## Mr. Strang's New Residence.

One of the finest residences of the North Shore is that which Mr. E. A. Strang is now building on his property fronting on is an excellent one both as regards drainage and prospect. It is about 150 feet off the road and approached by a slight ascent, while the ground slopes away to the north to the brook which is about 15 feet below the level of the foundation. From the upper windows a fine view of the town and the river-both up and down-is had and, had received from Mayor Sears and referring yet, it is within a few minutes walk of the to the meeting he had called, to the war and

The house is two storeys 30x40 ft., exclusive of bay windows at each end, with an ell 16x28 ft. The bay windows, of which there are two-one at each end-extend up both storeys. They are 4 ft. 6 in. x 10 ft. There is also a portico in front, which is 7 x 11 ft. Verandas extend from the portico to each end of the house and also from the rear S.E. corner around to the east end of

The bays are square and lighted up stairs and down by windows, the openings of which are 6 ft. x 4 ft. 10 in. These are divided into two panes each of polished plate glass 36x68 inches. The other windows are large and filled with 32 oz. glass and are all hung with cords and

The roof is hipped and the cornice en tablature under the eaves is heavy richly moulded and bracketed, the pediment heads of the bays and portico combining with it to produce a handsome effect The maio entrance is in the front of the portico and is reached by broad steps be tween flaring butresses.

The walls under the verandas are built entirely independent of the main foundation walls. They are of sandstone to the level the time to place your orders for cemetery | ef the ground and of brick above that. They are well ventilate d.

The foundation is one of the great features of the house. It was excavated for the full size of both main house and ell, down through shelly sandstone to bed level. The walls are of prepared French Fort Cove quarry sandstone, and are nine feet high laid in lime and cement. They are carried up to a three feet average above the ground and so windowed that the basement is almost as light as the upper parts of the house. The furnace room is separated from the cellars, and the heating arrangements are on an adequate scale.

The first floor is divided into a hallway 10ft wide which runs centrally from front to rear. Wide portiered openings to the right and left lead into the two rooms into which the front of the house is divided. These, when thrown into one, will include the hall and bays and will give a parlor 49 feet long. In the south room there is a fire place, where the old-fashoned wood fire

Mr. Strang's new home is one planned by himself. The work has been carried on under his own personal superintendance, with Mr. Wm. Scott as foreman, and it is needless to say that it is well and thoroughly done.

#### Caribou Hunt.

Messrs. G. A. Lounsbury, Geo. Hildeorand and Chas. Sargeant, with James Way as guide, started from Newcastle on Monday of last week for a caribou hunt on the Fur. Fin and Feather Club's grounds-a four hours' drive from the shire town. They reached the camp about 9 pm. and next morning started for Donahue Lake and barrens. Arrived at the lake they sighted very fine buck caribou on the opposite side, about half past ten a.m. In trying get around the lake to head the buck off they started three other caribou, while they did not succeed in coming upon the one they were after. Having thus failed to get near enough to any big game that day they returned to camp for the night.

On Wednesday morning they went to the upper meadows on Trout Brook, but did not find anything, although there were plenty of signs of game. Returning by way of the lower meadows they suddenly came in sight of a splendid buck and two cows. Way pointed the buck out. Messrs. #### Chatham Joins in Support of the Volunteer Movement.

Mayor Winslow, of Chatham, received the following telegram from Mayor Sears of St. John on Monday.

ST. JOHN, Oct. 23, 1899. To the Mayor of Chatham, N. B. I am requested to advise you that St. John has started a Provincial Volunteer Fund to provide additional pay and assistance to our New Brunswick African contingent and invites your cooperation and contributions. About \$2,000 already collected here, with guarantee fund from Common Council up to \$2,000 for deficiency. Eight thousand dollars at least required.

EDWARD SEARS, Mayor. Mayor Winslow replied as follows on Tuesday morning: -Снатнам, Ост. 24, 1899.

To His Worship the Mayor, St. John: Chatham citizens cheerfully contribute to assist New Brunswick contingent, and on their behalf I wish the brave boys God

WARREN C. WINSLOW, Mayor. Pursuant to the foregoing Mayor Winslow called a public meeting in the Town Hall Henderson Strest (Station Road.) The site for Tuesday evening. The Citizens' Band, under the leadership of Mr. Walter White. turned out and played through several of the streets, returning at 8 p.m. to the front of the Town Hall, where quite a large crowd had gathered.

> Mayor Winslow addressed the people said "nay" in a very pronounced tone. from the balcony, reading the telegram he the volunteers who were going from Canada and especially from New Brunswick. He said we should do all in our power to show that our sympathy and support were with them. The meeting would, no doubt, begin the work and subscription lists would probably be opened at the two banks and the two drug stores of the town and at the office of Hon, Senator Snowball. After the Mayor had closed his remarks,

the band played, God Save the Queen.

Quite a large number of citizens assemoled in the council chamber about 8.30 and Mayor Winslow stated the object of the meeting and read the telegram he had recerved from the Mayor of St. John. He said that in talking the matter over with several leading citizens last night and to-day the idea had been expressed that the contributions made should go forward as from the County of Northumberland, rather than from any particular locality. Amongst those who had talked with him of the matter was Mr. James Robinson, our M. P. who, with the understanding that the movement would be a county one, had placed in his hands his check for \$100 as his subscription. [Applause.] Continuing, Mayor Winslow said they had appointed a citizens' committee in St. John to solicit subscription and it might be well to do the same

thing here. Ald. Watt suggested that two or three collectors be appointed to secure subscriptions. Lists could also be left at the banks, drug stores and Mr. Snowball's, so that the ground would be pretty well covered. He asked how soon it would be necessary to

Town Marshall Lt. Col. McCulley said it was to pay the men with, its payment at once would not be necessary, but if for personal comforts it would be well to collect it at once. He moved that a committee of three be appointed to solicit subscriptions.

Mr. D. G. Smith suggested that as it was evidently desired that the movement should he a county one it would be well to take steps to cooperate with Newcastle, whose Mayor had also been communicated with on the subject by the mayor of St. John.

Mr. F. E. Winslow suggested that whatever was subscribed should be collected by the end of the month and forwarded to the should be closed by the end of the week.

Mr. R. A. Lawlor said the whole matter regard to the disposition of what they were

main house. Here there are four large customary, when men went into active ranks of the Canadian South African service, for them to have a part of their pay reserved to be paid to those depending upon

them at home in their absence. Capt. Mackenzie said the money subscribed would be divided by the department at Ottawa on a uniform scale amongst the men who went to the front.

Mr. D. G. Smith said, as he understood it, this was a New Brunswick undertaking, and it was hardly reasonable to suppose that the militia department at Ottawa would undertake the administration of such a fund. The military authorities would only administer moneys placed at their disposal by government, or perhaps by a parliamentary grant, which he hoped would be made. The Red Cross Society had asked for subscriptions and he observed that St. John had sent \$200 to it, but that was all he had heard of as having been sent out of the Province for administration at Ottawa.

Dr. Cox said the subscriptions sought were for a provincial, not a Dominion fund. A committee appointed here might become connected with a central committee for the Province. He agreed that whatever was contributed in Northumberland should form part of a New Brunswick fund. It would be broader -not merely local. Mr. E. W. Jarvis: Would it not be as

well to make it a Dominion fund? Mayor Winslow: We are asked to join with St. John and other places in contribuing to a New Brunswick fund.

Mr. J. L. Stewart said all the provinces were doing this kind of thing for their men. This was started in St. John and we are asked to cooperate with them in behalf of New Brunswick. If we send a good many men and but little money we shall be doing our duty, or if we send only a few men and a large sum of money, we shall be equally

On motion of ald. Watt, Mr. R.A. Lawlor was chosen a member of the subscription committee; on motion of Mr. C. A. C. Ald. Watt moved for the appointment of Col. Ferguson, but that gentleman nominated Lt.-Col. McCulley, who was chosen as third astern, where he could have an opportunity committeeman.

On motion of Mr. J. L. Stewart, Mayor Winslow was added to the committee and they were instructed to communicate with the Mayor and committee of the town of Newcastle with the object of making the undertaking a County one.

Mr. Jas. Nicol asked what would be done with the money should Kruger "knuckle down" before our men got to Quebec. Capt. Mackenzie said the men were now enlisted for six months, and must serve for

Mr. Lawlor pointed out that it was only proposed to show the Town Council that this meeting was in favor of a vote of money towards the fund that was being raised and that such action would be endorsed by the people.

Mr. F. E. Winslow made a similar explanation for Mr. Cunningham's enlighten-Mr. Cunningham ma de further mystifying

## Columbia Wins I

NEW YORK, Oct. 20 .- Through rough seas and in a breeze that approached the dignity of a gale, the sloop Columbia to-day vanquished the Shamrock by six minutes and eighteen seconds actual time, and six minutes and thirty-four seconds corrected

To-day's race was a fine test of the rough weather qualities of the two sloops. Both yachts sped across the starting line before a 25 knot breeze, wing and wing, with their spinnakers breaking out. The Shamrock was over a minute and one second before the defender. But this was not due to superior seamanship. Captain Barr held off for that length of time after the Shamrock crossed in order that he might get the position to blanket his rival.

The Columbia carried her spinnaker boom at an angle of almost forty-five degrees. This allowed the big sail to belly far out forward and draw like a locomotive. But it was rather dangerous, and twice an extra puff of wind carried the sail forward and up until it tumbled over the stay.

The Shamrock had no such mishap, as Hogarth carried his boom much lower. The Yankee trick, however, did its work lifting the head of the Columbia out of the water, until she seemed to be skimming Dr. Cox said the money should go to over the surface. The Yankee slowly but surely overhauled her rival. When the distance, the Shamrock crowded on a little Mr. F. E. Winslow referred to the fact | more canvas, setting a baby jib-topsail, and Shamrock. The yachts swept around the Mayor Winslow said it had been suggest- mark, the Columbia seventeen second the fleet answered for both. The Columbia away on the starboard tack for the beat home the Columbia was to windward and

With their sheets trimmed flat aft, they Col. Ferguson said this meeting might surged into the head seas, sending the brine express itself in favor of the Town Council smoking high as the spreaders. They careened until their lee rails were awash in the waves. The Shamrock labored more than the Columbia. Once or twice she would support them in contributing to the buried her bows in the seas, wetting her head sails. Ten minutes of this satisfied Mr. Nicholas Cunningham made quite an the patriots that the defender was as much airs. She pointed almost a point higher than her rival and footed just as fast. London, The Columbia had housed her working topsail before they turned the mark. but the Shamrock held on until in the freshening wind it was deemed dangerous to carry it longer, and a sailor was sent aloft to lower it. It was a delicate job, with the big 90-footer bucking into the jumping sea like a broncho, but after five minutes of hard

work it was accomplished. On every tack of the thrash to windward the Yankee increased her lead. At 1.45 th Columbia was leading by a quarter of a mile. The situation for the Shamrock was desperate and the British skipper decided to crowd on more canvas. After some trouble | Children's he succeeded in setting a small club topsail. The challenger leaned over under the press of canvas until her decks were at an angle of thirty degrees. Her speed was undoubtedly increased, but her inability to point lost her almost as much as she gained in footing. Then she resorted to splitting tacks. slight cant in the wind favored her, and she managed to close up the gap until little more than half a mile separated her from the Columbia. Soon after the wind slackened a little, and thereafter the Shamrock lost rather than gained ground.

The Shamrock got a noisier reception than the champion as she finished.

NEW YORK, Oct. 21.-Sir Thomas Lipton bore his defeat yesterday like the genleman and sportsman that he is. When the boats went over the starting line with the Shamrock well in the lead, Sir Thomas and those about him were jubilant. When the Columbia began to cut down the challenger's lead they looked uneasy, but not despondent. 5 00 When the turning point was reached and it became clear that the Columbia had the better of the going there was more uneasiness, but hope still held place on the Erin. From this time on, however, confidence in the Shamrock's ability to win fell rapidly, and the racers had not covered more than a third of the distance back to mark when Sir Thomas came down from the bridge where he had been watching the race and said: "We have no chance to win now. The Columbia is the better boat. I had hoped for another result, but it is no use now. Nothing but an accident to the Columbia could give us the race, and I would not have that happen for the world. Let us all go below and have luncheon." And so the man who has spent a million dollars to win the America's cup calmly resigned himself to the inevitable.

> After a luncheon the guests remained at the table, while Sir Thomas rose and in a speech highly complimented those with whom he had been brought in contact in the United States for their generous and sportsmanlike treatment of him. Said he: 'I am convinced that the Columbia is the better boat, and she richly deserves her victory. The first race was a disappointment and the second was lost to us by an accident, but that matters nothing. We had to day perfect Shamrock weather, our boat was handled magnificently, not a chance was neglect-The Columbia won because she ought to have won, and I am satisfied it is so. I desire to add that I mean to challenge again if I can arrange matters so as to make it ossible. At this time I cannot go into details, but I'll try it again some day. I have long regarded Mr. Herreshoff as the greatest designer of yachts in the world, and the future possession of the America's cup depends solely upon the ability of English designers to excel him. I'll get it if I can find the man to build the boat.'
