HOW YOUR BRAIN GETS TIRED.

Small Gobiets Which Are Drained by the Demands of Mind and Body. Ine cells of the brain, when quite fresh and vigorous, may be likened to small balloons inflated ready for an

ascent. They are round and full, and when seen under the microscope, they cells of the tired brain, on the other hand, are seen to be shrunken, as an air-ball or toy balloon from which most of the air or gas has escaped.

full of nerve fluid which the absorbents of the body and brain have stored up there like bees fill their comb. So soon as work begins, this vital force is sapped to meet the demands upon the brain, and the process that goes on during the whole time it is working may be described in the following way:

Imagine that these cells are small What should you think?" goblets filled with liquid, and that they have a tiny stem, through which runs a tube or opening; the liquid in the goblet is drained by the demands of mind and body, and slowly trickles through the opening, drop by drop, until either the work ceases or the goblet is exhausted.

This latter condition is not often reached, for the simple reason that the owner of the brain is very much tigue, and if you go on drawing the gree, and Nature will make you pay it." for it in some way or other.

But all the cells are not involved you do that," she threatened. books and go golfing or eyeling, and feel that he is really resting: other ing repose.

But it follows that the part of the brain which is called into activity for | she asked bodily exercise is now getting tired. while the other part of the brain is still at work to some extent, and so the whole of our brain cells become fatigued, and total rest in the shape of sleep is absolutely essential.

#### A Great Reputation

HAS BEEN ACHIEVED BY DR. WIL-LIAMS' PINK PILLS.

The reputation achieved by Williams' Pink Pills not only Canada, but throughout the world. rests upon a very solid basis, which may be summed up in two wordssterling merit. The Enterprise has had occasion to investigate a number of cures effected by this medicine, and knows that in some instances at least these cures were wrought after other medicines had failed even give relief. Recently another cure came under our notice that cannot fail to increase the popularity Dr. Williams' Pink Pills in the localcan vouch for the facts, it may well bring hope to sufferers elsewhere.

Mr. Walter H. Johnston is one northern section of Queen's county. vien!" He resides in the town of Caledonia, where he keeps a hotel, and also runs a stage that carries passengers and mail between that town and Liverpool, a distance of some thirty miles. Mr. Johnson was in Bridgewater recently, on which occasion he gave a reporter of this paper the following facts: About three years ago he was taken very ill. He had the best of medical attendance, but made very little progress towards recovery, and the doctor told him there was very little hope that he would be able to return to this former work. The trouble appeared to time." have located itself in his kidneys, and for eight weeks or more he was confined to bed. He suffered greatly said. from constant pains in the back, his appetite became impaired, and his ed to try Dr. Williams' Pink Pills and got a half dozen boxes. In the course of a couple of weeks he noticed an improvement in his condition and he continued the use of the pills until oure was complete, but also felt that in all respects his health was better ter for it? than it had been for years. Since that time he has been continually driving his coach between Caledonia and Liverpool, and has not had the slightest return of the trouble, notwithstanding that he has to face at times very inclement weather, that might well bring on a return of the trouble had not his system been so strongly fortified against it through

If the blood is pure and wholesome disease cannot exist. The reason why Dr. Williams' Pink Pills cure so many forms of disease is that they act directly upon the blood and nerves, thus reaching the root of the trouble. Other medicines act only upon the symptoms of the trouble. and that is the reason the trouble always returns when you cease these medicines. Dr. Williams' Pink Pills make permanent cures in kidney troubles, rheumatism, erysipelas, anaemia and kindred diseases. But be sure you get the genuine which bear the full name Dr. Williams' Pink Pills for Pale People on the wrapper around every box.

the use of Dr. Williams' Pink Pills.

If you earn a thousand yearly, You think two thousand yearly

## Constipated Bowels

Give Rise to Byspepsia and Other Bodily Derangements - Dr. Chase's Kidney-Liver Pills are Unique as the Only Treatment Which Permanently Cures Constination.

Constipation, or inactivity of the bowels, is probably the cause of more distress and suffering than any other organic derangement. Once the bowels are constipated the kidneys become clogged, the liver torpid and the stomach and whole digestive system completely interfered with.

The head aches, there is dizzinesa. weakness and dimness of vision, pains in the back, sides and limbs, the accumulation of wind and gas on the stomach, pains and fulness in the region of the stomach and depression and despondency of spirits. Constipation can never be cured by the use of salts and similar weaken-

ing and debilitating purgatives. Dr. Chase's Kidney-Liver Pills not only cause the natural action of the bowels

Mrs. W. H. Fisher, Preston, Ont., ronto.

states: "I can recommend Dr. Chase's Kidney-Liver Pills for Constipation. I was troubled for about nine years, and have spent hundreds of dollars with doctors and for remedies I heard of. but they failed to even give relief. Hearing of Dr. Chase's Kidney-Liver Pills I procured a box and they have cured me of this longstanding complaint. I don't have to use them any more at all, which goes to show that the cure is complete and permanent." Mr. Henry Moore, Pickering, Ont., states: "In the fall of 1895 I used three or four boxes of Dr. Chase's Kidney- B.C., the practice of medicine was in Liver Pills for Constipation and Stomach Troubles and never found anv-

thing to compare with them. I had many years and taken many kinds of medicine, but it remained for Dr. but so strengthen and invigorate them | Chase's Kidney-Liver Pills to oure me, I am now well and strong but continue to take one or two pills a week to liver and kidneys, and so revitalize the blood and to keep the bowels per-

THE DISCOVERY OF A BOOK 7000 YEARS OLD.

Ebers Papyrus, an Egyptian Book De voted to Diseases of Man and Their

Medica Dispi yed. has been known to the world as the tion, however, has been wrested from the ancient Greek by the discovery and translation of an early Egyptian papyrus treating of the subject of medicine, with date so remote as almost to place Hippocrates within the ranks of modern physicians.

English medical literature is about to be enriched by the translation of this payrus, generally admitted by Egyptologists to be the oldest book devoted to the science of medicine extant. The work is known to scientists as the Payrus Ebers, and is supposed to have been written during the reign of Bicheres, a King of the fourth dynasty, 4688 to 4665 B.C. Thus the original document is nearly 7000 years old and it contains the written genesis of the art of healing. The document is carefully preserv-

of Leipsic, and the English translation of Papyrus Ebers, a volume of several hundred pages will soon be ready for the press.

voted almost entirely to remedies for household ills. Its contents clearly indicate that the ancient Egyptian housewife was beset with cares similar to those of the modern housekeeper. It reveals likewise the fact that woman early made use of cosmetics.

of the hair is ascribed to the mother of King Teta of the first dynasty. To Egyptologists the story of the the winter of 1872-73 Georg Ebers, of Leipsic, and his friend, Ludwig Stern, spent several months at Thebes in quest of rare documents. For a time the two scientists made their dwelling place in one of the tombs of Abdel-Gurnah, and associated dily with the Arabs of Luxor. A wealthy citizen of Luxor showed to Ebers the antiquities which he, little by little, had side of the Nile, and at length rethe possessor of a payrus obtained

ery that it was a document of great others to the teeth, stomach and invalue and in an unusual condition of preservation. He longed to possess the document himself, but had not means to meet the demands of the owner. who was not altogether aware of its full value. However, receiving the financial assistance of Max Gunther. a wealthy Englishman, Ebers purchased the treasured papyrus and conveyed it to his home in Leipsic, there to study its contents at leisure. It was finally turned over to the library of the University of Leipsic for safe keeping. In order to better preserve the valuable antiquity, it was cut into

from the same source.

twenty-nine pieces and each piece placed under a glass. According to the statement of the contained in the Papyrus Ebers. Egyptian possessor, Papyrus Ebers was found in a tomb in the so-called Il Assassit, a part of the Necropolis of Thebes, reposing between the legs of a mummy. Since the finder of the papyrus was dead, it was impossible to refer to the exact tomb which formerly contained the treasure

When Ebers came into possession of the papyrus, it consisted of a single, tightly rolled piece of the finest vellow-brown papyrus. The width of the document was thirty centimeters, and the length of the written part 20.23 sighed wearily. meters. No other papyrus known to Egyptologists is better preserved, and not a single letter of the document is missing.

The text of this perfect ancient record is divided into pages, each of It is easier to make a black wall which is numbered. The page numwall bers are placed over the first line in surface will be smoother if you pre- the middle of each page and run from pare it in the right way. Fill holes 1 to 110. Singularly, the numbers 28 and 29 are missing, although the text continues uninterruptedly. The omission is explained on the ground that the Egyptians considered 110 to be a perfect number, and by this means the writer was enabled to complete his book with the required number of pages.

> Each page of the papyrus contains ither twenty-one or twenty-two lines. With the exception of pages 3 to 21, which are considerably smaller, the pages are twenty-two centimeters in width.' The script in which the papyrus is written, is extraordinarily regular, and is partly in black and partly in red ink. This form of writing is known as the hieratic, and is one of the three forms used by the ancient Egyptians. The others are the epistolographic and the hieroglyphic. The exact date of the writing of the book of which Papyrus Ebers is a copy is not known, but it is believed that it dates back to 4666 B. C. Th document itself refers to the eigh teenth dynasty in the sixteenth century B. C., but when the papyrus was unrolled, a calendar was discovered containing the following inscription: "In the ninth year of the King of Upper and Lower Egypt. . . . of the

everlasting." name of a king whose identity is still South Africa, and each seems equally in doubt. Dumchen, a recognized au- efficacious in cutting short an attack thority on Egyptology, believes that the author of the calendar did not insert the name of the reigning King, but that of Bicheres, of the fourth dynasty, who reigned 1460 years earlier. Dr. von Klein is of the opinion that the calendar calls attention to the date of transcription and that the original was written much earlier. Egyptologists agree that between the twenty-eighth and sixteenth centuries method of treatment. the hands of witchcraft. During this period the law was so stringent that suffered from these complaints for a person advancing a theory for the treatment of disease other than that established by the priests was put to death.' Consequently the work, which bears the marks of the period of Among the Chilians a belief prevails drew herself up to her full height.

known to modern medical science are carefully classified and their symptoms minutely described by Papyrus Cure - Astonding Knowledge of Materia | Ebers. The prescriptions recommended are in many cases exactly the For 2300 years Hippocrates of Kos same as those given at the present time. The work mentions 700 different substances, the greater part of which are taken from the vegetable kingdom. Some metals and a considerable number of animal extractions were also used. Of the salts only natron, saltpeter, common salt and sea salt are mentioned. The use of such ingredients as lizard's blood and pig's teeth are in some cases recommended. The discovery of Papyrus Ebers demonstrated that the Egyptians as early as 3000 or 4000 years before Christ possessed an astonishing knowledge of a great variety of remedies, and that their learned men could make observation of disease, combine complicated recipes and use them with judgment. According to this early writer there were three different classes of medical practitioners in Egypt at the date of the manuscript,-namely: The real physician, the surgeon and the coned in the library of the University jurers. The relative standing of the several classes is not known.

The origin of medicine is certainly to be looked for in the Valley of the Niles and the Papyrus Ebers opens Page 98 of the Papyrus Ebers is de- a wide era for the students of the history of medicine and pharmacology. The Egyptian physicians were well advanced in ophthalmology. The collection of Hippocrates edited 4000 years later, did not contain more eve diseases, although more clearly and more agreeably described. The number of The remedy given for the falling out diseases mentioned in the Papyrus Ebers, as well as the profusion of medicines prescribed, is a source of wonfinding of Papyrus Ebers possesses all Egyptian physicians must have been the characteristics of a romance.
