OHATHAM. N. B., - SEPTEMBER 12, 1901 The "Globe's" Mistake.

Readers of the St. John Globe will no doubt, overlook its mistake that a general assembly election was to held in New Brunswick before another legislative session. The Globe lost its bearings and, in its confusion, confounded New Brunswick with Nova Scotia, in which latter province an assembly election is to take place Oct. 2nd nomination day being 25th inst. next general assembly election in the province will probably not be held until some time in '93, which will give the Globe plenty of time to recover it reckoning and ascertain whither it has

The Sun's Method.

been drifting.

At last week's meeting of the Board of Education at Fredericton Mr. Flavien Doucet, of Petit Rocher, appointed an inspector of schools. the day after the appointment made the St. John Sun asserted that a promise had been made in the legislature by Premier Tweedie that a French Inspector would be appointed but had been ignored. The Sun, it appears, had learned of the fulfilment of Mr Tweedie's promise, and with its usual perversity of misrepresentation, conceived the idea that it was "good politics" to pretend that no appointment had been made, and thus appeal to the prejudices of the people supposed to be interested.

The Condition of the Town Streets.

The condition of the streets of the town is necessarily bad just now, owing to the excavations being made for the laying of the water and sewer pipes, but the contractors for both of these services have completed the pipe-laying, and back-filled, in some streets, and should have left the latter in as good condition as they found them, as their contracts require them to do. They have not done so, however, and unless the town's engineers, Messrs. Lea & Coffin. see to the matter and the contractors are made to understand that they must, as they finish, do the necessary clearingup, grading and levelling to restore our thoroughfares to as good condition as they found them, they will not be paid. such mortality as the Gleaner's informatt Owing to the work of putting in the systems having been contracted for by piecemeal, instead of en bloc, as it ought to have been, there is a divided responsibility, in reference to the condition in which the streets are left, between the contractors for the water and the sewerage pipe-laying, respectively, and unless each is now kept up to the requirements of his contract in this

important particular, it may happen that difficulties will arise in compelling them to do their duty to the town. If the town had some capable, experienced person to look after the condition of the streets, those on which the water and sewerage pipes are already laid would not present the rough, debrisstrewn and uneven surfaces they do at

the present time. We must depend, for this bringing of the contractors to a proper performance of their duty, upon Messrs. Lea & Coffin and their staff, because the town has no one else capable of dealing with the matter, and the Mayor must make

Some of the members of the Town Council referred to this subject at last Monday evening's meeting, but they should not let it end in talk only. Action-and prompt action at thatis necessary, for it is probable that the pipe-laying will not be finished until very late in the fall, when the ground will be snow-covered; and if the final pressure-tests are then made and the contractors paid—as they may be—it will take a good many dollars the ratepayers' money, instead of the contractors' to put the streets in order next summer. Let the contractors. therefore, be required to finish their 12 00 work cleanly as they go along.

The Usual Way.

Mr. J. R. Booth, of Ottawa, who is a millionaire lumber manufacturer has, at last been proceeded against by the Department of Justice under the statute which prohibits the dumping of sawdust into water stretches frequented by fish. Mr. Booth has a big mill at the time for them approaches, and although Chaudiere, and throws the sawdust for Catalogue from it into the Ottawa River. The emptying of sawdust into the Ottawa has long been a source of trouble. was found, after a careful investigation. position in St. John worth having, that the practice not only destroyed fish, but was gradually filling up the of both fisheries and navigation. there- tions of those who were so ready to confore, it was necessary that all mill- demn her. owners on the Ottawa should comply with the law. The Ottawa is one of the great rivers of Canada. It is about eight hundred miles long, from its source in Lake Temiscamingue to its mouth on the left bank of the St. Lawrence, ninety-seven miles below the city of Ottawa, and has many of G rmany for the murder of Barou Von tributaries such as the Gatineau, 420 miles long; the Madawaska, 210 miles; the Petawawa, 140 miles; Riviere de Lievre and others, from 90 to 160 miles long. It has been estimated that the valleys of the Ottawa and its tributaries are capable of sustaining a population nearly double that of the whole of Canada. The national sin of permitting one man and his interests to defy the law and ruin the navigation and fisheries of such a river for all time

lumber mill owners on the Ottawa. St. John, has been fixed for trial Tuesday, edge of the dais until he was within two excepting Mr. Booth, have complied with the law and established furnaces for burning their sawdust, that gentleman has continued to do about as it pleased him in the matter. A month ago, he was warned that action would be taken against him unless he plied with the law, but he said he wanted another year before he could take care of his sawdust. This being but a continuation of old promises, the Fisheries Department would not entertain his proposal. Now, seeing that he must do as other people are required to, his friends are saying that if the law is enforced he will remove his mill o some other city. The cry of "the poor laboring man" is raised by interested parties-just as it is done wherever possible when general public rights are asserted as against the encroachment thereon of the autocrat and monopolist. It is to be hoped that the Department of Justice will pursue the matter to its rightful conclusion compel Mr. Booth to do as others the lumber business on the Ottawa and elsewhere in Canada have done long

WHEN IN DOUBT as to what to use for Diarrhœa, Cholera, Cramps and all Summer Complaints don't hesitate to try Fuller's Blackberry Cordial, tried and tested for over twenty-five years. 25 cents at all dealers' in medicine.

An Investigation.

Premier Tweedie goes to St. John thi morning to open the investigation of the complaints made by members of the Evangelical Alliance of that city against Chief of Police Clark for non-enforcement of the Sunday law, which was brought by nemorial to the notice of the Government at its last week's session in Freder.con.

A Fish Story.

The Fredericton Gleaner said las

Reports from the fishing resor's on the North Shore indicate that the prolonged drought has had a disastrous effect upon the trout and salmon fisheries. Although numerous fishing parties have been whipping the streams very poor catches have been made and many American fishermen have left for their homes. A gentleman who has just returned from the fishing grounds stated that trout and salmon are dying by hundreds as the result of the water in the streams being heated to a point where existence is impossible. Rain is greatly needed.

The writer has been over a number of the North salmon rivers and has found no states. It is true that the water in Shot by a creature to whom he was all North Shore rivers is unusually low. and the salmon, grilse and trout are col lected in the pools to a greater extent han usual, but it is not true that the fish are dying as stated. What water is getting into the rivers is almost altogether from springs and it has, especially for a fortnight or more, kept fairly cool by the night temperature. It is the net and spear that are doing deadly work wherever guardianship is not strict and faithfully attended to.

WHY EXPERIMENT when you can get a remedy that has been tested for over twentyfive years? Fuller's Blackberry Cordial cures all Summer Complaints in Children and Adults and may be had at all dealers. price 25 cents.

The America Cup Races.

Two new yachts-the "Constitution" and "Independence"-were built in th United States this year to defend th America cup. The Independence was no allowed to enter into the competition for the honor of defending the great trophy because her owner, Mr. Thomas W Lawson is not a member of the New it his duty to see that it is not longer York Yacht Club, under whose auspices alone the defender must sail. The Constitution and last year's successful defend er, "Columbia" raced against each other for some time for the purpose of enabling the N. Y. Yacht Club's challenge committee to determine which of them should sall in the cup races against Sir Thomas Lipton's challenger, Shamrock II., of the Royal Ulster Yacht Club. On Thursday last the decision was announced by the secretary of the N. Y. Y. Club in the following terms :-

NEWPORT, R. I., Sept. 5. - After care fully weighing the relative merits of the Columbia and the Constitution in the light of 18 finished races which the boats have sailed this season, the challenge com mittee of the New York Yacht Club, at a meeting on board the flagship to-day. decided that the Constitution was too much of an unknown quantity and that the America's cup would be safer by being defended by the Columbia. The formal notice of the committee's decision is as follows :

"At a meeting of the committee on challenge of the Royal Ul ter Yacht Club held on the flagship at 11.30 a.m. to day, the Columbia was selected to represent

the New York Yacht Club." The prevailing opinion is that the decision is a wise one. The interest in the races for the cup intensifies as the some would-be authorities decried the challenger when she met with the mishap of carrying away her mast, and intimated that she could not win, there is a feeling in well-informed yachting circles that there has never been a better prospect of the cup changing custodians than there is this year. Should the Irish boat win it will be interesting to read the explana-

The going to and fro of certain persons between London and Cape Town is to be stopped by the Government. The Pall Mall Gizette says the mails of other suspected persons have been examined and that important correspondence has

A Milan, Italy, despatch of 5th inst.

"An Anarchist of the name of Jaffer, who was extradited from Switzerland on suspicion that he was an accomplice of Brasci, the assassin of King Humbert was released yesterday after an examination by a magistrate who ruled that there was no evidence of a plot to take the life of the King. Thereafter a police decree was issued banishing Jaffer from Italy. He says that he will immediately go to the United States.'

The United States appears to be the Mecca of Europe's refugee cut-throats. They should be collected as they arrive and kept affoat in some hulk until enough were on board to make it worth while to tow them out to sea and scuttle the whole outfit. They are not fit to live and their destruction by wholesale would benefit the world morally and make it safer for the rest of the human race.

A London despatch of 4th inst. says :-The Ecumenical Methodist conference opened in Wesley's Chapel this morning with a good attendance. The session was begun with devotional exercises, in the course of which King Edward and President McKinley were prayed for.

The Archbishop of Canterbury, the most Rev. Frederick Temple D. D. the Bishop of London, the Rt. Rev. A. F. W. Ingraham, D. D., sent friendly messages, the Archbishop of Canterbury praying God's blessing on deliberations. The Bishop of London sent a similar message but added the hope that some day the Methodists might be re-united with the Episcopalians.

A later despatch says that the conference voted not to receive the messages of the Archb shop and Bishop, on the ground that they were not addressed to it directly but came through the editor of a religious

Attempted Assassination of President McKinley!

extending a courteous and friendly hand!

The assassin taken and imprisoned.

He is a Polish anarchist and says he intended to kill the President.

MR. MCKINLEY WILL PROBABLY RECOVER

Buffalo, N. Y., Sept. 7.-President McKinley, who on Thursday contributed to making what the papers called proudest day in Buffalo's history,' to-day lies with his life in a balance, at the home on Deleware avenue of Mr. John G. Milbu n, president of the Pan-American Exhibition, on the grounds of which, yesterday afternoon, a too successful at empt was made to assassinate the head of the national government.

It was a few minutes after four p.m., public reception in the great Temple of closed in the same way. The further course Music on the Pan-American grounds, that the cowardly attack was made, with what success time alone can tell. Standing in the midst of crowds numbering thousands, surrounded by every

evidence of good-will, PRESSED BY A MOTLY THRONG OF POLYGLOT

PEOPLES. showered with expressions of lov oyalty, beseiged by multitudes all eager to clasp his hand—amidst these surroundings, and with the ever recurring plaudits of an admiring army of sightseers ringing in his ears, the blow of the assassin fell. and in an instant pleasure gave way to pain, admiration to agony, and pandemonium followed.

THE HUMAN BEAST. Down at police headquacters sits medium-sized man of commonplace appearance, with fixed gaze directed on floor, who presses his lips firmly together and listens with an air of assumed ference to the persistent stream of tions, arguments, objurgations admonitions with which his captors to induce or compel him to talk.

in the Temple of Music that the dastardly attempt was made. Planned with dia bolical ingenuity and finesse the assassin carried out the work without a hitch, and should his designs fail and the President

THE GUARDS AVAILED NOT. The President, though well guarded by United States Secret Service detectives, was fully exposed to such an attack occurred. He stood at the edge of raised dais upon which stands the pipe organ at the east end of the structure. Throngs of people crowded in at the various entrances, to gaze upon thei executive, perchance to clasp his hand. and then fight their way out in the good natured mob that every minnte swelled and multiplied at the points of ingress and egress. THE FATEFUL SCENE.

The President was in a cheerful mood and was enjoying to the full the hearty evidences of good will which everywhere met his gaze. Upon his right stood Mr. John G. Milburn, of Buffalo, president Despatches received at New York state of the Pan-American Exhibition, chatting with the President and introducing flowed and that one third of the people to him especially persons of note who approached. Upon the President's left stood Mr. Cortelyou, his secretary. It was shortly after four p.m., when out of the throng which surrounded the presidential party, a medium sized man of ord nary appearance and plainly dressed in black, approached as if to greet the The election petition of John McAllister President. Both Mr. Cortelyou and Mr. against James Reid, M. P., of Restigouche Milburn noticed that one of the man's will, therefore, be apparent. The has been set for trial at Dalhousie hands was swathed in a bandage or handkerchief. The reports of by-standers and volume than those of all the rivers The election petition trial of Dr. A. A. differ as to which hand. He worked his of New Brunswick, yet, while all Sockton against Col. Tucker, M. P., of way amid the stream of people up to the Caxton Building, Chicago.

feet of the President.

THE CRACK OF THE REVOLVER. President McKinley smiled, bowed and extended his hand, when the sharp crack

There was an instant of almost complete silence, the President stood stock still, a look of hesitancy, almost of bewild-rment. on his face. Then he retreated a step. while a pallor began to steal over his features.

THE ASSASSIN SEIZED. Then came a commotion. With a leap three men threw themselves forward, and sprang toward the assassin. Two of were United States Secret Service men who were on the lookout and whose duty it was to guard against just such a calamity as had here befallen the President and the nation. The third was a bystander, a negro, who had only an instant previously grasped in his dusky palm the hand of the President.

The President's assailant, in a twinkling, was borne to the ground, his weapon was wrested from his grasp and strong arms pinioned him. Then the vast multitude which thronged the edifice began to realize the awfulness of the scene, of which they had been unwilling witnesses. HE CAME FOR THE PURPOSE.

The police learned that the name of the assassin is Leon Czolgosz. He gave his name as Nieman, and said to a detective late last night at police headquarters, that he was born in Detroit and came here from Cleveland to kill President McKinley.

THE PRESIDENT'S COOLNESS. After the first shock of the assassin's shots, he retreated a step, then as the detectives leaped upon his assailant he turned, walked steadily to a chair seated himself, at the same time removing his hat and bowing his head in his hands. In an instant Mesers. Cortelyou and Milburn were at his side. His waistcoat was hurriedly opened, the President meanwhile admonishing those about him to remain calm and telling them not to be alarmed

'But you are wounded,' cried his secre- pumps. tary. 'Let me examine.' 'No, I think not,' answered the Presideut.

I am not badly hurt, I assure you.' Nevertheless his outer garments were hastily loosened and when a trickling stream of crimson was seen to wind its way down his breast, spreading its tell-tale stain over the white surface of the linen, their worst fears were confirmed. The President was removed to the home

of Mr. Milburn at 7.25 p.m. THE PRISONER REMOVED. The President's assailant was hustled to the rear of the building by two exhibition guards, McCauley and James, where he was held while the building was cleared, then turned over to Mr. Bull, superintendent of the Buffalo police department, who took the prisoner to No. 13 police station, and later to the police headquarters. As soon as the crowd in the temple of Music had been dispersed sufficiently, the President was removed in the automobile ambulance and taken to the exhibition hospital, where an examination was made. The best medical skill was summoned, and within a brief period several of Buffalo's best known practitioners were at the patient's side. The President retained the full exercise of his faculties until placed upon the operating table and subjected to

The President's secretary last night gave out the following statement : AN OFFICIAL STATEMENT.

The following bulletin was issued by the physicians at 7 p.m. :--'The President was shot about four o'clock. One bullet struck him on the upper portion of the breast bone, glancing and not penetrating; the second bullet penetrated the abdomen five inches below the left nipple and one and a half inches to the left of the median line. The abdomen was opened through that line of the bullet wound. It was found that the bullet had penetrated the stomach. The opening in the front wall of the stomach was carefully closed with silk sutures; after which search was made for a hole in the back wall while President McKinley was holding a of the stomach. This was found and also

> of the bull t could not be discovered, although careful search was made. abdominal wound was closed without drainage. No injury to the intestines or other abdominal organs was discovered. The patient stood the operation well pulse of good quality, rate of 130; condition at the conclusion of operation was gratifying.

The result cannot be foreteld, His condition justifies hope of recovery. GEO. B. CORTELYOU. Secretary to the President.

KETCH OF PRESIDENT MCKINLEY'S CAREER. Mr. Mc Kinley has been President of the necessary. United States since March 4, 1897. He was born at Niles, Trumbull county, Ohio, on questioned about this and he stated that he Jan. 29, 1843. He was educated and taught said proofs could be so submitted, simply as school in his native state for several years. a reply to another printer with a small and He enlisted as a private in the 23rd Ohio poorly equipped office who had said it could Volunteer Infantry on June 11, 1861, and not be done, but ald. The civilized world rejoices to learn that

there is every prospect that the assassin's attempt on President McKinley's life was a failure and that the distinguished sufferer will be as well as ever in a few weeks.

Chatham Town Council.

The regular monthly meeting of Chatham Town Council was held on Monday evening in the Town Hall, His Worship, Mayor Snowball, presiding.

The minutes being read and confirmed-The clerk read a letter from Mr. T. Hober, Supt. of the Canada Eastern Railway, in reference to the council's communication on the subject of better protection of the public at the level crossings on lower Water Street and the Richibucto Road, promising attention thereto at an early date.

The Mayor read, also, a letter from Messrs. T. A. McLean & Son concerning 185 yards of alleged rock work in dispute and not certified by the engineer for payment in the August account. Fyled.

Other communications handed in by the Mayor were ordered to be fyled. The Mayor read a letter from Mr. J. D. Creaghan giving the town the right to carry the sewer discharge pipe through his proper-

The Mayor also read a communication from Mr. R. W. Alward, Sec'y of the Northumberland Teachers' Institute, requesting the use of the Council Chamber for holding their annual meeting in October. Granted, on motion of ald. Maher.

Tenders for the incake dam and laying o water pipe from the wells to the pumping station from Messrs. McLean & Son and Win. Lawlor, and a thirdj ust received from party not stated, were referred to the Public Works Committee Ald. Hocken, from the Public Works

Committee reported as follows: Your committee beg to submit the follow The standpipe foundation is completed with the exception of some grading which is to be done after the standpipe has been erect-

ed, and the engineers in charge are well satisfied with the work. The coal shed at the pumping station is completed as far as the work required to be done by the contractors. The contractor for the pumping station is pushing his work along very well and will

soon be ready for the reception of the pipes is progressing favourably. Your committee would recommend the fo lowing insurance be placed on the electriclight buildings and plant, as follows:

Engine house attached, Coal shed, 2 Mather dynamos, \$350 00, Large Edison dynamo, 1,000 00 2 Edison dynamos, \$250 500 00 Switch and bank board, 800 00 2 engines, \$400 and \$500 900 00 2 boilers, \$500 1,000 00

\$6,850 00 The report was considered section by section and all adopted, with the exception of the insurance recommendations, which passed, after omitting therefrom the pro posed insurance on the Electric Light station

Ordered, on motion of ald. Murray, that the Mayor be authorised to effect the insurance recommended. Also that bills read be Ald. Murdoch, from the Police and Light Committee, reported a number of bills fo

payment; also that the police officers had requested ten days' holidays each. Adopted. Ald, Murdoch intimated that one policeman at a time would be granted leave and that it might not be necessary to engage

extra men to take the place of the officers absent on leave. Ald. Nicol, from the Finance Committee,

reported as follows : Your committee met on the 5th inst., to consider Mr. Smith's bill for printing bylaws, and the statements of members of the last Council and others, relating thereto are herewith submitted. The committee recommends the payment of the bill less the \$5 charged for holding type standing in

Ald. Nicol was proceeding to read report which he, himself, had made statements of persons who had been asked by him to appear before the Finance Comnittee for examination on the subject of the printing of the by-laws. The Council, generally, did not want

hear him, but he seemed to have some special reason for desiring to read the paper he had prepared. He was told that as he, as chair man, had recommended the payment of the bill, the reading of the evidence on which the report was made could be dispensed

Ald. Nicol, not to be thwarted in his purpose, proceeded to make a speech. which he gave his version of the matter. By this it appeared that he was in doubt as to whether Mr. Smith, who had tendered, at the solicitation of ex-ald. Watt, to print by-laws at fifty cents a page, was not bound by a statement he had made at a Council meeting some time before he was invited to tender, that he could put the whole job recent anxiety to sanction everything antype and submit to the Council proofs if other attorney for the town had done and charged for, and he regretted that ald. Nicol had made so much ado over this by-At the committee meeting M1. Smith was

Ald. Nicol also stated that Mr. Watt had said to the committee that Mr. Smith had proof was to be submitted. Ald. Nicol also referred to the fact that ings in a certain district fronting on Water
