We referred, in February, to the large shipments of tresh smelts and tom-cods in December and January from the two Chatham stations of the Canada Eastern Railway, and as the shipments of those fish are practically closed for the season, we are now in a position to give the totals for the this :winter. Those since last report were as follows :-

FOR FEBRUARY AND A FEW DAYS IN MARCH. Smelts from Chatham Station, 168,500

There were, thus, more than 857 tons shipped in February and March. As we stated in February, there were shipped, in December and January, over 1842 tons, so that the total of these two kinds of fishes shipped per Canada Eastern Railway for the winter was no less than 2.700 tons.

The shipments of the above fish from Newcastle station for December-the only month when they were shipped there-were 216,720 lbs. or a little more than 108 tons.

But besides the official relations between Bishop Sweeney as the former Pastor of the Diocese of Chatham and its people, If Mr. Currey is not satisfied after th re ever existed a tie of fraternal and reverential friendship between the Bshops of both Dioceses which naturally extended ing between them, he is at liberty to go on with the case. It has no terrors Sistersand people. One incident at the to povide for the payment of the collection division of the Diocese of St. John, con its influence for ten years and tended to cause both Bishops to meet and confer frequently; it was the spiritual ad ministration of Madawaska. Originally, all that district of Madawaska, which i in the State of Maine, was considered to be a part of New Brunswick; but by the Ashburton Treaty, in 1842, the dispute was settled between Great Britain and the United States of America. This settle ment of the civil boundary did not, however, affect the ecclesiastical jurisdiction. On the American side, it was argued that as the phrase : "State of Maine" was included as a part of the Diocese of Portland, therefore that section of Madawaska belonged, in its jurisdiction, o the Am ri can Bishop. On the other hand, Mgr Connolly, Bishop of St. John, contended that the phrase "State of Maine" meant nothing more in the latest Roman docunent' erecting the Diocese of Portland than it did in the earlier document erecting the Diocese of Boston in the first de cade of this century; for never is any change of spiritual boundary made without due notification being sent by the com petent authority to the parties intereste adopted a policy which was advocated by hence, the Bishop of St. John continued the opposition was not a reason why the like his predecessors, to govern spiritually both sides of the River, such as had been done by the Canadian Bishops before the Ashburton Treaty. But when the Dio. and operate. cese of Chatham was erected, the Ameri can side of Madawaska was not affect d. but left as before-a part of the Diocese of St. John: and again, the state of the mis sions containing settlers on both sides of the river, divided by transverse lines or boundaries across the river, the settlers or habitants having claims on the Church and Church property on either side alternately. as these were originally ordered-on one side having their church and cemetery in the State of Maine, while the next Mission had its spiritual centre in New purposes. Brunswick : while the people were all, on both sides, of the same race or nation ality and even of the same family Acadians or Canadians—this caused the

ferred and accepted the division as it now s, longitudinally along the river. This peculiar difficulty of the Madawaska, and the fact that at that time. before railroads were built, when there was no direct highway from Chatham to Madawaska, the Chatham Bishop always found it more convenient and expeditious to go by mail-stage via Shediac and St. John to Madawaska: the visit to St. John and there was still a great throng outside afforded opportunity to consult the senior fraternal spirit and amiable hospitalit of Bishop Sweeney and his Clergy and Religious Sisters at St. John, ever enhanced the esteem and affection cherished for him. While, on the other hand, during his visits to Madawaska, to that portion of its inhabitants who were still ment were also present, as were also under his episcopal jurisdiction, he never failed to ki dly visit and advise the good Sisters of Charity, Priests and people, on the New Brunswick side, who claimed the Bishop of Chatham for their Pastor. After the action of the Roman authorities in separating the American side of Madawaska from New Brunswick and attaching to the Diocese of Portland, Me., followed subsequently by the construction of the Temiscouata Railroad to Madawaska, the occasion of this frequent intima'e intercourse between the Bishops ceased, but the esteen caused by the grateful remembrance of the amiability of the good Bishon of St. John, on all occasions, never dimin Barry, Bathurst, representatives of colleges | visit Madawaska via the I. SATURDAY, 30TH. The house met at 3 o'clock.

Hon. Mr. Labillois in reply to Mr. Johnson, said that during the last few months the members for Kent county had been press ng the department of public works to erect a sidewalk in connection with the new bridge at St. Louis. They have been supported by a petition numerously signed by the inhabitants of St. Louis, Kent county. Very careful consideration has been given this matter. The length of the St. Louis bridge is 1,000 feet, and when the department came to consider the small number of pedestrians who would use the sidewalk and the cost of erection and maintenance, i was decided that it would not be in the public interest to build a sidewalk in connection with the long bridge.

Mr. Johnson said he greatly regretted that the government had arrived at this college is, though, a denominational institudecision. There were few bridges in the province that had a larger passenger traffic than the St. Louis bridge. He hoped the government would take the matter into day was far distant when the province would

of New Brunswick as the crowning point of Hon. Mr. Labillois said that the board of education, in pl cing the school house on the north side of the river, had carried out the spirit of the act, the location of the school house having been decided by the ratepayers. A great many important bridges in the province were without sidewalks. As to the cost of the sidewalk being only \$500, this did not agree with the estimate of the board of works.

Mr O'Brien presented the petition of C. Sutherland and 150 others, for the erection of a bridge across the Main South West Mr. Allen introduced a bill to amend the Miramichi. This petition, being contrary to

the rules of the house, was rejected. Hon. Mr. McKeown presented the report of the municipalities committee, substituting a new bill for No. 11, the bill to allow taxpayers of St. John who have not paid their taxes to vote at civic elections. substitute bill places the discussion of the matter in the hands of all the taxpayers of St. John, irrespective of whether their taxes are paid or not, to be decided by a majority vote prior to the 1st of July next. The house went into committee on bill to grant aid to the University of New Brunswick to pay for their science building. Hon. Mr. Tweedie stated that the required was about \$10,000, and it was proposed by the bill to grant the sum of a thousand dollars a year for 12 years. This would give the college about \$10,000 and would not add to the bonded indebtedness of the province. Oue of the conditious of the grant was that the senate should make regulations for free tuition in the university for two students each year, to be selected for their aptitude for scientific work. The government was also empowered to attach other conditions to the bill. While on his feet he would refer to the bill for the cstablishment of an agricultural college for the maritime provinces. The arrangement which had been made with the government of Nova Scotia and P. E Island was that they should establish an agricultural college. An Important Subject The election for Mayor and Aldermen of the Town of Chatham for the ensuing town are not satisfied with having the mportant interests involved in the hands of the Council as at present constituted. The body lacks good business methods. Its duties are performed in a very siptook a year ago to do. As a result, they have, at times, been induced, to practiany sense representative, but, rather, control-a want of decision and precision

This year, large undertakings, involv ng the expenditure of many thousands of dollars, are to be carried on. contracts which, in their performance, will require close scrutiny in behalf of the CORD WOOD, nine feet lengths, people. Contractors from outside, whose chief interest it will be to make the most money they can out of the work they are undertaking to do, or the materials they are to supply for our proposed water and sewerage systems, will have to be dealt with. It is important that the best men we have—the most experienced in dealing with such matters or who are accustomed to affairs in a large way-should be the Mayor and Aldermen to represent Chatham in this rel tionship. There has been, in the past, too much of a disposition manifested to easily part with town moneys. Some of the representatives we

Nervousness, Biliousness, the same laxity in this regard will be continued by the council, unless more experienced men, with a fuller sense their r sponsibility, are placed at the board. Unless there is, therefore, an improvement in this regard, there must inevitably be much money spent in large undertakings upon which we entering, for which the people will not

That Caribou Case. We had hoped that the prosecution interest in the libel case brought by Dr. Philip Cox against the editor of the ADVANCE, would have allowed the matter to drop, with the publication we gave of the explanation which the editor agreed to make. It seems, however, that they have determined to pursue Mr. Smith with the vindictiveness and falsehood usually manifested in their local organs—the World and Commercial. We have no taste for discussing these personal matters with people who appear to have no regard for the ordinary courtesies of life or for truth, but, to place the position of Mr. Smith definitely before those of the public who feel an interest in the subject, we challenge contradic-

persons, over his or their own name, of Joyner, of Chatham, the facts that 1. The negotiations for a settlement were opened by the prosecution side. 2. The explanation published in the ADVANCE by Mr. Smith was, word for word, and without any alteration or

agreed upon. 3. A proposition made by Dr. Cox, which included an apology from and requirement for Mr. Smith to pay his expenses, was promptly rejected as soon as submitted to the latter.

4. The explanation accepted by the prosecution was that assented to by have nothing to do with. Mr. Currie's request, acting for Dr. street
