

Herring! Herring!

W. S. LOGGIE COMPANY, LIMITED. In barrels and half-barrels.

FARM JOURNAL. From now to Dec. 1903. Nearly 5 Years.

By special arrangement made with the publishers of the FARM JOURNAL we are enabled to offer that paper to every subscriber who pays for the MIRAMICHI ADVANCE one year ahead...

Miramichi and the North Shore, etc.

"CARSON" won first money in the 2.37 trot at Sussex yesterday.

THE CURLERS are to meet to-morrow, Friday evening.—See advt.

THE LAST RACE of the season between Miramichi Yacht Club boats is to take place to-day off Newcastle.

AS THE TIME draws nearer for the distribution of the \$400.00 in cash premiums, the demand for Union Blend Tea increases proportionately.

EXPENSIVE CHEAPNESS is pointedly illustrated by the fact that the furnace put in Chatham's public building, which is almost new, is already condemned by the Public Works Committee.

STREET BLOCKED—A minstrel troupe blocked Water Street yesterday, opposite Creaghan's store, by its band, which gathered a crowd by its excellent music.

OBITUARY—The funeral of Mrs. Haviland, widow of the late Thos. Haviland, took place on Saturday last and was largely attended.

DO YOU KEEP CHICKENS? Then you ought to have the Farm Journal. We give it in the clothing of the ADVANCE, both for the price of our paper only. Pay up a year ahead, and the Farm Journal will come for the balance of 1899 and a 1 of 1900, 1901, 1902 and 1903, nearly five years, and get to you if you are on this planet.

THANKSGIVING SERVICES: Harvest Thanksgiving Services will be held (D. V.) in S. Paul's and St. Mary's Churches, at the usual hours on Sunday next, the 8th inst. The Holy Communion will be celebrated in St. Mary's at 7.30 a.m. and at St. Paul's, at 11 a.m. The special offerings will be for the repairs fund of St. Mary's Chapel.

A BIG OFFER—During the month of October we offer the following:—The Daily Montreal Herald, 1 year. The Farm Journal for 4 years. THE MIRAMICHI ADVANCE, 1 year. The three papers as above stated for \$1.75 cash in advance. This is an offer never before made and it will be open for this month only.

UNRIVALLED TOURIST SLEEPING cars for the accommodation of passengers holding second class tickets, are run by the Canadian Pacific Railway on Trans-continental Express train, leaving Windsor Station, Montreal, at 11 a.m. every Thursday and running through to Seattle. Passengers for Canadian Northwest and Pacific Coast points will be accommodated in these cars, on payment of a small additional berth charge. Each berth will accommodate two passengers.

TROTTING AT BATHURST—The fall race at the Bathurst trotting park took place Thursday afternoon and were largely attended. They resulted as follows: Free-for-all race—Robert Woods, 1st; Barney, 2nd; Banker, 3rd; Ben M., 4th; time, 2:35. Three-minute race—Black Prince, 1st; Nellie C., 2nd; Silverhans, 3rd; Mollie S., 4th; Puckahontas, 5th; time, 2:40. Green race—Topsy, 1st; Patchy, jr., 2nd; Prince, 3rd; time, three minutes. The track was in fine condition.

MIRAMICHI MARBLE WORKS—Now is the time to place your orders for cemetery work and avoid the spring rush. We have now on hand and coming one of the largest stocks of marble and granite monuments, headstones and tablets ever shown on the north shore, all from the latest designs and worked from the best material the market can produce. Call and get our prices. They are right.

Rev. HENRY MORLEY, of this city, who has been pursuing his ecclesiastical studies at the Seminary, Baltimore, was raised to the priesthood in St. Dunstan's Cathedral by His Lordship Bishop McDonald, on Saturday last. He was ordained sub-deacon on Thursday, deacon on Friday and priest on Saturday as above stated. At half-past ten on Sunday he celebrated his first mass. The mass was a solemn high one. Rev. Dr. Curran was sub-deacon. The sermon, on the dignity of the priesthood, was preached by Father Johnston. Father Morley was ordained for the diocese of Chatham, N. B.—Charlotte-town Herald, Sept. 27.

AS OYSTERS, which will be well worth attending to is held at Loggieville this, Thursday, evening under the auspices of an efficient C. M. B. A. committee, of which Mr. A. Fraser is secretary. There will be a service of oyster stew or raw oysters at a charge of 15 cents, or those who desire may have a supper at 25 cents. Oysters appear to be scarce in the local market and this is a chance to have a pleasant excursion this evening to Loggieville by either the Wellington or Shore road, as if the tide and tides will arrange so that it will be helping a good cause and, at the same time, enjoying both a pleasant drive and a fine supper under the auspices of the C. M. B. A.

THE FARMERS have long needed a good work on Swine, a practical, concise and common-sense book without any padding or humbug about it. They have it in the form of No. 5 of the Biggie Books called Biggie Swine Book. It is profusely illustrated with photographs direct from life of the different breeds of hogs, etc. Much attention is given to western and eastern practices, in

et which he wore had evidently been caught by the revolving gear and his arm was twisted in an unnatural shape and his head severely cut. He, however, had retained his mental faculties and at once directed that the belt be taken off the pulley against which he lay and when his son-in-law came and stooped over him he said, "George, I'm killed at last." Mr. McDonald at once started to summon surgical aid and drove to Loggieville, whence he sent a telephonic message to Dr. J. S. Benson, who, accompanied by Dr. John McDonald was soon on the way to Little Branch. Meanwhile Mr. Fowle was conveyed to his residence near by. When the doctors arrived they found that the right arm was attached to the shoulder by only a little flesh and a few muscles and that its upper portion had been crushed so badly that the bone was broken in small shivers. Amputation was at once performed and the wounds in the head dressed. Mr. Fowle seemed to come out of the terrible ordeal well. He talked of the mishap and of his worldly affairs, which he realized the urgency of arranging in view of the probability of his death. He slept very well on Saturday night, Dr. Benson remaining with him and, with the members of his family, doing everything possible for him. He complained on Sunday of pain in the fingers of the amputated arm and band and suffered considerably during Sunday night. Dr. Benson who had gone home on Sunday was summoned again early on Monday morning but at a few minutes past 9 a. m. Mr. Fowle died very easily, evidently from the shock of the injury.

He leaves a widow and family, all of the latter being married excepting a daughter of about 14 years, by his second wife. He was one of the leading citizens of the County, and deservedly enjoyed the respect of all who knew him. The funeral is to take place this afternoon at two o'clock.

Under False Pretences. The Advocate prints an account of two Boston sportsmen having occupied a shooting lodge on Tabusintac beach, the owners of which—a number of Newcastle gentlemen—charged and made them pay \$50 for the privilege. The place was not well cared for by the visitors, who had no permit for their occupancy. The owners caught them as they were passing through Newcastle on their way home and took legal proceedings, which were settled at the above named figure. The Advocate says:—

"They claim that when they were here last year they were told by one of the owners that they could occupy the lodge when they came again, and they supposed that this offer still held good. Both are very indignant over the matter. They say they will have the whole affair published in every Boston paper. They are both Harvard students and one is the captain of the Harvard varsity crew."

Now is the Time to Enter. S. KERR & SON. A Large Contract.

Mr. J. M. Ruddock of the Miramichi Foundry and Machine Works was the successful tenderer for the superstructure of the new steel bridge that is to be erected across the Nashwaak at Marysville. It will be composed of four spans of 112 feet each and one span of 45 feet. The work will be done here and taken to Marysville by the Canada Eastern Railway for erection. We understand that the price is about \$25,000. Mr. Ruddock will require about twenty five extra men during the progress of the work. He will have about forty men in all at the work coming winter, as the big bridge contract will in no way interfere with the usual run of work done at the Foundry and Machine Shop.

The Adams House Opened. The new Adams House, a full description of which was given in the ADVANCE of 21st September, was opened to the public on Monday evening last. St. Michael's Band occupied the balcony over the verandah and performed an excellent programme of music. Hundreds, representing all classes in the community visited and inspected the hotel, tested the electric bell system, admired the large and handsome dining room, ladies' parlor and bed office, and the house generally. The proprietor, Mr. Thomas Flanagan, was on hand and assisted by his staff and several friends in showing visitors over the establishment, which was pronounced a credit to Chatham as well as to Mr. Flanagan, the contracting builder, Mr. Jas. Troy, of Newcastle, and the architect, Mr. R. C. John Dunn, of St. John. The furniture of the hotel is from the well known house of Geo. H. Labbe & Co., Montreal, which was represented here by Mr. J. A. Livingston, Mr. Flanagan's enterprise deserves a large patronage from the travelling public.

Municipal Elections. ALNWICK. Notwithstanding the informality in the filing of Mr. Wm. Anderson's nomination in Alnwick, the parish clerk decided to allow a contest. We have not the figures but hear that the two old councillors Messrs. Anderson and Savoy were elected.

A resident of Alnwick gave us the returns of the Tabusintac and Neguac polls, as follows: Tabusintac. Neguac. Wm. Anderson, 110 127. Romain Savoy, 29 115. W. L. Allan, 33 109.

Portage River and Oak Point returns are yet to come. These—Portage River, especially—will improve Messrs. Savoy and Allan's vote, but will not change the general result.

GLENGEL. The returns from Glengel are as follows: Jas. Cameron 98. Wm. V. Ullock 97. Thos. Fitzpatrick 85. Robert McNaughton 70. John McLean 71.

HAIRDWICK. The candidates were Messrs. Phineas Williston, Jeremiah Sullivan and Daniel Lewis. Messrs. Williston and Lewis were elected.

NELESON. Nelson's candidates were Messrs. T. W. Flett, Eph. Hayes and A. A. M. Saunders. Messrs. Flett and Saunders were elected.

DERBY. The candidates were Messrs. John Betts, Everett Parker and Wm. Cliff. Messrs. Betts and Parker were elected.

Death of Mr. Geo. W. Fowle. Last Saturday morning about seven o'clock John Allen who was working at the single machine in Mr. Geo. Fowle's mill, Little Branch, 16 miles from Chatham, was surprised to see it stop. Another mill hand named McDonald suggested that the belt had slipped off below and told Allan to go down and put it on. When Allan went down for this purpose he saw Mr. Fowle, proprietor of the mill lying upon the floor moaning and in contact with the gear which drove the single machine. He gave the alarm and McDonald turned the water off and ran down, soon followed by others, including Messrs. Geo. Fowle, Jr. nephew and son-in-law of deceased, and Harry Nelson. It was seen that Mr. Fowle was terribly injured. He had attempted to oil the journals and the shaft of a roofing jack

most brilliant intellect, ever devoted to the service of state since parliamentary government began. And yet according to the same authority his greatest distinction was that he was a "great christian statesman." He was indeed "a man in Christ."

Christianity furnishes us with the power to attain manhood. All power has been given unto Christ and He is with us always. The preacher closed with an appeal to the young men of Chatham to give their young manhood to Christ and His Church.

Presbytery of Miramichi. This Presbytery met in St. James Hall, Newcastle, on Tuesday 25th ult. There were present—Rev. W. C. Calder Moderator, Rev. W. Aitken, Rev. D. Henderson, Rev. A. F. Carr, Rev. T. G. Johnston, Rev. J. K. McCutcheon, Rev. J. M. Maclean, Rev. Thos. Corbett, Rev. D. McIntosh and Rev. G. Fisher, clerk.

Rev. Dr. McMillan, Rev. J. A. McGlashan and Rev. Wm. Hamilton were asked to sit and correspond.

The question of separating the Millerton section of the congregation of Blackville from the upper section was the first item of business that came before the court, and after a long discussion, it was agreed to.

On motion of Rev. Mr. Henderson seconded by Rev. Mr. Maclean to grant the prayer of the petition, organize Millerton, Derby and Chatham into an ordained missionary charge and apply to the Home Mission Board for a grant of \$200 for one year. The hope was expressed that in a very short time the charge will become self-supporting. It contains over 70 families and Blackville over 80 families. The latter is self-supporting.

Rev. Dr. Bruce asked for and obtained six months leave on account of ill health. The Presbytery is to give forthrightly supply to Tabusintac and Burnt Church.

The representative present from Loggieville made a statement to Presbytery regarding the prospects there, whereupon the Presbytery agreed to visit the congregation of Loggieville three weeks from Tuesday 19th.

Rev. Mr. Carr was nominated for Moderator of Synod.

Rev. Mr. Henderson made a statement in regard to Home Mission matters and it was arranged that Mr. Cunningham, student missionary at Carleton, be asked to labor within the bounds of Presbytery for the winter, giving each one of the stations a month's supply.

Rev. Mr. Aitken made a statement regarding the Stephen Trust Fund. Consideration of the matter was left over till the next meeting of Presbytery.

Rev. D. McIntosh was appointed to disperse communion at Carleton and New Bandon in October and Rev. Mr. Robb to do the same at Hardwicke.

Other business of a routine nature was attended to, and the Presbytery adjourned to meet at Truro, N. S., next week at call of Moderator of Synod.

The New Woman. Now enters upon pursuits formerly monopolized by men. But the feminine nerves are still hers and she suffers from toothache. To her we recommend Nerviline—nerve-pain cure—cures toothache in a moment. Nerviline, the most marvellous pain remedy known to science. Nerviline may be used efficaciously for all nerve pain.

A Useful Bridge Burned. Our Daoktown correspondent, whose letter came too late for last week's ADVANCE, writes as follows:—

A case of criminal carelessness has resulted in the burning of the Bartholomew River bridge north of Daoktown. Some persons built a fire close to the south end of it to "boil their kettle." After completing their lunch they left the fire to work its way in the moss to the bridge which was completely destroyed. Evidences of how it was done remained to be seen, in the collection of fuel, the customary inclined notched stick to hold the kettle, and the kettle itself was seen hanging up on a tree, when the parties reporting passed by, but on their return it had disappeared.

A reward for the discovery of the parties who made the fire would be a check on our criminal work. The bridge was a great convenience—in fact a necessity—as it was on the main portage road from Daoktown leading to all the camps on Dangarvon and Renous rivers and their tributaries. In the fall and spring of the year Bartholomew River was a raging torrent and anchor was running, the lumbermen made use of the one point for crossing and felt that the government had not been unkindful of them. It was built about 19 years ago and was good for some years yet. When William M. Kelly was Chief Commissioner of the Board of Works he sent a cheque for \$50 to Mr. R. Aitridge to put a bridge over Bartholomew River at the most suitable point for the accommodation of the lumbermen. Mr. Aitridge did not send the cheque back saying it would not build a bridge, but knowing the necessity of the structure he went on and sold, furnishing the necessary balance out of his own means, trusting that all would come out right. It was completed at a cost of \$150 and served its purpose well. While it stood it was a reminder of Mr. Kelly's usefulness. It is hoped that Mr. Kelly's successor, the Hon. L. Tweener, will replace it. It was built of cedar and cement, built in at each bank with wings loaded with stone to shear the ice and logs. Four cedar stringers 45 feet long with straining beams carried the span which was covered with what came to hand for flooring, which, when worn out was again renewed by the lumbermen as needed. The parties reporting the burning found the fire working its way to the woods and put it out and raving that night made it safe so that all danger of a widespread fire was averted.

Chatham Town Council. The Town Council held its regular monthly session on Monday evening last, Mayor Winslow presiding.

On the minutes being read, Mr. Snowball took occasion to make explanations on the subject of the stone-crusher ordered to be purchased from Mr. Geo. Hildebrand at the last regular meeting of council, in view of the fact that exception had been taken to the purchase by some persons in the council, as well as outside. He said that three different crushers were offered to the Town and the offers and specifications of the machines were duly and carefully considered by the Public Works Committee. The Champion crusher was the best offered, and had been approved for that reason. He had in his hand a memorandum of all the facts connected with the matter, and if anyone on the board thought the fullest information was not his possession he would be pleased to furnish it. The crusher unanimously selected by the Public Works Committee was, briefly stated, heavier and of better material than the others. A thing which he recommended it, too, was that it was the same make of machine recently bought by the local government. The crusher which the committee was criticised for not buying had a fourteen feet elevator, while the Champion had one of 24 feet, which was a great advantage in practical working. Mr. Hildebrand was willing to let the machine

committee was referred to committee of the whole. Ald. Flanagan submitted report of the Fire Committee, which set forth the facts in reference to the Ronald Street Fire engine house and firemen having been sent from Chatham to Loggieville in response to an urgent call during the recent fire at that place. The expense incurred was \$55 and it was recommended that a claim for at least that amount be made upon the fire companies interested, through Mr. George J. Vaughan. The report also recommended the appointment of Mr. Alex. Perry as a fireman in place of Mr. Geo. Marquis, resigned.

The Mayor referred to the good work done by the Chatham firemen and engine and said the insurance people ought to recognize the service by paying the bills.

Ald. Watt reported as follows from the Police and Light Committee:—

Your committee are pleased to report that on police force are giving good service and general satisfaction. The following amounts have been received in committee and we respectfully recommend their payment, viz:—

Calvin Craig for prisoners board, \$22.00
J. E. Sturges, 3.50
Chatham Electric Light Co., 245.05
J. R. Goggin, 7.70

Electric Light Co. acc. Lighting Town Hall, \$78.25
10.72

GEORGE WATT, Chairman Police Committee.

Ald. Hocken asked if there were any allowances made for lamps out?

Ald. Watt: No. The police have not reported any.

Ald. Hocken said the street light on Water Street near St. Andrew's Manse had been out for three nights.

The reporter of placing electric lamps over the reporters' table was referred to the Police and Light Committee.

The report was adopted.

Ald. Loggie, from the Finance Committee, reported several salary bills, which were ordered to be paid.

Ald. Loggie said the Police Magistrates' report had just come into his hands. It showed \$240.45 received by the Treasurer from that official for fines, etc. during the last quarter.

Ald. Hocken said the report should have been submitted to the Police and not to the Finance Committee.

The Mayor held that it should go to the Finance Committee.

Ald. Watt was of the same opinion.

The report was referred to the Finance Committee.

On motion of Ald. Watt, seconded by Ald. Maher, Dr. A. E. Loggie was appointed a member of the Board of Health, in place of Mr. Wm. Wyse who had refused to act.

Adjourned.

WANTED—SEVERAL BRIGHT AND HONEST persons to represent us as Managers in this and other by counties. Salary \$300 a year and expenses. Straight, bona-fide, no more, no less salary. Position permanent. Our references, any bank in any town. It is mainly office work conducted at home. Reference. Enclose self-addressed stamped envelope. THE DOMINION COMPANY, Dept. 3, Chicago.—1,4,00.

Sells in every house, and anybody can sell it. Capital or experience unnecessary. Freight paid. Books on time. Send for outfit, giving choice of territory, and we will show you how to make money. BRADLEY-GARRETTSON CO., LIMITED, BRANTFORD.

The Dreyfus Case. OTTAWA, Sept. 24.—While there has been some talk of boycotting the Paris exposition in the maritime provinces on account of the Dreyfus affair it will be of interest to know what Hon. David Mills says on the subject. "What do you think of the proposition to boycott the French exposition?" was asked. "I think it would be an act of great folly. I do not agree with the decision in the Dreyfus case. I think a great injustice has been done him, and it is unfortunate that public opinion in France should sympathise with the course the court has taken. I cannot help thinking from what has been published that Dreyfus is innocent, but so far as I know every other country in Christendom has at times made similar mistakes, and public opinion, as in this case in France, was wrong. Take the trial and execution of Lord Stafford Lashborne and others upon the testimony of Titus Oates, Beloe and Dangerfield. Nothing in the history of any country was more disastrous than the proceedings in the English courts of justice connected with the trial, conviction and execution of those men, who were doubtless innocent of the crime with which they were charged. Public opinion was against them, and even when Oates was proved to be a perjurer parliament expressed its sympathy on his behalf."

Mr. Mills went on to cite the case of Admiral Byng in England as another like that of Dreyfus, and said the United States was in no position to criticise France when one remembered the execution of Salem witches and what is going on every day in the South.

A Good Offer. The Farm Journal advertised (together with the Biggie Books) in another column is offered free for five years to all new subscribers to the ADVANCE who send their subscriptions within one month. The Biggie Books may also be obtained through this office at the advertised price.

Shipping News. PORT OF CHATHAM. Entered from Sea. Sept. 28—S. S. Glen Head, 955, Kennedy, Belfast, 29—Bk. Hallen, 836, Srensen, Liverpool, J. B. Snowball gen. cargo. Oct. 2—S. S. Snowball, ball.

with a fourteen feet elevator for less than the price quoted for the one ordered, but the committee wanted the better and more effective crusher.

Ald. Loggie said it would have been as well, perhaps, if the full particulars had been embodied in the committee's report. He did not know at the time it was read anything about the other offers or the prices named in the tenders.

The Mayor said that persons whose tenders were not accepted did not, as a rule, care to have their prices publicly known. When the town bonds were sold only the price offered by the successful tenderer was given and the committee followed the same rule in this matter.

Ald. Loggie said when Mr. Robinson had spoken to him about the crusher tenders he had said to him that he didn't know that there were others besides Mr. Hildebrand's and he was told that he should have known before he voted. That was why he had just said the report of the committee should have embodied the other tenders. He had figured out the prices and made Mr. Robinson's \$15 less than that quoted by Mr. Hildebrand—not \$50 less as Mr. Robinson had stated.

Ald. Snowball again pointed out the differences in the machines and said that price alone was not to be considered in such matters.

Ald. Loggie said that when reports were submitted to council embodying recommendations of expenditure there ought to be specific motions made authorizing each money item, instead of a mere motion to adopt a report being taken as covering all its recommendations.

The clerk read a communication from Major J. J. Stuart, managing director of the Maritime Sulphite Fibre Co., saying a communication from the council was received and referred to the company's solicitor for his advice.

The communication was, on motion of Ald. Maher, ordered to be filed.

The Mayor said he thought it should have been referred to the Public Works Committee.

Ald. Watt said it could be taken from the file if wanted.

Ald. Snowball agreed with the Mayor.

Ald. Watt, Hocken, the Mayor and others further discussed the matter. The chief argument was that if the communication was in the hands of the Public Works Committee, they could deal with the Company's solicitor in reference to it if necessary, without waiting for a meeting of the council.

Ald. Maher's motion was at last reconsidered and rescinded, and the communication referred to the Public Works Committee.

The Mayor said he had communicated with the Postmaster General in reference to placing post office boxes at different points in the town and he had referred the matter to the Postmaster here, who had asked him where they proposed boxes should be placed. He and alderman Snowball had suggested what they considered suitable places in the west end, the middle of the town and on the Hill for six boxes.

In reply to the question as to how often the proposed boxes would be opened and the mail matter taken from them to the post office, the Mayor said he supposed it would be twice a day.

Ald. Watt said that more than was now done in the case of the box at the post office. If letters were dropped in it in the morning they were not taken out until night.

The Mayor reported verbally to council on the subject of the proposed water system saying, in effect, that Messrs. Boyd & Shaw, representing the Bacon Air Lift system, of New York, and Mr. Kent of Sussex—a professional well borer—had been in Chatham with the object of ascertaining what the prospects were for obtaining a supply by means of artesian wells. They had agreed that there would be no difficulty in securing an abundant supply by boring wells, and Messrs. Boyd and Shaw, before they went away, said that they would have their company make to the town one offer to put in one artesian system which would give 600,000 gallons a day and another giving 1,000,000 gallons. The company would guarantee the supply—no water, no pay. They said it would be a direct system with no stand pipe. The council would, of course, fully consider any offer made by this company and be assured of its ability to carry out its undertakings.

Ald. Hocken suggested that it would be well to write to different places where the Bacon system was used, in order to ascertain what their experience with it was.

The Mayor agreed with this idea and on motion of Ald. Snowball the clerk was directed to communicate with the authorities of towns in which the Bacon Air Lift water system had been installed.

Ald. Snowball reported as follows from the Public Works Committee:—

Our report for the past month will be brief. The work done on the streets, etc., was small as the bill presented this evening will show. We purchased from W. V. T. Harris, at \$50 per long ton, the hard coal for the town building, his tender being the lowest. We, however, think there should have been a contract for the coal on the subject. The Mayor reported to our committee having paid Hon. L. Tweener, before another season, as the heating is a heavy item with the present heater.

The Worshipful Mayor reported to our committee having paid Hon. L. Tweener, before another season, as the heating is a heavy item with the present heater.

Received from Warren C. Winslow, Esquire, Mayor of the Town of Chatham, the sum of two hundred dollars on account of amount of purchase money upon sale of the Hon. L. Tweener, situated on the corner of Duke and Church streets, in said town, by Geo. E. Henderson, to the said Town of Chatham, for the sum of two thousand dollars, and on behalf of the said Town of Chatham, to the said Mayor, with a satisfactory abstract of title and title return to him within two years a good and sufficient warranty deed in fee simple of the said premises.

CHATHAM, Sept. 26, '99. L. J. TREWEN, Atty. for Geo. E. H.

We would suggest that the Council ask Mr. E. W. Windsor, the trustee, to put the lot for sale at once the portion not required by the town and for the tearing down of the old buildings, except the one on the corner of George and Duke streets, which may be moved back; the trustee to act under the direction of the Public Works Committee.

We had since last meeting Messrs. Boyd and Shaw, representing the Bacon Air Lift Company, to see us and look over our town, with a view to supplying water from artesian wells. They suggested that if the flow they saw that sufficient water could be had from this source and promised to forward a proposition on their return home. So far, this has not reached Mr. Kent's attention. The well borer was also in town and appeared satisfied that sufficient water might be procured from artesian wells.

The report was adopted.

Ald. Maher reported from the By-Law Committee, submitting an amended code of By-Laws for the town as prepared by W. J. Loggie, Esq., embracing one which ordained that truckmen should occupy stands as follows:—

On Water Street—north side—between the Miller Foundry west line and the Johnston property west line; also on Haymarket Square.

Ald. Snowball said there should be a small license fee established for truckmen, for the protection of their business which was interfered with at this time of the year by those who dropped into it from their other regular employments at other times of the year. After some discussion on the desirability of the new code being thoroughly examined and considered, the report of the By-Law

CREAGHAN'S THE NEW AUTUMN DRESS GOODS. There's always something fascinating in seeing the new in anything, and particularly so when you are the first to see it. New Stylish things in Dress Fabrics, in large assortments, are already here for your inspection, and here first, of course.
