

W. A. Hickman Home.

W. A. Hickman, who has been in England as the immigration representative of the provincial government, arrived in town Saturday, having landed at Quebec Friday.

Mr. Hickman is looking well, and says he is very happy in his office in London. One day he had twenty seven interviews with people who wanted to know about New Brunswick. He had to much office business to attend to that he was unable to travel through the country as much as he desired to do.—Sun, 12th.

Redbank Picnic.
The Roman Catholic congregation of Redbank are preparing to hold a large picnic on their grounds at that place on Labor Day—Monday, 20th September. Amongst the attractions there will be canoe races, sack races, tug-of-war, etc. A big feature will be the dancing, for which a string band is engaged. The steamer Rustler is to leave Chatham at half-past seven on the morning of Labor Day, with excursionists, calling at Douglasdale, Newcastle, Nelson and other points on the way to Redbank.

"A Little Knowledge is a Dangerous Thing."
An Englishman who recently arrived in the city was looking for the railway depot. "Do not," a railway station building for "the accommodation and protection of rail-ways passengers or freight."—Webster's Unabridged Dictionary.

Music and Physical Culture.
Mr. H. C. Wilson, as director of the New Brunswick Academy of Music and School of Physical Culture, has rented the Temperance Hall, corner of Wellington and Caswell streets for the Chatham office and studio. Competent teachers in all branches will instruct pupils. It is the purpose of the institution to place within the reach of all a thorough and systematic musical education. It will be conducted on business principles and with prices that are within the reach of all. Newcastle and other near-by towns will have studios and it is Mr. Wilson's intention in time to cover the whole of the province. We wish him every success.

Great Explosion.
One day last week, while fire was raging at Negus, mysterious explosions, the shocks of which were felt in their location, were heard for miles around, took place in the woods at a point judged to be about two miles back of the Fair Isle settlement, so called. No one appears to have been near the place at the time, but it is said that Mr. John Stewart who lives some three miles back from Negus in the direction of Tabasco river says he heard the noise and looked out of a window and it seemed that smoke was thrown vertically into the air hundreds of feet, while he looked there was another detonation and another vertical smoke-like jet thrown high up a mile or two away. It is further reported by parties from Negus who came to Chatham on Tuesday that a search party found, on Sunday, in the woods back of Fair Isle settlement, newly splintered pieces of trees as if they had fallen, scattered, from the air, and following these indications they at last came to a hole in the ground about sixty feet long and four feet deep, as if newly blown out. It is supposed that the fire ignited an accumulation of natural gas and caused the phenomenon.

Stop Thief!
would be a justifiable cry directed against countess humbugs that offer a cure for Catarrh. There is only one scientific method of treatment for Catarrh. Make the air you breathe the carrier of healing, balsamic, curative agents. It bathes every cell of membrane and their healing, soothing properties. That's Catarrh Cure. Your druggist or doctor will tell you it's the only effective method of treatment and that it is sure—prompt—permanent. Remember the name—Catarrh Cure. All dealers, 25c, and \$1.00. Sold by C. P. Hickey.

Fatal Accident.
A little girl of about three years, only child of Mr. and Mrs. Michael Cowie, and a grandchild of Althea and Mrs. McIntosh, was playing on the shore near a grandfather's house last Thursday afternoon, when a log being loosely and almost evenly balanced was in some way started rolling, knocking the child down and passing over it, as is supposed, crushing his head and rendering it unconscious. A child of about twelve years, who was near, carried the little one to Aid. McIntosh and Dr. Richard was summoned, but his skill could not save her as the head was broken and she died in less than two hours after being hurt.

Reported Death of Patterson Williston.
About six weeks ago Williston Williston, son of Mr. Wm. A. Williston, of Bay du Vin, left home for the United States to seek employment. From that time until last week his father heard nothing of him, but then received the following letter, which was signed by "James Clark" and dated at New York on 5th August:—
"We have arrived in port last night after having a very rough time. There was a young man by the name of Patterson Williston who was on board and drowned last Friday night. He was my fellow fireman. He came up on deck after watch. The captain and I were the last to see him. We looked among his clothes and found a little book with Wm. A. Williston, Bay du Vin, N.B., written in it, so supposing you to be his father, although he never told anyone where he came on. He was very quiet, never speaking of home or any particular place, only I heard him say once his mother was dead. He is your son I am very sorry for you."
It is satisfactory that the writer did not mention the name of the steamer, or that the captain, as was his duty, did not write to the young man's father. It is hoped that more satisfactory details will be received.

THE DUKE'S VISIT.
SEVERAL DISPUTED POINTS SUBMITTED TO MAJOR MAUDE FOR DECISION.
(Montreal Herald.)
A number of questions have been submitted in writing to Major Maude, military secretary of his excellency, concerning matters of precedence in the reception of the duke. His answers are as follows:—
"What is the precedence of the lieutenant governor and the mayor of any city?
The lieutenant governor takes precedence of the mayor, except when, as on this occasion, their royal highnesses are the guests of a city.
What is the precedence of consuls as between themselves?
Consular-general and consuls are nowhere mentioned in the Canadian table of precedence, their positions being commercial and not diplomatic.
Will royal carriage be sent to the various cities?
Royal carriages and positions for their royal highnesses, and ladies and pair for their excellencies will be sent.
Order and occupants of carriages in the procession?
Their royal highnesses only take their own personal staff in the carriage with them. They apply to their excellencies' carriages. In the procession their royal highnesses' carriage comes last. Their excellencies' carriage next precedes it, the lieutenant governor next in front with probably Sir Wilfrid Laurier, while the mayor should go next in front of them.
What does half-morning mean?
Maude, illa, grey, black and white.
What is the exact precedence of 1. The admiral; 2. lieutenant governor; 3. bishop; 4. archbishop; 5. R. C. cardinal; 6. date of consecration as bishop; 7. lord chief justice; 8. the mayor; 9. the clergy have no precedence?
Placed according to the Canadian table of precedence. (Sir Wilfrid Laurier comes between Nos. 3 and 4). Members of the provincial executive come after members of the dominion house, but of course before members of the provincial legislature.

THE DUKE'S VISIT.
In the procession to the drill hall does a band head the procession?
No band.
The correct form is for the chairman to rise and propose the health of His Majesty the King and Queen Alexandra, which is then drunk, after which the chairman again rises and proposes the health of their Royal Highnesses the Duke and Duchess of Cornwall and York, and his royal highnesses makes only reply to both toasts.
