BACON.

VALUE TO FARMERS. Notes From Prof. Day on Some Experiments at the Ontario Agricultural Col-

As Canadian packers have recently had a great deal of trouble with what is known as "soft bacon," perhaps a few notes on the subject may prove of interest to the many farmers who was a faint scream from within. He read your valuable paper, writes Prof. continued to hammer on the door, in Day in the Globe. One of our leading packing houses makes the statement that during the months of May, June The door suddenly opened, and Mrs. and a part of July of the present year the number of soft sides ranged from

20 to 40 per cent. of the whole. This means that Canada placed upon the English market this year a large quanthis bacon was not misrepresented, but was sold strictly upon its merits, at the It was at this moment that Lord same time it was Canadian bacon, and tended to bring discredit upon Canadian bacon as a whole. It requires no "May I ask," said the peer to Sir argument to convince any intelligent described means an ultimate loss to the official, however, was in too great a farmer, because when our packers meet rage to care even for such an intro- with losses of this kind their only remedy is to pay lower prices. It is therefore a matter of great importance, not only to the packer, but more especially

Soft bacon does not mean fat bacon. It means a soft condition of the fat, which develops while the bacon is in the cording to its degree. An absolutely soft side is comparatively worthless, His countenance was a picture of ef- to the supposed steward the unconsci- ed comfortably on that and my pen- and between this condition and firm-"Eh!
