DEATH OF AN M. P. P. :- Mr. Peter Legere, M. P. P. for Kent county, died at Grand Digne on Monday last from inflammation of the lungs. He was a promising public man and his early death is a source of much regret amongst his late colleagues in the Legislature.

Decision in the Express Company Scott Act Case.

A case under the Scott Act, which involved a new point was decided by the thus states the matter .-

Mittin-The defendants in this case are employes of the Dominion Express Com-Cahill, at Sackville a few months ago, of the Canada Temperance Act. It appears they took delivery of a quantity of liquor from a wholesale dealer in the town of Amherst, N. S., in their capacity as express agents, and handed it over to a party in Port Elgin, Westmorland county, collecting the money for the goods and returning it to the dealer. For doing this they were held by the magistrate to guilty of an offence under the Canada Temperance Act and were convicted and fined accordingly. The case was argued on appeal before the Supreme Court last term, and this morning Judge Barker delivered judgment, quashing the convictions. He held that the defendants, in handling the liquor, only acted as employes of the express company, and were in no way hable for the penalties imposed by the magistrate. The sale of liquor was made in Amherst, and the defendants were not a party to the sale. The Chief Justice and Justice McLeod concurred in the judgment and Judge Landry

An Important Speech by Hon. A. G. Blair.

Hon. A. G. Blair was entertained by his supporters of the North End, (Portland) St. John, at a banquet, on Thurs day evening last. His speech on the occasion was, of course, the great feature of the evening, and it was the most important delivered by any Dominion Minister since the election of November 7th. Our space does not admit of our giving the whole of it. but we make room for the following, which cannot but interest all friends of good government, and be most satisfactory to Mr. Blair's many friends who read the ADVANCE.

Referring to the successful election con-

test in St. John Mr. Blair said :have fought a worthy fight, and one of our conduct in the struggle.

"Can we say as much in truth with regard to our opponents? I wish we could. It would be healthier for us in our election lights if we could. When I look I may properly refer. It is, that even across this continent and see how the closing struggles in this great election battle are being fought, and read in the public press the means which are being resorted to in order to win a victory, I am led to ask myself the question whether there does not reside in the great Liberal party a monopoly of the tolerance and spirit of patriotism which is the highest ideal of loyalty. The Sun did this in the face of the terances on the public platform by no less | fact that there was no assurance the city a person than Sir Charles Hibbert Tupper and by Mr. Clarke Wallace, both of whom have filled high positions in the government of this country and who know that we have different races and different religious beliefs among our people, and you will see how desperately they are endeavoring to set one class against another, and one creed against another. From the bottom of my heart I wish that this were not the case, because every lover of Canada must feel in his heart that we should have unity among our people, that we should dismiss from our thought any question as to whether a man is a Methodist, a Baptist, an Episcopalian or a Catholic, whether he is French or English. ought to regard each other as Canadians, and realize at the same time that only by the heartiest co-operation can we hope to taken before the election. I would imagine ensure to our dominion that prosperity and progress which justly belongs to us.

"The attention of all Cana la was concentrated upon the contest in this city. Why? Not simply because a minister of the crown was on one side and an exminister on the other. That would undoubtedly have given it a conspicuous place in the public mind. It was due to another cause. It was due to the fact that there was a question of special interwhich piece of land was conveyed to the said James | est and importance, which had been brought into the campaign for the pur-

circumstances. It was not an ordinarypolitical movement, nor was the issue connected with the general policy of the government. It was not a question administration which had been under debate. It was an entirely new question which had not previously been treated by political parties. It was a question be tween the government as represented by the department of railways on the one hand, and the great corporation of the Canadian Pacific railway on the other. It was that which chiefly accentuated the contest, and I am bound to say that in the result you fully realized my expectations. You worked like Trojans, you stood your ground like men. (Cheers.)

You had the power of that great corporation We have a'l seen the Gleaner article arrayed against the candidate of the government. You had the most eloquent and in some respects the most able exminister of the opposition as the champion of the other cause. He was here to present every phase of the question that was calculated to excite your anxiety and alarm. But he failed. (Cheers.) Why Because the intelligence of the people of this constituency, and their solid manhood stood them in good stead in the crisis. I admit their power | would not say; but it was at least true that in a general way; but I think it has been there came a time when the people desired a that the great railway corporations are not as influential as they imagined themselves to be. Now. I am no enemy of railway corporations. I think I know my own mind, and I know how I feel toward them. For many things they are blamed unjustly. Many things they are expected to do they cannot reasonably do. But they are corporations all the same, and it is needful that they should be kept within proper check, and I want to express my confident opinion to-night that from this time forward they are liable to be kept in proper check. (Cheers.) I fancy the result of the election in St. John has been an object lesson to the people of Canada, and when the wires flashed the news to the great centers of population throughout the dominion there was feeling that it had at last been fully made clear that no corporation was greater than the power which had created it. (Cheers.)

"There are a few lessons it appears to

me that might with considerable advantage be abstracted fro . the events of the last campaign. I think this campaign has demonstrated that the fory party never made a greater mistake than when it undertook the advocacy of a particular side of a question simply because the Canadian Pacific demanded that they should take up that side of the question. The Tory party came into this constituency with the avowed declaration that the demand of the Canadian Pacific must be acceded to. Did Mr. Foster stop to judge I congratulate you on that success, and the question in any of its bearings and in doing so I think I may claim that you find out what were the real meri's of the have fought a good and square fight. During the whole of that campaign the government was denounced. and I was denounced, while my opponents were defended, on the ground that I ought to surrender the interests of the Intercolonial to the demands of the Canadian would avoid the calamitous consequences that it was said would follow my action. You know very well that through its chief officer the Canadian Pacific declined to commit itself to the continuance of their winter port business even if their demands were acceded to. What followed? The elections came on, and the result was not agreeable to the gentleman on the other side. Mr. Foster was turned down. A few days elapsed, and then we were told the winter port business was to be continued as before. What then became of the attitude of the Conservative press? A few weeks before they were insisting that at any sacrifice we should yield to the demands of the Canadian Pacific, and now they are complaining that We the government in bringing business to St. John is going to lose \$8,000 or \$10,000. Compare this with the position which was that the lesson ought to have been drawn by the opposition press in this community which would have led them to hold down their head in shame, and that the results which have recently transpired would have let them to abstein at all hazards from

in view of that implication I am bound refer to the matter in my own defence. I did not propose after the contest was over say anything at all that would in the slightest degree appear to be in a spirit of exultation over my opponents, or that would be irritating to the Canadian Pacific. I am prepared in the administration of the office which I have the honor to hold to treat the Canadian Pacific in all its interests and upon all questions that may arise as if they bad not fought me to the death on the seventh of November. That is my frame of mind. I feel that after winning the victory I gave them all the punishment I wanted to inflict upon them. (Cheers.) The spirit of I have myself always felt that there was that movement was high protection. change. That brought him to the third period, when the Liberal party came into power. The central thought which had animated the incoming administration had been the higher development of Canada by bringing it into closer contact with the interests and life of the Empire. Connected with this policy was the great problem transportation, under which better facilities were to be provided for carrying the products of the great west through Canadian channels to Canadian sea-ports. Mr. Biair then painted a glowing picture of the enormous possibilities of the west in the production of mineral and food products, and he ex ressed the confident conviction that in years near at hand the traffic which would be developed in that quarter would be fully equal to the capacity of both the Canadian Pacific and the Intercolonial. To insure that traffic for Canadian channels he hinted at the probability of extending the government railway system to the Great Lakes. In conclusion, the minister alluded to his

gratification of seeing so many young men around the tables. That fact was full great promise for the Liberal party. He thought it only natural that the young men of Canada should attach themselves to the progressive party now in power, rather than to the disintegrated and wornout Conservative party. He desired to thank the young men of St. John for the part they had taken in the recent struggle, and after referring humorously to the present efforts of the Conservative party to find a leader he briefly touched upon Mr. Foster's nomination day speech, in which that gentleman had pictured the wanderings of the minister of railways up and down the province 1896 in search of a seat. He fancied Mr. Foster would not have presented that search in such a humiliating aspect if he had been able to foresee the present position (laughter) Not only was he turned in his search for constituency from the Irovince of New Brunswick, but he was wandering far from nome and apparently with poor success.

The same paper has also misrepresented the facts, evidently for the purpose of making political capital for its own peculiar purposes. Not only so, but a specious plea of two or three columns not given under oath, but intended to mislead the public and create a prejudice in the offender's favor, was published in the same paper, while sworn testimony which showed that the whole fabric of the defence sought to be thereby set up was clearly an afterthought,

[The hunting license which Dr. Cox obtained from Warden Wyse, three days after he said he shot the "buck kid"] "out as I had reason to believe a fuss would be made if a Natural History Society license had not already been granted."

As a matter of fact it was proved in ev dence that the Natural History Society never authorised a request for a license and knew nothing of the matter. But the following letter, which was put in evidence clearly shows that Dr. Cox for, at least, nine day after he had shot the anima', never thought of justifying the act under the Benn license

DEAR Mr. ROBINSON :-- You already know that I killed a caribou on the Bartibogue Barrens on the first day of the open season, would be all right to get it (the license) or my return, even the' I killed one. I called on Mr. Wyse twice for it Monday 17th, but I learned since you were down ascertaining if I had a license at the time. I'm sure did not think it at all irregular, nor a matter to be concealed as Mr. W. and you probably Ald. Watt also referred to a street that know something of my views and the necessity of game protection and the trouble and expense I had years ago in doing my duty as warden. Technically speaking it was irregular, but no wrong was intended, no concealment tried, and I think some of our most honorable sportsmen often do it. I'm sorry you didn't call to see me when down.

Yours very truly, PHILIP Cox.

Chatham, Sept. 24, '00. As the ADVANCE said before the case had reached the court, and in reply to one of Dr. Cox's foolishly conceived letters in his special organ, he, like others of the poaching class, only thought of getting a license and paying for it after he had shot his game and became afraid-as he himself swore-"of the fuss." Then he hastened to Warden Wyse for a license and made a sly suggestion about dating it on the opening day of the season, hoping thus to save himself from

We are really sorry that a man of Dr. Cox's position should show such a bad example as he has done to others who may he even more inclined than he to evade the game law. The police magistrate had no option under the law and was obliged to convict and impose a penalty. He made it as light as the law allowed. The law is not vindictive in such cases. It requires fines to be imposed as deterrents to those who may be disposed to do as Dr. Cox did-first go hunting and then apply for a license should their luck be good.

There is some talk of a movement to have the members of the Natural History Society manifest their approval of what Dr. Cox did. but we can hardly think they will go so far as that. We are quite sure that many of the members would not, for a moment, think of making the organization a party to a deliberate violation of the game law, especially when a icense costs only two dollars. The Surveyor-General has always shown a disposition to help the members of the Society in these matters, and they should be found on the side of the law, and its observance, as we have no doubt they will be, with perhaps a

IN CONCISENESS of statement, in the thor oughness with which the ground has been covered, The Biggle Books have won praises on every hand. The boiled-down, commonsense, cream not skim-milk method, which characterizes the pages of the FARM JOURNAL has been carried out in their preparation. For mechanical effect no expense or pains have been spared, and the highly finished paper, the beautiful illustrations, the excellent type and press work, and the handsome cloth binding, make these books models of the printer's art. The color work in the Berry, Poultry and Cow Books has never been attempted before in any book selling for a reasonable price. No farm or rural home is complete without Judge Biggle's Books, and no one interested in these subjects can afford to let another day go by without sharing in the heloful things with which their pages are filled.
