Camp Sussex.

The local military forces arrived home from Camp Sussex on Saturday last and report having had, on the whole, a pleasant training-time. One of the most interesting features of last week was a tactical outing on Wednesday. The forces paraded at 7.30 a.m. The general idea was that an enemy "Red" was advancing upon the infantry camp for its capture and thus clear the way to St. John. The special idea was that the enemy had reached the road leading from Corn Hill to Roachville and the following despatch was sent from C. S O., Sussex, to example. Lt. Col. Baird, 74th regiment, who commanded the defending force "Blue," "delay the enemy's advance and hold the camp, by

order H. Y. Z." The result was that at 12.30 the attacking force having made a feint on the left front and so engaged the whole of the Blue force by making a considerable detour was enabled to make a successful right rear attack and capture the camp. The Red force was com manded by Lieut. Col. Vince, R. O. with Major McDougall, R. C. R. I., as brigade major. Lieut. Colonel Baird had Captain Lister, R. C. R. I., as brigade major. completing the course.

SIR-Kindly allow me a small space in your widely circulated paper for the insertion of a few facts, which, if not edifying, may at least prove interesting to some of your readers. In looking over the list of Bye Road appropriations for district No. 4 lower Newcastle, I am of opinion that the commissioner for that district has (to put i mildly) very peculiar ideas of his duty is

that capacity. While I do not claim a correct knowledge of the law governing the matter, I consider it the duty of a commissioner to expend the money allotted for his district by public sale, awarding the contract to the lowest bidder; to see that the work is promptly and faithfully done according to description given at the time of sale; to pay the contractor when the work is completed, not until then; not to be intimidated, bull dozed or cajoled by any person, however big he may be in his own estimation: to duly acknowledge all money received from the department; and make accurately certified returns of all expenditures; and to retain five per cent. of the amount allotted as his commission. How commissioner for No. 4, Newcastle,

has acted, let facts speak for themselves For the Old Bathurst Road there was \$25.00 to expend, \$13.00 expended at sale. From school house to R. Quigley's, \$10.00, no sale. Commissioner and one man worked two half days. From R. Quigley's to Green Brook, \$4.00, no sale. One small drain covered with spruce piles by commissioner. To repair Green Brook bridge, \$15 00, no sale, no bridge repaired or any other work done. Old road to new line near Carroli's, \$5,00, no sale, no work done. Old road near Mc-Mahon's, \$5.00, no sale, no work done, Bathurst road to Morrison's, \$5 00, no sale,

no work done. This ought to suffice. These are not one man roads. They are public roads, and the public expects better treatment. It is not very pleasant, not to say charitable to have to report acts o emission and commission on the part of any one entrusted with a public office, nor is it very cheering to sit unconcerned and see already described and roads so much in need

Any person doubting the correctness of the above statement has only to go over the roads indicated and see for themselves. Thanking yon, Mr. Editor, for occupying
