

FUREKA HARNESS OIL advertisement with an image of a horse and harness.

Personal Mention section header.

Mr. C. A. C. Bruce has returned from his recent trip to the upper provinces, Buffalo, etc.

Hon. L. P. Farris was in town last Friday. Light House Inspector Kelly was in town for a day or two during the past week.

Mr. John C. Ferguson of the Inland Revenue services is amongst Chatham's visitors of this week.

Rev. J. R. MacKay-Tabusintac's new minister spent two or three days in Chatham this week. He was Rev. D. Henderson's guest.

Saturday's Transcript says: Miss Barhill, daughter of Hon. J. P. Barhill, of Nelson, is visiting friends in Moncton; also that Messrs. Blair Le. Blanc, and E. Gougan, left on a driving trip to Chatham.

Mr. H. S. Miller, so well and favorably known on the Miramichi, when he was manager of Messrs Stewart's business, was a visitor to Chatham last week and part of this. He was warmly greeted by a large number of old friends.

Mr. Geo. McKean, of St. John was in town last week.

Insurance Business. Mr. C. A. C. Bruce has commenced a Life, Fire and Marine insurance business in Chatham, with offices in the Bank of Montreal building, Water Street. He has been appointed special agent on the North Shore of New Brunswick for the Canada Life Assurance Company—one of the best doing business in the Dominion. He represents the Loyds and Manthorn underwriters, as well as a number of first class fire companies.

Where Medical Science Falls. to cure rheumatism, and all the time you suffer dreadfully, why don't you get a bottle of Poison's Nervine and try that? Rub it into your stiff joints, sore arms, lame back, bent shoulders—wherever the pain is. Nervine has cured plenty of people in this way, and that ought to be proof enough that it will cure you too. It is an unusually strong liniment that cures rheumatism in unusually quick time. Best household liniment known. 25 cents. Sold by C. P. Hickey.

The Duke's Watch. So, the Duke of Teck's watch was not stolen from his room on the Ophir, after all, notwithstanding that peculiar telegram from Halifax published in the St. John Globe. A despatch from St. John's, Nfld., sent on arrival of the Ophir there says that Teck found the "ticker" in a drawer where he had himself placed it in safe keeping. It is in order for the Globe to apologize to Premier Laurier and the other ministers and the railway train staff for having inferred that some one of their number committed the supposed theft.

Letter From the Bishop of Chatham. His Lordship Bishop Rogers sent Mr. George Robinson, M. P., of St. John, the following letter, on receipt of cards for the functions of Thursday, Oct. 16:— "My best thanks, but an extremely sorry to be obliged, through feebleness of health, to remain absent. Nevertheless, in spirit I shall be there to wish every benediction to the fair assembly of the throne and his royal lady. I deputé the Rev. Edward S. Murdoch, one of my priests, (R. C. pastor at Rouens Bridge) to present my most dutiful and respectful salutations."

There's a Story in Morning Tiredness. A story of poor blood, weakened nerves, of a starved brain. Plenty of food, mild food, but perhaps poorly prepared and too poorly digested to maintain a vigorous blood. Ferrozze quickly makes blood, gives strength to the nerves, cures the fagged feeling that prevents vigorous thought and action. Use Ferrozze, it makes blood, and good blood feeds the nerves. Strong and vigorous nerves are just another name for good health. If you seek health, and a relief from the tired feeling, use Ferrozze. Sold only by C. P. Hickey.

Gloucester County. A despatch of 25th to the St. John Globe says:—"Messrs. Goodwin & Tingley, of Hopewell Albert County, are putting in a 60 horse power rotary mill on the valuable timber lands owned by Mr. W. H. Johnston on the Miramichi road. The mill will be located on or near the old Bachman property, about twelve miles from Bathurst. Extensive lumbering operations will be commenced at once. "The estate of the late E. J. Gabin has sold the large fishing establishment and salmon fishing privileges at Pokemouche, Gloucester county, to Messrs. A. & R. Logie, of Chatham. The price paid was six thousand dollars."

Ald. Nicol says he Didn't. Editor of the Advance. Sir:—In your issue of 24th inst. you give Ald. Nicol credit for having "scored one with the thinking persons present when he arrested ex-Mayor Winslow's vehement charges against the recent council, of extravagance of expenditure, by saying out: "Do you mean the lawyer's bill?" My well known modesty however will not permit me to accept the praise due to another; therefore I wish to say the remark quoted was not made by me. Yours truly, JAMES NICOL, Chatham, Oct. 29, 1901.

Specification of the Morrison's Brook Engineer's House. CHATHAM, N. B., October 28, 1901. DEAR SIR:—I noticed in the last issue of the ADVANCE, the question was asked "Who made the specification for the engineer's house at Morrison Brook?"

For the information of the enquirer I may state that it was H. B. McDonald. Please give the above, upon your valuable paper. Yours respectfully, H. B. McDONALD.

Presbytery Meeting at Tabusintac. The Presbytery of Miramichi met at Tabusintac last Thursday at 3 p.m. for the purpose of inducting Rev. J. R. MacKay to the pastoral charge of that congregation.

The Royal Train Coming to Chatham. At the suggestion of Premier Tweedie, Vice President McNeil of the Canada Pacific Railway agreed, a week or more ago, to send the cars composing the Royal train to Chatham station, as it had been sent to St. John, Halifax, Moncton and other centres in the province, to enable the people to inspect it and see for themselves the embodiment of the most perfect modern iron construction of railway travel, especially designed for and enjoyed by the future King and Queen of the British Empire on their recent tour in Canada.

The newly-elected minister was addressed in suitable terms by Rev. D. Henderson, and the congregation by Rev. J. Corbett. The congregation then gave Mr. MacKay a hearty welcome as they retired.

After the regular services were over, a supper and reception was held for Mr. and Mrs. MacKay. Good cheer and plenty were everywhere manifest and by the unalloyed good feeling displayed during the whole evening there was a guarantee for a very happy and prosperous sojourn for Mr. and Mrs. MacKay in their new field.

Music by the choir and speeches by the members of Presbytery present evinced the good feeling of all. A. M. MACLEOD, Clerk pro tem.

Burning of a Notable Vessel. Sydney, C. B., Oct. 25.—The clipper auxiliary flying schooner Helen Miller Gould, owned and commanded by St. John's, Nfld., was at North Sydney yesterday afternoon and became a complete loss. She is said to have been nearly \$20,000. She was fitted with a gasoline engine and had on board a large quantity of gasoline. Her crew deserted her as soon as the fire started, fearing an explosion. The cause of the fire is unknown.

The following circular of His Lordship Bishop Rogers and letter of Rev. P. W. Dixon will be of interest to a very large number of the ADVANCE's readers of all classes: [CIRCULAR] To the Rev. Clergy of the Diocese of Chatham, REV. AND DEAR FATHERS:—In accordance with the recommendation so opportunely made in the letter of the Rev. Father Dixon, of Newcastle, I most willingly ordain that, wherever the Rubrics permit, the prayer "Ad plenum mediantem" be added to each mass; and I recommend the Lord's Prayer and Angelic Salutation to be recited by the laity, in their daily prayers for one another, and for the souls of the departed, in the presence of death, from fever and other sickness. JAMES ROGERS, Bishop of Chatham.

Following is Rev. Father Dixon's timely letter:— NEWCASTLE, Oct. 29, 1901. MY LORD:—This Northern portion of your diocese is now, and has been for some time past, suffering from scarcity of water. Wells never before without water are absolutely empty. The result is a water famine in its most literal sense. The suffering is acute; the condition of things being grossly accentuated by the present appearance; for at this time there has always been a surplus of rain, and the water has come; in fact we are, at all appearances, as far from rain as ever. The winter is coming in rapidly. Should this dry weather continue, the water will be obliged to stop running for want of water supplies, institutions will have to close down, private families who cannot afford to pay for the hauling of water from a distance must suffer. Cattle have already died for want of that nourishment which water gives. R. Hooper, in this very serious state of affairs, I have taken the liberty of writing to Your Lordship and suggesting the advisability of ordering the prayer "Ad plenum mediantem" to be said, none has a right to feel that God still will be merciful to those who are in such a state of distress. I hope that with such care as the nuns can do, and give, his life will be spared and his health restored.

We were all relieved to learn of Father Murdoch's sudden sickness. It is hoped that with such care as the nuns can do, and give, his life will be spared and his health restored. His Lordship the Bishop of Chatham.

Town Council. A special meeting of Chatham Town Council was, we understand, held on Monday evening at which the contract for building the water works engineer's house at Morrison's Brook was awarded to Mr. James Mowatt at \$809, his being the next lowest tender to that of Mr. Alex. Thompson, who had refused to enter into a contract as per award thereof to him made at the regular meeting of Council on 7th inst. Miss DeBrisay was one of Chatham's social favorites and she is followed by her new home with many wishes for her future happiness.

Marriages. Last Wednesday evening, Charles Waterhouse Small and Miss Blanche Ethel Waterhouse, 11 St. Paul street. The ceremony was performed by Rev. R. A. Beard, of the Prospect Street Congregational church, assisted by Rev. Frank L. Smith, of Brooklyn, N. Y. The bride was given away by her brother, William G. Muirhead. After the wedding a small reception was held, at which only the members and relatives of the two families were present. Both the bride and groom are well known in this city, the groom being a prominent member of the New Brunswick Club. Mr. and Mrs. Small will take a short wedding trip and will be at home after December 1, at 8 Orchard street, North Cambridge, Cambridge, Mass. Chronicle, Oct. 26.

Millerton Notes. The agricultural meeting which was held in the public hall, Millerton, on Thursday evening 24th inst., was the best and most largely attended of any gathering of the kind held here. It was under the auspices of the Derby Agricultural Society, and a large number of the society's members were in attendance, to help make it a success. Mr. John Betts, President of the Derby A. S., occupied the chair and performed this duty in his usual efficient manner.

The first speaker was the Hon. L. P. Farris, Provincial Commissioner of Agriculture. This he said was the first time he had been in Millerton and the impressions it made upon him were very favorable, and he only hoped that the farmers would take as great an interest in farming as they did in other ways.

The next speaker was Mr. Raynor of Ontario. His address on "Farms and Farming" gave many illustrations which were beneficial to farmers, and numerous questions were put to him by eager inquirers, and the ready and accurate answers, illustrated his great knowledge of the work which he deals with.

station, be purchased at \$975 delivered at the light station. The ADVANCE regrets that it is prevented from giving its usual full report of the Council's business, as no notice was given—public or otherwise—of the meeting and no one connected with this office had any knowledge of it until after it took place.

After the matter for this week's ADVANCE was prepared we received from the Town Clerk a clipping from the World issued yesterday containing its report of the proceedings of the meeting of Monday night. If the Mayor and Council, in their apparent anxiety to make the paper with which the clerk is connected, the official organ of the town, would take such steps as would enable the other papers to have notice of special council meetings so that their reporters might exercise the right of being present, it would be better in the public interest and only what we are all entitled to.

In this instance, we observe, from the report which the clerk sent entirely too late for us to make use of it, that business was done and some correspondence submitted which we would have liked to reproduce. Our readers have it withheld from them because the town authorities will it so.

It will be remembered that the same hole and corner policy was pursued in reference to the recent meeting of ratepayers for the voting upon the proposition to issue the additional \$40,000 water and sewerage bonds. The Mayor and Town Council did not, apparently, think it necessary for the large number of ratepayers who do not read their official organ to be informed of that important meeting. They advertised it in that one paper alone, and a ridiculously small meeting was the result.

The Royal Train Coming to Chatham. At the suggestion of Premier Tweedie, Vice President McNeil of the Canada Pacific Railway agreed, a week or more ago, to send the cars composing the Royal train to Chatham station, as it had been sent to St. John, Halifax, Moncton and other centres in the province, to enable the people to inspect it and see for themselves the embodiment of the most perfect modern iron construction of railway travel, especially designed for and enjoyed by the future King and Queen of the British Empire on their recent tour in Canada.

The newly-elected minister was addressed in suitable terms by Rev. D. Henderson, and the congregation by Rev. J. Corbett. The congregation then gave Mr. MacKay a hearty welcome as they retired.

After the regular services were over, a supper and reception was held for Mr. and Mrs. MacKay. Good cheer and plenty were everywhere manifest and by the unalloyed good feeling displayed during the whole evening there was a guarantee for a very happy and prosperous sojourn for Mr. and Mrs. MacKay in their new field.

Music by the choir and speeches by the members of Presbytery present evinced the good feeling of all. A. M. MACLEOD, Clerk pro tem.

ASTHMA CURE FREE! Asthamaleine Brings Instant Relief and Permanent Cure in All Cases. SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. WRITE YOUR NAME AND ADDRESS PLAINLY.

After having it carefully analyzed, we can state that Asthamaleine contains no opium, morphine, chloroform or ether. Very truly yours, REV. DR. MORRIS WECHSLER.

DR. TAFT BROS. MEDICINE CO. Gentlemen: I write this testimonial from a sense of duty, having tested the wonderful effect of your Asthamaleine, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 190th street, New York. I at once obtained a bottle of Asthamaleine. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease. Yours respectfully, O. D. PHELPS, M. D. AVON SPRINGS, N. Y., Feb. 1, 1901.

DR. TAFT BROS. MEDICINE CO. Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I have since purchased your full size bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 238 Rivington street. S. RAPHAEL, 67 East 129th st., New York City.

TRIAL BOTTLE SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL. Do not forget, write at once, addressing DR. TAFT BROS. MEDICINE CO., 79 East 130th St., N. Y. City.

Sold by all Druggists.

Farmers' Institute Meetings. Agricultural Commissioner Farris was in Northumberland last week to meet and assist the speakers at the Farmers' Institute meetings which are being held in Northern New Brunswick, under the auspices of his Department. On Friday night last the most successful meeting of the series so far was held in the Napan school house. Not only was there a large turnout of the farmers, but the array of speakers was also large. Besides the visiting delegates, Messrs. Raynor and Sharp, the Hon. Mr. Farris accompanied them to Chatham. A. S. soon as he had completed the arrangements with Mr. McNeil, Premier Tweedie had the matter placed in the hands of Mayor Snowball, who, no doubt, aided by the members of the Town Council, see to the necessary local details.

We observe that two of our local papers, as usual, endeavoring to give their accustomed political bias to the matter of the cars being exhibited here, but it is to be hoped that the public generally will understand that any efforts in that direction are very unworthy and tend to lower the community in the estimation of people abroad. It is a misfortune that Chatham should be the place in which such a use has been made of the exhibition of these splendid cars by the newspapers, and that the town has such newspapers.

The cars will come to our station on Saturday of this week, perhaps, and as it is a privilege for our people to have an opportunity of seeing them, it is to be hoped that they will avail themselves of it generally for the benefit of our deserving local hospital, regardless of the minister use already made of their coming by the papers referred to.

A meeting was held in Blissfield on Tuesday night of last week. It was presided over by Mr. John A. McDonald. Amongst the prominent local farmers present and participating in the discussions were Roland Fairley, Z. G. G. and Edw. Mereserue.

At Blackville, on Wednesday Mr. B. N. T. Underhill presided over a well attended and interesting meeting, which was addressed by Messrs. Raynor and Sharp, visiting speakers, and local farmers, including Messrs. Wm. McLaggan, Peter D. Coughlan, Jas. Ben D. G. Schofield and Henry Curtis.

[Our Millerton correspondent gives some notes of the meeting held there.]

There were, perhaps, a thousand guests and brant on the feeding-ground between Sheldrake Island and the north side of the river, but neither of the party's steamers could run sufficiently near to them for shooting purposes, owing to their water-draught. Over on the south side there were also a few birds in the vicinity of the mouth of Napan river, but they took wing on the steamers' approach.

Here another was cast and dinner served. It was probably the best spread made on any of the season's excursions—a certain work of culinary art in the desert end of the menu, which was created by the Commodore's chef at Millerton, being voted by all as unequalled in quality and flavor by any in their former experiences.

After dinner the boats separated for a while, the Winona endeavoring to get within range of large bodies of geese and brant which were feeding along the shore between Points Cheval and Aux Car, but without success, as the birds either took flight before they could be effectively reached or were too far away in the shoal water. There is no doubt, however, that if some of the decoy rigs that are in the lower bay were set along that shore or inside of Sheldrake Island and shot from, many birds could be secured—as may, perhaps, as the grounds more frequented by sportsmen.

There was some speech-making on the return trip, during which Premier Tweedie proposed the health of Agent-General Miller, referring in complimentary terms to the excellent work he had done in Great Britain in making the resources and attractions of New Brunswick known, and in every possible way promoting its interests. Many New Brunswickers visiting London, whom Mr. Miller visited, were indebted to him for courtesies and attentions which made their stay in the world's great metropolis pleasant, and when all this was done by the Agent-General without salary, every one in New Brunswick would realize how much the province was indebted to him. The Agent-General made a very happy response, referring at some length to the

CHAINED FOR TEN YEARS. EVERY ASTHMA BRINGS RELIEF.

There is nothing like Asthamaleine. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthamaleine relieved my own condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with painful sore throat and Asthma for ten years. I repaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overdone yourselves, but resolved to give it a trial. To my astonishment, the trial acted like a charm. Send me a full-sized bottle."

Rev. Dr. Morris Wechsler, Rabbi of the Cong. Bnai Israel, New York, Jan. 3, 1901. DR. TAFT BROS. MEDICINE CO. Gentlemen: Your Asthamaleine is an excellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful.

DR. TAFT BROS. MEDICINE CO. Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all failed. I ran across your advertisement and started with a trial bottle. I have since purchased your full size bottle, and I am ever grateful. I have a family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit. Home address, 238 Rivington street. S. RAPHAEL, 67 East 129th st., New York City.

Sold by all Druggists.

bring the meeting to a successful issue. Though this is the fourth meeting of this kind since the beginning of the church year, yet much interest was shown by the large congregation. The Miller Tanning Extract Factory closed down on Tuesday of last week after having been in steady operation for about a year.

Agent-General Duff-Miller on the Miramichi. Mr. C. A. Duff-Miller, New Brunswick's efficient Agent-General in London, made a short visit to Miramichi last week and was the guest of Commodore J. C. Miller, Millerton. On Wednesday he participated in an excursion down the river, gotten up by the Commodore in his honor. It was a most enjoyable occasion, notwithstanding the rain which fell occasionally and the prevailing chilliness of the atmosphere. It is the time of year when those who usually participate in our yachtmen's outings down river in quest of relief from the summer's heat, find equal or more pleasure in getting amongst the geese, brant and other game birds, which, in their autumn migration, frequent Miramichi in large numbers. So the party of Wednesday, took with them guns and a fair amount of ammunition to stock an arsenal, and hampers, the contents of which in the way of table napery, cutlery, dishes, meats, entrees, vegetables, relishes, etc. might serve to improve the appearance and menu of some of the country's hotel tables.

The Commodore's steamer Laura on the way down river, with Miller, with the guest of the day on board brought eight excursionists to Chatham, where Mr. F. W. Tweedie's little steam yacht, Winona, with five more, joined her. The two yachts were made fast abreast, as the day was calm and the water smooth, and left Chatham about noon. The party was made up of:—Mr. C. A. Duff-Miller, Premier Tweedie, James Robinson, M. P., Lt. Col. Call, American Vice Consul, O. S. Stacy and George Gilbert, of Bathurst, W. A. Park, R. A. Lawlor, K. C. J. M. Raddock, D. G. Smith, Wm. Cummings and F. M. Tweedie.

On the way down, she ducks were shot without exception a little below Middle Island, just far practices. The anglers of the party delighted in the slaughter of these destroyers of young salmon and trout, for on their breeding grounds up our rivers, in the angling season, they live almost entirely on those fish, one of them destroying more fish-life on a river than all the anglers who visit it.

There were, perhaps, a thousand guests and brant on the feeding-ground between Sheldrake Island and the north side of the river, but neither of the party's steamers could run sufficiently near to them for shooting purposes, owing to their water-draught. Over on the south side there were also a few birds in the vicinity of the mouth of Napan river, but they took wing on the steamers' approach.

Here another was cast and dinner served. It was probably the best spread made on any of the season's excursions—a certain work of culinary art in the desert end of the menu, which was created by the Commodore's chef at Millerton, being voted by all as unequalled in quality and flavor by any in their former experiences.

After dinner the boats separated for a while, the Winona endeavoring to get within range of large bodies of geese and brant which were feeding along the shore between Points Cheval and Aux Car, but without success, as the birds either took flight before they could be effectively reached or were too far away in the shoal water. There is no doubt, however, that if some of the decoy rigs that are in the lower bay were set along that shore or inside of Sheldrake Island and shot from, many birds could be secured—as may, perhaps, as the grounds more frequented by sportsmen.

There was some speech-making on the return trip, during which Premier Tweedie proposed the health of Agent-General Miller, referring in complimentary terms to the excellent work he had done in Great Britain in making the resources and attractions of New Brunswick known, and in every possible way promoting its interests. Many New Brunswickers visiting London, whom Mr. Miller visited, were indebted to him for courtesies and attentions which made their stay in the world's great metropolis pleasant, and when all this was done by the Agent-General without salary, every one in New Brunswick would realize how much the province was indebted to him.
