A Good Appointment.

Mr. John Robinson of Newcastle has been appointed a game, fishery and fire warden, under the Surveyor-General of the Province, and is to give his whole time to the work entrusted to him. He was one of the most efficient fishery officers the county ever had, but his removal was effected for political reasons, although even these did not really exist. However, he is now looking after the violaters of the game law and has already complaints to submit before the police magistrate against several of them in this county. It is to be hoped that all good citizens will realise the advantage to them and the interests of the province in giving their sympathy and aid to Mr. Robinson in detecting those who kill game out of season -especially moose, carribou and deer-and bringing them to punishment.

Salmon Angling Leases.

The Crown Lands Department of the government of the Province of New Brunswick, announces the leasing by public sale of a number of Salmon-fishing privileges." The sale is to take place at the Crown Land Office, Fredericton, on Friday, 23rd March, instant. The term for which the leases will run will be two years from 1st March, and they will vest in the purchasers the exclusive right of fishing in the waters leased. The sale will embrace seven rivers, or parts of rivers, some of them amongst the best in the province. An upset price is placed by the government each lease. The Fishery Commissioner for the Province gives the following particulars for the information of enquirers. The Upsalquitch from the Forks to the

head, which is placed at an upset of \$50, embraces all the waters of all branches above the Forks, exclusive of the Lakes at heads of branches; there are about twenty miles of salmon-fishing and fully thirty of troutfishing, besides, not reckoning the smaller tributaries.

The main Restigouche, from Quatawamkedgwick to Victoria County line, is placed at an upset of \$50. This will give the lessee about twelve miles of the main river, and a part of the Gounimitz, with the famous trout-fishing of the latter and lakes. The Quatawamkedgwick and its branches, which are placed at an upset of \$150, is a very fine salmon river. It has seventy miles good fishing water, its good salmon pools

extending about thirty-five miles. The Nepisguit is-as every angler who has fished in New Brunswick knows-one of the best salmon rivers of Canada. The part of it embraced in this sale, at an upset of \$250 comprises about one half of its salmon waters—the stretch from Eleven Mile Tree, upwards to the Great Falls-in which some of its most famous pools, such cent. bonds, which increases the debt by Lower Gordon Pool, for instance is about

> The permanent camp included in this Nepisguit lease consists of three shingle sections, which are dining room and ladies The guides' quarters are in a similar building 35x15. The kitchen is 15x15 ft. The camp group is very conveniently arranged as to relative positions.

The Sevogle waters, which are put at an upset of \$150 have about 65 miles of fishing-the salmon-fishing of the main Sevogle alone being twenty miles. The famous Clearwater is one of the branches included in the Sevogle lease. There is a permanent government camp at the Square Forks near the big pool, in which salmon can be counted by the score from the rocks above.

The Renous, the upset of which is \$50, has always been reckoned amongst the good salmon rivers of New Brunswick. Its fishing stretches are over fifty miles in length, while its branches and lake system-all of which are embraced in the lease-offer un surpassed trout-fishing.

Green River, offered at an upset of \$50, is one of the great trout streams of the upper St. John. It has over 40 miles of good trout-fishing besides a system of lakes of COMMISSION MERCHANTS. great beauty, which afford fine angling. The sale of 23rd March at Fredericton.

泰黎 ORIGINATED BY AN OLD FAMILY PHYSICIAN. 2013 There is not a medicine in use which possesses the confidence of the public to a greater extent than Johnson's Anodyne Liniment. For almost a century it has stood upon its intrinsic merit, while generations after generations have used it. The best evidence of its virtue is the fact that in the state where it originated the sale is steadily increasing. You can safely trust what time has indorsed. I. S. JOHNSON, Esq.—Fifty years ago this month, your father, Dr. Johnson, left me some Johnson's Anodyne Liniment. I have sold it ever since. I can most truly say that it has maintained its high standard and popularity from that time to the present.
