## Reminders.

It is one of the things that, as Lord Dundreary would say, "No fellah can understand", to find men adversely critiamples of what they condemn. Rev. Joseph McLeod, of Fredericton, who is a candidate for the vacant seat in the House of Commons for York, had ling at Mr. Gibson, ex-M. P. for that constituency, at a public meeting the other day, because that gentleman obtained some small public positions, for relatives. Yet he is the same Mr. McLeod who was given a \$10,000 government position by his cousin Mr. Foster, when the latter was Dominion Finance Minister, and left the pulpit, for the time-being, in order that he might engage in the more lucrative worldly political employment.

position is at times manifested by one of our local editors, whose petty jealousy causes him, now and then, to remind his readers of his own unsuccessful career as an office-seeker by attacking others who deservedly hold public positions. He has a periodical fling at a gentleman whose successful and clean newspaper career he cannot hope to attain to, and whoseholding of an mportant but poorly remunerated office, adds poignancy to the envy which consumes and makes the poor newspaper tramp appear as a public nuisance. He failed as a claimant for appointment as postmaster of Chatham just as the late government was leaving office, and appears to think that something besides his notorious unfitness for the position is blameable for his being passed over. If he will reform he may yet be made a boat-cleaner for the local tide waiter, or rewarded with some other similar position for which he is fitted

The Commission proved to consist, with the exception of Dr McLeod, of those who were disposed to present a report favorable to the licensing and perpetuation of the liquor

It has always been contended heretofore, by the Liberal Conservative organs, that the commission referred to, and whose work cost the country more than \$100,000, was composed of men who were above the suspicion of bias. There was an exception, of course, in was the choice of his cousin, Mr. Foster, but the other members were gentlemen were generally accepted as sound. The Reporter, however, intimates that they were antagonistic to temperance and it posed to do anything for the temperance cause. And, yet, the Reporter asks the voters of York to elect the gentleman who, knowing how badly the late Liberal-Conservative government treat-A second class Teacher is wanted for school in District 6½. ## A Serious Failure.

A feeling of general regret is experienced, not only in the Maramichi, but in many other sections of the country where there is more or less direct interest in the Maritime Sulphite Fibre Company has ceased to do business. The following official notice has

The Maritime Sulphite Fibre Company, Limited, regret to inform you that, owing to the present state of the markets for the Company's products and the condition of the Company's finances, the Company is unable to continue manufacturing, and, therefore, it has been resolved to suspend payment and to cease carrying on its business any longer.

President Stuart spoke very manfully of the company's position, which he, doubtless, felt keenly, and the employees, who well understood that he was the greatest individual loser of all connected with the Company, afterwards spoke in terms of respectful sympathy of him and of admiration for the plucky efforts he had made to save the concern from its present unfortunate position, in which he was seconded by other directors. It is a satisfaction to know that Mr. Stuart's individual loss—heavy as it is—does not

The visit to Miramichi of His Excelthe Governor General, Lord Minto, was made on Friday last, although subject, nevertheless, the colonel feels that not at as early an hour in the day as expected, owing, it is said, to fog at Dalhousie on Thursday afternoon preventing the steamer Minto with the vice-regal party on board leaving that port at the appointed time. It was a disappointment to the people here to learn early on Friday morning that the Minto had been detained at Dalhouaie, for preparations for the popular demonstration with which the arrival of the distinguished visitors was to have been greeted were begun at an early hour. The fleet of steamers, the bands, intended excursionists, the members of committees and others prominent in the preparations were all on the move to be ready at 8 a.m. to go down river to meet and escort

the expected Minto up. Mayor Snowball, of Chatham, received a telegram about 7 a.m. announcing the delay of the departure from Dalhousie, and it was followed by another with the news that the Minto had left at 4 a.m. Next came a telegram from Mr. K. The cry of "all aboard at two o'clock," passed around and, shortly after that hour, the river between Chatham and Newcastle presented a very animated scene, as the fleet, under the direction of Commodore J. The St. Nicholas was, soon after cast off, the boarding party named remaining on the Minto, which proceeded to Newcastle. Crowds were on the steamers forming the river-convoy, but greater crowds were on the wharves at Chatham to wave welcomes and cheer for the vice-regal visitors. At Douglastown a large number were on the public wharf and they cheered as the Minto and other steamers went by. At Newcastle, the St. Nicholas again
