not the desire to force the Canadian contingent unduly into positions of danger or hardship in South Africa, but at the same time the wish of the authorities here is that it may bear its full share with other regiments in Her Majesty's service in whatever work is to be done. It is generally considered that our men will see fighting. Indeed, it would be a great disappointment were they to be assigned to

Mayor Sears was present at the organization meeting and warmly approved of the formation of the society, and expressed his belief that it would be of great assistance. It is the intention to enroll a large number of members, and take steps to interest the women all over the province so that the society will be thoroughly representative. sets in shortly after Christmas. January is As a separate work the society has decided the hottest month and July the coolest. to send a Christmas reminder to each of the It was found that if these were shipped not later than the 15th inst., they would reach their destination in time. Col. H. H. Mc-Lean has volunteered to make all the arments to have the gifts forwarded, while Collector Ruel has placed at the disposal of the ladies a room in the Custom House in which the gifts can be packed and made ready for shipment. Since the organization meeting the four secretaries have opened communication with the families of all the New Brunswick volunteers, notifying them of the project and offering to transmit to the men any X mas gifts they desire to have forwarded. The ladies have arranged to have the gifts enclosed in small tin boxes, and each will be carefully label ed and addressed to the soldier for whom it is intended, and every precaution will be taken to see that it reaches its destination in safety. The gifts to be sent will be little reminders of home and friends, and will show the men that they are not forgotten. Of course, each The testimony of the Roman Catholic box will contain the essential of X mas, a p'um pudding.

The future work of the society will denend on the needs of the situation, but the adies of New Brunswick will be ready to respond to any call that the Ked Cross Society or Mayor Sears may make on them on behalf of the gallant volunteers who have gone to South Africa. The ladies have notified the women of Prince Edward Island of the movement, and of the preparations to send the men a Christmae reminder, and with gifts to be forwarded at the same time as those from St. John go forward.

A Code of Morals.

BY RUDYARD KIPLING.

In the first and rare edition of Kipling's Barrack-room Ballads, there is does not appear in any of the subsequent editions, either pirated or authorized. "It has been omitted by special request" from all collections of his works, but the tale it tells is too good to be lost to the world. It is appended, without comment, for those who are buying the later and "revised"
