ital of \$416,000. The company will wind up Chief Lipset, of the Fredericton fire its affairs if the creditors are willing to wait If any of them press their claims the Victoria-Montreal will go into liquidation.

Transfer of a Big Lumbering Interest

Arrangements were to-day completed for the purchase of the Messrs. Joshua and L.B. Knight's property at Musquash, Inglewood Manor, by a large syndicate of local and other capitalists who have it in contempla-

tion to at a future date erest a pulp mill thereon. The property is a very extensive and valuable one. Among the purchasers are Messre. B. F. Pearson, Halifax; C. Burrel, Weymouth; George McAvity, Franklin Stetson and G. W. Jones. The purchase price is said to be in the vicinity of \$100.000. The Messrs. Knight will retain ossession for some months yet, finishing the season's lumbering operations. It is understood they have negotiated for another

lumbering privilege and will continue business .- St. John Globe.

The Legislature.

M. McDade, for many years past official reporter of the provincial legislature, is understood to have decided not to again undertake the work. Mr. McDade has been a very efficient and hard working reporter, giving fair and fu'l reports of the debates. The work has grown more d flicult year by year because of long night sessions and the heavy debates. To finish up the work and get out the official volume requires many months of hard labor after the session ends, and is a great strain. In view of this and of the fact that the pressure of private business requires all his attention, M McDade has been compelled to decline the strongly expressed wish of members on both sides that he continue the work. The legislature will find it difficult to satisfactorily ill Mr. McDade's place, as it is unlikely any one man will undertake to do the work he

Sheldon's New Book.

Moncton, Jan. 6.-Postal authorities with the assistance of officers have been busy lately trying to find a clew to recent mail robberies committed at Monston depot. About a month ago a number of parcels mysteriously disappeared from the mails in transit, followed about the middle of December with the loss of a whole mail bag and contents. The missing bag contained. among other matter, I. C. R, cheques amounting to about \$12,000, which, of course, would be of no value without endersement of the party in whose favor they were drawn,

Vigorous search for a clew to the robbers has been instituted but so far without success. The authorities are confident that the parcels were abstracted from the mail b gs at Moncton depot, where they would he lying on trucks awaiting the evening train.

Local men are suspected but so far as can be ascertained no clue has yet been obtained Officers searched a Moncton house a few days ago but nothing was found. A mail bag containing registered letters was also

stolen at Shediac station a couple of months

Distribution of Samples of Seed Grain and Potatoes.

To the Elitor of the MIRAMICHI APVANCE. During the past twelve years samples of those varieties of grain, & ... which have succeeded best on the several Experimental Farms have been distributed on application in 3-lb. bags, free throngh the mail, to farm. ers in all parts of the Dominion. The object in view in this distribution has been to add to the productiveness and improve the quality of these important agricultural products throughout the country, by placing within reach of every farmer, pure seed of the most vigorous and productive sorts

This work has met with much appreciation and a large measure of success. Under instruction of the Hon. Minister of Agriculture another distribution will made this season. Owing to the very large number of applications annually received, it

is not practicable to send more than one sample to each applicant,-hence if an

[New York Times.] There is a growing conviction among the statisticians of the lumber industry that a timber famine is immiuent in the

near future, and that under the most favorable conditions of systematic fores-

try it will be impossible to grow wood fast J the Steamers of this | enough to permit the maintenance of the current rate of consumption. Chief Geographer Garnett, of the United States Geological Survey, from the best data obtainable, estimates the total stand of

ton every Monday morn-ing at 8.15 o'clock. timber throughout the United States at 1.380,000,000,000 feet. In 1890 the cut

was about 25,000,000,000 feet, and since that time it has steadily increased. who participated in the negro lynching at Natural growth would undoubtedly replace the annual cut if we had only lum-

bering operations to take into account. Contrary to the general supposition,

lumbering, even of the most thorough invariably lynchers, whether at the North kind, does not destroy the forest character or South, have been screened by the of land. The lumberman takes only the prosecuting officers, or, if brought to trial. trees available for his purposes. He acquitted by the jury. In this case the selects one here and another there, and almost universal rule has been reversed for each tree available for reduction to and most of those caught have been marketable boards he leaves a hundred, promptly convicted and punished.

or perhaps a thousand, not available and when he has cut down everything it pays him to fell and haul, the tract remains as much a forest as before. The disappearance of our forests is due

to the manufacture of charcoal for iro smelting, to the paper stock industry, and in a less degree to the demand for the Prostestant burial service over soldiers firewood, but more than all to the clear-

ing of land for farming purposes. It i for this reason that the old time forestry statistics of replacement by natural growth do not apply in this country. The wood-destroying industries which consume everything in the shape of woody fibre for coal or pulp, have neglected all measures

If available for cultivation they have been worth more cleared than covered if not, the wood consumer has let nature take its course, and looked about him for new areas to denude. Unless land is held under a very different tenure from that which obtains in this country, and wood is very much more costly than it has been up to this time, it will be difficult to popularize tree planting for profit. WEEKLY REPRINT OF ARTICLES FROM LEAD ING JOURNALS AND REVIEWS REFLECTING the risk of a small pox epidemic THE CURRENT THOUGHT OF BOTH HEMISPHERES.

WORLD WIDE with articles and extracts of this latter class, with occasional selections Chatham, Jan. 2, 1901.

It was at first intended to publish WORLD WIDE upon fine paper at a higher cost, but recalling the long list of elegant publications which in the past have been started in Canada, only to fail, and reflecting that good taste in literature does not always imply the means to pay for costly journals, and that people of taste can be relied upon to appre-
